CORRECTIONS

"The Nature of the Reverse Type I (Modified Type II) Spectral Change in Liver Microsomes," by John B. Schenckman,* Dominick L. Cinti, Sten Orrenius, Peter Moldeus, and Robert Kaschnitz, Volume 11, Number 23, November 7, 1972, page 4243.

Dr. Kaschnitz's name was erroneously spelled Kraschnitz, and his fellowship acknowledgment should have read, "Recipient of a short term fellowship from the European Molecular Biology Organization (Brussels)."

"Mechanism of Activation of Bovine Procarboxypeptidase A_S. Alterations in Primary and Quaternary Structure," by Jack R. Uren and Hans Neurath, Volume 11, Number 24, November 21, 1972, page 4483.

The illustrations but not the legends of Figures 7 and 9 should be interchanged, *i.e.*, the legend of Figure 9 goes with Figure 7 and *vice versa*.

"A Calorimetric Investigation of the Copper-Bovine Plasma Albumin Interaction," by Fred H. Reynolds, Jr., R. K. Burkhard, and Delbert D. Mueller, Volume 12, Number 2, January 16, 1973, page 359.

On page 360, the first part of the second sentence under Results should read: "When $\bar{v}/A$ was plotted *vs.* $\bar{v}$..." On page 361, the units for the entropy changes in Table I should read cal mol⁻¹ deg⁻¹.
