AMERICAN ACADEMY OF NURSE PRACTITIONERS SURVEY

The American Academy of Nurse Practitioners is continuing the national survey of nurse practitioners from our database. The survey includes approximately 14,000 nurse practitioners across the United States. Half of the database received the survey in November, 1986, and the remainder of the database will receive the survey in March 1987. All nurse practitioners who receive the survey are encouraged to take a moment to participate in this effort to document the data needed about nurse practitioners' practice and concerns for future legislative, marketing, and networking activities. Strict confidentiality of participants' identities will be maintained. Any nurse practitioner who did not receive a survey may participate by mailing his or her name and address to the American Academy of Nurse Practitioners, 179 Princeton Blvd, Lowell, MA 01851, or by calling (617) 937-7343. Please state that you are contacting the Academy about participating in the survey.
