vii

1. Influence of Processing on Functionality of Milk and Dairy Proteins 1

Mary Ann Augustin and Punsandani Udabage

I. Introduction	2
II. Physical Modification Processes	4
III. Enzymatic Modification Processes	18
IV. Chemical Modification Processes	23
V. Emerging Processes	27
VI. Conclusion	29
Acknowledgment	30
References	30

2. Central Nervous System Tissue in Meat Products: An Evaluation of Risk, Prevention Strategies, and Testing Procedures 39

M.B. Bowling, K.E. Belk, K.K. Nightingale, L.D. Goodridge, J.A. Scanga, J.N. Sofos, J.D. Tatum, and G.C. Smith

I. Introduction	40
II. Prevalence as an Evaluator of BSE Food Safety Risks	42
III. Carcass Contamination with Potentially Infectious Tissues	45
IV. Methods of Detection of CNS Tissue in Meat Products	51
V. Conclusion and Future Trends	60
References	61

3. Functional Genomics of Wine Yeast *Saccharomyces cerevisiae* 65

Linda F. Bisson, Jonathan E. Karpel, Vidhya Ramakrishnan and Lucy Joseph

I. Introduction	66
II. Challenges in the Investigation of Native Yeast Strains	66
III. Functional Genomic Analysis of Wine Yeast	91
IV. Conclusions	108
Acknowledgments	109
References	109

4. <i>Monascus</i> Rice Products	123
Tseng-Hsing Wang and Tzann-Feng Lin	
I. The Taxonomy of <i>Monascus</i> spp.	124
II. History of Using <i>Monascus</i> Rice Products in Asia	126
III. Production Methods	128
IV. Evidence for Health Benefits	137
V. Safety	148
Acknowledgments	151
References	151
5. Designer Milk	161
Latha Sabikhi	
I. Introduction	162
II. Milk “Designing”: The Prospects	163
III. Milk Fat Modification	165
IV. Milk Sugar (Lactose) Modification	174
V. Milk Protein Modification	176
VI. Designer Milk for Infant Health	179
VII. Milk with Human Therapeutic Proteins	183
VIII. Designer Milk for Animal Growth and Health	187
IX. Assorted Advantages	190
X. The Future	191
References	193
6. The Sweet Taste Receptor: A Single Receptor with Multiple Sites and Modes of Interaction	199
Pierandrea Temussi	
I. Introduction	200
II. Indirect Mapping of Active Sites	202
III. Sweet Macromolecules	209
IV. The Sweet Taste Receptor	218
V. Mechanisms of Interaction	221
VI. Beyond the Sweet Receptor	231
Acknowledgments	232
References	232
