

**7th International Symposium on**  
**CURRENT TOPICS IN INFECTIOUS DISEASES**

**Zermatt, Switzerland: January 27 – February 3, 1996**

**Organized by the European Foundation of  
Infectious Diseases Continuing Medical Education,  
in co-operation with  
the Utrecht University and the University of Minnesota**

**This year's theme will be "Emerging in infectious diseases: new treatment modalities and new diagnostic approaches".** The emphasis will be on clinical problems that relate to patient care; pathogenesis and patho-physiology will be introduced where relevant. A complete syllabus will be provided with outlines and references for each lecture.

**Planning Committee**

Peter Ball, MD (UK); Finn T. Black, MD (Denmark); Björn Hoffstedt, MD (Germany); Phillip K. Peterson, MD (USA); Jan Verhoef, MD (Netherlands).

**Faculty Members**
