

BIOCHEMICAL PHARMACOLOGY

SUBJECT INDEX FOR VOLUME 29

1980

PREPARED BY W. COCKS

- Acebutolol,
 effect on platelet-elasticity and platelet-
 endothelial cell interaction, 943
- Acetaldehyde,
 in brain in vivo, effect of ethanol
 treatment, 411
 in breath and blood during ethanol
 oxidation in man, 783
 effect on calcium uptake by synaptosomes,
 957
 inhibition of glycoprotein secretion in
 liver slices, 35
- Acetaminophen,
 activation in isolated hepatocytes,
 effect of ethanol, 1741
 effect on carrageenin-induced
 inflammation, 1863
 drug interactions in normal and
 tumour-bearing rats, 1167
 effect on glutathione in liver, 1968
 effects of inducers and fasting on
 hepatotoxicity, 2219
 lack of evidence for N-hydroxyacetamino-
 phen as a reactive metabolite
 in vitro, 1617
- Acetanilide 4-hydroxylase,
 in liver microsomes, inhibition by
 ellipticine, 89
- Acetic anhydride,
 modification of Na^+, K^+ -ATPase, 1995
- Acetoacetate,
 transport in heart mitochondria, effect
 of dibucaine, 2877
- N-Acetyladiamycin,
 complex with cardiolipin, 3003
- 2-Acetylaminofluorene,
 N-deacetylation by liver subcellular
 fractions, 1189
- p-Acetylaminohippuric acid,
 transport into liver cells and bile,
 1023
- Acetylcholine,
 binding in ileum, effect of DFP, 1391
 depletion of P3 fraction of forebrain
 independently of S3 fraction, 1949
 effect on cyclic GMP accumulation
 and renin release by kidney slices,
 1933
 metabolic pathway of acetyl group for
 synthesis of, 167
 modulation of phosphorylase and
 contractility in heart exposed to
 anoxia or isoproterenol, 1681
 release from brain slices, effects of
 pentobarbital and Ca^{4+} , 2189
 release in brain, effect of morphine,
 2777
 release evoked by brachial plexus
 stimulation and tityustoxin, 2179
 turnover in brain regions, effects of
 lithium, 654
- Acetylcholine receptors,
 in skeletal muscle, influence of
 decamethonium and suxamethonium on
 tryptophan side chain chromophores of,
 397
- Acetylcholinesterase,
 in brain,
 inhibition by organophosphorus
 compounds with respect to delayed
 neurotoxicity, 2721
 effect of phencyclidine, 2524
 in Limulus ganglia, 1603
 in lung, effect of paraquat and
 related herbicides, 465
 soman inhibited, reactivation with
 HI-6 and related oximes, 2379
- AcetylCoA,
 formation in spermatozoa, 2589
- N-Acetylcysteine,
 effect on glutathione in liver, 1969
- Acetylethyltetramethyltetralin,
 uncoupling of oxidative phosphoryl-
 ation, 1531
- l- α -Acetylmethadol,
 induction of epoxide hydratase, sex
 and age dependence, 3245
 and metabolites, binding to blood
 constituents, 1897
- Acetyl procainamide ethobromide,
 hepato-biliary transport rate, 2573
- Acetylsalicylic acid,
 induced hypoinsulinemia, effect of
 calcium chloride, 1627
 inhibition of estradiol-17 β absorption
 by rat intestine in vitro, 3017
 effect on thromboplastin activity in
 human monocytes, 9
- N-Acetylserotonin,
 microassay in biological materials,
 3020
- N-Acetyl-3-sulphonamoyl-L-alanine,
 methyl ester,
 immunosuppressant activity in vitro
 and in vivo, 1767
- Acid phosphatase,
 release from liver lysosomes, effect
 of ischaemia and chlorpromazine,
 963
 release from polymorphonuclear
 leukocytes after phagocytosis of
 monosodium urate, effect of
 colchicine derivatives, 2146
- Acrolein,
 effect on L-hydroxycyclophosphamide/
 aldophosphamide metabolism in vitro
 2903
- Actinomycin D,
 circadian rhythm of influence on
 cytochrome P-448 induction by
 3-methylcholanthrene, 1201
 cross resistance with adriamycin and
 vincristine in a murine solid
 tumour, 1081
- Actomyosin,
 regulation by phosphorylation, 2537
- Acyl-CoA: cholesterol acyltransferase,
 in adrenal, effect of dichlorvos, 635
- Adenine,
 effect on bactericidal activity of
 polymorphonuclear leukocytes, 3018
- Adenine nucleotides,
 effect on ADP-induced platelet

Adenine nucleotides(contd.)

- aggregation, 1799
- modulation of transmission, 1635
- Adenocarcinoma,**
 - treatment with 5-fluorouracil in combination with hypoxanthine and allopurinol, 2077
- Adenosine,**
 - effect on ethanol-induced modifications in liver metabolism, 1709
 - inhibition of ADP-induced platelet aggregation, blockade by 5'-methylthioadenosine 2',5'-dideoxyadenosine, 2529
 - modulation of neurotransmission, 1635
 - potentiation of antigen-induced histamine release, 1085
 - stimulation of gluconeogenesis in renal cortical tubule fragments, 828
 - uptake into human blood platelets, inhibition of, 43
- Adenosine analogues,**
 - effect on ADP-induced platelet aggregation, 1799
- Adenosine deaminase,**
 - in erythrocytes, role of nucleoside transport system in effect of 2'-deoxycofomycin, 2491
 - inhibition by 2'-deoxycofomycin in vivo, 187
- Adenosine diphosphate,**
 - induced platelet aggregation, effect of adenosine analogues and adenine nucleotides, 1799
 - blockade by 5'-methylthioadenosine and 2',5'-dideoxyadenosine of effect of adenosine, 2529
- Adenosine kinase,**
 - in yeast cells, substrate specificity, 3081
- Adenosine-3',5'-monophosphate,**
 - in adipocytes, effects of insulin and hydrogen peroxide, 1239
 - in adrenal cells, effect of Ca^{2+} on modulation by prostacyclin and ACTH, 2213
 - in brain, effect of apomorphine and AC 20-1725 in vivo, 369
 - in brain regions and pituitary, effect of anaesthesia, 1891
 - dependent and independent phosphorylation of proteins in neural cells, effect of methylmercuric chloride, 539
 - elevation in cultured aorta cells by histamine and serotonin, 3155
 - formation in fat cells, effects of prostacyclin, 661
 - in glioma and neuroblastoma cells, effect of methylmercuric chloride on PGE₁ action, 201
 - glucagon induced accumulation in liver, effect of PGE₂, 681
 - in granulation tissue, effect of histamine, 103
 - in human mononuclear leukocytes, stimulatory effect of ionophores, 1981
 - hydrolysis by brain phosphodiesterase, inhibition by hypoxanthine, inosine and IMP, 277
 - identification of β_2 -adrenergic receptors in epidermis, 97
 - in papillary muscle, effect of vanadate, 1429
 - in pineal gland, effects of darkness and desmethylinipramine, 1341

Adenosine-3',5'-monophosphate(contd.)

- in pituitary, effect of apomorphine and AC 20-1724, 369
- in plasma, effect of chlorpromazine, 801
- in polymorphonuclear leukocytes after phagocytosis of monosodium urate, effect of colchicine derivatives, 2146
- production by adrenocortical cells, effect of prostanoids, 1919
- role in effect of acetylcholine on catecholamine-stimulated phosphorylase in heart, 1681
- effect on tyrosine hydroxylase in caudate nucleus homogenates, 1593
- Adenosine-3',5'-monophosphate analogues,**
 - effect on thromboplastin activity in human monocytes, 9
- Ca^{2+} -Adenosine triphosphatase,**
 - in heart,
 - effects of adrenochrome, 559
 - effect of chlorpromazine and imipramine, 629
- Ca^{2+} , Mg^{2+} -Adenosine triphosphatase,**
 - in muscle sarcoplasmic reticulum, effect of halothane, 375
 - in synaptosomes, effect of cyclodienes, 1815
- ecto-Adenosine triphosphatase,**
 - in human leukocytes, 2285
- Mg^{2+} -Adenosine triphosphatase,**
 - in brain synaptosomes, effects of Cd^{2+} , Mn^{2+} and Al^{3+} , 141
 - in cockroach, effect of DDT analogues 1065
 - in heart, effects of chlorpromazine and imipramine, 629
 - in synaptic membranes, effect of lithium chloride, 887
- Na^+ , K^+ -Adenosine triphosphatase,**
 - in brain,
 - effect of chronic dietary lithium, 2819
 - inhibitory action of penicillic acid, 19
 - involvement of lipid and protein components in inhibitory action of alcohol, 771
 - noradrenaline stimulated in synaptic membranes, effect of desipramine, 111
 - in synaptic membranes, effect of lithium chloride, 887
 - in synaptosomes, effects of Cd^{2+} , Mn^{2+} and Al^{3+} , 141
 - in heart,
 - effects of adrenochrome, 559
 - effect of benpridil, 1135
 - effects of chlorpromazine and imipramine, 629
 - identification of ouabain binding sites, 1195
 - in relation to ouabain binding, 3219
 - in intestine,
 - brush border and basolateral membrane vesicles, effects of phenolphthalein and harmaline, 2307
 - prenatal induction, 251
 - involvement of tropomyosin on sensitivity to ouabain, 297
 - in kidney brush border and basolateral membrane vesicles, effects of phenolphthalein and harmaline, 2307

- Na^+, K^+ -Adenosine triphosphatase (contd.)
 modifications that alter interactions with K^+ and cardioactive steroids, 1995
 role in noradrenaline uptake by synaptosomes, 2105
 in striatum, catecholamine-susceptible, characterization and localization, 857
 Adenosine triphosphate,
 in brain, effect of psychotropic drugs, 15
 catabolism in Ehrlich ascites tumour cells, effect of misonidazole, 2533
 treated with dactylarin, 2155
 dependent monoamine transport by chromaffin granules, 1883
 in isolated perfused rat brain, effects of morphine and methadone, 1608
 in liver, effect of 3-methylcholanthrene, 697
 release as co-transmitter and transmitter, 1635
 release from synaptosomes, 1302
 stimulatory effect on adenylate cyclase, 3203
 Adenosine triphosphate-citrate lyase,
 in spermatozoa, radiochemical determination, 2589
 S-Adenosyl-L-methionine,
 in Walker carcinoma, effect of Ro07-7957, 501
 S-Adenosyl methionine decarboxylase,
 inhibition by guanethidine, 113
 Adenylate cyclase,
 in aorta cells, sensitivity to histamine, 5-hydroxytryptamine and adrenaline, 3155
 catecholamine stimulated in human astrocytoma cells, effect of dexamethasone, 2151
 dopamine sensitive in striatum, effect of chronic L-DOPA therapy, 701
 connection with high affinity spiperone binding sites, 1331
 effect of kainic acid, 1645
 effect of oxypertine, 2681
 in heart sarcolemma, effects of adrenochrome, 559
 5-hydroxytryptamine sensitive in brain, properties, 2445
 regional and subcellular distribution and ontogenetic development, 2455
 in intestinal epithelial cells, effects of prostaglandins E₂ and I₂, 673
 in kidney, effect of alamethicin on hormonal activation, 51
 in liver plasma membranes, stimulation by ATP, 3203
 in lung, inhibition by adenosine and its analogues, 1085
 PG₂-sensitive in glioma and neuroblastoma cells, effect of methylmercuric chloride, 201
 in platelets, effect of 2',5'-dideoxyadenosine and 5'-methylthioadenosine, 2529
 role of GTP in activation of, 853
 in thyroid, effect of catecholamines and α -adrenergic antagonists, 1966
 Adenylosuccinate synthetase,
 inhibition by L-alanosine, 227
 Adipocytes,
 hydrogen peroxide as a messenger of insulin, 1239
 Adipose tissue,
 antilipolytic action of insulin, 617
 Adjuvant arthritis,
 effect of penicillamine on macrophage phagocytosis, 2273
 Adrenal,
 effect of calcium on prostacyclin and corticotropin modulation of cyclic AMP and steroid production in, 2213
 effect of dantrolene on cortical function, 1669
 effect of dichlorvos on steroid metabolism, 635
 effects of mixed function oxidase inhibitors on xenobiotic metabolism in, 951
 Na-Ca exchange mechanism in relation to catecholamine secretory mechanism, 2669
 specific inhibition of angiotensin receptors in glomerulosa, 927
 effect of steroid hormones in vitro on xenobiotic metabolism, 2373
 Adrenalectomy,
 effect on progesterone-stimulated hepatic cortisol sulfotransferase, 3181
 Adrenaline,
 effect on cyclic AMP in granulation tissue, 103
 effect on dihydroergocryptine binding in liver, 1653
 effect on hydrolysis of arginine and tyrosine esters in mast cells, 419
 effect on labelling of brown fat cell phospholipids, 3330
 stimulated lipolysis, inhibition by insulin, 617
 effect on thyroid adenylate cyclase, 1966
 Adrenaline receptor,
 in aorta cells, association with adenylate cyclase, 3155
 Adrenergic activity,
 effects of chlorpromazine, 801
 Adrenergic agents,
 effect on sodium fluxes across rabbit colon in vitro, 1271
 α -Adrenergic receptors,
 in blood platelets, involvement in interaction with elastin, 943
 in brain,
 interactions of D600 and local anaesthetics, 155
 effect of oxypertine, 2681
 post-mortem, 1869
 in heart, effect of phospholipids on dihydroalprenolol binding, 2791
 inhibition of thyroid adenylate cyclase stimulation by isoproterenol, 1966
 in iris, 2713
 in liver, 1653
 in uterus, assay for subtypes using dihydroergocryptine, 452
 α_1 -Adrenergic receptors,
 activation of phosphatidylinositol labelling of isolated brown fat cells, 3330
 in liver, activation of glycogen phosphorylase, 643
 α -Adrenergic receptor subtypes,
 W34104 as a selective radioligand, 1537
 β -Adrenergic receptors,
 effects of adenosine, 1635
 in artery membranes from

- β -Adrenergic receptors (contd.)
 deoxycorticosterone-salt hypertensive rats, 1465
 in astrocytoma cells, effect of dexamethasone on density of, 2151
 in brain, effect of antidepressants on dihydroalprenolol binding, 2895
 biochemical modification in ischaemic heart, effects of propranolol, 2687
- β_2 -Adrenergic receptor,
 in mammalian epidermis, 97
- β -Adrenergic receptor subtypes,
 classification and quantitation, 1317
- β -Adrenergic stimulation,
 effect on disposition of tryptophan, tyrosine and isoleucine in rats, 509
- Adrenochrome,
 effect on heart sarcolemmal ATPase activities, 553
- Adrenocortical cells,
 steroidogenic properties of prostanoid structures, 1919
- Adrenocorticotrophic hormone,
 modulation of cyclic AMP and steroidogenesis in adrenal cells, effect of Ca^{2+} , 2213
 in plasma, effects of dichlorvos, 635
- Adriamycin,
 binding to macromolecules in vivo, 1867
 complex with cardiolipin, 3003
 effect on RCC tumour and actinomycin resistant subline, 1081
- Aflatoxin,
 induced liver damage, transfer of liver cadmium to kidney, 1852
 inhibition of poly(A)⁺ and poly(A)⁻ RNA synthesis, 2247
- Alamethicin,
 effect on hormonal activation of renal adenylate cyclase, 51
- Alanine,
 effect on ethanol metabolism in perfused liver, 1029
 release from brain slices, effects of pentobarbital and Ca^{2+} , 2189
- L-Alanosine,
 interaction with enzymes metabolizing glutamic acid, aspartic acid and their amides, 227
- Albumin,
 bovine serum, effect of cyanate on warfarin binding, 1598
 human serum,
 125I-labelled, effect of Cd^{2+} on uptake and degradation in liver cells in vitro, 3101
 indomethacin binding sites, 1759
 tryptophan binding, 1915
 penicilloyl binding, enzymatic unmasking, 195
- Alcohol dehydrogenase,
 in liver, effects of castration and testosterone administration, 3175
 negative Peromyscus, ethanol metabolism in, 125
 pitfalls of enzyme assay, 1973
- Alcoholics,
 5-hydroxytryptophol in CSF, 693
- Alcohols,
 inhibition of synthesis of ornithine decarboxylase and tyrosine aminotransferase in regenerating liver, 2799
- Aldehyde dehydrogenases,
 in liver,
 differentiation of normal and
- Aldehyde dehydrogenases,
 in liver (contd.)
 inducible forms by disulfiram inhibition in vitro, 3026
 inhibition of, 2903
- Aldehyde oxidase,
 in liver, inhibition of, 2903
- Aldehyde reductase,
 in brain, effects of benzodiazepines and valproic acid, 1703
- Aldosterone,
 renal binding sites, effect of spironolactones, 353
 effect on RNA polymerase in kidney cortical and medullary mitochondria 1575
- Algorithm,
 sequence-reactivity in proteins, 2089
- Alkaline phosphatase,
 in cultured dental pulp cells,
 diphenylhydantoin induction, 2143
 external localization on surface of Sarcoma 180 cells resistant to 6-thioguanine, 1859
- Alkylation,
 of nucleic acids by metabolites of xenobiotics in liver microsomal incubations, 449
- Allopurinol,
 antileishmanial effect, 2397
 effect on bactericidal activity of polymorphonuclear leukocytes, 3018
 effect on infections in mice, 1939
- Allopurinol ribonucleoside,
 antileishmanial effect, 2397
- Alloxan diabetic rats,
 absence of cytosol effects on microsomal drug metabolism, 2491
- Allyl compounds,
 mutagenic potential, 993
- Allylic compounds,
 correlation of allylating and mutagenic properties, 2611
 mutagenic potential, 993
- Allyl-iso-propylacetamide,
 degradation of cytochrome P-450, 2805
- Allyl 2,2,2-trifluoroethyl ether,
 role of cytochrome P-450 in toxicity of, 3257
- Alphaxalone,
 metabolism by isolated hepatocytes, 248
- Aluminium,
 effect on Na^+ , K^+ -ATPase and Mg^{2+} -ATPase activity and choline uptake in brain synaptosomes, 141
- Amethopterin,
 response of mouse L-cells, 2741
- Amfonelic acid,
 effect on striatal dopamine metabolism 1432
 effect on synaptosomal dopamine formation, 2957
- Amidopyrine,
 N-demethylation in liver microsomes, effects of oral tobacco and nicotine, 3087
- Amino acids,
 in stomach and plasma, effect of 5-hydroxytryptamine, 1855
- γ -Aminobutyric acid,
 binding in subfractions of brain synaptic membrane fraction, 1077
 in brain, effect of intraventricular putrescine, 954
 metabolism in brain following

- γ -Aminobutyric acid**(contd.)
 chronic oral administration of
 ethanolamine O-sulphate, 1451
 purine inhibition of receptor binding
 to brain membranes, 1217
 release from brain slices, effects of
 pentobarbital and Ca^{2+} , 2189
 release in brain, effect of morphine,
 2777
- γ -Aminobutyric acid transaminase**,
 in brain,
 effect of ethanolamine O-sulphate,
 1451
 effect of intraventricular putrescine,
 954
- 2'- and 3'-Amino 2'-deoxyribonucleosides**,
 antiviral, antimetabolic and antineo-
 plastic activities, 1849
- 2-Amino-6,7-dihydroxy-1,2,3,4-tetrahydro-**
naphthalene,
 changes in binding to microsomal and
 synaptic membrane fractions of
 striatum following kainic acid
 lesions, 1645
 stimulation of Na^+ , K^+ -ATPase in
 striatum, 857
- Aminofolates**,
 target and non-target metabolic effects
 in mouse cells, 2741
- Aminoglycosides**,
 ototoxicity correlated with action on
 phosphoinositide films, 597
- p-Aminohippurate**,
 renal tubular transport in rats,
 drug-induced stimulation, 983
- 2-Amino-6-[(2-hydroxy-5-nitrobenzyl)thio]-**
9- β -D-ribofuranosyl purine,
 effect on adenosine deaminase inactivation
 by 2'-deoxycofomycin, 2491
- 5-Amino-4-imidazole-N-succinocarboxamide**
 ribonucleotide synthetase,
 inhibition by alanosine, 227
- δ -Aminolevulinic acid**,
 effect on heme degradation in brain, 1590
 incorporation into testicular heme,
 effect of 1,2-dibromo-3-chloropropane,
 2563
 role in modulation of adverse effects
 of ascorbic acid depletion, 1255
- δ -Aminolevulinic acid synthetase**,
 in chick embryo kidney, induction, 458
 in heart, effects of fasting, cobaltous
 chloride and hemin, 795
- L-2-Amino-4-methoxy-trans-3-butenic acid**,
 effect on growth and metabolism of
 Walker carcinoma *in vitro*, 501
- 2-Aminomethyl-4-t-butyl-6-iodophenol**,
 effect on carrageenin-induced
 inflammation, 1863
- 2-Amino-6-[(4-nitrobenzyl)seleno]-9- β -D-**
ribofuranosyl purine,
 effect on adenosine deaminase inactivat-
 ion by 2'-deoxycofomycin, 2491
- o-Aminophenol**,
 conjugation in isolated liver cells, 2963
- 2-Aminophenol**,
 deficiency of glucuronidation in Gunn
 rat liver, effect of pentan-3-one,
 3204
- 3-Aminopicolinic acid**,
 effect on phosphoenolpyruvate
 carboxykinase, 325
- Aminopterin**,
 inhibition of dihydrofolate reductase,
 589
 response of mouse L-cells, 2741
- Aminopterin analogues**,
 inhibition of L1210 cell dihydro-
 folate reductase, 3293
- Aminopyrine**,
 inhibition of lipid peroxidation in
 liver microsomes, 565
 metabolism by liver microsomes,
 effect of castration, 3133
 effect of cimetidine, 3075
 diabetic rats, absence of cytosol
 effects, 2491
 obese rats, 289
- Aminopyrine N-demethylase**,
 in liver microsomes,
 effect of phenobarbitone, 3319
 effect of 1-phenyl-3-(2-thiazolyl)
 -2-thiourea, 2425
 effect of *trans*-stilbene oxide,
 3245
 trout, sex differences, 553
- 3-Amino-triazole**,
 effect on ethanol oxidation by
 isolated hepatocytes, 2161
- Amitriptyline**,
 effect on naloxone binding in brain,
 460
- Ammonium ions**,
 effect on uptake and degradation of
 asialo-fetuin in hepatocytes, 917
- Amobarbital N-glucoside**,
 formation in human liver, 2085
- Amphetamines**,
 halogenated, effect on protein
 synthesis in newborn rats, 335
 inhibition of monoamine oxidase
in vivo, 1347, 2871
 metabolism in catheterized rats, 221
 effect on synaptosomal dopamine
 formation, 2957
- Amphiphilic drugs**,
 replacement of calcium from lipid
 monolayers, 2969
- Amygdalin**,
 induced cyanide toxicity, role of
 gastrointestinal microflora, 301
 reactivity with hydroxyl radical, 3307
- Amytal**,
 effect on calcium induced loss of
 respiratory control in beef
 heart mitochondria, 1455
 effect on permeability of liver
 mitochondrial membrane, 2325
- Anaesthesia**,
 effect on cyclic nucleotides in brain
 regions and pituitary, 1391
- Anaesthetics**,
 fluorinated ethers, role of
 cytochrome P-450 in toxicity of,
 3257
 effect on hepatic stearate desaturase
 27
 local,
 effect on cytochrome oxidase
 activity, 2651
 interactions with brain α -adren-
 ergic and muscarinic receptors,
 155
 effect on monoamine oxidase in
 liver, 1177
 effect on thermotropic properties
 of brain lipids, 849
- Anaphylaxis**,
 increase in antigen-induced release
 of slow reacting substance by
 sodium fluoride, 1843
 separation of slow reacting substance

