

Invitation to the Twenty-Fourth International Conference on Antiviral Research, Sofia, Bulgaria, 7–11th May, 2011

Dear Friends and Colleagues

The 24th ICAR will be held at the Kempinski Hotel Zografski Sofia in Sofia, the capital of Bulgaria. ICAR provides an interdisciplinary forum at which investigators involved in basic, applied, and clinical research worldwide can meet to review recent developments in all areas of antiviral drug discovery and development. Specific topics to be covered in the program include target discovery, medicinal and computational chemistry, biochemistry and in vitro evaluation, mechanism of action and molecular biology, animal models, pharmacokinetics, toxicology, and clinical trials.

Sofia is located in the outskirts of the Vitosha Mountains. Sofia has a long and rich history that you can explore through Sofia's numerous archeological sites, churches, museums, and other historic buildings. You can also explore modern Sofia where shopping and night life are plentiful. Sofia is a convenient travel location within Europe and requires minimal connections for those traveling outside of Europe. The Kempinski Hotel Zografski Sofia is located downtown and is within easy walking distance to most of the major downtown attractions.

Beginning September 2010, visit the ISAR Web site at <http://www.isar-icar.com> to learn more about the 24th ICAR, hotel accommodations, abstract submittals, and preliminary programs.

If you have any questions please do not hesitate to contact the ISAR/ICAR Office at 202-973-8690 or by email at ISAR@courtesyassoc.com.
