

ERRATUM

Biochemical Pharmacology **30**, 2362–2364 (1981).

GUIDO ZIMMER, LADISLAVS LACKO and ERIKA KRUGER. A spin label study on fluidization of human red cell membrane by esters of *p*-hydroxybenzoic acid: structure-functional aspects on membrane glucose transport.

The author regrets the following errors. On page 2362, second column, line 20, it should read:

“In Fig. 2, order parameters for spin label 616 have been plotted against the partition coefficients (*P*) of the compounds. It can be seen that (though there is a correlation between *P* and order parameter *S*) *P* is not — in contrast to *K_i* values, Fig. 3—directly proportional to order parameter *S*.”

On page 2364, the caption to Fig. 2 should read:

“Plot of partition coefficients *P** vs order parameters *S* (spin label 616) at 5 mM concentrations of *p*-hydroxybenzoic acid esters: *from reference [1].”
