

VOLUME 29 NUMBER 3

ACCOUNTS
of
CHEMICAL
RESEARCH®

MARCH 1996

Registered in U.S. Patent and Trademark Office; Copyright 1996 by the American Chemical Society

Editorial

This special issue of *Accounts of Chemical Research* is devoted to combinatorial chemistry applied to drug synthesis. Anthony W. Czarnik (Department of Chemistry, Parke-Davis Pharmaceutical Research Division of Warner-Lambert Company) and Jonathan A. Ellman (Department of Chemistry, University of California, Berkeley) served as special guest editors. We hope readers will find this issue of special interest and timeliness.
