SUBJECT INDEX

Advances in Nursing Science

Volume 15

A

Acute care

Components of nurse innovation: A model from acute care hospitals. (Neidlinger, Drews, Hukari, Bartleson, Abbott, Harper, & Lyon) 1992;15(2):39–51.

The intersection of technology and care in the ICU. (Cooper) 1993;15(3):23–32.

B

Behavior

The Triandis model for the study of health and illness behavior: A social behavior theory with sensitivity to diversity. (Facione) 1993;15(3):49–58.

Birth

Human energy fields and birth: Implications for research and practice. (Buenting) 1993;15(4):53–59.

Body

Exploration of body listening: Health and physical self-awareness in chronic illness. (Price) 1993;15(4):37–52.

C

Caring

Feminist ethics and cultural ethos: Revisiting a nursing debate. (Liaschenko) 1993;15(4):71–81.

Nursing care partnerships at the Denver Nursing Project in Human Caring: An application and extension of caring theory in practice. (Schroeder & Maeve) 1992;15(2):25–38.

Case management

Conceptual and methodological issues in nurse case management research. (Lamb) 1992;15(2):16–24.

Change

Music and pattern change in chronic pain. (Schorr) 1993;15(4):27–36.

Child abuse/neglect

Nursing practice model for maternal role sufficiency. (Gaffney) 1992;15(2):76–84.

Choice

Self-care myth reconsidered. (Northrup) 1993;15(3):59–66.

Chronic illness

Exploration of body listening: Health and physical self-awareness in chronic illness. (Price) 1993;15(4):37–52.

Clinical judgment

A descriptive study of nursing judgment in the assessment and management of cardiac pain. (Jacavone & Dostal) 1992;15(1):54–63.

Comfort and Pain (Volume 15:1, September 1992) Culture and pain: A Mesoamerican perspective. (Villarruel & de Montellano) 1992;15(1):21–32.

A descriptive study of nursing judgment in the assessment and management of cardiac pain. (Jacavone & Dostal) 1992;15(1):54–63.

The dyspnea experience: Nociceptive properties and a model for research and practice. (Steele & Shaver) 1992;15(1):64–76.

Holistic comfort: Operationalizing the construct as a nurse-sensitive outcome. (Kolcaba) 1992;15(1):1–10.

The influence of sociopolitical, scientific, and technologic forces on the study and treatment of neonatal pain. (Franck) 1992;15(1):11–20.

The meaning of pain management: A concept analysis. (Davis) 1992;15(1):77–86.

Relieving pain through ordinariness in nursing: A phenomenologic account of a comforting nurse-patient encounter. (Taylor) 1992;15(1):33-43.
Undermedication for pain: An ethical model. (Greipp) 1992;15(1):44-53.

Concept analysis

Holistic comfort: Operationalizing the construct as a nurse-sensitive outcome. (Kolcaba) 1992;15(1):1-10.

The meaning of pain management: A concept analysis. (Davis) 1992;15(1):77-86.

The power of the name. (Müller & Dzurec) 1993;15(3):15-22.

Conceptual issues

Conceptual and methodological issues in nurse case management research. (Lamb) 1992;15(2):16-24.

A framework for the study of childbearing fatigue. (Pugh & Milligan) 1993;15(4):60-70.

Health is empowerment. (Jones & Meleis) 1993;15(3):1-14.

Psychoimmunologic effects of Therapeutic Touch on practitioners and recently bereaved recipients: A pilot study. (Quinn & Strelkauskas) 1993;15(4):13-26.

Self-care myth reconsidered. (Northrup) 1993;15(3):59-66.

Consciousness

Music and pattern change in chronic pain. (Schorr) 1993;15(4):27-36.

Coronary care

A descriptive study of nursing judgment in the assessment and management of cardiac pain. (Jacavone & Dostal) 1992;15(1):54-63.

Cultural sensitivity

The Triandis model for the study of health and illness behavior: A social behavior theory with sensitivity to diversity. (Facione) 1993;15(3):49-58.

Culture, Society, and Politics (Volume 15:3, March 1993)

Health is empowerment. (Jones & Meleis) 1993;15(3):1-14.

Informal carers: A Marxist analysis of social, political, and economic forces underpinning the role. (Bridges & Lynam) 1993;15(3):33-48.

The intersection of technology and care in the ICU. (Cooper) 1993;15(3):23-32.

The power of the name. (Müller & Dzurec) 1993;15(3):15-22.

Self-care myth reconsidered. (Northrup) 1993;15(3):59-66.

