

Prices of IUCr journals

1. Prices for 2008

The subscription rates and prices for back numbers as from 1 January 2008 are given in Table 1.

There will be a 5% discount on the prices of the individual sections for subscribers taking out any of the combined subscriptions.

The reduced-rate (personal) subscriptions are ordinarily only available to members of recognized scientific societies, and applications must be accompanied by a written undertaking that the journal is for the personal use of the subscriber and will not be made available to libraries, institutions *etc.* These conditions also apply to persons wishing to order back volumes at the reduced rates.

Volumes and single printed parts of each journal for the last five years are available at the same cost as volumes and single parts of that journal in 2008.

As of January 2008, *Acta Crystallographica Section E* is open access. Authors whose institution has a full subscription to *Acta Crystallographica Section C* are eligible for a discount on the open-access fee.
