IT'S THE LEADING HAZARD INDEX RECOGNIZED BY THE CHEMICAL PROCESSING INDUSTRY

Dow's Fire & Explosion Index Hazard Classification Guide 7th Edition — 1994

Dow's "Fire & Explosion Index" is the leading guide available to the selection of fire protection methods in chemical processing plants.

Widely used inside and outside of Dow, the "Fire and Explosion Index" provides critical information to help evaluate the overall risk from fire and explosion.

Quantitative measurements used in the analysis are based on historic loss data, the energy potential of the material under study, and the extent to which loss prevention practices are currently applied.
