

AUTHOR INDEX

- Adamič, Š.
Accumulation of choline by the rat diaphragm (196) 113
- Arima, K., see Tsukagoshi, N., (196) 204
- Arima, K., see Tsukagoshi, N., (196) 211
- Baarda, J. R., see Harold, F. M., (196) 235
- Bächi, Th., see Gitzelmann, R., (196) 20
- Binz, H., see Gitzelmann, R., (196) 20
- Bowler, K. and Duncan, C. J.
The effect of copper on membrane enzymes, (196) 116
- Chapman, D., see Phillips, M. C., (196) 35
- Chaudry, I. H. and Gould, M. K.
Evidence for the uptake of ATP by rat soleus muscle in vitro, (196) 320
- Chaudry, I. H. and Gould, M. K.
Effect of externally added ATP on glucose uptake by isolated rat soleus muscle, (196) 327
- Cooper, J. R., see Itokawa, Y., (196) 274
- Danon, D., see Schrier, S. L., (196) 263
- De Bruijne, A. W. and Van Steveninck, J.
Apparent nonsolvent water and osmotic behavior of yeast cells, (196) 45
- Dulaney, J. T. and Touster, O.
The solubilization and gel electrophoresis of membrane enzymes by use of detergents, (196) 29
- Duncan, C. J., see Bowler, K., (196) 116
- Ellingson, J. S., Hill, E. E. and Lands, W. E. M.
The control of fatty acid composition in glycerolipids of the endoplasmic reticulum, (196) 176
- Farmer, R. E. L. and Macey, R. I.
Perturbation of red cell volume: Rectification of osmotic flow, (196) 53
- Fukunaga, K., see Tsuboi, K. K., (196) 215
- Gibaldi, M., see Mayersohn, M., (196) 296
- Giberman, E., see Schrier, S. L., (196) 263
- Gitzelmann, R., Bächi, Th., Binz, H., Lindenmann, J. and Semenza, G.
Localization of rabbit intestinal sucrase with ferritin-antibody conjugates, (196) 20
- Gould, M. K., see Chaudry, I. H., (196) 320
- Gould, M. K., see Chaudry, I. H., (196) 327
- Harold, F. M., Pavlasová, E. and Baarda, J. R.
A transmembrane pH gradient in *Streptococcus faecalis*: Origin, and dissipation by proton conductors and N, N'-dicyclohexylcarbodiimide, (196) 235
- Hill, A. E.
Ion and water transport in *Limonium*. III. Time constants of the transport system, (196) 66
- Hill, A. E.
Ion and water transport in *Limonium*. IV. Delay effects in the transport process, (196) 73
- Hill, E. E., see Ellingson, J. S., (196) 176
- Hoffman, N. E.
The relationship between in vitro uptake of oleic acid and micellar solubilization, (196) 193
- Holt, S. C., see Ketchum, P. A., (196) 141
- Imamura, A.
The effects of carbon dioxide and bicarbonate on chloride fluxes across frog gastric mucosa, (196) 245
- Itokawa, Y. and Cooper, J. R.
Ion movements and thiamine. II. The release of the vitamin from membrane fragments, (196) 274
- Jackson, M. J., see Thompson, E., (196) 120
- Jard, S., Rajerison, R. M. et Montegut, M.
Inhibition des effets de l'ocytocine sur la peau et la vessie de la grenouille par l' [2-O-ethyltyrosine]ocytocine, (196) 85
- Katchalski, E., see Schrier, S. L., (196) 263
- Keen, P., see White, T. D., (196) 285
- Kenig-Vakshal, R., Zehavi, U. and Sharon, N.
A comparative study of the cell walls of transformable mutants of *Micrococcus lysodeikticus*, (196) 107
- Ketchum, P. A. and Holt, S. C.
Isolation and characterization of the membranes from *Rhodospirillum rubrum*, (196) 141
- Kregenow, F. M., see Rosenthal, A. S., (196) 254
- Ladbrooke, B. D., see Phillips, M. C., (196) 35
- Lands, W. E. M., see Ellingson, J. S., (196) 176
- Levin, R. J., see Thompson, E., (196) 120
- Liberman, E. A., Topaly, V. P. and Silberstein, A. Y.
Charged and neutral ion carriers through bimolecular phospholipid membranes, (196) 221
- Lindenmann, J., see Gitzelmann, R., (196) 20
- Macey, R. I., see Farmer, R. E. L., (196) 53
- Mackenzie, S. and Scriver, C. R.
Proline transport into isolated rat glomeruli, (196) 110
- Mayersohn, M. and Gibaldi, M.
Drug transport. II. The effect of various cations on the passive transfer of drugs across the everted rat intestine, (196) 296
- Møller, J. V., see Sheikh, M. I., (196) 305
- Montegut, M., see Jard, S., (196) 85
- Moses, H. L., see Rosenthal, A. S., (196) 254
- Niehaus, Jr., W. G. and Wold, F.
Cross-linking of erythrocyte membranes with dimethyl adipimidate, (196) 170
- Papahadjopoulos, D., see Saha, J., (196) 10