- Anaphylaxis(contd.)
 from other mediators, 319
- Androstenedione,
 cytochrome P-450-mediated metabolism in
 trout liver microsomes, 583
- Angina pectoris,
 mechanism of prevention by propranolol,
 2687
- Angiotensin I converting enzyme,
 on human and swine intestinal brush
 border, 1525
 inhibitors, treatment of hypertension,
 1871
 in lung,
 inhibition by opoid peptides, 3115
 inhibition by YS-980, 1543
- Angiotensin II and III receptors,
 in adrenal glomerulosa, specific
 inhibition, 927
- Aniline,
 inhibition of lipid peroxidation in
 liver microsomes, 565
 metabolism in liver microsomes,
 effect of castration, 3133
 enhancement by cyanide, 1141
 diabetic rats, absence of cytosol
 effects, 2491
 effect on P-450 reductase and cytochrome
 c reductase in liver microsomes, 89
- Aniline hydroxylase,
 in liver microsomes,
 effect of *B.pertussis* components,
 1483
 differential induction of two forms,
 685
 effect of ethinyl estradiol, 677
 effect of hydroxylated phenobarbital
 metabolites, 1127
 obese rats, 289
 effect of 1-phenyl-3-(2-thiazolyl)-2-
 thiourea, 2425
- Aniline mustard metabolites,
 biliary excretion and enterohepatic
 circulation in rat and rabbit, 1299
- 1-Anilino-8-naphthalenesulfonate,
 binding protein in rat liver cytoplasm,
 2063
 use to monitor chlorophenol-liposome
 interactions, 2471
- Anoxia,
 effect of acetylcholine on response in
 heart, 1681
- Anthelmintics,
 peculiar targets in chemotherapy, 1981
- Anthiomaline,
 effect on β -glucuronidase in liver, 2925
- Anthracycline-DNA adduct,
 structure, 1307
- Antialdosterones,
 importance of lactone ring in activity of,
 353
- Anticancer agents,
 drug metabolism interactions in mice, 131
- Antidepressant drugs,
 effect on β -adrenergic receptor binding
 in guinea pig brain, 2895
 anticholinergic activity, 2149
 effect on ecto-ATPase in leukocytes,
 2285
 possible involvement of 5-hydroxy-
 tryptamine receptors in action of, 2709
- Antidiabetic drugs,
 effect on glucose kinetics in blood, 1441
- Antidiuretic hormone,
 stimulated renal adenylate cyclase,
 effect of alamethicin, 51
- Antigen,
 induced histamine release from lung,
 effect of adenosine, 1085
- Antiinflammatory drugs,
 biochemical gastroprotection from
 acute ulceration, 1281
 effect on chemotactic factor-elicited
 release of granule-associated
 enzymes from neutrophils, 2389
 role of prostaglandins in cytostatic
 action of, 311
- Antimonial drugs,
 effect on β -glucuronidase in liver,
 2925
- Antipyrine,
 penetration of preimplantation
 blastocyte, 1663
- Antitumour antibiotics,
 reactions with DNA in vitro, 521
- Anuric rats,
 biliary excretion of melphalan, 2518
- Aorta cells,
 elevation of cyclic AMP by histamine
 and 5-hydroxytryptamine, 3155
- Apomorphine,
 effect on cyclic nucleotides in
 brain and pituitary in vivo, 369
 stimulation of Na⁺,K⁺-ATPase in
 striatum, 857
- 9- β -D-Arabinofuranosyladenine,
 metabolism in yeast cells, 3081
- Arachidonic acid,
 inhibition of angiotensin receptors
 in adrenal glomerulosa, 927
 metabolism in hepatoma cells, effect
 of anti-inflammatory drugs, 311
 metabolism in platelets, effect of
 onion and garlic oils, 3169
- Arachidonic acid releasing substance,
 separation in anaphylactic fluid,
 319
- Arginine esters,
 hydrolysis in mast cells exposed to
 adrenaline, 419
- Aroclor 1254,
 effect on activation of cyclo-
 phosphamide to a mutagen, 256
 effect on aniline hydroxylase in
 hamster liver microsomes, 685
 induction of arylhydrocarbon
 hydroxylase in *F.heteroclitus*
 eggs, 949
 induction of dimethylnitrosamine
 demethylase in liver, 1375
- Aromatic L-amino acid decarboxylase,
 inhibition by α -difluoromethyl-DOPA,
 2465
- Arteparon,
 inhibition of elastase from human
 polymorphonuclear leukocytes, 1723
- Arteries,
 β -adrenergic receptors in, deoxy-
 corticosterone-salt hypertensive
 rats, 1465
 cerebral, noradrenaline release by
 drugs and potassium, 840
 coronary, guanylate cyclase in, 2943
- Aryl hydrocarbon hydroxylase,
 in cultured cells, stimulation by
 human and animal sera, 271
 in embryo of esturine fish, induction
 of, 949
 in liver microsomes,
 effect of cumene hydroperoxide,
 1261
 inhibition by ellipticine, 89

- Aryl hydrocarbon hydroxylase,
in liver microsomes (contd.)
obese rats, 289
effect of pyrrolizidine alkaloids
from tansy ragwort, 2645
- Ascorbic acid,
effect on benzo[a]pyrene and (-)trans-
7,8-dihydrodiol oxidation, 1693
effect of deficiency on heme metabolism,
1255
distribution in gastrointestinal tract,
effect of barbiturate, 1839
induced lipid peroxidation in liver
microsomes, substrate inhibition, 565
- Asialo-fetuin,
effects of ammonium ions and chloroquine
on uptake and degradation in
hepatocytes, 917
- L-Asparagine,
role in immune response to N-acetyl-3-
sulphonamoyl-L-alanine methyl ester,
1767
- L-Asparagine aminohydrolase,
inhibition by L-alanosine, 227
- Aspartate,
effect of alanosine on transport by
lymphoblasts, 227
release from brain slices, effects of
pentobarbital and Ca^{2+} , 2189
release in brain, effect of morphine,
2777
- Aspartate aminotransferase,
inhibition by L-alanosine, 227
- Aspartate transcarbamylase,
inhibition by L-alanosine, 227
- L-Aspartyl tRNA synthetase,
inhibition by L-alanosine, 227
- Aspirin,
induced ulceration, biochemical
gastroprotection, 1281
reversibility of effect on vascular
prostaglandin generation, 1093
- Astiban,
effect on β -glucuronidase in liver, 2925
- Astrocytoma cells,
dexamethasone increases β -adrenoceptor
density, 2151
- Aurothiomalate,
sulphydryl dependence of inhibition of
mitogen-induced human lymphocyte
proliferation, 3333
- Avocado fruit extracts,
destruction of cytochrome P-450, 3253
- AY-9944,
concentration dependent effect on sterol
synthesis in brain, 2751
- 8-Azaadenosine,
effect on synthesis and methylation of
mRNA in LL210 cells, 1459
- 5-Azacytidine,
urinary metabolites in mice, 609
- 5-Aza-2'-deoxycytidine,
transformation and metabolic effects in
mice, 2929
- Azathiopurine,
metabolism in human liver, inhibition by
furosemide *in vitro*, 1439
- 6-Azauridine,
inhibition of cytidine deaminase, 807
inhibition of inosinate dehydrogenase,
2261
- 2'- or 3'-Azido deoxynucleosides,
antiviral, antimetabolic and antineoplastic
activities, 1849
- 5(1-Aziridinyl)-2,4-dinitrobenzamide,
inhibition of ribonucleotide reductase
5(1-Aziridinyl)-2,4-dinitrobenzamide
(contd.)
in tumours, 2845
- Azo dyes,
modification of acceptance of tRNA
for some amino acids, 2301
- Azo mustards,
isomers, activity towards human
tumour xenografts, 2919
- Barbital,
penetration of preimplantation
blastocyte, 1663
- Barbiturates,
effect on calcium induced loss of
respiratory control in beef
heart mitochondria, 1455
effect on distribution of ascorbic
acid in gastrointestinal tract,
1839
- Basolateral membrane vesicles,
effects of phenolphthalein and
harmaline on transport functions,
2307
- Beagles,
caffeine metabolism in puppies, 1909
- Bencyclane,
protection of oxidative phosphoryl-
ation, 1385
- Benserazide,
inhibition of tryptophan-niacin
metabolism, 707, 2099
substrate of catechol-O-methyl-
transferase, 3123
- Benzamides,
effect on *in vivo* binding of
spiroperidol in brain regions, 267
- Benzanthrane,
induction on 7-ethoxycoumarin
O-deethylase in rat hepatocytes,
577
- Betamethasone,
activation of hepatic microsomal
hydroxylation, 2345
- Benz[a]anthracene 5,6-oxide,
glutathione S-transferase activity
towards in monkey tissues, 1589
- Benzimidazoles,
anthelmintic activity, 1981
- Benzocaine,
effect on cytochrome oxidase activity,
2651
- Benzodiazepines,
anticonvulsant mechanism, 1703
 $^1\text{H-NMR}$ investigations of a Hammett-
type substituent effect on hydrogen
bond interaction of, 137
- 7,8-Benzoflavone,
effect on benzo[a]pyrene and
(-)trans-7,8-dihydrodiol oxidation,
1693
effect on drug metabolism in adrenal,
951
- Benzo[a]pyrene,
DNA binding of metabolites, inhibition
by ellipticine, 89
inhibition of lipid peroxidation in
liver microsomes, 565
metabolism and binding to DNA in
fish, 753
metabolism in embryo of *Fundulus*
heteroclitus, 949
metabolism in liver microsomes,
effect of cimetidine, 3075
effect of disulfiram and
diethyldithiocarbamate, 1517

- Benzo[a]pyrene,
 metabolism in liver microsomes (contd.)
 after interaction between cytochrome
 P-448 and microsomes, 1261
 effect of modifiers, 1693
 metabolism by purified cytochrome P-450,
 effect of modifiers, 1693
 metabolism by small intestine, effects
 of disulfiram and diethyldithio-
 carbamate, 1517
 UDP-glucuronyltransferase activity
 towards, 495
- Benzo[a]pyrene hydroxylase,
 in adrenal,
 effect of inhibitors, 951
 effect of steroid hormones in vitro,
 2373
 in intestinal microsomes, species
 differences in stimulation of, 1161
 in liver microsomes,
 inhibition by ellipticines, 3231
 effect of medroxyprogesterone
 acetate, 1155
 effect of trans-stilbene oxide, 3245
 trout, sex differences, 553
- N-Benzoyl-arginine-ethyl-ester,
 hydrolysis in mast cells exposed to
 adrenaline, 419
- N-Benzoyl-tyrosine-ethyl-ester,
 hydrolysis in mast cells exposed to
 adrenaline, 419
- Benzphetamine,
 demethylation by adrenal microsomes,
 effect of steroid hormones, 2373
 demethylation in liver microsomes,
 effect of bleomycin, 3239
 effect of hydroxylated phenobarbital
 metabolites, 1127
 induction in young and geriatric
 rats, 1191
 demethylation in lung microsomes, effect
 of bleomycin, 3239
- 3,4-Benzpyrene hydroxylase,
 in liver microsomes, effect of ethinyl
 estradiol, 677
- Benzyl alcohol,
 effect on monoamine oxidase in liver
 mitochondria, 1177
- Benzylamine,
 as substrate for human monoamine
 oxidase-A, 777
- Benzylamine oxidase,
 in human tissues during development, 1221
- Bepridil,
 effect on mitochondrial ATPase reactions,
 1135
- Bile,
 excretion of aniline mustard metabolites,
 1299
 transport of organic anions, 1023
- Bile flow,
 effects of ethinyl estradiol in mice, 677
 in hamsters, effect of Enovid, 960
 stimulation by ethacrynic acid, 2733
- Bilharcid,
 effect on β -glucuronidase in liver, 2925
- Biliary tree,
 glucose transport demonstrated by
 segmented retrograde intrabiliary
 injection technique, 213
 mode of drug transfer evaluated by
 segmented retrograde intrabiliary
 injection technique, 205
- Biphenyl 4-hydroxylase,
 in liver microsomes, obese rats, 289
 in primary hepatocyte culture, effect
- Biphenyl 4-hydroxylase (contd.)
 of hormone-supplemented medium,
 1231
- Biphenyl hydroxylation,
 activation by betamethasone and
 α -naphthoflavone, 2345
- 4-[Bis-(2-bromopropyl)amino]-2'-
 carboxy-2-methylazobenzene,
 separation of isomers, 2919
- Bis-1,3-(2-chloroethyl)-1-nitrosourea,
 inhibition of tubulin polymerization,
 652
 reaction with DNA, 2639
- Bis(4-cyanophenyl)phosphate,
 inhibition of liver carboxylesterases
 1927
- Bismuth-binding proteins,
 in kidney, 2913
- Bis(4-nitrophenyl)phosphate,
 inhibition of liver carboxylesterases,
 1927
- Bisphosphoglyceromutase,
 in human erythrocytes, effect of
 thyroid hormones and other kinetic
 modifiers, 517
- Bladder,
S. mansoni infected mice, effect of
 oxamniquine on β -glucuronidase in,
 429
- Blastocyst,
 preimplantation, drugs that penetrate,
 1663
- Bleomycin,
 effect on oxidative metabolism in
 lung and liver microsomes, 3239
 reaction with DNA in vitro, 521
- Blood pressure,
 role of angiotensin converting enzyme
 in regulation of, 1871
- Blood vessels,
 effect of propranolol on prolyl
 hydroxylase in, 3093
- Blood viscosity, 479
- Bone marrow progenitor cells,
 toxicity of showdomycin and
 maleimide, 2199
- Bordetella pertussis,
 depression of drug metabolism, 1483
- Borneol,
 inhibition of hepatic cholesterol
 synthesis, 2125
- Brachial plexus stimulation,
 evoked release of acetylcholine from
 sensory motor cortex, 2179
- Bradykinin,
 receptor-like binding studied with
 iodinated analogues, 175
- Breath,
 acetaldehyde concentrations during
 ethanol oxidation in man, 783
- Bromobenzene,
 cumulative effects of reactive
 metabolites, 1041
- 5-Bromodeoxyuridine,
 inhibition of cytidine deaminase, 807
- Bromo-lasalocid ethanolate,
 effect on cyclic AMP in human
 mononuclear leukocytes, 1991
- β -3-bromophenacyl bromide,
 effect on lysosomal enzyme release
 by polymorphonuclear leukocytes,
 533
- Brown fat cells,
 α_1 -adrenergic activation of
 phosphatidylinositol labeling,
 3330

- Brush border vesicles,
effect of phenolphthalein and harmaline
on transport functions, 2307
- Bumetanide,
effect on calcium uptake and release by
kidney microsomes, 2339
- α -Bungarotoxin,
binding in *Limulus* ganglia, effect on
choline uptake, 1603
- Burimamide,
antagonism of histamine action on
cyclic AMP in granulation tissue, 103
- Butan-1-ol,
effect on monoamine oxidase in liver
mitochondria, 1177
- Butylated hydroxytoluene,
effect on benzo[a]pyrene and (-)-trans-
7,8-dihydrodiol oxidation, 1693
binding to nucleic acid *in vivo*, 1304
- t-Butyl hydroperoxide,
restriction of hexobarbital metabolism by
perfused rat liver, 3112
- n-Butylisocyanide spectra,
of liver microsomes of genetically
hyperglycaemic and streptozotocin-
treated mice, 1959
- 2-t-Butyl-4-methoxyphenol,
oxidation by horseradish and mammalian
peroxidase systems, 763
- γ -Butyrolactone,
effect on striatal dopamine, 1432
- Cadmium,
effect on ATPase activity and choline
uptake in brain synaptosomes, 141
effect on metals and isometallothionein
levels in rat tissues, 2407
transfer from liver to kidney after
aflatoxin-induced liver damage, 1852
- Cadmium acetate,
effect on uptake and degradation of
 ^{125}I -HSA *in vitro*, 3103
- Caffeine,
metabolism in beagle puppies, 1909
penetration of preimplantation
blastocyte, 1663
- Calcium,
binding by heart subcellular membranes,
effects of chlorpromazine and
imipramine, 629
effect on coronary arterial guanylate
cyclase, 2943
dependent modulation of cyclic GMP in
renal cortex, role of fatty acids, 717
depolarization induced influx into
synaptosomes, effect of chlordiaz-
epoxide, 2439
effect on frequency-dependent release of
noradrenaline, 3029
effect on 5-hydroxytryptamine induced
release of noradrenaline from
cerebral arteries, 840
induced exocytosis in fluoride treated
PMNs, 3051
induced loss of respiratory control in
beef heart mitochondria, effect of
barbiturates, 1455
influence on wheat germ agglutinin
stimulation of histamine secretion
from mast cells, 455
influx into synaptosomes, effect of
ethanol, 1903
improvement of tissue perfusion with
inhibitors of flux, 479
ionophore-mediated transport, effect of
sulfonamides, 1879
- Calcium(contd.)
effect on neurotransmitter release
from midbrain slices, 2189
effect on prostacyclin and cortico-
tropin modulation of cyclic AMP
and steroid production in
adrenocortical cells, 2213
pump in liver microsomes, effect
of hepatotoxins, 2505
regulation in synaptosomes, effect
of heptachlor epoxide, 1815
replacement by cationic amphiphilic
drugs from lipid monolayers, 2969
source of in excitation-contraction
coupling in skeletal muscle, 2399
transport in sarcoplasmic reticulum,
effect of halothane on stability
of, 375
transport by synaptosomes, effect
of depressant drugs and
sulfhydryl reagents, 957
effect on tyrosine hydroxylase in
caudate nucleus homogenates, 1593
uptake and release in renal micro-
somes, effect of diuretics, 2339
- Calcium antagonists,
verapamil and D600, interactions
with brain receptors, 155
- Calcium carbimide,
effect on acetaldehyde in breath
and blood, 783
- Calcium chloride,
effect on aspirin-induced hypo-
insulinemia in rats, 1627
- Calcium-sodium exchange,
in adrenal, relationship with
catecholamine secretory
mechanism, 2669
- Camptothecin,
photolysis with DNA, 905
- Cancer chemotherapy,
hypoxic tumour cell, 1
- Cancrenoate,
effect on digitoxin metabolism by
rat liver microsomes, 405
- Cannabichromene,
inhibition of testosterone production
by Leydig cells, 2153
- Cannabicyclol,
inhibition of testosterone production
by Leydig cells, 2153
- Cannabidiol,
blood disappearance and tissue
distribution, 462
inhibition of testosterone production
by Leydig cells, 2153
- Cannabinol,
inhibition of testosterone production
by Leydig cells, 2153
- Canrenone,
activity *in vivo* and *in vitro*, 353
- Captopril,
antihypertensive action, 1871
inhibition of angiotensin I convert-
ing enzyme in intestine, 1525
- Carbachol,
binding in ileum, effect of DFP, 1391
- Carbamazepine 10,11-oxide,
effect on drug metabolizing enzymes,
1109
- Carbamyl phosphate synthetase II,
inhibition by L-alanosine, 227
- Carbidopa,
effect of chronic therapy on
dopamine receptors, 701
inhibition of tryptophan-niacin

- Carbidopa(contd.)
 metabolism in liver, 707, 2099
 as substrate of catechol O-methyltransferase, 3123
- p-Carbmethoxyphenyldimethyltriazene,
 effect on drug metabolism in mice, 131
- Carbohydrates,
 stimulation of mixed-function oxidation, 813
- Carbon disulphide,
 protection against effects of carbon tetrachloride in rats, 1007
- Carbon monoxide,
 formation from carbon tetrachloride by cytochrome P-450, 2855
 generation during microsomal metabolism of methylenedioxyphenyl compounds, 1113
 effect on metabolism of SKF 525-A and SKF 8742-A, 2577
- Carbon tetrachloride,
 ethanol potentiation of hepatotoxicity, 1445
 effect on hepatic transport of indocyanine green, 1291
 inhibition of microsomal calcium pump, 2505
 mechanism of chloroform and carbon monoxide formation by cytochrome P-450, 2855
- Carbon tetrachloride - carbon disulphide, equimolar mixture, effect on rat liver, 1007
- Carbonyl compounds,
 originating from peroxidation of liver microsomal lipids, induction of foot edema, 121
- Carbonyl reductases,
 in liver, 1503
- Carboxylesterases,
 in liver, inhibition by organophosphorus diesters in vivo and in vitro, 1927
- Carboxyphosphamide,
 formation in vitro, 2903
- Cardiolipin,
 complex with adriamycin derivatives, 3003
- Carmustine,
 effect on drug metabolism in mice, 131
- Carrageenin,
 induced edema of rat paw, effect of prostaglandin biosynthesis stimulators, 1863
- Carrageenin granuloma,
 effects of prostaglandin F_{2α}, 147
- Castration,
 effect on alcohol dehydrogenase in liver, 3175
 effect on hepatic drug metabolism, 3133, 3139
 effect on progesterone-stimulated hepatic cortisol sulfotransferase, 3181
- Catalase,
 interdependence of hemoglobin and glucose metabolism in red blood cells, 2351
- Catecholamines,
 secretory response to calcium reintro-
 duction in perfused adrenal treated
 with ouabain, 2669
 susceptible Na⁺, K⁺-ATPase in striatum, 857
 synthesis in hippocampal and olfactory
 tubercle slices, effect of ethanol, 2477
 transport by chromaffin granules, 1883
- Catechol-O-methyltransferase,
 Catechol-O-methyltransferase,
 benserazide and carbidopa as
 substrates, 3123
 in human brain, 3119
- Celiac ganglion,
 modulation of dopamine metabolism in, 118
- Cephalothin,
 inhibition of glutathione organic
 nitrate ester reductase, 1807
- Cerebellum,
 cyclic GMP in, effect of 5-methoxy-
 dimethyl-tryptamine, 827
- Cerebrospinal fluid,
 effect of chronic L-DOPA therapy on
 biogenic amine metabolites, 701
 from alcoholics, 5-hydroxytryptophol
 in, 693
- Cesium,
 effect on sodium transport in skin
 epithelial cells, 2265
- Chemotactic peptide,
 elicited release of granule-
 associated enzymes from neutrophils,
 pharmacological modulation, 2389
- Chick embryo kidney,
 induction of δ -aminolevulinic acid
 synthetase, 458
- Chick,
 monoamine oxidase in liver, kidney
 and heart, 603
- Chloral hydrate,
 hypnotic effect and metabolism
in vivo and in vitro, interaction
 with ethanol, 3011
- Chlorambucil,
 metabolism in rats, 2039
- Chloramphenicol,
 and its nitroso analogue, effect on
 protein synthesis and oxidative
 phosphorylation in liver
 mitochondria, 2605
 effect on uptake, distribution and
 macromolecular binding of
 3'-methyl-4-dimethylaminoazo-
 benzene and metabolites in liver, 2252
- Chlordiazepoxide,
 effect on depolarization-induced
 calcium influx into synaptosomes, 2439
- p-Chloroamphetamine,
 effect on brain 5-hydroxytryptamine
 metabolism, 3163
 effect on protein synthesis in
 newborn rats, 335
- 2-, 3-, and 4-Chlorobiphenyls,
 metabolism by hepatic microsomal
 cytochrome P-450, 727
- 1-(2-Chloroethyl)-3-cyclohexyl-1-
 nitroso-urea,
 inhibition of tubulin polymerization, 652
- Chloroethyl cyclohexyl nitroso-urea,
 reaction with DNA, 2639
- Chloroform,
 formation from carbon tetrachloride
 by cytochrome P-450, 2855
 induced glutathione depletion and
 toxicity in hepatocytes, 3059
 inhibition of microsomal calcium
 pump, 2505
 mechanism of metabolic activation by
 rat liver microsomes, 3271
- p-Chloromercuribenzenesulfonic acid,
 effect on gastric H⁺ and K⁺

