

Correction

In the February 2002 issue of *Antioxidants & Redox Signaling*, (vol. 4, no. 1; 195-206), there is an error in Figure 7, on page 202, in the article " α -Phenyl-*N*-tert-Butylnitron Provides Protection from Dextran Sulfate Sodium-Induced Colitis in Mice."

The authors noticed an inaccuracy after recently confirming past experimental data. The correct version of Fig. 7 is depicted below. They believe that this does not substantially change the overall content of the article.

The authors apologize for the unintentional error on their part that was caused by the submission of an incorrect version of the illustration.
