ADVANCED FUNCTIONAL MATERIALS

An abstract, 3D-rendered illustration of functional materials. The scene features several blue, brush-like structures with dense bristles, some of which are interconnected by red, branching, root-like or vascular structures. Yellow, pill-shaped or capsule-like objects are scattered throughout the composition, some appearing to be attached to or interacting with the blue structures. The background is a gradient of green and blue, with a textured, mesh-like surface visible on the left side. The overall aesthetic is scientific and futuristic.