- p-Chloromercuribenzenesulfonic acid (contd.) transport, 2755
- p-Chloro-N-methylaniline, demethylation in hepatocyte primary cultures, 2117
- Chloroolefins, correlation of alkylating and mutagenic properties, 2611
- Chlorophenols, interaction with liposomes, monitored with ANS, 2471
- 2-(p-Chlorophenyl)cyclopropylamine, effect on 5-hydroxyindol concentration and monoamine oxidase activity in brain, 3328
- p-Chlorophenylethylamine, effect on brain 5-hydroxytryptamine metabolism, 3163
- 1-(3-Chlorophenyl)-1-methyl-2-phenyl-2-(2-pyridine)ethanol, inhibition of hepatic lipid biosynthesis, 3207
- Chloroquine, inhibition of insulin production of isolated pancreatic islets, 1729
effect on uptake and degradation of asialo-fetuin in hepatocytes, 917
- Chlorozotocin, effect on drug metabolism in mice, 131
- Chlorpromazine, effect on alterations in lysosomes in ischaemic rat liver, 963
antagonism of noradrenaline activation of synaptic Na^+ , K^+ -ATPase, 111
effect on calcium uptake by synaptosomes, 957
effect on catecholamine transport by chromaffin granules, 1883
effect on cerebral energy state and glycolytic metabolism, 15
comparison with effects of 7-hydroxy-chlorpromazine in perfused brain, 63
effect on cyclic AMP in plasma, 801
effect on cytoplasmic phosphatidate phosphohydrolase in rat liver, 789
effect on heart subcellular membranes, 629
effect on *in vivo* binding of spiroperidol in brain regions, 267
effect on lipid metabolism in brain slices, 2697
partitioning and efflux from liposomes, 2361
- Cholecalciferol 25-hydroxylase, in liver microsomes, effect of phenobarbital administration on kinetics of, 441
- Cholestasis, effects of Enovid on bromosulphophthalein excretion in hamster, 960
- Cholesterol, in bile, effect of ethinyl estradiol, 677
biosynthesis in liver, effect of 1-(3-chlorophenyl)-1-methyl-2-phenyl-2-(2-pyridine)ethanol, 3207
inhibition of phospholipase A₂, 623
modulation of serotonergic receptors in synaptosomal plasma membrane, 3325
in plasma, total and high density lipoprotein, effect of tetrachlorodibenzodioxin, 835
screening method for agents affecting absorption, 1475
synthesis in liver, inhibition by mono- and bicyclic monoterpenes, 2125
- Cholesterol (contd.)
effect of Triton WR-1339 on esterification of, 2879
Cholesterol ester hydrolase, in adrenal, effect of dichlorvos, 635
Cholesterol hydroxylase, in liver mitochondria, effect of cobaltous chloride, 845
Cholestyramine, meal-feeding model for effect on lipid absorption, 1475
Choline, accumulation and metabolism by brain subcellular fractions, 1949
in brain, effect of lithium, 654
synaptosomal uptake, effect of Cd^{2+} , Mn^{2+} and Al^{3+} , 141
inhibition by analogues, 2413
uptake by *Limulus* ganglia, effect of α -bungarotoxin, 1603
Choline acetyltransferase, in brain, effect of phencyclidine, 2524
in *Limulus* ganglia, 1603
Cholinergic agents, effect on cyclic GMP accumulation and renin release by kidney slices, 1933
Cholinergic system, in *Limulus polyphemus* CNS, insularity of, 1603
Cholinesterase, effect of chronic inhibition on muscarinic receptor sensitivity in ileum, 1391
Chromaffin cells, Na-Ca exchange, relationship with catecholamine secretory response, 2669
Chromaffin granules, effect of drugs on monoamine transport, 1883
Chromatin, reaction of N-5-trimethyllysine to, 2729
Chromochelatin, kidney, 2913
Chromosome aberrations, induced by isoniazid, enhancement by transition metals, 842
Cimetidine, binding in cerebral cortex, 2269
effect on drug metabolism *in vivo* and *in vitro*, 1971, 3075
Cineole, inhibition of hepatic cholesterol synthesis, 2125
Cinerubin, complex with cardiolipin, 3003
Circadian rhythm, inhibitory effect of actinomycin D on cytochrome P-448 induction by 3-methylcholanthrene, 1201
Citrate, formation of acetyl-CoA in spermatozoa, 2589
role in acetylcholine synthesis in synaptosomes, 167
Clanobutin, inhibition of gluconeogenesis in isolated perfused liver, 1649
Clofibrate, effect on CoA in liver subcellular fractions, 987
metabolism in the rat, 3143
Clomiphene isomers

- Clomiphene isomers,
inhibition of liver microsomal
oxidative metabolism and substrate
binding, 1583
- Clomipramine,
effect on cerebral energy state and
glycolytic metabolism, 15
- Clonazepam,
anticonvulsant mechanism, 1703
- Clonidine,
multiple binding sites in human brain,
1869
- Clophen A,
effect on androstenedione metabolism in
trout liver microsomes, 583
- Clorgyline,
effect on amine transport in synaptosomes,
2763
effect on dopamine uptake in synaptosomes,
3067
effect on hepatic metabolism, 1103
effect on 5-hydroxytryptamine oxidation
by brain monoamine oxidase, 1213
inhibition of monoamine oxidase in brain,
effect of amphetamine, 2781
inhibition of monoamine oxidase in
chick organs, 603
inhibition of monoamine oxidase in
circumventricular structures of
brain, 2871
inhibition of monoamine oxidase in human
placenta, lung and liver, 777
inhibition of monoamine oxidase in liver,
2049
effect of lipid substitution of
mitochondrial membrane, 3211
riboflavin-deficient rats, 2693
effect on isoamylamine metabolism by
heart and liver, 1097
effect on turnover of monoamine oxidases
in rat liver, 891
- Clotting factor,
synthesis in rabbit, effect of warfarin,
1601
- Cobalt protoporphyrin IX,
formation in vivo following cobalt
administration to rats, 2319
- Cobaltous chloride,
effect on δ -aminolevulinic acid
synthetase in heart, 795
effect on hepatic microsomal and
mitochondrial cytochrome P-450, 845
- Cocaine,
effect of in vivo administration on
synaptosomal uptake of noradrenaline,
1861
- Cochlear microphonic potentials,
effect of aminoglycosides, 597
- Cockroach,
effect of two biodegradable DDT analogues
on ATPases, 1065
- Coenzyme A,
in liver subcellular fractions, effect
of clofibrate, 987
- Colchicine,
stimulation of secretion of plasminogen
activator from macrophages, 2545
- Colchicine derivatives,
effect on lysosomal enzyme release from
polymorphonuclear leukocytes and
levels of cyclic AMP after phago-
cytosis of monosodium urate, 2146
- Colestipol,
meal-feeding model for effect on
lipid absorption, 1475
- Collagen,
synthesis by cultured fetal lung
fibroblasts, effect of ethanol,
2417
synthesis in cultured human synovial
cells, effect of gold sodium
thiomalate, 869
synthesis in granulation tissue,
effect of prostaglandin F_{2α}, 147
- Colon,
effect of adrenergic agents and
theophylline on sodium fluxes
in vitro, 1271
- Colon carcinomas,
5-fluorouracil metabolism in, effect
of hypoxanthine and allopurinol,
2077
- Colon carcinoma bearing rats,
drug interactions with acetaminophen,

in human leukemic leukocytes, inhibition by 2',3'-dideoxythymidine triphosphate, 1149
- Deoxyribonucleosides,
2'- or 3'-amine or azido substituted, antiviral, antimetabolic and antineoplastic activities, 1849
- Deprenyl,
effect on amine transport in synaptosomes, 2763
effect on dopamine uptake in synaptosomes, 3067
effect on hepatic metabolism, 1103
effect on 5-hydroxytryptamine oxidation by brain monoamine oxidase, 1213
inhibition of monoamine oxidase in chick organs, 603
inhibition of monoamine oxidase in circumventricular structures of brain, 2871
inhibition of monoamine oxidase in guinea pig liver mitochondria, 2049
inhibition of monoamine oxidase in human placenta, lung and liver, 777
- Depressant drugs,
effect on calcium transport by synaptosomes, 957
- Desipramine,
effect on β -adrenergic receptor binding in guinea pig brain, 2895
binding sites in developing fetal rat cerebral cells, 1755
effect on naloxone binding in brain, 460
effect on noradrenaline stimulated Na^+ , K^+ -ATPase of synaptic membranes, 111
- Desmethylinipramine,

- Desmethylinipramine,
effect on cyclic AMP in pineal gland,
1341
- Desoxyfructo-serotonin,
inhibition of DOPA incorporation in
M. leprea, 2526
- Deuterium oxide,
effect on secretion of plasminogen
activator from macrophages, 2545
- Development,
amine oxidases in human tissues, 1221
caffeine metabolism in beagle puppies,
1909
desipramine binding sites in fetal rat
cerebral cells, 1755
5-hydroxytryptamine-sensitive adenylate
cyclase and 5-hydroxytryptamine
binding sites in brain, 2455
sympathetic neurotransmission in heart,
1595

uncoupling of oxidative phosphorylation,
1531
- Diamine oxidase,
inhibition by impromidine, 2897
in thymus, inhibition by guanethidine,
113
- 2,4-Diamino-5-(3',4'-dichlorophenyl)-6-
methylpyrimidine,
resistant L1210 leukemia cells, 2241
- Diazenes,
glutathione and mitochondrial reduction
of, 331
- Diazepam,
anticonvulsant mechanism, 1703
binding to brain membranes, purine
inhibition, 1217
effect on cerebral energy state and
glycolytic metabolism, 15
metabolism by liver, postnatal development
of sex-dependent differences, 447
- Diazoxide,
effect on ionophore-mediated calcium
transport, 1879
- Dibenzepine,
effect on naloxone binding in brain, 460
- 1,2-Dibromo-3-chloropropane,
inhibition of testicular heme
biosynthesis, 2563
- 1,2-Dibromoethane,
role of glutathione conjugation in
mutagenicity of, 2975
- Dibucaine,
effect on cytochrome oxidase activity,
2651
effect on pyruvate and ketone body
transport in heart mitochondria, 2877
effect on thermotropic properties of
brain lipids, 849
- Dibutyryl cyclic AMP,
activation of tryptophan hydroxylase in
brain stem slices, 669
- Dibutyryl cyclic AMP(contd.)
effect on H^+ and K^+ transport in
gastric mucosa in vitro, 2755
effect on thromboplastin activity
in human monocytes, 9
- 3,5-Dicarbethoxy-1,4-dihydrocollidine,
induction of δ -aminolevulinic acid
synthetase in chick embryo
kidney, 458
- 1,1-Dichloroethylene,
inhibition of microsomal calcium
pump, 2505
- 2,4-Dichloro-6-phenylphenoxyethylamine,
inhibition of fatty acid conjugation
to 11-hydroxy- Δ^9 -tetrahydro-
cannabinol by rat liver microsomes,
1071
- Dichlorvos,
effect on plasma ACTH and adrenal
steroid metabolism, 635
- 2',5'-Dideoxyadenosine,
blockade of effect of adenosine on
ADP-induced platelet aggregation,
2529
- 2',3'-Dideoxythymidine triphosphate,
inhibition of DNA polymerases of
human leukemic leukocytes, 1149
- Diethylcarbazine,
antihelminthic action, 1981
- Diethyldithiocarbamate,
effect on benzo[a]pyrene metabolism
in small intestine and liver, 1517
effect on biliary excretion of
copper and zinc, 2129
effect on oxygen toxicity, involve-
ment of glutathione enzymes, 1367
- Diethyl ether,
microsomal metabolism, 247
- Diethylmaleate,
effect on biliary excretion of
copper and zinc, 2129
- Diflunisal,
plasma protein binding, 571
- α -Difluoromethyl-DOPA,
inhibition of aromatic L-amino acid
decarboxylase and metabolism of
the inhibitor, 2465
- Digitalis glycosides,
glucuronidation by liver microsomes,
1497
- Digitoxin,
metabolism by isolated hepatocytes,
3023
metabolism by liver microsomes,
effect of inducers and inhibitors
of mono-oxygenases, 405
- Dihydroalprenolol,
binding to α -adrenergic receptor in
heart, effect of phospholipids,
2791
binding in guinea pig brain, effect
of antidepressants, 2895
examination of β -adrenergic
receptors, 1317
- Dihydrocannabinone,
activity in vivo and in vitro, 353
- Dihydroergocryptine,
assay for α -adrenergic receptor
subtypes, 452
binding to liver plasma membranes,
correlation with glycogen
phosphorylase activation in
hepatocytes, 1653
characterization of α -adrenergic
receptor in liver, 643

- Dihydrofolate reductase,
inhibition by folate analogues, 589
in L-cells, effect of antifolates, 2741
in L1210 cells, analogue specific
aberrancies in antifolate inhibition,
3293
in methotrexate resistant human
leukemic lymphoblasts, 648
- 7,8-Dihydromethotrexate,
inhibition of dihydrofolate reductase,
589
- Dihydromorphine,
binding to human leukocytes, 1361
- Dihydroquinidine,
effects on *in vitro* and *in vivo* quinidine
disposition, 737
- (-)trans-7,8-Dihydroxy-7,8-dihydrobenzo[a]
pyrene,
oxidation to DNA binding metabolites,
1693
- trans-4,5-Dihydroxy-1,2-dithiane,
effect on coronary arterial guanylate
cyclase, 2943
- 3,4-Dihydroxyphenylacetic acid,
in striatum,
effect of amphetamine, 1347
effects of haloperidol or morphine,
1432

benzylaminehydrochloride,
effects on 5-hydroxytryptamine uptake
and synthesis in brain *in vivo* and
in vitro, 935
- N,N-Dimethyltryptamine,
metabolism in rat brain homogenate, 1049
- 3,5-Dinitro-4-chloro- α,α,α -trifluorotoluene,
effect on liver mitochondria *in vitro*,
2485
- Dipalmitoyl-lecithin,
hydrolysis induced by phospholipase A2,
623
- Dipeptides,
uptake by intestine, effect of harmaline,
713
- 3,4-Diphenylacetic acid,
in sympathetic ganglia as indicator of
small intensley fluorescent cell
participation in ganglionic trans-
mission, 118
- Diphenylhydantoin,
effect on calcium uptake by synaptosomes,
957
- Diphenylhydantoin(contd.)
induction of β -glucuronidase and
alkaline phosphatase in cultured
dental pulp cells, 2143
- 2,5-Diphenyloxazole hydroxylase,
in liver microsomes, effect of
medroxyprogesterone acetate, 1155
- Dipyridamole,
effect on adenosine deaminase
inactivation by 2'-deoxycofomycin
2491
effect on adenosine uptake into
human platelets, 43
effect on human blood lymphocytes,
2515
- Diquat,
effect on acetylcholinesterase in
lung, 465
- Disulfiram,
effect on acetaldehyde in brain and
blood, 411
effect on aldehyde dehydrogenases
in rat liver, 3026
effect on benzo[a]pyrene metabolism
in small intestine and liver, 1517
- Dithiothreitol,
effect on metabolism of SKF 525-A
and SKF 8742-A, 2577
- Diuretics,
effect on calcium uptake and release
in renal microsomes, 2339
- L-DOPA,
effect of chronic therapy on
dopamine receptors, 701
incorporation into M. leprae,
inhibition by desoxyfructo-
serotonin, 2526
- DOPA decarboxylase inhibitors,
in Parkinson's disease, 3123

effect on action of chlorpromazine
and haloperidol on phospholipid
synthesis, 2697
in brain,
effect of contraceptive steroids,
821
effect of pridine, 2557
formation in synaptosomes, effect of
reserpine on stimulation by
amfonelic acid and amphetamine,
2957
metabolism in celiac ganglion,
modulation by receptor agonists
and antagonists, 118
metabolism in isolated perfused
brain, effect of chlorpromazine
and 7-hydroxychlorpromazine, 63
metabolism in striatum, mechanism
of morphine action, 1432
release from γ -glutamyl dopamide by
kidney, 69
sensitive adenylate cyclase in
striatum, connection with high
affinity spiperone binding sites,
1331
soluble binding sites in striatum,
2009
stimulation of ATPase in striatum,
857
storage pools in brain, 3045
synaptosomal uptake,
effect of clorgyline and
deprenyl, 2763, 3067
effect of LY125180, 935
synthesis in olfactory tubercle

- Dopamine(contd.)
 slices, effect of ethanol, 2477
- Dopamine β -hydroxylase,
 release from synaptosomes, 1302
- Dopamine receptors,
 in brain,
 blockade in vivo by neuroleptics, 267
 calf striatum, solubilization, 897
 effect of chronic L-DOPA therapy, 701
 human and rat, 1621
 effect of oxypertine, 2681
 use of thiopropazine as a ligand,
in vitro, 2933
in vivo, 2939
- Dopamine receptor D3,
 in human and rat brain, 1621
- Doxepin,
 effect on naloxone binding in brain, 460
- Doxorubicin,
 accumulation in cell lines, 1035
- Doxorubicin-DNA,
 accumulation in cell lines, 1035
- Ecto-5'-nucleotidase,
 in glioma cells, stimulation by
 chronic ethanol treatment, 2279
- Edema,
 induced by carbonyl compounds originating
 from peroxidation of liver microsomal
 lipids, 121
- Ehrlich ascites tumour cells,
 effect of dactylarin on ATP catabolism in,
 2155
 effect of misonidazole on purine
 metabolism in, 2533
- Eicosatetraynoic acid,
 inhibition of angiotensin receptors in
 adrenal glomerulosa, 927
 effect on lysosomal enzyme release by
 polymorphonuclear leukocytes, 533
- Elastase,
 from human polymorphonuclear leukocytes,
 inhibition by Arteparon, 1723
 secretion in peritoneal macrophages,
 effect of rifampin, 3039
- Elastin,
 interaction with platelets, effect of
 nicergoline, 943
- Electroconvulsive shock,
 effect on β -adrenergic receptor binding
 in guinea pig brain, 2895
- Electron transfer,
 in liver microsomes, effect of
 anaesthetics, 27
- Electroshock-induced convulsions,
 effect of benzodiazepines, 1703
- Ellipticines,
 preferential inhibition of NADPH-
 cytochrome P-450 reductase, 39
 structure-activity relationships in
 inhibitory effects of, 3231
- Enclomiphene,
 inhibition of liver microsomal
 oxidative metabolism and substrate
 binding, 1583
- Endocytosis,
 effect of cadmium acetate on uptake of
 ^{125}I -HSA in vitro, 3101
- Endometrium,
 effect of progesterone on monoamine
 oxidase in, 1857
- β -Endorphin,
 in human placental villus, 475
 inhibition of angiotensin I converting
 enzyme in lung, 3115
- Endothelial cells,
 interaction with platelets, effect
 of nicergoline, 943
- Endotoxin,
 induction of hepatic zinc-thionein,
 2260
 induced thromboplastin activity in
 human monocytes, 9
- Energy state,
 in brain, effect of psychotropic
 drugs, 15
- Enflurane,
 effect on hepatic stearate desaturase,
 27
 mechanism of defluorination in rat
 liver microsomes, 1623
- Enkephalins,
 inhibition of angiotensin I converting
 enzyme in lung, 3115
- Enovid,
 effect on bromosulphophthalein
 excretion by hamsters, 960
- Environmental factors,
 effect on amphetamine metabolism in
 rats, 221
- Epidermis,
 identification of β_2 -adrenergic
 receptor, 97
- Epoxide hydrase,
 in liver microsomes, effect of
 pyrrolizidine alkaloids from
 tansy ragwort, 2645
 in mammalian tissues, distribution
 and properties, 389
- Epoxide hydratase,
 in liver microsomes, selective
 induction, 3245
 in liver mitochondria, effect of
 carbamazepine oxide, 1109
- Epoxide hydrolase,
 in liver microsomes, effect of
 hydroxylated phenobarbital
 metabolites, 1127
- 2,3-Epoxypropyl 2,2,2-trifluoroethyl
 ether,
 role of cytochrome P-450 in toxicity,
 3257
- Erythrocytes,
 effect of deoxycoformycin, 1209
 effect of ethanol ingestion on
 antioxidant defence systems, 1737
 inhibition of adenosine deaminase by
 2'-deoxycoformycin in vivo, 187
 effect of inhibitors of Ca flux on
 deformability, 479
 interdependence of hemoglobin,
 catalase and glucose metabolism,
 2351
 role of membrane lipid peroxidation
 in hemolysis due to phenylhydrazine,
 1355
- Erythroleukemic cells,
 effects of succinylacetone, 1825
- Estradiol-17 β ,
 inhibition of absorption in rat
 intestine by acetylsalicylic acid,
 3017
- Estrogen-2-hydroxylase,
 distribution and response to hormone
 manipulation in the rat, 83
- Ethacrynic acid,
 binding to hepatic glutathione
 S-transferases in vivo, 1205
 effect on calcium uptake and release
 by kidney microsomes, 2339

