

Correction to The Action of Cytochrome b_5 on CYP2E1 and CYP2C19 Activities Requires Anionic Residues D58 and D65

Hwei-Ming Peng and Richard J. Auchus*

Biochemistry 2013, 52 (1), 210–220. DOI:10.1021/bi301384n

Page 212. In the fourth sentence in the paragraph titled Preparation of [7- 3 H]-17-Hydroxypregnenolone, the units for CYP17A1 and POR should be nanomolar and the sentence should read as follows.

Purified CYP17A1 (80 nM), POR (320 nM), DLPC (30 μ M), and 1 mM NADPH were added, and the reaction mixtures were incubated at 37 °C for 40 min.
