

## ANNOUNCEMENT

**POSITION AVAILABLE***Medicinal Chemist*

The Microbiology and Infectious Diseases (MID) Program of the National Institute of Allergy and Infectious Diseases (NIAID) of the National Institutes of Health is seeking a Medicinal Chemist to join the Antiviral Substances Program. The Program is responsible for planning and directing a federal program of extramural research projects for the discovery and preclinical development of potential therapies for the treatment of viral diseases other than AIDS. Major efforts include drug discovery and synthesis, in vitro screening, evaluation in animal models for efficacy and pharmacokinetics and clinical trials. The medicinal chemist will have primary responsibility for managing synthetic, screening, and pharmacokinetic activities of the program. The medicinal chemist will also organize workshops and make recommendations for program directions and new activities. Salary commensurate with training and experience, but is anticipated to be at the GM 13/14 level (\$38,727–\$45,763). A Ph.D. in a chemical, pharmacologic or microbiological science and at least three years of relevant research experience is required. U.S. citizenship is required.

Send curriculum vitae, bibliography and names of references to Dr. Catherine Laughlin, Development and Applications Branch, MIDP, NIAID, NIH, PHS, 5333 Westbard Avenue, Room 750, Bethesda, Maryland 20892, (301)496–7051. An Equal Opportunity Employer.