- Ethacrynic acid(contd.)**
 chloretic action of, 2733
 effect on guanylate cyclase in coronary artery, 2943
 sodium-linked transport by rat liver, 2733
- Ethanol,**
 acetaldehyde in breath and blood during oxidation in man, 783
 effect on acetaldehyde in brain *in vivo*, 411
 effect on amphetamine metabolism in rats, 221
 effect on aniline hydroxylase in hamster liver microsomes, 685
 effect on calcium uptake by synaptosomes, 957, 1903
 effect on collagen synthesis by cultured fetal lung fibroblasts, 2417
 concentration dependent metabolism in perfused liver, 1029
 effect on drug metabolism in isolated hepatocytes, 1741
 elimination in rats, effect of castration and testosterone administration, 3175
 effect on erythrocyte antioxidant defence systems in rats, 1737
 effect on free proline and glutamate in intact rat liver, 1435
 effect on glycyl-prolyl dipeptidyl-aminopeptidase in pancreas and liver, 3210
 5-hydroxytryptophol on CSF during intoxication, 693
 induced alteration in male reproductive function, 1409
 induced fatty liver, effect of adenosine, 1709
 induced fluidization of brain lipid bilayers, 1673
 inhibition of Na^+ , $^+$ -ATPase, involvement of lipid and protein components of, 771
 inhibition of glycoprotein secretion in liver slices, 35
 interaction with chloral hydrate *in vivo* and *in vitro*, 3011
 interaction with other hepatotoxic agents, 1445
 metabolism in alcohol dehydrogenase negative *Peromyscus*, 125
 effect on monoamine synthesis regulation in brain regions, 2477
 oxidation by isolated hepatocytes, 2161
 effect on phospholipid turnover in brain, 2815
 effect of 6-n-propyl-2-thiouracil on metabolic rate, 2951
 stimulation of 3C glioma ecto-5'-nucleotidase, 2279
 effect on synthesis of ornithine decarboxylase and tyrosine amino-transferase in regenerating liver, 2799
- Ethanol-sucrose,**
 effect on liver polysomal poly(A)mRNA content and uridine incorporation into mRNA, 2993
- Ethanolamine O-sulphate,**
 effect on GABA metabolism in brain, 1451
- Ether-O-oxide,**
 in liver microsomes, 967
- Ethinyl estradiol,**
 effect on bile secretion and liver microsomal mixed function oxidase
- Ethinyl estradiol(contd.)**
 system in mice, 677
 effect on biogenic amines and monoamine oxidase in brain, 821
- Ethoxybenzamide,**
 deethylation by hepatocytes and liver microsomes, 2825
- 7-Ethoxycoumarin,**
 O-deethylation in liver microsomes, induction in young and geriatric rats, 1191
 effect of vinyltoluene, 2675
- 7-Ethoxycoumarin O-deethylase,**
 induction in rat hepatocytes, 577
 in intestinal microsomes, species differences in stimulation of, 1161
 in liver microsomes, effect of carbamazepine oxide, 1109
 genetically hyperglycaemic and streptozotocin treated rats, 1959
 effect of hydroxylated phenobarbital metabolites, 1127
 effect of medroxyprogesterone acetate, 1155
 effect of phenobarbitone, 3319
 in primary hepatocyte culture, effect of hormone supplemented medium, 1231
- 7-Ethoxyresorufin O-deethylase,**
 in primary hepatocyte culture, effect of hormone supplemented medium, 1231
- 5-Ethyl-deoxyuridine 5'-monophosphate,**
 antiviral properties, 2883
- Ethylmorphine,**
 inhibition of lipid peroxidation in liver microsomes, 565
 metabolism by liver microsomes, effect of castration, 3133, 3139
 effect of triarylethylenes, 1583
- Ethylmorphine demethylase,**
 in adrenal, effect of inhibitors, 951
 in liver microsomes, effect of *B. pertussis* components, 1483
 inhibition by ellipticine, 89
- Ethyl 4-nitrophenyl phenylphosphonothionate,**
 inhibition of acetylcholinesterase and neurotoxic esterase in brain, 2721
- Ethyl 2,2,2-trifluoroethyl ether,**
 role of cytochrome P-450 in toxicity, 3257
- Ethinyl substituted compounds,**
 destruction of cytochrome P-450, 3253
- Etorphine,**
 binding in placenta, 2657
- Etrenol,**
 effect on β -glucuronidase in liver, 2925
- Excitation-contraction coupling,**
 in skeletal muscle, source of trigger calcium, 2399
- Exocytosis,**
 in polymorphonuclear leukocytes, induction by fluoride, 3051
- Fasting,**
 effect on δ -aminolevulinic acid synthetase in heart, 795
- Fat cells,**
 antilipolytic action of insulin, 617
 effect of prostacyclin on cyclic AMP formation, 661

- Fatty acids,
 Ca^{2+} -dependent release in kidney,
 correlation with cyclic GMP
 accumulation, 717
 composition of serum lipids, effect of
 Triton WR-1339, 2879
 conjugation by liver microsomal system,
 inhibition by SKF 525-A and DPEA, 1071
 oxidation in liver, effect of adenosine,
 1709
- Fatty acid oxygenases,
 inhibition by onion and garlic oils, 3169
- Feminizing factor, 2759
- Fenbendazole,
 anthelmintic activity, 1981
- Fenfluramine,
 effect on brain 5-hydroxytryptamine
 metabolism, 3163
 effect on protein synthesis in
 newborn rats, 335
- Fenitrothion,
 inhibition of acetylcholinesterase and
 neurotoxic esterase in brain, 2721
- Fenproporex,
 effect on genetically lean and obese
 rats, 1612
- Ferrous ions,
 inactivation of phosphoenolpyruvate
 carboxykinase, protection by
 3-aminopicolinic acid, 325
- Fetus,
 amine oxidases in tissues, 1221
 collagen synthesis by cultured lung
 fibroblasts, effect of ethanol, 2417
- Fibroblasts,
 daunorubicin uptake, storage and
 release, 1687
 doxorubicin and doxorubicin-DNA
 accumulation, 1035
 fetal lung, effect of ethanol on
 collagen synthesis, 2417
 interaction with liposomes, 877
- Fish (Fundulus heteroclitus),
 induction of aryl hydrocarbon hydroxylase
 in embryo, 949
- Fish (Platichthys stellatus and Onchorhynchus
 kisutch),
 benzo[a]pyrene metabolism and DNA
 binding, 753
- Flavin mononucleotide,
 anaerobic reduction of nitroimidazoles,
 2684
- Flavoproteins,
 quinone reduction, 2567
- Flunarizine,
 prevention of vascular spasms, 479
- Fluoride,
 interaction with polymorphonuclear
 leukocytes, 3051
- Fluorinated ether anaesthetics,
 role of cytochrome P-450 in toxicity of,
 3257
- 5-Fluorodeoxyuridine,
 inhibition of cytidine deaminase, 807
 inhibition of phosphorolysis by
 2,4-pyrimidinedione derivatives, 1059
 resistant hepatoma cells, increased
 thymidylate synthetase in, 1549
- 5-Fluorouracil,
 effect on acetaminophen metabolism in
 normal and tumour-bearing rats, 1167
 in combination with hypoxanthine and
 allopurinol, toxicity and metabolism
 in human colonic carcinomas in mice,
 2077
- Fluoxetine,
 comparison with effects of LY125180,
 935
 effect on naloxone binding in brain,
 460
- Fluphenazine,
 partitioning and efflux from
 liposomes, 2361
- Flurazepam,
 anticonvulsant mechanism, 1703
- Fluorenone,
 degradation of cytochrome P-450, 2805
 role of cytochrome P-450 in toxicity,
 3257
- Folate,
 binding in milk and serum, effect of
 methotrexate, 3109
- Folate analogues,
 inhibition of buttermilk xanthine
 oxidase, 2135
 inhibition of dihydrofolate reductase,
 589
- Food,
 effect on amphetamine metabolism in
 rats, 221
- Formaldehyde,
 metabolism during in vitro drug
 demethylation, 2023
- Formycin,
 effect on synthesis and methylation
 of mRNA in L1210 cells, 1459
- N-Formyl-methionyl-leucyl-phenylalanine,
 induced enzyme release, effect of
 prostaglandins, non-steroid anti-
 inflammatory drugs and
 corticosteroids, 2389
- 2-Formylpyridine thiosemicarbazone,
 reductive removal of iron from
 transferrin, 1833
- Formyltetrahydrofolate synthetase,
 in L-cells, effect of antifolates,
 2741
- Fosazepam,
 anticonvulsant mechanism, 1703
- Fructose biphosphatase,
 in liver, radioimmunoassay, effect
 of hormones, 2891
- Ftorafur,
 structure of two hydroxylated
 metabolites, 665
- Fumaric acid,
 reduction of side effects of
 mitomycin C, 2339
- Furosemide,
 effect on calcium uptake and release
 by kidney microsomes, 2339
 inhibition of azathioprine metabolism
 in human liver in vitro, 1439
- G-418,
 ototoxicity and action on poly-
 phosphoinositide films, 597
- Galactosamine,
 inhibition of protein synthesis and
 secretion in liver, protective
 effect of (+)cyanidanol, 2258
- β -Galactosidase,
 release from liver lysosomes, effects
 of ischaemia and chlorpromazine,
 963
- Ganglionic transmission,
 role of small intensely fluorescent
 cells, 118
- Garlic oils,
 inhibition of fatty acid oxygenases,

- Garlic oils (contd.)
3169
- Gastric mucosa,
H⁺ and K⁺ transport in vitro, 2755
- Gastrointestinal microflora,
role in amygdalin metabolism and
toxicity, 301
- Gastrointestinal tract,
effect of barbiturate on distribution of
ascorbic acid, 1839
- Gastroprotection,
biochemical, 1281
- Gentamicin C_{1a},
ototoxicity and action on polyphospho-
inositide films, 597
- Geriatric rats,
induction of hepatic mixed function
oxidase enzyme system, 1191
- Germ free rats,
toxicity and metabolism of amygdalin,
301
- Gliclazide,
effect on ionophore-mediated calcium
transport, 1879
- Glioma cells C-6,
inhibition by methylmercuric chloride
of prostaglandin E₁-sensitive
adenylate cyclase, 201
effects of methylmercuric chloride, 539
stimulation of ecto-5'-nucleotidase by
chronic ethanol treatment, 2279
- Glucagon,
effect on bisphosphoglyceromutase in
erythrocytes, 517
effect on fructose bisphosphatase in
liver, 2891
induced hepatic gluconeogenesis; effect
of PGE₂, 681
stimulated lipolysis, inhibition by
insulin, 617
- Glucocorticoids,
effect on fructose bisphosphatase in
liver, 2891
in serum, effect of dantrolene, 1669
- Glucocorticoid sulfotransferase,
in liver, effect of progesterone, 3181
- Gluconeogenesis,
in isolated perfused liver, effect of
clonobutin, 1649
in kidney, effect of pirogliride, 1421
in hepatocytes, effects of monoamine
oxidase inhibitors, 1103
in liver,
effect of pirogliride, 1421
effect of prostaglandin E₂, 681
in renal cortical tubule fragments,
stimulation by adenosine, 828
- Glucose,
acetylcholine synthesis from in
synaptosomes, 167
effect on aspirin-induced ulceration,
1281
in blood,
effect of insulin and oral
antidiabetics, 1441
effect of phenformin, 2291
in brain, effect of psychotropic drugs,
15
consumption by isolated perfused rat
brain, effect of morphine and
methadone, 1608
consumption by L1210 cells, relationship
with proliferation, 2690
metabolism in red blood cells, inter-
dependence of hemoglobin and catalase,
- Glucose (contd.)
2351
in serum, effect of aspirin and
calcium, 1627
transport in biliary tree demonstrated
by segmented retrograde intra-
biliary injection technique, 213
utilization in adipocytes, effects of
insulin and hydrogen peroxide, 1239
utilization by pancreatic islets,
effect of mannoheptulose, 2625
Glucose 6-phosphate dehydrogenase,
in lung, effect of diethyldithio-
carbamate and O₂, 1367
- N-Glucosidation,
of amobarbital in vitro, 2085
- β-Glucuronidase,
in cultured dental pulp cells,
diphenylhydantoin induction, 2143
in liver, effect of schistosomicidal
drugs, 2925
modulation of chemotactic factor-
elicited release from neutrophils,
2389
release from polymorphonuclear
leukocytes,
effects of indomethacin, 5, 8, 11, 14-
eicosatetraynoic acid and β-bromo-
phenacyl bromide, 533
after phagocytosis of monosodium
urate, effect of colchicine
derivatives, 2146
in tissues of Schistosoma mansoni-
infected mice, effect of
oxamniquine, 429
- Glucuronidation,
in isolated liver cells, 2963
relevance of acceptor substrate
lipophilicity in 'late fetal'
UDP-glucuronosyl transferase, 999
- Glutamate,
effect of alanosine on metabolizing
enzymes, 227
in liver, effect of ethanol, 1435
release from brain slices, effects
of pentobarbital and Ca²⁺, 2189
release in brain, effect of morphine,
2777
release from synaptosomes, effects
of heptachlor epoxide, 1815
- Glutamate decarboxylase,
in brain,
effect of ethanolamine O-sulphate,
1451
effect of intraventricular
putrescine, 954
effect of phencyclidine, 2524
inhibition by alanosine, 227
in striatal synaptosomes, tetrodotoxin
inhibition of protoveratridine A
activation, 3034
- Glutaminase,
activity of L-asparaginase, inhibition
by L-alanosine, 227
pig brain, purification of soluble
form, 359
- Glutamine synthetase,
inhibition by L-alanosine, 227
- γ-Glutamyl dopamine,
and its carboxylic acid esters,
metabolism of, 69
- γ-Glutamyltransferase,
in female rat liver, effect of
imipramine and contraceptives, 2874
- Glutathione,

- Glutathione,
 in hepatocytes, chloroform induced depletion, 3059
 in hepatoma cells, effect of vinblastine, 2333
 in liver,
 effect of acetaminophen and its antagonists, 1968
 effect of repeated doses of bromobenzene, trichloroethylene and vinylchloride, 1041
 effect of vinyltoluene, species differences, 2675
 mitochondrial reduction of diazenes, 331
 role of conjugation in mutagenicity of 1,2-dibromoethane, 2975
 stimulation of prostaglandin synthetase in kidney, sex differences, 2635
 synthesis by liver supernatants, effect of phenobarbitone *in vivo*, 2695
 Glutathione S-aryltransferase,
 in liver,
 obese rats, 289
 effect of vitamin A deficiency, 2583
 Glutathione organic nitrate ester reductase,
 in liver, 1807
 Glutathione peroxidase,
 in erythrocytes, effect of ethanol ingestion, 1737
 in liver,
 effect of ethanol ingestion, 1737
 sex differences in effect of selenium deficiency, 39
 in lung, effect of diethyldithiocarbamate and O₂, 1367
 Glutathione reductase,
 in lung, effect of diethyldithiocarbamate and O₂, 1367
 Glutathione S-transferase,
 activity towards benz[a]anthracene 5,6-oxide in monkey liver, lung and kidney, 1589
 in erythrocytes, effect of ethanol ingestion, 1737
 in human placenta, 1677
 in liver,
 binding of ethacrynic acid *in vivo*, 1205
 effect of carbamazepine oxide, 1109
 effect of pyrrolizidine alkaloids from tansy ragwort, 2645
 sex differences in effect of selenium deficiency, 39
 Glycerol,
 incorporation into lipids in brain, effect of chlorpromazine, haloperidol and pimozone, 2679
 Glyceryl trinitrate,
 extension of blood half-life, 1807
 Glycine,
 release from brain slices, effects of pentobarbital and Ca²⁺, 2189
 Glycineamideribotide,
 effect of pyrazole derivatives on synthesis of, 163
 Glycogen,
 metabolism in human placenta, effect of isoproterenol and β -sympathomimetic drugs, 1123
 Glycogen phosphorylase,
 in heart, effect of acetylcholine following exposure to anoxia or isoproterenol, 1681
 Glycogen phosphorylase(contd.)
 in hepatocytes, correlation between activation of and dihydroergocryptine binding to plasma membranes, 1653
 in liver, activation mediated by α_1 -adrenergic receptor, 643
 in placenta, effect of isoproterenol and β -sympathomimetic drugs, 1123
 Glycogen synthase,
 in placenta, effect of isoproterenol and β -sympathomimetic drugs, 1123
 Glycoprotein,
 secretion in liver slices, effect of ethanol and acetaldehyde, 35
 Glycosaminoglycan polysulfate,
 inhibition of elastase from human polymorphonuclear leukocytes, 1723
 Glycyl-leucine,
 uptake by intestine, effect of harmaline, 713
 Glycyl-proline,
 uptake by intestine, effect of harmaline, 713
 Glycyl-prolyl dipeptidyl-aminopeptidase,
 in liver and pancreas, effect of ethanol, 3210
 Gold,
 binding to cytosolic proteins in liver and kidney, 2017
 Gold compounds,
 inhibition of mitogen-induced human lymphocyte proliferation, 3333
 Gold sodium thiomalate,
 effect on human synovial cells, 869
 Gonadectomy,
 effect on imipramine and lidocaine metabolism by liver of male and female rats, 2759
 Granulation tissue,
 effect of histamine on cyclic AMP in, 103
 effect of prostaglandin F_{2a}, 147
 Granule associated enzymes,
 modulation of chemotactic factor-elicited release from neutrophils, 2389
 Granulocytes,
 ecto-ATPase in, 2285
 muscarinic acetylcholine and opiate receptors in, 1361
 Guanethidine,
 inhibition of S-adenosyl methionine decarboxylase, 113
 Guanosine-3',5'-monophosphate,
 in brain, effect of apomorphine and RO 20-1724 *in vivo*, 369
 in brain regions and pituitary, effect of anaesthesia, 1891
 Ca²⁺-dependent accumulation in renal cortex, relationship with release of fatty acids, 717
 in cerebellum, effect of 5-methoxydimethyl-tryptamine, 827
 hydrolysis by brain phosphodiesterase inhibition by hypoxanthine, inosine and IMP, 277
 effect on renin release by renal cortex slices, 1933
 role in action of acetylcholine in heart, 1681
 role in vascular smooth muscle relaxation, 2943
 Guanosine triphosphate,
 effect on agonist interactions with

- Guanosine triphosphate(contd.)
 β -adrenergic receptors, 1317
 effect on 5-hydroxytryptamine-sensitive adenylate cyclase and 5-hydroxytryptamine binding in brain, 2445
 in regulation of adenylate cyclase, 853
 effect on spiperone binding sites, 1331
- Guanylate cyclase,
 in coronary artery, activators and inhibitors, 2943
- Gunn rat,
 abolition of deficiency of 2-aminophenol glucuronidation in liver by pentan-3-one, 3204
 inherited deficiency of hepatic UDP-glucuronyltransferase, in vitro stimulators, 2369
- H⁺,
 gastric transport in vitro, 2755
- Hageman factor,
 binding and dissociation in human plasma during contact activation, 1247
- Haloolefins,
 correlation of alkylating and mutagenic properties, 2611
- Haloperidol,
 effect on catecholamine transport by chromaffin granules, 1883
 effect on dihydroxyphenylacetic acid in striatum, 1432
 effect on lipid metabolism in brain slices, 2697
in vivo blockade of brain dopaminergic receptors, 267
- Halothane,
 effect on cyclic nucleotides in brain regions and pituitary, 1891
 effect on stability of calcium transport system in isolated sarcoplasmic reticulum, 375
- Hamster,
 differential induction of liver aniline hydroxylase, 685
- Harmaline,
 effect on amino acids and dipeptide uptake by monkey intestine, 713
 inhibition of monoamine oxidase in guinea pig liver mitochondria, 2049
 inhibition of monoamine oxidase in vivo, 2781
 effect on transport functions of isolated brush border and basolateral membrane vesicles, 2307
- Harmine,
 oxidation in hepatocytes, effect of ethanol, 1741
- Hb 419, 699, 180,
 effect on glucose kinetics in blood, 1441
- Heart,
 acetylcholine, inotropy and phosphorylase, 1681
 effects of adrenochrome on sarcolemmal ATPase activities, 559
 δ -aminolevulinic acid synthetase in, effects of fasting, cobaltous chloride and hemin, 795
 cardiac glycoside receptor, ATPase and force of contraction, 3219
 effects of chlorpromazine and imipramine on subcellular membranes, 629
 deamination of isomylamine, 1097
 effect of dibucaine on pyruvate and ketone body transport in mitochondria, 2877
- Heart(contd.)
 identification of ouabain binding sites of Na⁺,K⁺-ATPase, 1195
 effect of phospholipids on dihydroalprenolol binding to α -adrenergic receptor, 2791
 effect of propranolol on biochemical modifications induced by a β -adrenergic drug during ischaemia, 2687
 effect of SKF 525-A on mitochondrial function, 283
 effect of vanadate on cyclic AMP in papillary muscle, 1429
- HeLa cells,
 isolation of thymidylate synthetase, 723
- Hemachatus haemochatus,
 phospholipase A2 in venom, 1555, 1565
- Heme,
 biosynthesis in testes, effect of 1,2-dibromo-3-chloropropane, 2563
 degradation in rat brain, 1590
 effects of depletion on growth, protein synthesis and respiration of Friend cells, 1825
 metabolism in ascorbic acid-deficient guinea pigs, 1255
- Heme oxygenase,
 in liver, sex differences in effect of selenium deficiency, 39
- Hemicholinium-3,
 depleted acetylcholine levels in brain, effects of lithium, 654
- Hemin,
 effect on δ -aminolevulinic acid synthetase in heart, 795
- Hemoglobin,
 interdependence of catalase and hexose monophosphate shunt in red blood cells, 2351
- Hemolysis,
 in mice treated with deoxycoformycin, 1209
 role of red cell membrane lipid peroxidation, 1355
- Heparin,
 absence of effect on binding of prazosin and phenytoin to plasma proteins, 3337
- Hepatobiliary function,
 evaluation by segmented retrograde intrabiliary injection technique, 205, 213
- Hepatocytes,
 alphaxolone metabolism, 248
 effect of ammonium ions and chloroquine on protein degradation, 917
 chloroform-induced glutathione depletion and toxicity, 3059
 correlation between activation of glycogen phosphorylase in and dihydroergocryptine binding to plasma membranes, 1653
 digitoxin metabolism by, 3023
 effect of drug vehicles on N-demethylase activity, 2073
 effect of ethanol administration on drug metabolism, 1741
 ethanol oxidation by, 2161
 ethoxybenzamide deethylation, 2825
 formulation of culture media which maintain cytochrome P-450 at in vivo concentrations, 3215
 induction of 7-ethoxycoumarin

