

Contents of Volume 4

No. 1+2, April 1984

B.A. Larder and G. Darby

- Virus drug resistance: mechanisms and consequences (Review article) (AVR 00124) 1

H.J. Field and E. Lay

- Characterization of latent infections in mice inoculated with herpes simplex virus which is clinically resistant to acyclovir (AVR 00121) 43

D. Pavan-Langston, N.-H. Park and E. De Clercq

- In vitro effect of (*E*)-5-(2-bromovinyl)-2'-deoxyuridine, 5'-amino-5-iodo-2',5'-dideoxyuridine and 2-deoxy-D-glucose on latent ganglionic herpes simplex virus infection (AVR 00122) 53

H. Gadler, A. Larsson and E. Sølvér

- Nucleic acid hybridization, a method to determine effects of antiviral compounds on herpes simplex virus type 1 DNA synthesis (AVR 00115) 63

R.J. Phillpotts, H.W. Davies, J. William, D.A.J. Tyrrell and P.G. Higgins

- Pharmacokinetics of intranasally applied medication during a cold (AVR 00118) 71

Reprint to Annex 1 to the 33rd report of the WHO Expert Committee

- Standardization of interferons (AVR 00133) 75

No. 3, June 1984

A.P. Fiddian, D. Brigden, J.M. Yeo and E.A. Hickmott

- Acyclovir: an update of the clinical applications of this antiherpes agent (AVR 00126) 99

E. De Clercq, D.E. Bergstrom, A. Holy and J.A. Montgomery

- Broad-spectrum antiviral activity of adenosine analogues (AVR 00130) 119

H. Machida and S. Sakata

- In vitro and in vivo antiviral activity of 1- β -D-arabinofuranosyl-*E*-5-(2-bromovinyl)-uracil (BV-araU) and related compounds (AVR 00129) 135

J.H. Lass, R.H.S. Langston, C.S. Foster and D. Pavan-Langston

- Antiviral medications and corneal wound healing (AVR 00131) 143

I.S. Sim and R.H. Raper

- 5-Substituted deoxyuridines – structural requirements for antiviral activity against

- herpes simplex virus types 1 and 2 and possible biochemical basis for relative potency (AVR 00132) 159

No. 4, August 1984

C.R. Howard

- Viral haemorrhagic fevers: properties and prospects for treatment and prevention (Review article) (AVR 00127) 169

O. Hantz, H.S. Allaudeen, T. Ooka, E. De Clercq and C. Treppe

- Inhibition of human and woodchuck hepatitis virus DNA polymerase by the triphosphates of acyclovir, 1-(2'-deoxy-2'-fluoro-β-D-arabinofuranosyl)-5-iodocytosine and E-5-(2-bromovinyl)-2'-deoxyuridine (AVR 00123) 187

A. García Gancedo, C. Gil-Fernández, P. Vilas, S. Pérez, F. Rodríguez, E. Paez, M.F. Braña and C.M. Roldán

- Antiviral action of 5-amino-2-(2-dimethylaminoethyl)benzo-[de]-isoquinolin-1,3-dione (AVR 00120) 201

V. Bocci, G.P. Pessina, A. Pacini, L. Paulesu, M. Muscettola and K.E. Mogensen

- Pulmonary catabolism of interferons: alveolar absorption of ¹²⁵I-labeled human interferon alpha is accompanied by partial loss of biological activity (AVR 00125) 211

W.R. Fleischmann, Jr. and C.M. Fleischmann

- Potentiating effect of murine interferon-γ-containing lymphokine preparations on the antiviral and antiproliferative effects of murine interferon-α/β: identification of the potentiation factor as murine interferon-γ itself (AVR 00128) 221

Announcement 229

No. 5, October 1984

B. Alarcón, J.C. Lacal, J.M. Fernández-Sousa and L. Carrasco

- Screening for new compounds with antiherpes activity (AVR 00136) 231

K.F. Soike, G. Baskin, C. Cantrell and P. Gerone

- Investigation of antiviral activity of 1-β-D-arabinofuranosylthymine (ara-T) and 1-β-D-arabinofuranosyl-E-5-(2-bromovinyl)uracil (BV-ara-U) in monkeys infected with simian varicella virus (AVR 00140) 245

K.A. Schat, R.F. Schinazi and B.W. Calnek

- Cell-specific antiviral activity of 1-(2-fluoro-2-deoxy-β-D-arabinofuranosyl)-5-iodocytosine (FIAC) against Marek's disease herpesvirus and turkey herpesvirus (AVR 00137) 259

M.J. Otto and W.H. Prusoff

- The relationship between the antiviral activity of 5'-amino-5'-deoxythymidine and its incorporation into herpes simplex virus type 1 DNA (AVR 00135) 271

P.C. Maudgal, E. De Clercq and L. Missotten

Efficacy of bromovinyldeoxyuridine in the treatment of herpes simplex virus and varicella-zoster virus eye infections (AVR 00134) 281

I.G. Barton, G.R. Kinghorn, M. Rowland, M. Jeavons, L.S. Al-Omer and C.W. Porter

Recurrences after first episodes of genital herpes in patients treated with topical acyclovir cream (AVR 00138) 293

Errata 301

No. 6, December 1984

W.H. Prusoff, W.R. Mancini, T.-S. Lin, J.J. Lee, S.A. Siegel and M.J. Otto

Physical and biological consequences of incorporation of antiviral agents into virus DNA (AVR 00147) 303

A. Sherwood and V. Stollar

Evidence that ribavirin is transported in *Aedes albopictus* cells by the nucleoside transport system (AVR 00145) 317

J. Caner, M. Amélia, V. Alexandre and M. Vicente

Effect of tiazofurin on tomato plants infected with tomato spotted wilt virus (AVR 00139) 325

H.E. Kaufman, E.D. Varnell, Y.M. Centifanto-Fitzgerald and J.G. Sanitato

Virus chemotherapy: antiviral drugs and interferon (AVR 00142) 333

P.F. Torrence and E. De Clercq

Preparation and biological properties of a highly active poly(G) · poly(C) inducer of interferon (AVR 00141) 339

C.W. Czarniecki and P.T. Allen

Disparate response of encephalomyocarditis virus and MM virus to interferon in JLS-V9R cells (AVR 00146) 351

W.R. Fleischmann, Jr., C.M. Fleischmann and W. Fiers

Potentiation of interferon action by mixtures of recombinant DNA-derived human interferons (Short Communication) (AVR 00143) 357