The Triandis model for the study of health and illness behavior: A social behavior theory with sensitivity to diversity. (Facione) 1993;15(3):49-58.

The unintended consequences of a male professional ideology for the development of nursing education. (Dickson) 1993;15(3):67-83.

D

Decision making

Undermedication for pain: An ethical model. (Greipp) 1992;15(1):44-53.

Delivery systems

Components of nurse innovation: A model from acute care hospitals. (Neidlinger, Drews, Hukari, Bartleson, Abbott, Harper, & Lyon) 1992;15(2):39-51.

Denver Nursing Project in Human Caring

Nursing care partnerships at the Denver Nursing Project in Human Caring: An application and extension of caring theory in practice. (Schroeder & Maeve) 1992;15(2):25-38.

Dyspnea

The dyspnea experience: Nociceptive properties and a model for research and practice. (Steele & Shaver) 1992;15(1):64-76.

E

Ecologic model

The dyspnea experience: Nociceptive properties and a model for research and practice. (Steele & Shaver) 1992;15(1):64-76.

Economics

Informal carers: A Marxist analysis of social, political, and economic forces underpinning the role. (Bridges & Lynam) 1993;15(3):33-48.

Education, nursing

The unintended consequences of a male professional ideology for the development of nursing education. (Dickson) 1993;15(3):67-83.

Energy and Healing (Volume 15:4, June 1993)

Energy as a central factor in the self-assessment of health. (Dixon, Dixon, & Hickey) 1993;15(4):1-12.

Exploration of body listening: Health and physical self-awareness in chronic illness. (Price) 1993;15(4):37-52.

Feminist ethics and cultural ethos: Revisiting a nursing debate. (Liaschenko) 1993;15(4):71-81.
A framework for the study of childbearing fatigue. (Pugh & Milligan) 1993;15(4):60-70.

Human energy fields and birth: Implications for research and practice. (Buenting) 1993;15(4): 53–59.

Music and pattern change in chronic pain. (Schorr) 1993;15(4):27–36.

Psychoimmunologic effects of Therapeutic Touch on practitioners and recently bereaved recipients: A pilot study. (Quinn & Strelkauskas) 1993;15(4):13–26.

Elderly

Informal carers: A Marxist analysis of social, political, and economic forces underpinning the role. (Bridges & Lynam) 1993;15(3):33–48.

Emancipation

Fighting back: Promoting emancipatory nursing actions. (Kendall) 1992;15(2):1–15.

Empowerment

Health is empowerment. (Jones & Meleis) 1993;15(3):1–14.

Epistemology

The power of the name. (Müller & Dzurec) 1993;15(3):15–22.

Ethics

Feminist ethics and cultural ethos: Revisiting a nursing debate. (Liaschenko) 1993;15(4):71–81.
Undermedication for pain: An ethical model. (Greipp) 1992;15(1):44–53.

Ethnography

Culture and pain: A Mesoamerican perspective. (Villarruel & de Montellano) 1992;15(1):21–32.

Expert practice

A descriptive study of nursing judgment in the assessment and management of cardiac pain. (Jacavone & Dostal) 1992;15(1):54–63.

F

Family

Family nursing practice paradigm perspectives and diagnostic approaches. (Lansberry & Richards) 1992;15(2):66–75.

Informal carers: A Marxist analysis of social, political, and economic forces underpinning the role. (Bridges & Lynam) 1993;15(3):33–48.

Fatigue

A framework for the study of childbearing fatigue. (Pugh & Milligan) 1993;15(4):60–70.

Feminism

Feminist ethics and cultural ethos: Revisiting a nursing debate. (Liaschenko) 1993;15(4):71–81.

G

Global society

Health is empowerment. (Jones & Meleis) 1993;15(3):1–14.

H

Health

Energy as a central factor in the self-assessment of health. (Dixon, Dixon, & Hickey) 1993;15(4): 1–12.

Exploration of body listening: Health and physical self-awareness in chronic illness. (Price) 1993;15(4):37–52.

Health is empowerment. (Jones & Meleis) 1993;15(3):1–14.

History

Culture and pain: A Mesoamerican perspective. (Villarruel & de Montellano) 1992;15(1):21–32.

HIV/AIDS

Nursing care partnerships at the Denver Nursing Project in Human Caring: An application and extension of caring theory in practice. (Schroeder & Maeve) 1992;15(2):25–38.

Holism

Holistic comfort: Operationalizing the construct as a nurse-sensitive outcome. (Kolcaba) 1992;15(1): 1–10.

Parse's theory as a model for practice: The cutting edge. (Cody & Mitchell) 1992;15(2):52–65.