- Hepatocytes (contd.)
 O-deethylase, 577
 maintenance of cytochrome P-450 by pyridines, 1773
 effect on monoamine oxidase inhibitors on metabolism of, 1103
 primary culture, effect of hormone-supplemented medium on mono-oxygenase activities, 1231
 primary cultures for studying the metabolism of foreign chemicals, 2117
- Hepatoma cells,
 effect of disulfiram on aldehyde dehydrogenase in, 3026
 doxorubicin and doxorubicin-DNA accumulation, 1035
 5-fluorodeoxyuridine resistant, increased thymidylate synthetase in, 1549
 prostaglandins and cytostatic action of anti-inflammatory drugs, 311
 uptake and disposition of indomethacin, 2055
 effect of vinblastine on glutathione in, 2333
- 2,3,3',4,4',5,5'-Heptachlorobiphenyl, mixed induction capability, 259
- Heptachlor epoxide,
 effects on calcium mediated transmitter release from synaptosomes, 1815
- Herpes simplex,
 antiviral properties of 5-monophosphate of 5-propyl- and 5-ethyl-2'-deoxyuridine, 2883
- Hexachlorobenzene,
 lobes of rat liver respond at different rates, 3127
- α -Hexachlorocyclohexane,
 effect on rat liver growth and mono-oxygenase activities, 2169
- 1,2,3,4,9,9-Hexachloro-1,4,4a,7,8,7a,8a-octahydro-6,7-dimethyl-6,7-epoxy-1,4-methanonaphthalene,
 testicular neonatal imprinting of sex dependent differences in metabolism, 3133
 primary role of pituitary in sex dependent differences in hepatic metabolism, 3139
- Hexamethylmelamine,
 effect on drug metabolism in mice, 131
- Hexan-1-ol,
 effect on monoamine oxidase in liver mitochondria, 1177
- Hexestrol analogues,
 induction of uterine peroxidase, 3031
- Hexobarbital,
 interaction with cytochrome P-450, 747
 metabolism by perfused liver, effect of t-butyl hydroperoxide, 3112
 sleeping time, effect of cimetidine, 3075
- Hexose monophosphate shunt,
 in red blood cells, interdependence of hemoglobin and catalase, 2351
- HI-6,
 reactivation of soman-inhibited acetylcholinesterase, 2379
- Hippocampus,
 effect of ethanol on monoamine synthesis in slices of, 2477
- Histamine,
 antigen-induced release from lung, effect of adenosine, 1085
 calcium-dependent secretion from mast cells, effect of wheat germ
- Histamine (contd.)
 agglutinin, 455
 effect on cyclic AMP in granulation tissue, 103
 in exudate from dextran-induced paw edema, effect of compound 48/80, 1073
 effect on H^+ and K^+ transport in gastric mucosa in vitro, 2755
 hydrogen peroxide induced release from mast cells, 741
- Histamine methyltransferase,
 gastric mucosa, methylation of imidazole compounds, 1399
 in kidney, inhibition by impromidine, 2897
- Histamine receptors,
 in aorta cells, association with adenylate cyclase, 3155
- Histamine-sensitizing factor,
 B.pertussis, effect on hepatic drug metabolism, 1483
- Histaminic drugs,
 separate binding sites in cerebral cortex, 2269
- Histidine decarboxylase,
 inhibition by impromidine, 2897
- Homocholine,
 accumulation and metabolism by brain subcellular fractions, 1949
- Homovanillic acid,
 in CSF, effect of chronic L-DOPA therapy, 701
 in striatum, effect of chlorpromazine and 7-hydroxychlorpromazine, 63
- Hormone receptors,
 binding energy and activation of, 853
- HS-3 and HS-6,
 interaction with brain muscarinic receptor, 483
- Human drug metabolism,
 new in vitro approach, 271
- Hycanthone,
 antischistosomal activity, 1981
- Hydrallazine,
 effect on vitamin B6 function in rats, 3097
- Hydrazine,
 prenatal induction of Na^+, K^+ -ATPase in hamster intestine, 251
- Hydrogen peroxide,
 as a messenger of insulin, 1239
 generation in lung microsomes, effect of bleomycin, 3239
 effect on hemoglobin, catalase and glucose metabolism in red blood cells, 2351
 induced histamine release from mast cells, 741
- Hydrogen sulfide,
 role of thiol S-methyltransferase in detoxication, 2885
- Hydroxamic acid derivatives,
 effect on DNA synthesis in human cells, 1275
- N-Hydroxyacetaminophen,
 lack of evidence for reactive metabolite of acetaminophen in vitro, 1617
- N-Hydroxy-2-acetylaminofluorene,
 reduction by liver microsomes, 4183
- 3-Hydroxy-anthranilate oxidase,
 in liver, effects of Benserazide, Carbidopa and isoniazid, 707
- 145I-hydroxybenzylpindolol,

- 1-(5)-hydroxybenzylpindolol,
binding in astrocytoma cells, effect of
dexamethasone, 2151
- 3-Hydroxybutyrate,
transport in heart mitochondria, effect
of dibucaine, 2877
- N-Hydroxychlorphentermine,
fate in the rat, 1325
- 7-Hydroxychlorpromazine,
comparison with effects of chlorpromazine
in perfused brain, 63
- 6-Hydroxycortisol,
urinary excretion in marmoset monkey,
effect of phenobarbitone, 3319
- 7-Hydroxycoumarin O-alkyl derivatives,
sex differences in O-dealkylation
activity in rat microsomes, 1015
- 4-Hydroxycyclophosphamide/aldophosphamide,
metabolism *in vitro*, 2903
- 6-Hydroxydopamine,
effect on desipramine binding in fetal
rat cerebral cells, 1755
effect on hemoglobin, catalase and
glucose metabolism in red blood
cells, 2351
- 12-Hydroxyelicosatetraenoic acid,
effect of timegadinine on formation of,
3265
- 5-Hydroxyindoleacetic acid,
in brain, effect of 2-(p-chlorophenyl)-
cyclopropylamine, 3328
- Hydroxyindoles,
microassay in biological materials, 3020
- Hydroxylation,
by liver microsomes, activation by
betamethasone and α -naphthoflavone,
2345
- 16-Hydroxylation,
of androstenedione in trout liver
microsomes, 583
- 3-Hydroxy-3-methylglutaryl-CoA reductase,
in liver, inhibition by mono- and
bicyclic-monoterpenes, 2125
- p- and m-Hydroxyphenobarbital,
effects of *in vivo* administration, 1127
- 17-Hydroxyprogesterone,
effect on adrenal xenobiotic metabolism,
2373
- 11-Hydroxy- Δ^9 -tetrahydrocannabinol,
fatty acid conjugation by liver micro-
somes, inhibition by SKF 525-A and
DPEA, 1071
- 5-Hydroxytryptamine,
accumulation by platelets, action of
immobilized neuraminidase, 3189
effect of an agonist on cyclic GMP
in cerebellum, 827
binding to rat brain membranes,
inhibition by 1-phenyl-piperazines,
833
binding sites in brain,
properties, 2445
regional and subcellular distribution
and ontogenetic development, 2455
in brain,
effect of 2-(p-chlorophenyl)cyclo-
propylamine, 3328
effect of contraceptive steroids, 821
effect of prirdefine, 2557
effect on free amino acid composition of
stomach and plasma and on protein
synthesis in stomach, 1855
induced release of noradrenaline from
cerebral arteries, 840
metabolism in brain, effect of releasing
- 5-Hydroxytryptamine (contd.)
agents, 3163
metabolism in nervous system, effect
of ethanol, 693
microassay in biological materials,
3020
oxidation by monoamine oxidase B of
rat brain, 1213
release from brain slices, effects
of pentobarbital and Ca^{2+} , 2189
sensitive adenylate cyclase in brain,
properties, 2445
regional and subcellular distrib-
ution and ontogenetic development,
2455
synaptosomal uptake, effect of
clorgyline and deprenyl, 2763
uptake and synthesis in brain,
effect of LY125180 *in vivo* and
in vitro, 935
- 5-Hydroxytryptamine receptors,
in aorta cells, association with
adenylate cyclase, 3155
in brain,
effect of oxypertine, 2681
solubilization, 3341
involvement in antidepressant drug
action, 2709
in synaptosomal plasma membrane,
effect of cholesterol, 3325
- 5-Hydroxytryptamine releasing agents,
comparative effects in mice, 3163
- 5-Hydroxytryptophol,
in CSF from alcoholics, 693
- Hyperglycaemic mice,
mono-oxygenase activities in, 1959
- Hypertension,
angiotensin-converting enzyme
inhibitors for treatment of, 1871
- Hypertensive rats,
vascular β -adrenergic receptors in,
1465
- Hyperthermia,
sensitivity of hypoxic cells, 1
- Hypophysectomy,
effect on hepatic drug metabolism,
3139
effect on imipramine and lidocaine
metabolism by liver of male and
female rats, 2759
- Hypoxanthine,
inhibition of cyclic nucleotide
phosphodiesterase in brain, 277
inhibition of GABA binding to brain
membranes, 1217
- Hypoxic tumour cell,
chemotherapy, 1
- Ileum,
muscarinic receptor sensitivity
after DFP, 1391
- Imidazole compounds,
methylation by gastric histamine
methyltransferase, 1399
- Imipramine,
effect on γ -glutamyltransferase in
liver of female rats, interaction
with contraceptives, 2874
effect on heart subcellular
membranes, 629
metabolism by liver of male and
female rats, effects of gonade-
ctomy and hypophysectomy, 2759
effect on naloxone binding in brain,
460

- Immune complexes,
induced thromboplastin activity in human monocytes, 9
- Immunosuppressants,
activity of *N*-acetyl-3-sulphonamoyl-L-alanine methyl ester *in vitro* and *in vivo*, 1767
- Impromidine,
inhibition of histamine methyltransferase histidine decarboxylase and diamine oxidase, 2897
- Indicine *N*-oxide,
pyridine nucleotide cofactor requirement for microsomal reduction of, 347
- Indocyanine green,
hepatic transport in carbon tetrachloride intoxicated rats, 1291
- Indomethacin,
binding to human serum albumin microspheres, 1759
cytostatic activity, role of prostaglandins, 311
effect on lysosomal enzyme release by polymorphonuclear leukocytes, 533
reaction with singlet molecular oxygen, 1337
effect on thromboplastin activity in human monocytes, 9
uptake and disposition in cell cultures, 2055
- Inflammation,
dextran induced, effect of compound 48/80, 1073
effect of prostaglandin biosynthesis stimulators, 1863
effect of penicillamine on macrophage phagocytosis, 2273
role of carbonyl compounds originating from peroxidation of liver microsomal lipids, 121
- Inosinate dehydrogenase,
inhibition by 6-azauridine, 2261
- Inosine,
inhibition of cyclic nucleotide phosphodiesterase in brain, 277
inhibition of GABA binding to brain membranes, 1217
- Inosine 5'-monophosphate,
inhibition of cyclic nucleotide phosphodiesterase in brain, 277
- Insulin,
antilipolytic action in perfused fat cell system, 617
degradation in β cell, effect of mannoheptulose, 2625
hydrogen peroxide as a messenger of, 1239
and oral antidiabetics, effect on glucose kinetics in blood, 1441
production by isolated pancreatic islets, inhibition by chloroquine, 1729
in serum, effect of aspirin and calcium chloride, 1627
- Intestinal contents,
formation of free radical intermediates during nitrous oxide metabolism, 3037
- Intestinal epithelial cells,
effects of prostaglandins E_2 and I_2 on adenylate cyclase in, 673
- Intestinal flora,
role in metabolism of misonidazole, 3281
- Intestine,
angiotensin I converting enzyme of brush border, man and pig, 1525
effect of barbiturate on ascorbic acid distribution, 1839
- Intestine (contd.)
effects of disulfiram and diethyl-dithiocarbamate on benzo[a]pyrene metabolism, 1517
effect of harmaline on uptake of dipeptides, 713
inhibition of estradiol-17 β absorption by acetylsalicylic acid, 3017
effects of phenolphthalein and harmaline on transport functions of brush border and basolateral membrane vesicles, 2307
prenatal induction of Na^+ , K^+ -ATPase, 251
role in metabolic inactivation of tyramine, 2551
role of thiol *S*-methyltransferase in detoxication of hydrogen sulfide, 2885
screening method for agents affecting lipid absorption, 1475
species differences in stimulation of mixed-function oxidases, 1161
- Iodobradykinins,
receptor binding, 175
- Iodoxybenzylpindolol,
binding in artery membranes from deoxycorticosterone-salt hypertensive rats, 1465
examination of β -adrenergic receptors, 1317
- Ionophore A23187,
effect on cyclic AMP in human mononuclear leukocytes, 1991
induced histamine release from peritoneal mast cells, effect of adenosine, 1085
induced thromboplastin activity in human monocytes, 9
mediated calcium transport, effect of sulfonamides, 1879
- Ionophore X537A,
induced release of noradrenaline from cerebral arteries, 840
- Iproniazid,
effect on *N,N*-dimethyltryptamine metabolism in brain, 1049
effect on hepatic metabolism, 1103
- Iris,
muscarinic and α -adrenergic receptors in, 2713
- Iron,
inactivation of phosphoenolpyruvate carboxykinase, protection by 3-aminopicolinic acid, 325
in rat tissues after cadmium loading, 2407
reductive removal from transferrin, 1833
stimulated lipid peroxidation in liver microsomes, substrate inhibition, 565
- Iron chelating agents,
effect on DNA synthesis in human cells, 1275
- Iron-EDTA,
effect on chromosome aberrations induced by isoniazid, 842
- Ischaemia,
alteration in liver lysosomal enzymes, effect of chlorpromazine, 963
- Islets of Langerhans,
effect of chloroquine on insulin production, 1729

- Isoamylamine,
 deamination by monoamine oxidase in rat
 liver and heart mitochondria, 1097
 3-Isobutyl-1-methylxanthine,
 effect on histamine action on cyclic AMP
 in granulation tissue, 103
 Isocarboxazid,
 metabolism *in vitro* by monkey liver
 microsomal carboxylesterase, 1491
 Isoleucine,
 effect of isoprenaline infusion on
 disposition of, 509
 Isometallothioneins,
 in rat tissues after cadmium loading,
 2407
 Isoniazid,
 induced chromosome aberrations,
 enhancement by transition metals, 342
 penetration of preimplantation
 blastocyte, 1663
 inhibition of tryptophan-niacin
 metabolism, 707, 2099
 Isoprenaline,
 effect of infusion on distribution of
 tryptophan, tyrosine and isoleucine
 between brain and other tissues, 509
 Isopropylantipyrine,
 new metabolites in the rat, 2705
 Isoproterenol,
 effect of acetylcholine on response to,
 1681
 biochemical modifications in ischaemic
 heart, effect of propranolol, 2687
 effect on labelling of brown fat cell
 phospholipids, 3330
 effect on placental glycogen metabolism,
 1123
 effect on sodium fluxes across rabbit
 colon *in vitro*, 1271
 stimulation of phosphatidylcholine
 breakdown in liver plasma membranes,
 2521
 effect on thyroid adenylate cyclase, 1966
 Isosulpride,
 effect on *in vivo* binding of spiroperidol
 in brain regions, 267
 Isoxsuprine,
 effect on glycogen metabolism in human
 placenta, 1123
 Lactic acid,
 effect on (3H)-ADPN binding in striatum,
 1645
 effect on Na^+ , K^+ -ATPase in striatum, 857
 effect on 5-hydroxytryptamine-sensitive
 adenylate cyclase and 5-hydroxy-
 tryptamine binding sites in brain,
 2455
 Lallikreins,
 in acetone-activated human plasma, 77
 binding in plasma to kaolin surface
 during contact activation, 1247
 Kanamycin A and B,
 ototoxicity and action on polyphospho-
 inositide films, 597
 Ketone-body,
 transport in heart mitochondria, effect
 of dibucaine, 2877
 Kidney,
 adenylate cyclase in, effect of
 alazethicin on hormonal activation,
 51
 adenosine stimulation of gluconeogenesis
 in cortical tubule fragments, 828
 p-aminohippurate transport, 983
 Kidney (contd.)
 Ca^{2+} -dependent accumulation of
 cyclic GMP, 717
 chick embryo, induction of δ -amino-
 levulinic acid synthetase, 458
 effect of diuretics on calcium
 uptake and release in microsomes,
 2339
 identity of bismuth-binding proteins,
 2913
 metabolism of γ -glutamyl dopamine, 69
 metal content and isometallothionein
 levels after cadmium loading, 2407
 monkey, glutathione S-transferase
 activity towards benz[a]anthracene
 5,6-oxide, 1589
 oxidation of sodium sulphide, 2431
 effects of phenolphthalein and
 harmaline on transport functions
 of brush border and basolateral
 membrane vesicles, 2307
 renin release by cortex slices,
 effect of cholinergic agents and
 cyclic GMP, 1933
 RNA polymerase in cortical and
 medullary mitochondria, effect
 of aldosterone, 1575
 sex differences in stimulatory action
 of cofactors on prostaglandin
 synthetase, 2635
 effect of vinyltoluene on
 glutathione in, 2675
 Kidney cells,
 effect of ethanol on paracetamol
 activation, 1741
 Kininases,
 in human polymorphonuclear
 leukocytes, 2235
 Kinin receptor,
 binding of iodinated analogues of
 bradykinin, 175
 Kininogen,
 binding and dissociation in human
 plasma during contact activation,
 1247
 Mynureninase,
 in liver, effects of Benserazone,
 Carbidopa and isoniazid, 707
 Mynurenine,
 metabolism in liver of normal and
 S. mansoni infected mice, effect
 of oxamniquine therapy, 2513
 Mynurenine aminotransferase,
 in kidney, effect of hydrallazine
 and phenelzine, 3097
 Lactate,
 in blood, effect of phenformin, 2291
 formation in heart, effects of
 ischaemia, isoproterenol and
 propranolol, 2687
 Lactate dehydrogenase,
 in L-cells, effect of antifolates,
 2741
 Lanthanum,
 effect on guanylate cyclase in
 coronary artery, 2943
 L-cells,
 target and non-target, response to
 aminofolates, 2741
 Lectins,
 effect on thromboplastin activity of
 human monocytes, 9
 Leishmania donovani,
 effect of allopurinol and its ribo-
 nucleoside on intracellular forms,

Leishmania donovani(contd.)

2397

Leptophos,

inhibition of acetylcholinesterase and neurotoxic esterase in brain, 2721

Leukemia cells L1210,

effects of adenosine analogues on methylation of mRNA, 1459

analogue specific aberrances in antifolate inhibition of dihydrofolate reductase, 3293

2,4-diamino-5-(3',4'-dichlorophenyl)-6-methylpyrimidine resistance, 2241

doxorubicin and doxorubicin-DNA accumulation, 1035

extracellular recovery of methotrexate-polyglutamates following efflux, 2701

inhibition of adenosine deaminase by 2'-deoxycofomycin *in vivo*, 187

interaction with liposomes, 877

relationship between glycolysis and proliferation, effect of RA-233, 2690

effect of sangivamycin and thiosangivamycin on nucleic acid synthesis in, 305

toxicity of showdomycin and maleimide, 2199

Leukemic lymphoblasts,

methotrexate resistant, effect of lipophilic antifolates, 648

Leukocytes,

drug-sensitive ecto-ATPase in, 2285

inhibition of DNA polymerases by 2',3'-dideoxythymidine triphosphate, 1149

muscarinic acetylcholine and opiate receptors in, 1361

Levamisole,

anthelmintic action, 1931

Leydig cells,

inhibition of testosterone production by cannabinoids, 2153

Lidocaine,

interaction with brain α -adrenergic and muscarinic receptors, 155

metabolism by liver of male and female rats, effects of gonadectomy and hypophysectomy, 2759

Lignocaine,

effect on monoamine oxidase in liver mitochondria, 1177

Lilly 51641,

inhibition of monoamine oxidase in guinea pig liver mitochondria, 2049

Limonene,

inhibition of hepatic cholesterol synthesis, 2125

metabolism by liver microsomes to non-mutagenic epoxides, 1068

Limulus polyphemus,

insularity of cholinergic components in CNS, 1603

Lipase,

in adipocytes, mediation of effects of insulin by hydrogen peroxide, 1239

Lipid,

in brain, thermotropic properties in the presence and absence of local anaesthetics, 849

inhibition of hepatic biosynthesis by 1-(3-chlorophenyl)-1-methyl-2-phenyl-2-(2-pyridine)ethanol, 3207

metabolism in brain slices, effect of chlorpromazine, haloperidol and pimozide, 2697

Lipid(contd.)

screening method for agents affecting absorption, 1475

in serum, effect of Triton WR-1339 on fatty acid composition, 2879

substitution of liver mitochondrial membrane, effect on monoamine oxidase in, 3211

Lipid bilayers,

brain, ethanol-induced fluidization, 1673

Lipid monolayers,

 Ca^{2+} replacement by cationic amphiphilic drugs, 2969

complex between adriamycin derivatives and cardiolipin, 3003

Lipid peroxidation,

effect of carbonyl compounds on inflammation, 121

by liver microsomes,

effect of bleomycin, 3239

substrate inhibition, 565

by lung microsomes, effect of bleomycin, 3239

in red cell membranes, role in hemolysis due to phenylhydrazine, 1355

Lipogenesis,

in adipocytes, mediation of effects of insulin by hydrogen peroxide, 1239

Lipophilic compounds,

effect on monoamine oxidase in liver mitochondria, 1177

Lipolysis,

inhibition by insulin in perfused fat cell system, 617

Lipoprotein,

tetrachlorodibenzodioxin induced changes, 835

Liposomes,

complex between adriamycin derivatives and cardiolipin, 3003

interaction with chlorophenols, monitored with AMS, 2471

interaction with cultured cells, effect of serum, 877

partitioning and efflux of phenothiazines, 2361

Lipoxidase,

in seminal vesicle microsomes, effect of prostaglandin biosynthesis stimulators, 1863

