In the paper by Wang *et al.* (2004) an error in equation (18) was published. The correct version of this equation is given below.

$$P_+(\Delta\varphi_{\mathbf{h}}) = \frac{1}{2} + \frac{1}{2} \tanh \left\{ \sin |\Delta\varphi_{\mathbf{h}}| \left[\sum_{\mathbf{h}'} m_{\mathbf{h}'} m_{\mathbf{h}-\mathbf{h}'} \right. \right. \\ \left. \left. \times \kappa \sin(\Phi_3' + \Delta\varphi_{\mathbf{h}'\text{best}} + \Delta\varphi_{\mathbf{h}-\mathbf{h}'\text{best}}) + x \sin \delta_{\mathbf{h}} \right] \right\} \quad (18)$$

The following acknowledgement was also missing from the paper. This work is supported by the Innovation Project of the Chinese Academy of Sciences and the 973 Project (Grant Nos. G1999075604 and 2002CB713801) of the Ministry of Science and Technology of China.
