

## Announcement

### Chemotherapy Foundation Symposium IX

Innovative Cancer Chemotherapy for Tomorrow

November 7, 8, 9, 1990

at the Sheraton Centre Hotel, New York City

Chairman: Dr Ezra M Greenspan, Medical Director of the Chemotherapy Foundation and Clinical Professor of Medicine (Oncology) at the Mount Sinai School of Medicine

Contact: Jaclyn Silverman, Division of Medical Oncology, Box 1178, Mount Sinai School of Medicine, 1 Gustave L Levy Place, New York, NY 10029. Telephone 212 241 6772 or 369 5440 for program and further information. CME credits are available through the Post-Graduate School of Medicine of the Mount Sinai School of Medicine, co-sponsors of the meeting.

An international panel of speakers will report on current clinical trials of chemotherapy, chemoimmunotherapy and biomodulation in various types of neoplasms and the newest prognostic methodology. There will be intensive sessions on breast, ovarian and colon cancers, and in depth data from clinical trials of bone marrow transplantation. *Preclinical and clinical data on the new generation Phase I-II investigational agents will be featured.*

A special evening seminar for health care professionals and the public on 'What Every Woman Should Know About Ovarian Cancer' will be held on Thursday, November 8. Dr Ezra Greenspan and Mary-Ellen Siegel, MSW will head a panel to discuss the information gap that endangers American women, understanding genetic risk factors, the crisis in early detection and the diagnostic dilemma, clinical staging, public confusion about gynecological cancers, new tumor markers and new therapies. This seminar is open to health care professionals and the public.