Lipoxygenase,

in platelets, inhibition by timegadine, 3265

Lithium,

effect on ATPases in cerebral synaptic membranes *in vitro*, 807

effect on cholinergic system in brain regions, 654

dietary, effect on Na^+ , K^+ -ATPase in brain, 2819

effect on sodium transport in skin epithelial cells, 2265

Lomustine,

effect on drug metabolism in mice, 131

Lorazepam,

anticonvulsant mechanism, 1703

Lung,

acetylcholinesterase in, effect of paraquat and related herbicides, 465

adenosine potentiation of antigen-induced histamine release, 1085

- Lung (contd.)
 effect of bleomycin on oxidative metabolism in microsomes, 3239
 fetal, collagen synthesis by cultured fibroblasts, effect of ethanol, 2417
 human, monoamine oxidase A in, 777
 increase in antigen-induced release of slow reacting substance of anaphylaxis by sodium fluoride, 1843
 inhibition of angiotensin I converting enzyme by opoid peptides, 3115
 monkey, glutathione S-transferase activity towards benz[a]anthracene 5,6-oxide, 1589
 oxidation of sodium sulphide, 2431
 phenol conjugation *in vivo*, 471
 β -Phenylethylamine uptake and metabolism, 489
 prediction of mescaline clearance from enzyme kinetic data, 253
 thromboxane A₂ release, 319
 Luteinizing hormone,
 in serum, effect of norlaudanosoline-carboxylic acid, 57
 Lymphocytes,
 effects of dipyrindamole, 2515
 ecto-ATPase in, 2285
 effect of iron chelating agents on DNA synthesis in, 1275
 effects of polychlorinated biphenyls on membranes, 3311
 sulphhydryl dependence of inhibition of mitogen-induced proliferation, 3333
 Lysolecithin,
 solubilization of serotonin receptors from rat frontal cortex, 3341
 Lysosomal enzymes,
 release from polymorphonuclear leucocytes, 533
 Lysosomes,
 alterations in ischaemic rat liver, effect of chlorpromazine, 963
 Lysozyme,
 modulation of chemotactic factor elicited release from neutrophils, 2389
 secretion in macrophages, effect of rifampin, 3039
 Macrophages,
 effect of D-penicillamine on phagocytosis *in vitro* and *in vivo*, 2273
 effect of rifampin on elastase and lysozyme secretion, 3039
 stimulation of secretion of plasminogen activator by microtubule disrupting agents and deuterium oxide, 2545
 xanthine oxidase increase in pathological situations, 1945
 Magnesium,
 effect on coronary arterial guanylate cyclase, 2943
 Manganese,
 effect on ATPase activity and choline uptake in brain synaptosomes, 141
 effect on chromosome aberrations induced by isoniazid, 842
 effect on coronary arterial guanylate cyclase, 2943
 Maleimide,
 toxicity and mechanism of action *in vitro*, 2199
 Malic enzyme,
 in liver, effect of 3-methylcholanthrene, 697
 Mannoheptulose,
 effect on pancreatic islet function, 2625
 Mast cells,
 effect of adrenaline on hydrolysis of arginine and tyrosine esters, 419
 properties of hydrogen peroxide-induced arginine release, 741
 protease in, 1715
 MD 780515,
 effect on tyramine metabolism in intestine, 2551
 Mebendazole,
 anthelmintic activity, 1981
 Medroxyprogesterone acetate,
 dose-dependent effects on hepatic drug metabolism, 1155
 Melphalan,
 biliary excretion by control and anuric rats, 2518
 Membrane protein,
 drug interaction, 2651
 Menthol,
 inhibition of hepatic cholesterol synthesis, 2125
 Menthone,
 inhibition of hepatic cholesterol synthesis, 2125
 Mepyramine,
 antagonism of histamine action on cyclic AMP in granulation tissue, 103
 binding in cerebral cortex, 2269
 Mequitazine,
 partitioning and efflux from liposomes, 2361
 (4R)-3[(2S)-3-Mercapto-2-methylpropanoyl]-4-thiazolidine carboxylic acid,
 inhibition of angiotensin I converting enzyme, 1543
 Mersalyl acid,
 effect on calcium uptake and release by kidney microsomes, 2339
 Mescaline,
 prediction of clearance by rabbit lung and liver from enzyme kinetic data, 253
 Mestranol-Norethynodrel,
 interaction with imipramine on effect on γ -glutamyltransferase in female rat liver, 2874
 Metallothioneins,
 gold binding to cytosolic proteins, 2017
 in liver and kidney of cadmium-treated rats, effect of aflatoxin, 1852
 in rat tissues after cadmium loading, 2407
 Metallothionein dimers,
 in liver, isolation and characterization, 689
 Methadone,
 effect on isolated perfused rat brain, 1608
 d-Methamphetamine,
 inhibition of monoamine oxidase, 2071
 Methionine,
 effect on hepatic glutathione after acetaminophen overdose, 1969
 transport in Walker carcinoma, effect of Ro07-7957, 501
 Methionine enkephalin,
 in human placental villus, 475
 Methionine synthetase,

- Methionine synthetase,
in L-cells, effect of antifolates, 2741
- Methotrexate,
effect on folate binding in milk and serum, 3109
inhibition of dihydrofolate reductase, 589
resistant human leukemic lymphoblasts, effect of methotrexate esters and other lipophilic antifolates, 648
- Methotrexate-polyglutamates,
extracellular recovery following efflux from L1210 cells, 2701
- p-Methoxyamphetamine,
inhibition of monoamine oxidase *in vivo*, 2781
- 5-Methoxy-dimethyl-tryptamine,
effect on cyclic GMP in cerebellum, 827
- Methoxyflurane,
effect on hepatic stearate desaturase, 27
- 3-Methoxy-4-hydroxyphenylethyleneglycol,
in CSF, effect of chronic L-DOPA therapy, 701
- 3-Methoxy-4-hydroxyphenylethyleneglycol sulfate,
in brain, single-dose tolerance to effects of morphine, 2249
- p-Methoxyphenylethylamine,
effect on brain 5-hydroxytryptamine metabolism, 3163
- Methoxyverapamil,
interaction with brain α -adrenergic and muscarinic receptors, 155
- Methyl 4-amino-4-deoxy-10-methylpterolate,
inhibition of dihydrofolate reductase, 589
- 3-Methylcholanthrene,
effect on androstenedione metabolism in trout liver microsomes, 583
effect on aniline hydroxylase in hamster liver microsomes, 685
effect on capacity of liver to form NADPH, 697
enhanced biotransformation of nitrofurantoin in rats, 263
effect on estrogen-2-hydroxylase in rats, 83
induction of cytochrome P-448, circadian rhythm of the influence of actinomycin D, 1201
induction of dimethylnitrosamine demethylase in liver, 1375
induction of UDP-glucuronyl transferase in rat tissues, 495
effect on metabolism and hepatotoxicity of acetaminophen, effect of fasting, 2219
mutagenicity, effect of ellipticines, 3231
stimulation of mixed-function oxidases, species differences, 1161
- 3'-Methyl-4-dimethylaminoazobenzene,
uptake, distribution and macromolecular binding of metabolites in liver, effect of chloramphenicol, 2252
- Methylenedioxybenzenes,
carbon monoxide generation during microsomal metabolism, 1113
- 4-Methyl- α -ethyl-m-tyramine,
effect on brain 5-hydroxytryptamine metabolism, 3163
- N¹⁰-Methylfolate,
methotrexate impurity, inhibition of folate binding in milk and serum, 3109
- Methylmercuric chloride,
effect on gene expression in neural cells, 539
inhibition of PGE₁-sensitive adenylate cyclase in glioma cells, 201
- Methylneobiosamine,
ototoxicity and action on polyphosphoinositide films, 597
- Methylparathion,
inhibition of acetylcholinesterase and neurotoxic esterase in brain, 2721
- N-Methylphenylethylamines,
as monoamine oxidase substrates, 2663
- 4-N-Methyl piperidyl benzilate,
effect of bis-pyridinium oximes in brain, 483
- 2-Methyl-2-propanol,
effect on synthesis of ornithine decarboxylase and tyrosine aminotransferase in regenerating liver, 2799
- 4-Methylpyrazole,
effect on ethanol oxidation by isolated hepatocytes, 2161
- 5-Methylquinazoline antifolate CB3703,
metabolic effects in mouse cells, 2741
- 5'-Methylthioadenosine,
blockade of effect of adenosine on ADP-induced platelet aggregation, 2529
- Methylumbelliferone,
conjugation in isolated liver cells, 2963
- Metrifonate,
antischistosomal activity, 1981
- Metronidazole,
radiosensitization, hypoxic cytotoxicity, 1
- Metyrapone,
effect on androstenedione metabolism in trout liver microsomes, 583
carbonyl reductases in rabbit liver, 1503
effect on drug metabolism in adrenal, 951
effect on P-450 reductase and cytochrome c reductase in liver microsomes, 89
- Mevalonate,
incorporation into sterols in brain, effect of AY-9944 and U18666A, 2751
- Mezilamine,
effect on *in vivo* binding of spiroperidol in brain regions, 267
- Mianserin,
binding in calf caudate, 2709
effect on naloxone binding in brain, 460
- Microtubule disrupting agents,
stimulation of secretion of plasminogen activator from macrophages, 2545
- Misonidazole,
metabolism, brain penetration and toxicity, effect of dexamethasone, 2769
effect on purine metabolism in Ehrlich ascites tumour cells, 2533
radiosensitization, hypoxic

- Misonidazole(contd.)
 cytotoxicity, 1
 relationship between cytotoxicity and base composition of DNA, 2095
 role of intestinal flora in metabolism of, 3281
- Mitochondria,
 heart,
 effect of barbiturates on calcium induced loss of respiratory control, 1455
 effect of dibucaine on pyruvate ketone body transport, 2877
 protection of oxidative phosphorylation by bencyclane, 1385
 effect of SKF 525-A on function of, 283
 kidney, effect of aldosterone on RNA polymerase in, 1575
 liver, effect of amyltal on membrane permeability, 2325
- Mitomycin C,
 hypoxic tumour cell chemotherapy, 1
 reduction of side effects by fumaric acid, 2839
- MMB-4,
 interaction with brain muscarinic receptor, 483
- Monkey(*Callothrrix jacchus*),
 effect of phenobarbitone on urinary 6-hydroxycortisol excretion and hepatic enzyme activity, 3319
- Monoamine oxidase,
 in brain,
 effect of 2-(p-chlorophenyl)cyclopropylamine, 3328
 in circumventricular structures, inhibition by clorgyline and deprenyl, 2871
 effect of contraceptive steroids, 821
 5-hydroxytryptamine oxidation by type B, 1213
 inhibition by d-methamphetamine, 2071
 N-methylphenylethylamines as substrates, 2663
 effect of portocaval shunt, 2831
 in striatum, *in vivo* inhibition by d-amphetamine, 1347
 subcellular localization of types A and B, 3067
 in chick organs, 603
 in genital tract, effect of progesterone, 1857
 in heart, isoamylamine deamination, 1097
 in human placenta, lung and liver, substrates and inhibitors, 777
 in human placenta and platelets, molecular weight differences, 2595
 in human tissues during development, 1221
 in liver,
 guinea pig, 2049
 isoamylamine deamination, 1097
 effect of lipid substitution of mitochondrial membrane, 3211
 effect of lipophilic compounds, 1177
 effect of portocaval shunt, 2831
 riboflavin-deficient rats, 2693
 effect of sonication, 1185
 substrate-selective interaction with oxygen, 2225
 turnover of A and B forms, 891
- Monoamine oxidase inhibitors,
 effect on amine uptake by synaptosomes, 2763
 effect on 'first-pass' metabolism of
- Monoamine oxidase inhibitors(contd.)
 tyramine in dog intestine, 2551
 in human urine, 467
 reversible, assessment of potency, 2781

microsomal metabolism, 341
- Nitrofurantoin,
enhanced biotransformation in rats after induction with 3-methyl-cholanthrene or β -naphthoflavone, 263
- 4-(5-Nitro-2-furyl)thiazole,
reductive metabolism to 1-(4-thiazolyl)-3-cyano-1-propanone by liver subcellular fractions, 3285
- Nitroglycerin,
metabolism in vivo, relationship with in vitro organic nitrate reductase activity in rats, 646

- Nitroimidazoles,
 anaerobic reduction by reduced flavin mononucleotide and by xanthine oxidase, 2684
 radiosensitization, hypoxic cytotoxicity, 1
- Nitromethane,
 microsomal metabolism, 341
- p-Nitrophenol,
 conjugation in isolated liver cells, 2963
- 2-Nitrophenyl-phenyl-phosphate,
 inhibition by liver carboxylesterases, 1927
- 4-Nitrophenyl-phenyl-phosphate,
 inhibition of liver carboxylesterases, 1927
- p-Nitrophenylphosphatase,
 in brain, effect of lithium, 2819
- 2-Nitropropane,
 microsomal metabolism, 341
- Nitroprusside,
 activation of coronary artery guanylate cyclase, 2943
- Nitrosoacetoxymethylmethanamine,
 stability *in vitro* and *in vivo*, 383
- Nitroso-chloramphenicol,
 effect on protein synthesis and oxidative phosphorylation in liver mitochondria, 2605
- Nitrosoguanidine,
 activation of coronary arterial guanylate cyclase, 2943
- Nitrosoarea-derived isocyanates,
 inhibition of tubulin polymerization, 652
- Nitrosoareas,
 reaction with DNA, 2639
- ω-Nitrostyrene,
 microsomal metabolism, 341
- Nitrous oxide,
 formation of free radical intermediates during metabolism by human intestinal contents, 3037
- Nocodazole,
 stimulation of secretion of plasminogen activator from macrophages, 2545
- Nogalamycin,
 complex with cardiolipin, 3003
 interaction with polyadenylic and polyuridylic acids, 2081
- Non-parenchymal cells,
 liver, effect of cadmium acetate on uptake and degradation of ^{125}I -HSA, 3101
- Noradrenaline,
 in brain,
 effect of contraceptive steroids, 821
 effect of prindine, 2557
 calcium and frequency-dependent release from spleen, 3029
 effect on dihydroergocryptine binding in liver, 1653
 exocytotic release from synaptosomes, 1302
 inhibition of release by adenosine and adenine nucleotides, 1635
 effect on phosphatidylinositol metabolism, blockade by chlorpromazine and haloperidol, 2697
 release from cerebral arteries by drugs and potassium, 840
 role in level of cyclic AMP in pineal gland, 1341
 stimulation of Na^+ , K^+ -ATPase in striatum, 857
- Noradrenaline(contd.)
 stimulation of Na^+ , K^+ -ATPase in synaptic membranes, effect of desipramine, 111
 stimulation of prostaglandin synthetase in kidney of male and female rats, 2635
 storage pools in brain, 3045
 synaptosomal uptake,
 effect of clorgyline and deprenyl, 2763
 effect of cocaine administration, 1861
 developmental changes in reserpine inhibition, 1595
 effect of LY125180, 935
 role of Na^+ , K^+ -ATPase, 2105
 transport by chromaffin granules, 1883
- Nordihydroguaiaretic acid,
 interaction with DNA, 3299
- Norgestrol,
 effect on biogenic amines and monoamine oxidase in brain, 821
- Norlaudanosolinecarboxylic acids,
 opiate-like effects on hypothalamic-pituitary-gonadal axis, 57
- Nortriptyline,
 effect on naloxone binding in brain, 460
- Nucleic acids,
 trans-membrane alkylation, 449
- Nucleoside phosphorylases,
 inhibition of 5-fluoro-2'-deoxy-uridine cleavage by 2,4-pyrimidine dione derivatives, 1059
- Nucleoside transport system,
 in erythrocytes, interaction of 2'-deoxycytosine and transport inhibitors, 2491
- 5'-Nucleotidase,
 in glioma cells, effect of ethanol, 2279
 inhibition by polychlorinated biphenyls, 3311
- Obese rats,
 hepatic drug metabolism and microsomal enzyme induction in, 289
 thyroid function, 1612
- Octan-1-ol,
 effect on monoamine oxidase in liver mitochondria, 1177
- Octylamine,
 effect on metabolism of SKF 525-A and SKF 8742-A, 2577
 effect on P-450 reductase and cytochrome c reductase in liver microsomes, 89
- Olfactory tubercle,
 effect of ethanol on monoamine synthesis in slices, 2477
- Olivetol,
 inhibition of testosterone production by Leydig cells, 2153
- Onion oils,
 inhibition of fatty acid oxygenases, 3169
- Opiate-like drugs,
 norlaudanosolinecarboxylic acids, 57
 specific binding in placenta, 2657
- Opiate receptors,
 in human leukocytes, 1361

- Opiate receptors(contd.)
 interaction with tricyclic antidepressants 460
- Opoid peptides,
 inhibition of angiotensin I converting enzyme in lung, 3115
- Organic cation,
 hepato-biliary transport rate, 2573
- Organophosphorus compounds,
 inhibition of acetylcholinesterase and neurotoxic esterase in brain with respect to delayed neurotoxicity, 2721
- Organophosphorus diesters,
 inhibition of liver carboxylesterases in vivo and in vitro, 1927
- Ornithine decarboxylase,
 in liver during regeneration, effect of aliphatic alcohols, 2799
- Ornithine transaminase,
 in Schistosoma mansoni, effect of oxamniquine, 838
- Ototoxicity,
 of aminoglycosides, correlated with action on polyphosphoinositide films, 597
- Ouabain,
 binding in heart in relation to ATPase and force of contraction, 3219
 binding sites in ATPase from heart microsomes, 1195
 interaction with ATPase, effect of chemical modification, 1995
 involvement of tropomyosin on ATPase sensitivity, 297
 penetration of preimplantation blastocyte, 1663
 treated adrenal, effect of calcium on catecholamine secretory response, 2669
- Ovary,
 effect of progesterone on monoamine oxidase in, 1857
- Oxamniquine,
 effect on β -glucuronidase in liver, 2925
 effect on β -glucuronidase in tissues of Schistosoma mansoni infected mice, 429
 effect on kynurenine metabolism in liver of normal and Schistosoma mansoni infected mice, 2513
 effect on Schistosoma mansoni, 838
- 7-Oxa-13-prostynoic acid,
 inhibition of angiotensin receptors in adrenal glomerulosa, 927
- Oxazepam,
 anticonvulsant mechanism, 1703
- N-Oxidation,
 reversibility in vivo, 1325
- Oxidative phosphorylation,
 in heart mitochondria,
 protection by bencyclane, 1385
 effect of SKF 525-A, 283
 in liver mitochondria,
 effects of chloramphenicol and its nitroso analogue, 2605
 uncoupling by acetyl ethyl tetramethyl tetralin, 1531
- Oximes,
 reactivation of soman-inhibited acetylcholinesterase, 2379
- Oxisuran,
 carbonyl reductases in rabbit liver, 1503
- 2-Oxopyrimidine riboside analogues,
 inhibition of cytidine deaminase, 830
- Oxtremorine,
 binding in ileum, effect of DFP, 1391
- Oxygen,
 role of glutathione-related enzymes in tolerance development by diethyldithiocarbamate, 1367
- Oxypertine,
 interaction with brain monoamine receptors, 2681
- Pancreas,
 effect of ethanol on amylase and glycyl-propyl dipeptidyl-aminopeptidase in, 3210
 effect of mannoheptulose on islet function, 2625
- Pancreatic islets,
 effect of chloroquine on insulin production, 1729
 mediated calcium transport, effect of sulphonamides, 1879
- Pantothenic acid,
 incorporation into CoA in liver, effect of clofibrate, 987
- Papillary muscle,
 effect of vanadate on cyclic AMP levels, 1429
- Paraoxon,
 inhibition of liver carboxylesterases, 1927
- Paraquat,
 effect on acetylcholinesterase in lung, 465
- Parathyroid hormone,
 stimulated renal adenylate cyclase, effect of alamethicin, 51
- Pargyline,
 binding to monoamine oxidase in human platelets and placenta, 2595
 effect on hepatic metabolism, 1103
 inhibition of monoamine oxidase in guinea pig liver mitochondria, 2049
 effect on turnover of monoamine oxidases in rat liver, 891
- Parkinson's disease,
 DOPA decarboxylase inhibitors in, 3123
- Pellegra,
 effect of isoniazid on tryptophan-niacin metabolism in rats, 2099
- D-Penicillamine,
 effect on macrophage phagocytosis in vitro and in vivo, 2273
 effect on vitamin B₆ function in rats, 3097
- Penicillic acid,
 inhibition of Na⁺, K⁺-ATPase, 19
- Penicillin G,
 inhibition of glutathione organic nitrate ester reductase, 1807
- Penicilloyl residues,
 bound to albumin, enzymatic unmasking for antibodies of, 195
- β -Pentachlorocyclohexane,
 effect on rat liver growth and monooxygenase activities, 2169
- Pentagastrin,
 effect on H⁺ and K⁺ transport in gastric mucosa in vitro, 2755
- Pentan-3-one,
 abolition of 2-aminophenol glucuronidation deficiency in perfused

- Pentan-3-one(contd.)
Gunn rat liver, 3204
- Pentobarbital,
effect on p-aminohippurate transport in rat kidney, 983
effect on calcium induced loss of respiratory control in beef heart mitochondria, 1455
effect on calcium uptake by synaptosomes, 957
effect on cyclic nucleotides in brain regions and pituitary, 1891
effect on neurotransmitter release from midbrain slices, 2189
sleeping time, effect of 1-phenyl-3-(2-thiazolyl)-2-thiourea, 2425
- Pentobarbitone,
effect on distribution of ascorbic acid in gastrointestinal tract, 1839
sleeping time, effect of cimetidine, 1971
- Pepsin,
inhibition by pepstatin analogues, 2205
- Pepstatin analogues,
inhibition of pepsin, 2205
- Perhydrohistrionicitoxin,
binding to ionic channels of nicotine receptors, effect of muscarinic antagonists, 1311
- Peromyscus maniculatus,
alcohol dehydrogenase negative animals, ethanol metabolism in, 125
- Peroxidase,
oxidation of 2-t-butyl-4-methoxyphenol, 763
in uterus, induction by hexestrol analogues, 3031
- Perphenazine,
partitioning and efflux from liposomes, 2361
- Pethidine,
N-demethylation in liver microsomes, effects of oral tobacco and nicotine, 3087
- Phagocytes,
xanthine oxidase increase in pathological situations, 1945
- Phagocytosis,
induced metabolic activation in PMN, effect of salicylate-copper complex, 3105
effect of penicillamine on macrophages, 2273
release of kininases from polymorphonuclear leukocytes, 2235
- Phencyclidine,
effect on calcium uptake by synaptosomes, 957
effect on neurotransmitter enzymes in rat brain, 2524
- Phenelzine,
effect on β -adrenergic receptor binding in guinea pig brain, 2895
effect on hepatic metabolism, 1103
inhibition of monoamine oxidase in brain, effect of α -amphetamine, 1347, 2781
effect on vitamin B₆ function in rats, 3097
- Phenformin,
dose-dependent toxic effects in rats, 2291
- Pheniprazine,
inhibition of monoamine oxidase in brain, effect of amphetamine, 2781
- Phenobarbital,
effect on acetaminophen metabolism in normal and tumour-bearing rats, 1167
effect on activation of cyclophosphamide to a mutagen, 256, 2031
effect on androstenedione metabolism in trout liver microsomes, 583
effect on aniline hydroxylase in hamster liver microsomes, 685
effect on butylated hydroxytoluene binding to liver macromolecules, 1304
effect on digitoxin metabolism by rat liver microsomes, 405
effect on estrogen-2-hydroxylase in rats, 83
effect on glucuronide and sulphate conjugation in isolated liver cells, 2963
hydroxylated metabolites, effect of in vivo administration, 1127
induction of epoxide hydratase, sex and age dependence, 3245
induction of UDP-glucuronyl transferase in rat tissues, 495
effect on kinetics of cholecalciferol 25-hydroxylase in liver microsomes 441
microsomal induction in obese rats, 289
effect on mixed function oxidase enzyme system in liver of young and geriatric rats, 1191
stimulation of intestinal mixed function oxidases, species differences, 1161
- Phenobarbitone,
effect on biliary excretion of neostigmine and its metabolites, 2256
effect on ethanol oxidation by isolated hepatocytes, 2161
effect on glutathione synthesis in liver, 2695
induction of 7-ethoxycoumarin O-deethylase in hepatocytes, 577
effect on urinary 6 β -hydroxycortisol excretion and hepatic enzyme activity in marmoset monkey, 3319
- Phenol,
conjugation by lung in vivo, 471
- Phenolphthalein,
effect on transport functions of isolated brush border and basolateral membrane vesicles, 2307
- Phenothiazines,
effect on dopamine metabolism of perfused brain, 63
effect on ecto-ATPase in leukocytes, 2285
partitioning and efflux from liposomes, 2361
- Phenoxybenzamine,
effect on spiperone binding in striatum, 1331
- Phentolamine,
antagonism of noradrenaline activation of synaptic ATPase, 111
effect on sodium fluxes across rabbit colon in vitro, 1271
- Phenylalanine,
synaptosomal dopamine formation, 2957
- Phenylbutazone,
cytostatic activity, role of

