

## Subject index

### Volume 50 (2001)

---

**Additives**; Interferon; Thermal stability; Antiviral activity **50**, 117

**AIDS**; Non-nucleoside HIV-1 RT inhibitors; Spironucleosides **50**, 207

**Ames test**; Purine nucleosides; Genotoxicity; Comet assay; Hepatitis B **50**, 139

**Anti-HIV-1 activity**; Cellular metabolism; Lymphocytes of a novel thioether–phospholipid–AZT conjugate **50**, 129

**Antiviral activity**; *Eleutherococcus senticosus*; Plant extract **50**, 223

**Antiviral activity**; Interferon; Thermal stability; Additives **50**, 117

**Antiviral analog**; 3TC, lamivudine; NDP kinase, *nm-23* **50**, 147

**Cellular metabolism**; Lymphocytes of a novel thioether–phospholipid–AZT conjugate; Anti-HIV-1 activity **50**, 129

**Comet assay**; Purine nucleosides; Genotoxicity; Ames test; Hepatitis B **50**, 139

*Eleutherococcus senticosus*; Antiviral activity; Plant extract **50**, 223

**Genotoxicity**; Purine nucleosides; Ames test; Comet assay; Hepatitis B **50**, 139

**HAART**; HIV DNA; memory CD4<sup>+</sup> T cells; naive CD4<sup>+</sup> T cells **50**, 197

**Hepatitis B**; Purine nucleosides; Genotoxicity; Ames test; Comet assay **50**, 139

**HIV DNA**; memory CD4<sup>+</sup> T cells; naive CD4<sup>+</sup> T cells; HAART **50**, 197

**Interferon**; Thermal stability; Additives; Antiviral activity **50**, 117

**Lymphocytes of a novel thioether–phospholipid–AZT conjugate**; Cellular metabolism; Anti-HIV-1 activity **50**, 129

**memory CD4<sup>+</sup> T cells**; HIV DNA; naive CD4<sup>+</sup> T cells; HAART **50**, 197

**naive CD4<sup>+</sup> T cells**; HIV DNA; memory CD4<sup>+</sup> T cells; HAART **50**, 197

**NDP kinase, *nm-23***; Antiviral analog; 3TC, lamivudine **50**, 147

**Non-nucleoside HIV-1 RT inhibitors**; AIDS; Spironucleosides **50**, 207

**Plant extract**; Antiviral activity; *Eleutherococcus senticosus* **50**, 223

**Purine nucleosides**; Genotoxicity; Ames test; Comet assay; Hepatitis B **50**, 139

**Spironucleosides**; AIDS; Non-nucleoside HIV-1 RT inhibitors **50**, 207

**3TC, lamivudine**; Antiviral analog; NDP kinase, *nm-23* **50**, 147

**Thermal stability**; Interferon; Additives; Antiviral activity **50**, 117
