

Additions and Corrections

Volume 2, 1969

David Ginsburg: Carbocyclic and Heterocyclic Propellanes.

Page 123. In formula **33**, the central bond should be deleted. In formula **36**, the bromine atom at the lower right should have a broken line to the ring.

T. G. Traylor: Electrophilic Additions to Strained Olefins.

Page 154. The superscript 22 should be deleted from footnote 21 and inserted beside superscript 23 on line 30 (offered^{22,23}).

Peter H. von Hippel and Thomas Schleich: Ion Effects on the Solution Structure of Biological Macromolecules.

Page 265. Formula II should be

D. Stanley Tarbell: The Carboxylic Carbonic Anhydrides and Related Compounds.

Page 300. In the last equation, "+ ROH" should be added to the right-hand side.