- Phenylbutazone(contd.)
 prostaglandins, 311
- Phenylbutenolides,
 inhibition of brain and heart cyclic AMP
 phosphodiesterases, structure-activity
 relationships, 115
- Phenylephrine,
 effect on sodium fluxes across rabbit
 colon *in vitro*, 1271
- β -Phenylethylamine,
 as substrate for human monoamine
 oxidase A, 777
 metabolism by monoamine oxidase in rat
 heart and liver mitochondria, 1097
 uptake by isolated lung, 489
- Phenylhydrazine,
 role of red cell membrane lipid
 peroxidation in hemolysis, 1355
- Phenylnitromethane,
 microsomal metabolism, 341
- 1-Phenyl-piperazines,
 inhibition of 5-hydroxytryptamine
 binding to rat brain membranes, 833
- 1-Phenyl-3-(2-thiazolyl)-2-thiourea,
 effect on drug metabolism in the rat,
 2425
- Phenytoin,
 binding to plasma proteins, absence of
 effect of heparin, 3337
- Phlorizin,
 effect on biliary retention of glucose,
 213
- Phosphatidate phosphohydrolase,
 in liver, effect of chlorpromazine, 789
- Phosphatidylcholine,
 stimulation of breakdown by isoproterenol
 in rat liver plasma membranes, 2521
 turnover in brain, effect of ethanol,
 2815
- Phosphatidylcholine liposomes,
 partitioning and efflux of phenothiazines,
 2361
- Phosphatidylethanolamine,
 turnover in brain, effect of ethanol,
 2815
- Phosphatidylinositol,
 α 1-adrenergic activation of labelling
 in isolated brown fat cells, 3330
- Phosphatidylinositol/phosphatidylserine,
 turnover in brain, effect of ethanol,
 2815
- Phosphoenolpyruvate carboxykinase,
 in liver, effects of 3-aminopicolinic
 acid, 325
- 6-Phosphogluconate dehydrogenase,
 in liver, effect of 3-methylcholanthrene,
 697
- Phospholipase A2,
 mechanisms of inhibition, 623
 from snake venoms,
 activity on free and membrane bound
 substrates, 1555
 pharmacological properties in
 relation to enzymatic activity, 1565
- Phospholipids,
 in brain,
 effect of chlorpromazine, haloperidol
 and pimozide on synthesis of, 2697
 effect of local anaesthetics on
 thermotropic properties, 849
 effect on dihydroalprenolol binding to
 α -adrenergic receptor in heart, 2791
 in liver microsomes, effect of
 morphine, 658
 in serum, effect of Triton WR-1339 on
- Phospholipids(contd.)
 fatty acid composition, 2879
 turnover in brain, effect of ethanol
 treatment, 2815
- Phospholipid membranes,
 interaction with chlorophenols,
 monitored with ANS, 2471
- Phospholipid monolayers,
 Ca^{2+} replacement by cationic
 amphiphilic drugs, 2969
- Phosphoribosyl pyrophosphate synthetase
 in mouse tissues, effect of
 2'-deoxycoformycin infusion, 2888
- Pial arteries,
 noradrenaline release by drugs and
 potassium, 840
- Pimozide,
 effect on lipid metabolism in brain
 slices, 2697
- Pineal gland,
 effect of darkness and desmethyl-
 imipramine on cyclic AMP in, 1341
 5-hydroxytryptamine in, 3020
- Piperazine,
 anthelmintic action, 1981
- Pirogliride,
 effect on gluconeogenesis, 1421
- Pituitary,
 effect of anaesthesia on cyclic
 nucleotides in, 1891
 effects of apomorphine and Ro20-1724
in vivo, 369
 role in drug metabolism, 2759, 3139
- Pituitary - adrenal axis,
 effects of dichlorvos on diurnal
 changes, 635
- Placenta,
 glutathione S-transferase in, 1677
 effect of isoproterenol and
 β -sympathomimetic drugs on
 glycogen metabolism, 1123
 methionine enkephalin in villus
 tissue, 475
 monoamine oxidase A and B in, 777
 monoamine oxidase in, molecular
 weight of active site subunits,
 2595
 specific binding for opiate-like
 drugs, 2657
- Plasmalemmal microsomes,
 conformation of proteins, 397
- Plasminogen activator,
 stimulation of secretion from
 activated macrophages, 2545
- Platelets,
 ADP induced aggregation,
 effect of adenosine analogues and
 adenine nucleotides, 1799
 5'-methylthioadenosine and 2',5'-
 dideoxyadenosine blockade of
 inhibitory effect of adenosine,
 2529
 5-hydroxytryptamine accumulation,
 action of immobilized
 neuraminidase, 3189
 inhibition of adenosine uptake, 43
 inhibition of fatty acid oxygenases
 by onion and garlic oils, 3169
 interaction with elastin and
 endothelial cells, effect of
 nicergoline, 943
 monoamine oxidase in, molecular
 weight of subunits, 2595
 prostaglandin I_2 receptors in, 2297
 reversal of aspirin inhibition of

- Platelets(contd.)
 prostaglandin generation, 1093
- Pluronic L-101,
 meal-feeding model for effect on
 lipid absorption, 1475
- Polyadenylic acid,
 interaction with nogalamycin, 2081
 trans-membrane alkylation, 449
- Poly(A)⁺- and poly(A)⁻-RNA,
 inhibition of synthesis by aflatoxin B₁
in vivo, 2247
- Poly(A)mRNA,
 in liver polysomes, effect of chronic
 ethanol and sucrose ingestion, 2993
- Polyamines,
 in superior cervical ganglia, effect of
 guanethidine, 113
- Polychlorinated biphenyls,
 effects on biological membranes, 3311
 effect on glucuronide and sulphate
 conjugation in isolated liver cells,
 2963
 hepatic microsomal metabolism of
 monochlorobiphenyls as a model for,
 727
 induction of dimethylnitrosamine
 demethylase in liver, 1375
- Polychlorinated biphenyl isomer,
 mixed induction capability, 259
- Polyglutamates-methotrexate,
 efflux from L1210 cells, 2701
- Polymorphonuclear leukocytes,
 effect of colchicine derivatives on
 lysosomal enzyme release and cyclic
 AMP in after phagocytosis of
 monosodium urate crystals, 2146
 effects of indomethacin, 5,8,11,14-
 eicosatetraynoic acid and β -bromo-
 phenacyl-bromide on lysosomal enzyme
 release and superoxide generation,
 533
 inhibition of elastase by Arteparon, 1723
 interaction with fluoride, 3051
 kininases in, 2235
 role of xanthine oxidase in killing
 properties, 1945, 3018
 effect of salicylate-copper complex on
 metabolic activation, 3105
- Polyphosphoinositides,
 involvement in aminoglycoside ototoxicity,
 597
- Polyuridylic acid,
 interaction with nogalamycin, 2081
- Porphyria,
 lobes of rat liver respond at different
 rates to challenge by dietary
 hexachlorobenzene, 3127
- Portocaval shunt,
 impaired monoamine oxidase in dog liver,
 2831
- Potassium,
 gastric transport *in vitro*, 2755
 induced release of noradrenaline from
 cerebral arteries, 840
 effect on sodium transport in skin
 epithelial cells, 2265
 stimulated release of neurotransmitters
 from midbrain slices, 2189
- Praziquantel,
 anthelmintic activity, 1981
- Prazosin,
 assay of α -adrenergic receptor subtypes
 using dihydroergocryptine, 452
 binding to plasma proteins, absence of
 effect of heparin, 3337
- Prednisone,
 effect on acetaminophen metabolism in
 normal and tumour-bearing rats,
 1167
- Pregnenolone-16 α -carbonitrile,
 effect on digitoxin metabolism by
 rat liver microsomes, 405
 effect on glucuronidation of digitalis
 glycosides by liver microsomes,
 1497
- Preimplantation blastocyst,
 drugs that penetrate, 1663
- Prekallikrein,
 binding and dissociation in human
 plasma during contact activation,
 1247
- Pridefine,
 effect on biogenic amines in rat
 brain, 2557
- Probenecid,
 effect on indomethacin binding to
 human serum albumin, 1759
 inhibition of glutathione organic
 nitrate ester reductase, 1807
- Procainamide,
 effect on monoamine oxidase in liver
 mitochondria, 1177
- Procaine,
 effect on cytochrome oxidase activity,
 2651
 effect on monoamine oxidase in liver
 mitochondria, 1177
- Procarbazine,
 effect on drug metabolism in mice, 131
- Prochlorperazine,
 partitioning and efflux from
 liposomes, 2361
- Progesterone,
 effect on adrenal xenobiotic
 metabolism, 2372
 effect on cortisol sulfotransferase
 in liver, 3181
 effect on monoamine oxidase in female
 genital tract, 1857
- Proline,
 incorporation into protein in
 granulation tissue, effect of
 prostaglandin F₂ α , 147
 in liver, effect of ethanol, 1435
- Prolyl hydroxylase,
 in blood vessels, effect of
 propranolol, 3093
- Promazine,
 partitioning and efflux from
 liposomes, 2361
- Promethazine,
 partitioning and efflux from
 liposomes, 2361
 effect on thromboplastin activity of
 human monocytes, 9
- 1- and 2-Propanol,
 effect on synthesis of ornithine
 decarboxylase and tyrosine
 aminotransferase in regenerating
 liver, 2799
- Propranolol,
 effect on biochemical modification
 induced by an β -adrenergic drug
 in ischaemic hearts, 2687
 effect on calcium uptake by
 synaptosomes, 957
 influence on effect of histamine on
 cyclic AMP in granulation tissue,
 103
 interaction with cytochrome P-450, 747

- Propranolol(contd.)
 effect on labelling of brown fat cell phospholipids, 3330
 effect on prolyl hydroxylase in rat blood vessels, 3093
 5-Propyl-2'-deoxyuridine 5'-monophosphate, antiviral properties, 2883
 6-n-Prolyl-2-thiouracil, effect on ethanol metabolism in rats, 2951
 Prostacyclin,
 effect on adenylate cyclase in intestinal epithelial cells, 673
 modulation of cyclic AMP and steroidogenesis in adrenal cells, effect of Ga^{2+} , 2213
 receptors in platelets, 2297
 stimulation and inhibition of cyclic AMP formation in isolated fat cells, 661
 Prostaglandins,
 effect on chemotactic factor-elicited release of granule associated enzymes from neutrophils, 2389
 generation in platelets, salicylate reversal of aspirin inhibition of, 1093
 role in cytostatic action of anti-inflammatory drugs, 311
 role in human polymorphonuclear leukocytes, 533
 Prostaglandin E₁,
 sensitive adenylate cyclase in glioma and neuroblastoma cells, effect of methylmercuric chloride, 201
 Prostaglandin E₂,
 effect on adenylate cyclase in intestinal epithelial cells, 673
 inhibition of glucagon induced hepatic gluconeogenesis and cyclic AMP accumulation, 681
 Prostaglandin F_{2α},
 effect on granulation tissue, 147
 Prostaglandin biosynthesis stimulators,
 effect on carrageenin-induced paw edema, 1863
 Prostaglandin synthetase,
 in kidney microsomes, sex differences in stimulatory action of cofactors, 2635
 in rabbit and rat tissues, inhibition by timegadin, 3265
 in seminal vesicle, inhibition by onion and garlic oils, 3169
 Prostanoid structures,
 on adrenocortical cells, steroidogenic properties, 1919
 Protease,
 in mast cell granules, 1715
 Protein,
 an algorithmic approach to sequence-reactivity, 2089
 synthesis in liver mitochondria, effect of chloramphenicol and its nitrosoanalogue, 2605
 synthesis in newborn rats, effect of halogenated amphetamines, 335
 synthesis in stomach, effect of 5-hydroxytryptamine, 1855
 Protein protease inhibitors, 2090
 Prothrombin complex,
 in rabbit plasma, effect of warfarin, 1601
 Protoveratridine A,
 activated glutamate decarboxylase in synaptosomes, inhibition by tetrodotoxin, 3034
 Psychotropic drugs,
 effect on cerebral energy state and glycolytic metabolism, 15
 effect on noradrenaline-stimulated ATPase in synaptic membranes, 111
 Purine,
 inhibition of GABA binding to brain membranes, 1217
 inhibitory effect of pyrazole derivatives on biosynthesis of, 163
 metabolism in Ehrlich ascites tumour cells, effects of misonidazole, 2533
 Purine nucleosides,
 modulation of neurotransmission, 1635
 Purine nucleotides,
 effect on adenosine uptake into human platelets, 43
 modulation of neurotransmission, 1635
 Putrescine,
 effect on behaviour and GABA in brain in chicks following intraventricular administration, 954
 Pyrazole derivatives,
 mechanism of inhibition of purine biosynthesis, 163
 Pyridines,
 effect on cytochrome P-450 in cultured hepatocytes, 1773
 effect on cytochrome P-450 reductase and cytochrome c reductase in liver microsomes, 89
 Pyridine nucleotide,
 reduced cytochrome b₅ in liver microsomes, effect of cumene hydroperoxide, 1605
 bis-Pyridinium oximes,
 interaction with mouse brain muscarinic receptor, 483
 Pyridoxal 5'-phosphate,
 in liver, effect of drugs affecting vitamin B₆ function, 3097
 6-(β-Pyridyl)-3-hydroxy-pyrazol(3,4b)-pyridine,
 effect on carrageenin-induced inflammation, 1863
 2,4-Pyrimidinedione derivatives,
 inhibition of nucleoside phosphorylase cleavage of 5-fluoro-2'-deoxyuridine, 1059
 Pyrimidine nucleoside phosphorylase,
 inhibition by 2,4-pyrimidinedione derivatives, 1059
 Pyrimido pyrimidines,
 inhibition of adenosine uptake into human platelets, 43
 Pyrrolizidine alkaloids,
 from tansy ragwort, effect on hepatic drug metabolizing enzymes in rats, 2645
 Pyrrolo(1,4)benzodiazepines,
 antibiotic-DNA adducts, proposed structures, 1307
 Pyruvate,
 transport in heart mitochondria, effect of dibucaine, 2877
 Quinidine,
 effects of dihydroquinidine on in vitro and in vivo disposition, 737
 Quinones,

- Quinones,
hypoxic tumour cell chemotherapy, 1
reduction by flavoproteins, 2567
- Quinuclidinyl benzilate,
binding in brain,
effects of D600 and local anaesthetics
155
effect of nicotinic antagonists, 1311
binding in hippocampus, effect of
tricyclic antidepressants, 2149
binding to human phagocytic leukocytes,
1361
binding in ileum after treatment with
DFP, 1391
binding to muscarinic receptors in
rabbit iris, 2713
- RA-233,
effect on glycolysis and proliferation
of L1210 cells, 2690
- Radiosensitization,
nitroheterocyclic compounds, 1
- Reactive metabolites,
cumulative effects, 1041
- Receptors,
binding energy and activation, 853
- Renal ligation,
effect on melphalan in plasma and bile,
2518
- Renin,
release by renal cortex slices, effect
of cholinergic agents and cyclic GMP,
1933
- Reserpine,
effects on amfonelic acid and
amphetamine stimulation of synaptosomal
dopamine formation, 2957
effect on catecholamine transport by
chromaffin granules, 1883
inhibition of noradrenaline uptake into
synaptic vesicles, developmental
changes, 1595
- Reuber H-35 hepatoma bearing rats,
drug interactions with acetaminophen,
1167
- Rheumatoid synovial cells,
effect of gold sodium thiomalate on
proliferation and collagen synthesis,
869
- Rhomycin,
complex with cardiolipin, 3003
- Riboflavin deficiency,
effect on monoamine oxidase in liver,
2693
- Ribonucleic acid,
synthesis in L1210 cells, effect of
sangivamycin and thiosangivamycin,
305
- Ribonucleic acid polymerase,
in kidney microsomes, effect of
aldosterone, 1575
- Ribonucleic acid,
in liver polysomes, effect of ethanol
and sucrose on uridine incorporation,
2993
- Ribonucleic acid,
in L1210 cells, effects of tubercidin,
formycin and 8-azaadenosine on
synthesis and methylation, 1459
- Ribonucleic acid,
carcinogenic azo dyes modify the
acceptance for some amino acids, 2301
- Ribonucleic acid methylase,
in Walker carcinoma, effect of
Ro07-7957, 501
- Ribonucleotide reductase,
in human lymphocytes, effect of iron
chelators, 1275
in tumours, inhibition by 5(1-aziridinyl)-2,4-dinitrobenzamide, 2845
- Ribostamicin,
ototoxicity and action on poly-
phosphoinositide films, 597
- 7-Ribosyl-3-deazaguanine,
mechanism of antibacterial action,
1791
- Ridgway osteogenic sarcoma,
cross resistance between actinomycin
D, adriamycin and vincristine, 1081
- Rifampin,
inhibition of elastase and lysosomal
secretion in mouse peritoneal
macrophages, 3039
- Ro 20-1724,
effect on cyclic nucleotides in
brain and pituitary *in vivo*, 369
- Ro7-5205,
anticonvulsant mechanism, 1703
- Rubidazole,
complex with cardiolipin, 3003
- Rubidium,
effect on sodium transport in skin
epithelial cells, 2265
- Saccharomyces cerevisiae,
9- β -D-arabinofuranosyladenine
metabolism, 3081
- SAD-128,
interaction with brain muscarinic
receptor, 483
- Salbutamol,
effect on glycogen metabolism in
human placenta, 1123
identification of β_2 -adrenergic
receptor in epidermis, 97
- Salicylanilides,
anthelmintic activity, 1981
- Salicylate,
effect on aspirin inhibition of
platelet prostaglandin generation,
1093
inhibition of muscle creatine kinase,
2113
penetration of preimplantation
blastocyte, 1663
- Salicylate-copper complex,
effect on metabolic activation in
phagocytizing granulocytes, 3105
- Salmonella typhimurium,
mutagenic activity of halogen and
alkyl substituted allylic
compounds, 2611
- Salsolinol,
half-life following intracerebro-
ventricular injection, 657
- Sangivamycin,
effect on RNA and DNA synthesis in
L1210 cells, 305
- Sarcolemma,
heart,
effects of adrenochrome on
ATPase activities, 559
effects of chlorpromazine and
imipramine on calcium binding
and ATPase, 629
- Sarcoma 180 cells,
resistant to 6-thioguanine, external
localization of alkaline
phosphatase on surface of, 1859
- Sarcoplasmic reticulum,

- Sarcoplasmic reticulum,
effect of halothane on stability of
Ca²⁺ transport, 375
- Schistosoma mansoni,
infected mice,
effect of oxamniquine on β -glucuronidase in tissues, 429
effect of oxamniquine on kynurenine metabolism in liver, 2513
effect of oxamniquine, 838
- Schistosomiasis,
anthelmintic therapy, 1981
- Schistosomicidal drugs,
effect on β -glucuronidase in liver, 2925
- Schmidt-Ruppin sarcoma cells,
doxorubicin and doxorubicin-DNA accumulation, 1035
- Segmented retrograde intrabiliary injection technique,
evaluation of hepatobiliary function, 205, 213
- Selenite,
effect on biliary excretion of copper and zinc, 2129
- Selenium,
in erythrocytes, effect of ethanol ingestion, 1737
- Selenium deficiency,
sex-differences in biochemical manifestations, 39
- Semicarbazide,
protection of formaldehyde from metabolic degradation, 2023
- Serine hydroxymethyltransferase,
in L-cells, effect of antifolates, 2741
- Serine proteinases,
specificity of protein inhibitors of, 2089
- Serotonin receptors,
solubilization from frontal cortex, 3341
in synaptosomal plasma membrane, effect of cholesterol, 3325
- Serotonin syndrome,
comparative effects of 5-hydroxytryptamine releasing agents in mice, 3163
- Serum,
stimulation of aryl hydrocarbon hydroxylase in cultured cells, 271
- Sex difference,
in activation of cyclophosphamide *in vitro*, 2031
in biochemical manifestations of selenium deficiency, 39
in cytochrome P-450 and mixed-function oxygenase in trout, 553
in O-dealkylation activity of 7-hydroxycoumarin O-alkyl derivatives in rat liver microsomes, 1015
in diazepam metabolism by rat liver, post natal development, 447
in drug metabolism,
primary role of pituitary, 3139
testicular neonatal imprinting, 3133
in hepatic metabolism of imipramine and lidocaine, 2759
in effect of progesterone on glucocorticoid sulfation, 3181
in prostaglandin synthetase in kidney microsomes, 2635
- Showdomycin,
toxicity and mechanism of action *in vitro*, 2199
- Sialosyl residues,
on platelets, function, 3189
- Sibiromycin-DNA adduct,
Sibiromycin-DNA adduct,
structure, 1307
- Singlet molecular oxygen,
reaction with indomethacin, 1337
- SKF 525-A,
effect on androstenedione metabolism in trout liver microsomes, 583
effect on benzodiazepine protection against electroshock induced convulsions, 1703
binding in liver microsomes, effect of triarylethylenes, 1583
effect on drug metabolism in adrenal, 951
effect on heart mitochondrial function, 283
inhibition of fatty acid conjugation to 11-hydroxy- Δ^9 -tetrahydrocannabinol by rat liver microsomes, 1071
inhibition of lipid peroxidation in liver microsomes, 565
microsomal conversion, 2577
- SKF 8742-A,
microsomal conversion, 2577
- Skin,
identification of β_2 -adrenergic receptor in epidermis, 97
effect of Li⁺, K⁺, Rb⁺ and Cs⁺ on Na⁺ transport in epithelial cells, 2265
- Slow reacting substance of anaphylaxis,
separation from arachidonic acid releasing substance, 319
effect of sodium fluoride on antigen-induced release, 1843
- Small intensely fluorescent cells,
participation in ganglionic transmission, 118
- Social interaction,
effect on amphetamine metabolism in rats, 221
- Sodium,
dependent inhibition of dipeptide transport by harmaline in intestine, 713
dependent transport mechanisms, effect of phenolphthalein and harmaline, 2307
fluxes across rabbit colon *in vitro*, effect of adrenergic agents and theophylline, 1271
transport in skin epithelial cells, effect of Li⁺, K⁺, Rb⁺ and Cs⁺, 2265
- Sodium-calcium exchange,
in adrenal, relationship with catecholamine secretory mechanism, 2669
- Sodium dichloroacetate,
effect on phenformin-induced hypoglycaemia and hyperlactataemia, 2291
- Sodium fluoride,
increase in antigen-induced release of slow reacting substance of anaphylaxis, 1843
- Sodium sulphide,
oxidation by rat liver, lung and kidney, 2431
- Sonication,
effect on monoamine oxidase in liver mitochondria, 1185
- Sorbitol,
stimulation of mixed-function

