

## Notes and News

*Announcements and other items of crystallographic interest will be published under this heading at the discretion of the Editorial Board. The notes (in duplicate) should be sent to the General Secretary of the International Union of Crystallography (G. Boom, Laboratorium voor Fysische Metaalkunde der Rijksuniversiteit, Universiteitscomplex Paddepoel, Groningen, The Netherlands). Publication of an item in a particular issue cannot be guaranteed unless the draft is received 8 weeks before the date of publication.*

### International Union of Crystallography

#### *Structure Reports*

From time to time the Commission on *Structure Reports* requires new members to act as Co-editors for the production of volumes of *Structure Reports*, and also people who are willing to assist with the writing of critical reports for the Co-editors. Anybody who has an interest in assisting with this work of critical assessment and reporting of structural data, and maintaining the Union's bank of structural data in *Structure Reports* is invited to communicate with the General Editor: W. B. Pearson, Division of Pure Physics, National Research Council, Ottawa 7, Canada.

A Co-editor assumes responsibility for preparing the manuscript of either the Metals, Inorganic or Organic sections of *Structure Reports* for a single year, writing the reports, arranging for and coordinating the work of reporters who assist him/her, etc. Lists of papers to be reported are produced by the General Editor. The Union

pays honoraria for the work, which contributes to the cost of the volumes, the monies being recovered by sales.

### One-day symposium on Aims of Accuracy in Diffraction Studies

**Buffalo, N. Y., USA., 6 March 1969**

A one-day symposium will be held at the State University of New York at Buffalo to discuss *Aims of Accuracy in Diffraction Studies of Biological, Chemical and Geological Problems*, on 6 March 1969. The symposium is sponsored by the Faculty of Natural Sciences and Mathematics and the School of Pharmacy at this University. A number of invited papers will be presented. For more information and arrangements for accommodation, contact Dr Philip Coppens, Chemistry Department, S.U.N.Y./Buffalo, New York 14214, U.S.A.
