

ADDENDUM

Volume 74, Number 4, February 21, 1977

To "The Increase of Hydroxyproline-Containing Proteins in Jerusalem Artichoke Mitochondria during the Development of Cyanide-Insensitive Respiration," by Oreste Arrigoni, Aurelio DeSantis, Rosalia Arrigoni-Liso, and Giuseppe Calabrese, pp. 1637-1641, at the end of the text on p. 1640, the following should be added.

Acknowledgement

We wish to thank Prof. B.A. Melandri and N. Bagni for their kind gift of Jerusalem artichoke tubers, grown in the Botanical Garden of the University of Bologna.
