

addenda and errata

Crystallization of *Helix pomatia* agglutinin (HPA), a protein from the edible snail. Erratum**John N. Lisgarten,^a Tapan K. Chattopadhyay,^a James E. Pitts,^a Rex A. Palmer,^{a*} Colin D. Reynolds,^b Minh Hoa Dao-Thi,^c Edilbert Van Driessche^d and Sonia Beeckmans^d**

^aDepartment of Crystallography, Birkbeck College, Malet Street, London WC1E 7HX, England, ^bSchool of Biomolecular Sciences, Liverpool John Moores University, Max Perutz Building, Byrom Street, Liverpool L3 3AF, England, ^cLaboratory of Ultrastructure, Institute for Molecular Biology and Biotechnology, Vrije Universiteit Brussel, Paardenstraat 65, B-1640 Sint-Genesius-Rode, Belgium, and ^dLaboratory of Protein Chemistry, Institute for Molecular Biology and Biotechnology, Vrije Universiteit Brussel, Paardenstraat 65, B-1640 Sint-Genesius-Rode, Belgium

One of the authors was omitted in the published version of the paper by Lisgarten *et al.* (1999) *Acta Cryst. D55*, 1903–1905. The full author list is given above.

Experiences and expectations of a novel X-ray microsource with focusing mirror. I. Erratum**A. C. Bloomer* and U. W. Arndt**

MRC Laboratory of Molecular Biology, Hills Road, Cambridge CB2 2QH, England

The following are corrections to a paper by Bloomer & Arndt [(1999), *Acta Cryst. D55*, 1672–1680]. The entry in the second row of the I_{MAR} column of Table 1(b) on page 1674 should read 6.6 and not 16.6. In Table 4 on page 1677 the source diameter should be given as 15 μm and not 15 mm, and the units for the diameter of the sample should be given as μm instead of mm.