Psychoimmunologic effects of Therapeutic Touch on practitioners and recently bereaved recipients: A pilot study. (Quinn & Strelkauskas) 1993;15(4):13–26.

I

Ideology

The unintended consequences of a male professional ideology for the development of nursing education. (Dickson) 1993;15(3):67–83.

Innovation

Components of nurse innovation: A model from acute care hospitals. (Neidlinger, Drews, Hukari, Bartleson, Abbott, Harper, & Lyon) 1992;15(2):39–51.

Intensive care

The intersection of technology and care in the ICU. (Cooper) 1993;15(3):23–32.

Intuition

A descriptive study of nursing judgment in the assessment and management of cardiac pain. (Jacavone & Dostal) 1992;15(1):54–63.

L

Linguistics

- The power of the name. (Müller & Dzurec)
1993;15(3):15-22.

M

Management

- Components of nurse innovation: A model from acute care hospitals. (Neidlinger, Drews, Hukari, Bartleson, Abbott, Harper, & Lyon)
1992;15(2):39-51.

Marxist theory

- Informal carers: A Marxist analysis of social, political and economic forces underpinning the role. (Bridges & Lynam) 1993;15(3):33-48.

Maternal role

- Nursing practice model for maternal role sufficiency. (Gaffney) 1992;15(2):76-84.

Maternity

- A framework for the study of childbearing fatigue. (Pugh & Milligan) 1993;15(4):60-70.
Human energy fields and birth: Implications for research and practice. (Buening) 1993;15(4):53-59.

Medication, administration of

- Undermedication for pain: An ethical model. (Greipp) 1992;15(1):44-53.

Methodology

- Conceptual and methodological issues in nurse case management research. (Lamb) 1992;15(2):16-24.
Psychoimmunologic effects of Therapeutic Touch on practitioners and recently bereaved recipients: A pilot study. (Quinn & Strelkauskas)
1993;15(4):24-26.

Mexican-Americans

- Culture and pain: A Mesoamerican perspective. (Villarruel & de Montellano) 1992;15(1):21-32.

Midwifery

- Human energy fields and birth: Implications for research and practice. (Buening) 1993;15(4):53-59.

Models

- Fighting back: Promoting emancipatory nursing actions. (Kendall) 1992;15(2):1-15.

Music

- Music and pattern change in chronic pain. (Schorr) 1993;15(4):27-36.

N

Newborns

- The influence of sociopolitical, scientific, and

- technologic forces on the study and treatment of neonatal pain. (Franck) 1992;15(1):11-20.

Newman, Margaret, theory of

- Music and pattern change in chronic pain. (Schorr) 1993;15(4):27-36.

Nursing, mission of

- Health is empowerment. (Jones & Meleis)
1993;15(3):1-14.

Nursing Practice Models (Volume 15:2, December 1992)

- Components of nurse innovation: A model from acute care hospitals. (Neidlinger, Drews, Hukari, Bartleson, Abbott, Harper, & Lyon)
1992;15(2):39-51.
Conceptual and methodological issues in nurse case management research. (Lamb) 1992;15(2):16-24.
Family nursing practice paradigm perspectives and diagnostic approaches. (Lansberry & Richards)
1992;15(2):66-75.
Fighting back: Promoting emancipatory nursing actions. (Kendall) 1992;15(2):1-15.
Nursing care partnerships at the Denver Nursing Project in Human Caring: An application and extension of caring theory in practice. (Schroeder & Maeve) 1992;15(2):25-38.
Nursing practice model for maternal role sufficiency. (Gaffney) 1992;15(2):76-84.
Parse's theory as a model for practice: The cutting edge. (Cody & Mitchell) 1992;15(2):52-65.

O

Ordinariness

- Relieving pain through ordinariness in nursing: A phenomenologic account of a comforting nurse-patient encounter. (Taylor) 1992;15(1):33-43.

Outcomes

- Conceptual and methodological issues in nurse case management research. (Lamb) 1992;15(2):16-24.
Holistic comfort: Operationalizing the construct as a nurse-sensitive outcome. (Kolcaba) 1992;15(1):1-10.
Nursing practice model for maternal role sufficiency. (Gaffney) 1992;15(2):76-84.

P

Pain

- Culture and pain: A Mesoamerican perspective. (Villarruel & de Montellano) 1992;15(1):21-32.
The dyspnea experience: Nociceptive properties and a model for research and practice. (Steele & Shaver) 1992;15(1):64-76.
The influence of sociopolitical, scientific, and technologic forces on the study and treatment of

neonatal pain. (Franck) 1992;15(1):11–20.
 The meaning of pain management: A concept analysis. (Davis) 1992;15(1):77–86.
 Music and pattern change in chronic pain. (Schorr) 1993;15(4):27–36.

