and Karel Bezouška

Biochemistry 2003, 42 (31), 9295–9306. DOI: 10.1021/bi027298l

The authors retract this article as it was found that experiments describing binding of natural killer cell receptors to carbohydrate ligands could not be repeated. Authors who were reached support the retraction of this paper. Evidence of scientific misconduct on the part of Karel Bezouška has been found by the joint Ethical Committee established by the Institute of Microbiology of the Academy of Sciences of the Czech Republic and the Faculty of Science at the Charles University in Prague. The authors apologize to all affected parties.