- Sorbitol(contd.)
oxidation, 813
- Spermatozoa,
ATP-citrate lyase in, radiochemical
determination, 2589
- Spiperone,
binding in rat frontal cortex,
solubilization by lysolecithin, 3341
- Spironolactone,
effect on digitoxin metabolism by rat
liver microsomes, 405
effect on glucuronidation of digitalis
glycosides by liver microsomes, 1497
importance of lactone ring in activity
of, 353
- Spiroperidol,
binding in brain regions, effect of
neuroleptics *in vivo*, 267
binding in striatum, 2009
effect of chronic L-DOPA therapy, 701
connection with dopamine-sensitive
adenylate cyclase, 1331
effect of oxypertine, 2681
solubilization and characterization
of sites, 897
- Spleen,
metabolism of 5-aza-2'-deoxycytidine,
2925
- Squalene,
mevalonate incorporation in brain,
effect of AY-9944 and U18666A, 2751
- Stearate desaturase,
in liver microsomes, effect of enflurane
and methoxyflurane, 27
- Steffimycin,
complex with cardiolipin, 3003
- Steroid,
enzymatic sulphation, 3181
metabolism in adrenals, effects of
dichlorvos, 635
- Steroid hormones,
effect on adrenal xenobiotic metabolism,
2373
- Steroidogenesis,
in adrenal cells, effect of Ca^{2+} on
modulation by prostacyclin and ACTH,
2213
- Steroidogenic activity,
of prostanoid structures on adrenocortical
cells, 1919
- Sterol,
synthesis in brain, concentration
dependent effects of AY-9944 and
U18666A, 2751
- Stibophen,
effect on β -glucuronidase in liver, 2925
- trans-Stilbene oxide,
induction of epoxide hydratase, sex and
age dependence, 3245
- Stomach,
effect of barbiturate on ascorbic acid
in, 1839
effect of 5-hydroxytryptamine on free
amino acid composition and protein
synthesis, 1855
- Streptolydigin analogues,
inhibition of terminal deoxyribonucleo-
tidyltransferase, 2001
- Streptozotocin diabetic rats,
absence of cytosol effects on microsomal
drug metabolism, 2491
- Streptozotocin-treated mice,
monooxygenase activities in, 1959
- Stress,
effect on amphetamine metabolism in rats,
221
- Stress(contd.)
221
- Striatum,
characterization and localization of
catecholamine-susceptible
 Na^+, K^+ -ATPase, 857
connection between high affinity
spiperone binding sites and
dopamine-sensitive adenylyl
cyclase, 1331
effect of kainic acid on (3H)-ADTN
binding, 1645
solubilization of spiroperidol
binding sites, 897
- Strophanthidin,
interaction with Na^+, K^+ -ATPase,
effect of chemical modification,
1995
- Succinylacetone,
effect on Friend cells, 1825
- Sulfamethoxypyridazine,
effect on p-aminohippurate transport
in rat kidney, 983
- Sulfobromophthalein,
excretion in hamsters, effects of
Enovid and α -naphthylisothio-
cyanate, 960
metabolism and biliary excretion in
vitamin A deficiency, 2583
transport into liver cells and bile,
1023
- Sulfonamides,
effect on ionophore-mediated calcium
transport, 1879
- Sulphate conjugation,
in isolated liver cells, 2963
- Sulphide,
oxidation by rat liver, lung and
kidney, 2431
- Sulphydryl,
reactivity of aurothiomalate in
inhibition of mitogen-induced
lymphocyte proliferation, 3333
- Sulphydryl reagents,
effect on calcium transport by
synaptosomes, 957
- Sulpiride,
effect on *in vivo* binding of
spiroperidol in brain regions, 267
- Superoxide dismutase,
in erythrocytes, effect of ethanol
ingestion, 1737
- Superoxide oxide,
generation in polymorphonuclear
leukocytes, inhibition by
 β -bromophenacyl bromide, 533
- Suxamethonium,
influence on tryptophan side chain
chromophores, 397
- Sympathetic neurotransmission,
in heart, developmental changes in
reserpine inhibition of
noradrenaline uptake, 1595
- β -Sympathomimetic drugs,
effect on placental glycogen
metabolism, 1123
- Synaptic membranes,
effect of cholesterol on serotonergic
receptors, 3325
effect of desipramine on noradren-
aline stimulated ATPase, 111
effect of kainic acid lesions on
(3H)-ADTN binding in striatum,
1645
effect of lithium chloride on

- Synaptic membranes(contd.)
 ATPases in, 887
 muscimol and GABA binding in sub-fractions 1077
- Synaptic vesicles,
 developmental changes in reserpine inhibition of noradrenaline uptake, 1595
- Synaptosomes,
 acetylcholine synthesis from [U-¹⁴C]-glucose, 167
 calcium transport,
 chlordiazepoxide inhibition of, 2439
 effect of depressant drugs and sulphydryl reagents, 957
 effect of ethanol, 1903
 effect of Cd²⁺, Mn²⁺ and Al³⁺ on ATPase activity and choline uptake, 141
 dopamine uptake, inhibition by clorgyline and deprenyl, 3067
 ethanol-induced fluidization of lipid bilayers, 1673
 exocytotic release of noradrenaline, 1302
 heptachlor epoxide effect on transmitter release, 1815
 inhibition of high affinity choline uptake, 2413
 effect of monoamine oxidase inhibitors on amine transport, 2763
 noradrenaline uptake,
 effect of cocaine administration, 1861
 role of Na⁺, K⁺-ATPase, 2105
 effect of pridine on amine uptake and release, 2557
 effects of reserpine on amfonelic acid and amphetamine stimulation of dopamine formation, 2957
 tetrodotoxin inhibition of protoveratrine A-activated glutamate decarboxylase, 3034
- Synovial cells,
 human, effect of gold sodium thiomalate on proliferation and collagen synthesis, 869
- Tallysomycin,
 reaction with DNA in vitro, 521
- Tamoxifen,
 inhibition of liver microsomal oxidative metabolism and substrate binding, 1583
 metabolism by liver microsomes, 1977
- Tansy ragwort,
 effect of pyrrolizidine alkaloids on hepatic drug metabolizing enzymes in rats, 2645
- Tartar emetic,
 effect on β -glucuronidase in liver, 2925
- Teprotide,
 antihypertensive action, 1871
- Terminal deoxynucleotidyltransferase,
 inhibition by streptolysidin analogues, 2001
- Terpenes,
 inhibition of hepatic cholesterol synthesis, 2125
- Testes,
 alterations in morphology induced by ethanol, 1409
 inhibition of heme biosynthesis by 1,2-dibromo-3-chloropropane, 2563
 role in neonatal imprinting of sex dependent differences of drug metabolism, 3133
- Testosterone,
 effect on adrenal xenobiotic metabolism, 2373
 effect on alcohol dehydrogenase in liver, 3175
 in plasma, effect of ethanol, 1409
 production by Leydig cells, effect of cannabinoids, 2153
 in serum, effect of norlaudanosoline-carboxylic acids, 57
- Tetrabenazine,
 effect on catecholamine transport by chromaffin granules, 1883
- Tetracaine,
 effect on cytochrome oxidase activity, 2651
 interaction with brain α -adrenergic and muscarinic receptors, 155
 effect on monoamine oxidase in liver mitochondria, 1177
 effect on thermotropic properties of brain lipids, 849
- Tetrachlorodibenzodioxin,
 effect on plasma total and high density lipoprotein cholesterol, 835
- Tetrachloroethylene,
 metabolism by hepatic microsomal cytochrome P-450 system, 2863
- Δ^1 -Tetrahydrocannabinol,
 inhibition of testosterone production by Leydig cells, 2153
- Tetrahydropapaveroline,
 half-life following intracerebro-ventricular injection, 657
- Tetrahydrouridine,
 effect on 5-azacytidine metabolism in mice, 609
- Tetramisole,
 anthelmintic activity, 1981
- Tetrodotoxin,
 inhibition in vitro of protoveratrine A-activated glutamate decarboxylase in synaptosomes, 3034
- Theophylline,
 effect on adenosine potentiation of antigen-induced histamine release from lung, 1085
 effect on sodium fluxes across rabbit colon in vitro, 1271
- Thiabendazole,
 anthelmintic activity, 1981
- Thiamylal,
 effect on calcium induced loss of respiratory control in beef heart mitochondria, 1455
- Thiocyanate,
 effect on gastric H⁺ and K⁺ transport, 2755
- 5-Thio-D-glucose,
 hypoxic cytotoxicity, 1
- 6-Thioguanine,
 resistant Sarcoma 180 cells, external localization of alkaline phosphatase, 1859
- Thiol S-methyltransferase,
 role in detoxication of intestinal hydrogen sulfide, 2885
- Thiopental,
 effect on calcium induced loss of respiratory control in beef heart mitochondria, 1455
 penetration of preimplantation blastocyte, 1663
- Thioperazine,

- Thiopropazine,
use as a ligand for neuroleptic receptors
in vitro, 2933
in vivo, 2939
- Thiosangivamycin,
effect on RNA and DNA synthesis in
L1210 cells, 305
- Thiosemicarbazone,
chelation and removal of iron from
transferrin, 1833
- Thromboplastin,
activity of human monocytes, effect of
drugs, 9
- Thromboxanes,
induced release from perfused lungs, 319
role in human polymorphonuclear
leukocytes, 533
- Thymidine,
incorporation into DNA in human cells,
effect of iron chelators, 1275
- Thymidylate synthetase,
increase in 5-fluorodeoxyuridine
resistant cultured hepatoma cells,
1549
isolation from HeLa cells, 723
in L-cells, effect of antifolates, 2741
- Thyroid gland,
effect of catecholamines and α -adrenergic
antagonists on adenylate cyclase in,
1966
- Thyroid hormones,
role in ethanol metabolism in rats, 2951
- Thyroid status,
effect of 3,5,3'-triiodothyroacetic
acid and Fenproporex in genetically
lean and obese rats, 1612
- Thyrotropin releasing hormone,
trans-3-methyl-proline amide analogue,
improved biological stability
in vitro and in vivo, 2619
- Thyroxine,
effect on bisphosphoglyceromutase in
erythrocytes, 517
effect on estrogen-2-hydroxylase in
male rats, 83
effect on fructose biphosphatase in
liver, 2891
in serum of lean and obese rats, 1612
- Tight-binding inhibitors,
interaction of 2'-deoxycoformycin and
transport inhibitors with erythrocyte
nucleoside transport system, 2491
rate equation, experimental design and
statistical methods, 1779
- Timegadine,
inhibition of prostaglandin and 12-
hydroxyeicosatetraenoic acid formation,
3265
- Tissue perfusion,
improvement with inhibitors of calcium
ion flux, 479
- Tityustoxin,
evoked release of acetylcholine from
sensory motor cortex, 2179
evoked release of neurotransmitters,
effect of morphine, 2777
- Tobacco,
effect of oral intake on hepatic
microsomal N-demethylations, 3087
- Toluenes,
effect on liver mitochondria in vitro,
2485
- N-p-Toluenesulfonyl-arginine-methyl-ester,
hydrolysis in mast cells exposed to
adrenaline, 419
- N(p-Tolysulfonyl)-N'-butylurea,
effect on glucose kinetics in
blood, 1441
- Tomaymycin-DNA adduct,
structure, 1307
- Toxogonin,
interaction with brain muscarinic
receptor, 483
- Transferrin,
reductive iron chelation, 1833
- Transition metals,
enhancement of chromosome aberrations
induced by isoniazid, 842
- Trans-membrane alkylation,
irreversible binding of reactive
metabolites to nucleic acids, 449
- Tranlylcypromine,
effect on hepatic metabolism, 1103
effect on tyrosine metabolism in
intestine, 2551
- Trazodone,
anticholinergic activity, 2149
- Triamcinolone,
effect on fructose bisphosphatase
in liver, 2891
- Triarylethylenes,
inhibition of liver microsomal
oxidative metabolism and substrate
binding, 1583
- Triazenopyrazoles,
inhibition of purine biosynthesis, 163
- 1,1,1-Trichloro-2,2-bis(p-chlorophenyl)-
ethane,
penetration of preimplantation
blastocyst, 1663
effect of two biodegradable analogues
on cockroach ATPases, 1065
- 1,1,1-Trichloro-2-(p-chlorophenyl)-2-
(o-chlorophenyl)ethane,
stimulation of uterine DNA synthesis,
1469
- Trichloroethanol,
effect on ethanol sleeping time, 3011
- Trichloroethylene,
cumulative effects of reactive
metabolites, 1041
interaction with hepatic cytochrome
P-450, 433
metabolism in liver in vitro, 2983
- Tricyclic antidepressants,
interaction with opiate receptors,
460
- 2,2,2-Trifluoroethyl vinyl ether,
role of cytochrome P-450 in toxicity
of, 3257
- Triglyceride,
screening method for agents affecting
absorption, 1475
in serum, effect of Triton WR-1339
on fatty acid composition, 2879
- 2,3,4-Trihydroxybenzylhydrazine,
as substrate of catechol-O-
methyltransferase, 3123
- Triiodothyroacetic acid,
effect on genetically lean and
obese rats, 1612
- Triiodothyronine,
effect on bisphosphoglyceromutase
in erythrocytes, 517
- Trimeprazine,
partitioning and efflux from
liposomes, 2361
- Trimethoprim,
inhibition of dihydrofolate
reductase, 589

- N-5-Trimethyllysine,
reaction to chromatin, 2729
- 1,2,2-Trimethylpropyl methylphosphono-
fluoridate,
inhibited acetylcholinesterase,
reactivation with HI-6 and related
oximes, 2379
- Trinitrobenzene sulfonate,
modification of Na^+, K^+ -ATPase, 1995
- Triton WR-1339,
induced changes in fatty acid composition
of serum lipids, 2879
- Triton X-100,
effect on assay of tyrosine hydroxylase,
1953
effect on monoamine oxidase in liver
mitochondria, 1177
- Tropomyosin,
involvement in sensitivity of Na^+, K^+ -
ATPase to ouabain, 297
- Trout,
regulation of cytochrome P-450 in, 583
sex differences in mixed-function
oxygenase activity, 553
- Tryptophan,
binding by human serum and human serum
albumin, 1915
effect of isoprenaline infusion on
disposition of, 509
metabolism in rats, effects of penicill-
amine, hydrallazine and phenelzine,
3097
- Tryptophan hydroxylase,
in brain stem slices, activation with
dibutyryl cyclic AMP, 669
- Tryptophan-niacin metabolism,
in vitro inhibition, 707
in rat, effects of benserazide, carbi-
dopa and isoniazid, 2099
- Tryptophan side chain chromophores,
membrane bound extrajunctional
acetylcholine receptors, influence of
decamethonium and suxamethonium, 397
- Tubercidin,
effect on synthesis and methylation of
mRNA in L1210 cells, 1459
- Tubulin,
inhibition of polymerization by
nitrosourea-derived isocyanates, 652
- Tumour-bearing rats,
drug interactions with acetaminophen,
1167
- Tumours,
hypoxic cell chemotherapy, 1
- Tumour xenografts,
ability to reduce CB 10-252, 2919
- Tyramine,
'first-pass' metabolism in dog intestine,
effect of monoamine oxidase
inhibitors, 2551
induced release of noradrenaline from
cerebral arteries, 840
transport by chromaffin granules, 1883
- Tyrosine,
effect of isoprenaline infusion on
disposition of, 509
- Tyrosine aminotransferase,
in liver during regeneration, effect
of aliphatic alcohols, 2799
- Tyrosine esters,
hydrolysis in mast cells exposed to
adrenaline, 419
- Tyrosine hydroxylase,
assay in tissue homogenates, 1593
in brain, dopamine storage pools, 3045
- U18666A,
concentration dependent effect on
sterol synthesis in brain, 2751
- UK 177,
effect on in vivo binding of
spiroperidol in brain regions, 267
- Ulceration,
induced by aspirin, biochemical
gastroprotection, 1281
- Uracil derivatives,
inhibition of 5-fluoro-2'-deoxy-
uridine phosphorolysis, 1059
- Urate,
phagocytosis of crystals by poly-
morphonuclear leukocytes, effect
of colchicine derivatives on
lysosomal enzyme release and
cyclic AMP in, 2146
- Urecholine,
effect on H^+ and K^+ transport in
gastric mucosa in vitro, 2755
- Uremia,
possible role for cyanate in
albumin binding defect, 1598
- Ureogenesis,
in hepatocytes, effect of monoamine
oxidase inhibitors, 1103
- Uridine,
incorporation into mRNA in liver
polysomes, effect of ethanol-
sucrose treatment, 2993
- Uridine analogues,
inhibition of cytidine and deoxy-
cytidylate deaminase, 807
- Uridine diphosphate glucuronyltrans-
ferase,
in liver,
Gunn rats, activity towards
2-aminophenol, 3204
effect of hydroxylated phenobarb-
ital metabolites, 1127
inherited deficiency, in vitro
stimulators, 2367
lipophilicity of acceptor
substrate as a factor in
'late foetal' enzyme, 999
effect of vinyltoluene, 2675
in rat tissues, functional
heterogeneity, 495
- Urine,
human, monoamine oxidase inhibitor
in, 467
- Uroporphyrinogen decarboxylase,
in different lobes of rat liver, 3127
- Uterus,
biological properties and binding
of iodobradikins, 175
induction of peroxidase by hexestrol
analogues, 3031
effect of progesterone on monoamine
oxidase in, 1857
stimulation of DNA synthesis by
O,p'-DDT, 1469
- Valproic acid,
effect on brain aldehyde reductase,
1703
- Vanadate,
effect on cyclic AMP in cat papillary
muscle, 1429
identification of ouabain binding
sites in Na^+, K^+ -ATPase from
heart, 1195
- Vasospasm, 479
- Vascular permeability,

- Vascular permeability,
of granulation tissue, effect of
prostaglandin F_{2α}, 147
- Vehicles,
effect on N-demethylase activity in
isolated hepatocytes, 2073
- Verapamil,
effects in brain, 155
- Vinblastine,
effect on glutathione in cultured
mammalian cells, 2333
stimulation of secretion of plasminogen
activator from macrophages, 2545
- Vincristine,
effect on ROS tumour and actinomycin
resistant subline, 1081
- Vinyl chloride,
alkylation of nucleic acid by microsomal
metabolites, 449
cumulative effects of reactive metabolites,
1041
- Vinyltoluene,
effect on drug metabolizing enzymes and
glutathione in liver and kidney, 2675
- Vitamin A deficiency,
sulfobromophthalein metabolism and
biliary excretion, 2583
- Vitamin B₆,
effect of drugs on function in rat, 3097
- Vitamin D deficiency,
effect of phenobarbital on cholecalciferol
25-hydroxylase in liver microsomes,
441
- Vitamin E,
in serum, effect of ethanol ingestion,
1737
- Vitamin K₁,
metabolism in rabbit, effect of
warfarin, 1601
- Walker carcinoma,
effect of L-2-amino-4-methoxy-trans-3-
butenoic acid on growth and
metabolism, 501
inhibition of ribonucleotide reductase
by 5(1-aziridinyl)-2,4-dinitrobenz-
amide, 2845
- Warfarin,
albumin binding, effect of cyanate, 1598
effect of cimetidine on anticoagulant
effect of, 1971
dose-dependent effect on vitamin K₁
metabolism and clotting factor
synthesis in rabbit, 1601
- WB-4101,
binding to α-adrenergic receptors in
rabbit iris, 2713
binding in brain,
effects of D600 and local anaesthetics
155
human, multiple sites, 1869
effect of oxypertine, 2681
caution about its role as an α-adrenergic
subtype selective radioligand, 1537
- Wheat germ agglutinin,
stimulation of histamine secretion
from mast cells, role of calcium, 455
- Xanthine oxidase,
anaerobic reduction of nitroimidazoles,
2684
in buttermilk, inhibition by folate
analogues and derivatives, 2135
in liver, increase in mice in three
pathological models, 1939
- Xanthine oxidase(contd.)
in murine phagocytes, increase in
pathological situations, 1945
role in killing mechanism of poly-
morphonuclear leucocytes, 3018
- Xanthurenic acid,
urinary excretion, effect of drugs,
3097
- Xylitol,
stimulation of mixed-function
oxidation, 813
- Yeast,
metabolism of 9-β-D-arabinofuranosyl-
adenine, 3081
- Z-fraction,
purification of 1-anilino-8-naphth-
alenesulfonate binding protein,
2063
- Zinc,
biliary excretion, effect of
diethylmaleate, selenite and
diethyldithiocarbamate, 2129
in rat tissues after cadmium loading,
2407
- Zinc-thionein,
in liver, induction by endotoxin,
2260
- Zoxazolamine,
paralysis time, effect of cimetidine,
1971
- Zucker strain rats,
microsomal drug metabolism in, 289
- Zuclophene,
inhibition of liver microsomal
oxidative metabolism and substrate
binding, 1583