Relieving pain through ordinariness in nursing: A phenomenologic account of a comforting nurse–patient encounter. (Taylor) 1992;15(1):33–43.
 Undermedication for pain: An ethical model. (Greipp) 1992;15(1):44–53.

Parse, Rosemary, theory of

Parse's theory as a model for practice: The cutting edge. (Cody & Mitchell) 1992;15(2):52–65.

Patterns

Music and pattern change in chronic pain. (Schorr) 1993;15(4):27–36.

Phenomenology

Exploration of body listening: Health and physical self-awareness in chronic illness. (Price) 1993;15(4):37–52.

Relieving pain through ordinariness in nursing: A phenomenologic account of a comforting nurse–patient encounter. (Taylor) 1992;15(1):33–43.

Philosophy, nursing

Feminist ethics and cultural ethos: Revisiting a nursing debate. (Liaschenko) 1993;15(4):71–81.

Physiology

The influence of sociopolitical, scientific, and technologic forces on the study and treatment of neonatal pain. (Franck) 1992;15(1):11–20.

Policy

Informal carers: A Marxist analysis of social, political, and economic forces underpinning the role. (Bridges & Lynam) 1993;15(3):33–48.
 Self-care myth reconsidered. (Northrup) 1993;15(3):59–66.

Political action

The Triandis model for the study of health and illness behavior: A social behavior theory with sensitivity to diversity. (Facione) 1993;15(3):49–58.

Poverty

Fighting back: Promoting emancipatory nursing actions. (Kendall) 1992;15(2):1–15.

Professionalism

The unintended consequences of a male professional ideology for the development of nursing education. (Dickson) 1993;15(3):67–83.

Psychoimmunology

Psychoimmunologic effects of Therapeutic Touch on

practitioners and recently bereaved recipients: A pilot study. (Quinn & Strelkauskas) 1993;15(4):13–26.

Q

Quality

Conceptual and methodological issues in nurse case management research. (Lamb) 1992;15(2):16–24.
 Parse's theory as a model for practice: The cutting edge. (Cody & Mitchell) 1992;15(2):52–65.

R

Reimbursement

Conceptual and methodological issues in nurse case management research. (Lamb) 1992;15(2):16–24.

S

Self-assessment

Energy as a central factor in the self-assessment of health. (Dixon, Dixon, & Hickey) 1993;15(4):1–12.

Self-care

Self-care myth reconsidered. (Northrup) 1993;15(3):59–66.

Self-efficacy

The meaning of pain management: A concept analysis. (Davis) 1992;15(1):77–86.

Social activism

Fighting back: Promoting emancipatory nursing actions. (Kendall) 1992;15(2):1–15.

T

Technology

The influence of sociopolitical, scientific, and technologic forces on the study and treatment of neonatal pain. (Franck) 1992;15(1):11–20.
 The intersection of technology and care in the ICU. (Cooper) 1993;15(3):23–32.

Theory

Parse's theory as a model for practice: The cutting edge. (Cody & Mitchell) 1992;15(2):52–65.
 Human energy fields and birth: Implications for research and practice. (Buenting) 1993;15(4):53–59.

Therapeutic Touch

Psychoimmunologic effects of Therapeutic Touch on practitioners and recently bereaved recipients: A pilot study. (Quinn & Strelkauskas) 1993;15(4):13–26.

Triandis model

The Triandis model for the study of health and illness behavior: A social behavior theory with sensitivity to diversity. (Facione) 1993;15(3):49–58.

U

Unitary perspective

Music and pattern change in chronic pain. (Schorr)
1993;15(4):27-36.

Psychoimmunologic effects of Therapeutic Touch on
practitioners and recently bereaved recipients: A
pilot study. (Quinn & Strelkauskas)
1993;15(4):13-26.

V

Values

The intersection of technology and care in the ICU.
(Cooper) 1993;15(3):23-32.

The unintended consequences of a male professional
ideology for the development of nursing educa-
tion. (Dickson) 1993;15(3):67-83.

Vulnerability

The intersection of technology and care in the ICU.
(Cooper) 1993;15(3):23-32.

W

Watson, Jean, theory of

Nursing care partnerships at the Denver Nursing
Project in Human Caring: An application and
extension of caring theory in practice. (Schroeder
& Maeve) 1992;15(2):25-38.
