DOI: 10.1002/anie.200600111

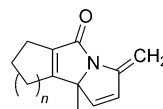

In Scheme 4 of this Communication, the chemical structures of compounds **14a–c** and **16a–c** were drawn incorrectly. The correct structures are shown below.

14a: $R^1 = R^2 = R^3 = H$; 75 %

14b: $R^1 = R^2 = H$; $R^3 = OMe$; 80 %

14c: $R^1 = R^2 = R^3 = OMe$; 81 %

16a: $n = 1$; 80 %

16b: $n = 2$; 85 %

16c: $n = 3$; 74 %
