Table of Contents

	Page
Corporate Supporters	viii, ix
Social Functions	ix
Conference CME Sponsor	x
Conference Committees	xi, xii
Scientific Program	xiii–xviii
Abstracts	xix

Monday, December 18

Drug Design and Discovery; Viral Targets	1
Chemistry and Pre-clinical Development	7

Tuesday, December 19

Viral Resistance	15
Pharmacology	19
Immunotherapy in HIV Infection	23

Wednesday, December 20

First line Antiretroviral Therapy/Salvage Therapy/Pediatrics	31
Regulatory Issues: Viewpoints	39

Thursday, December 21

HIV/Hepatitis and Other Co-infections	43
Vaccines/Therapeutic Vaccines	47
Posters	51
Announcements for Future Meetings in the DART Series	79
Author Index	80

Review*A. Linde*

The importance of specific virus diagnosis and monitoring for antiviral treatment 81

Regular papers*Y.-C. Kuo, C.-C. Chen, W.-J. Tsai, Y.-H. Ho*

Regulation of herpes simplex virus type 1 replication in Vero cells by *Psychotria serpens*: relationship to gene expression, DNA replication, and protein synthesis 95

S.L. Boulware, J.C. Bronstein, E.C. Nordby, P.C. Weber

Identification and characterization of a benzothiophene inhibitor of herpes simplex virus type 1 replication which acts at the immediate early stage of infection 111

H. Unwalla, A.C. Banerjee

Novel mono- and di-DNA-enzymes targeted to cleave *TAT* or *TAT-REV* RNA inhibit HIV-1 gene expression 127

J.H. Andersen, S.A. Osbakk, L.H. Vorland, T. Traavik, T.J. Gutteberg

Lactoferrin and cyclic lactoferricin inhibit the entry of human cytomegalovirus into human fibroblasts 141

Review*R.G. Jain, E.S. Furfine, L. Pedneault, A.J. White, J.M. Lenhard*

Metabolic complications associated with antiretroviral therapy 151

Regular papers*R.W. Sidwell, D.F. Smee, J.H. Huffman, D.L. Barnard, J.D. Morrey, K.W. Bailey, W.-C. Feng, Y.S. Babu, K. Bush*

Influence of virus strain, challenge dose, and time of therapy initiation on the in vivo influenza inhibitory effects of RWJ-270201 179

R.J. Essey, B.R. McDougall, W.E. Robinson Jr

Mismatched double-stranded RNA (polyI-polyC₁₂U) is synergistic with multiple anti-HIV drugs and is active against drug-sensitive and drug-resistant HIV-1 in vitro 189

A. Ruzindana-Umunyana, J.M. Weber

Interactions of human lacrimal and salivary cystatins with adenovirus endopeptidase 203
