

Highlights

C–H Activation

P. W. Roesky

Catalytic Hydroaminoalkylation

Phosphorus Chemistry

C. A. Russell

New Adventures in the Molecular Chemistry of Phosphorus

Actinides

M. Ephritikhine

A Soft Alternative to the Dominant $\{(C_5Me_5)_2U\}$ Motif

Minireviews

Click Chemistry

U. S. Schubert et al.

Click Chemistry beyond Metal-Catalyzed Cycloaddition

Reviews

Heterogeneous Catalysts

B. M. Weckhuysen

Chemical Imaging of Spatial Heterogeneities in Catalytic Solids at Different Length and Time Scales

Communications

Polyketide Biosynthesis

C. Hertweck et al.

Polyketide-Chain Branching by an Enzymatic Michael Addition
(Cover Picture)

Host–Guest Compounds

M. Scheer et al.

A Spherical Molecule with a Carbon-Free I_h-C_{80} Topological Framework

Affinity Agents
