FK506 Binding Protein from a Thermophilic Archaeon, *Methanococcus thermolithotrophicus*, Has Chaperone-like Activity in Vitro, by Masahiro Furutani,* Akira Ideno, Toshii Iida, and Tadashi Maruyama, Volume 39, Number 2, January 18, 2000, pages 453–462.

Page 459. In both Tables 1 and 2, the units for PPIase activity ($k_{\text{cat}}/K_{\text{m}}$) should read $\mu\text{M}^{-1} \text{s}^{-1}$.
