

Acta Numerica 1992

CONTENTS

Wavelets

Ronald A. DeVore and Bradley J. Lucier

Iterative solution of linear systems

R.W. Freund, G.H. Golub and N.M. Nachtigal

Problems with different time scales

Heinz-Otto Kreiss

Numerical methods for differential algebraic equations

Roswitha März

Theory of algorithms for unconstrained optimization

J. Nocedal

Symplectic integrators for Hamiltonian problems: an overview

J.M. Sanz-Serna

Error analysis of boundary integral methods

Ian H. Sloan

Interior methods for constrained optimization

Margaret H. Wright

Cover design by James Butler

CAMBRIDGE
UNIVERSITY PRESS

ISSN 0962-4929

ISBN 0-521-41026-6