- Parkes, J. G. and Thompson, W.
The composition of phospholipids in outer and inner mitochondrial membranes from guinea pig liver, (196) 162
- Pavlasová, E., see Harold, F. M., (196) 235
- Perdue, J. F. and Sneider, J.
The isolation and characterization of the plasma membrane from chick embryo fibroblasts, (196) 125
- Phillips, M. C., Ladbrooke, B. D. and Chapman, D. Molecular interactions in mixed lecithin systems, (196) 35
- Rajerison, R. M., see Jard, S., (196) 85
- Ray, T. K.
A modified method for the isolation of the plasma membrane from rat liver, (196) 1
- Rosenthal, A. S., Kregenow, F. M. and Moses, H. L.
Some characteristics of a calcium-dependent ATPase activity associated with a group of erythrocyte membrane proteins which form fibrils, (196) 254
- Saha, J., Papahadjopoulos, D. and Wenner, C. E.
Studies on model membranes. I. Effects of Ca^{2+} and antibiotics on permeability of cardiolipin liquid-crystalline vesicles, (196) 10
- Schrier, S. L., Giberman, E., Danon, D. and Katchalski, E.
Studies on ATPase in sheared micro vesicles of human erythrocyte membranes, (196) 263
- Schultz, S. G. and Yu-Tu, L.
D-Arabinose influx across the brush border of rabbit ileum, (196) 351
- Scriver, C. R., see Mackenzie, S., (196) 110
- Segel, I. H., see Tweedie, J. W., (196) 95
- Semenza, G., see Gitzelmann, R., (196) 20
- Sharon, N., see Kenig-Vakshal, R., (196) 107
- Sheikh, M. I. and Møller, J. V.
The kinetic parameters of renal transport of p-aminohippurate in vitro, (196) 305
- Silberstein, A. Y., see Liberman, E. A. (196) 221
- Sneider, J., see Perdue, J. F., (196) 125
- Tamura, G., see Tsukagoshi, N., (196) 204
- Tamura, G., see Tsukagoshi, N., (196) 211
- Thompson, E., Levin, R. J. and Jackson, M. J.
The stimulating effect of low pH on the amino acid transferring systems of the small intestine, (196) 120
- Thompson, W., see Parkes, J. G., (196) 162
- Topaly, V. P., see Liberman, E. A., (196) 221
- Touster, O., see Dulaney, J. T., (196) 29
- Tsuboi, K. K. and Fukunaga, K.
Relationship to solute permeability to erythrocyte glycolysis, (196) 215
- Tsukagoshi, N., Tamura, G. and Arima, K.
A novel protoplast-bursting factor (surfactin) obtained from *Bacillus subtilis* IAM 1213. I. The effects of surfactin on *Bacillus megaterium* KM, (196) 204
- Tsukagoshi, N., Tamura, G. and Arima, K.
A novel protoplast-bursting factor (surfactin) obtained from *Bacillus subtilis* IAM 1213. II. The interaction of surfactin with bacterial membranes and lipids, (196) 211
- Tweedie, J. W. and Segel, I. H.
Specificity of transport processes for sulfur, selenium, and molybdenum anions by filamentous fungi, (196) 95
- Van Steveninck, J., see De Bruijne, A. W., (196) 45
- Watanabe, H. and Watanabe, M.
Effect of infection with RNA phage R23 on membrane permeability and potassium fluxes in *Escherichia coli*, (196) 80
- Watanabe, M., see Watanabe, H., (196) 80
- Wenner, C. E., see Saha, J., (196) 10
- White, S. H.
Thickness changes in lipid bilayer membranes, (196) 354
- White, T. D. and Keen, P.
The role of internal and external Na^+ and K^+ on the uptake of [^3H]noradrenaline by synaptosomes prepared from rat brain, (196) 285
- Wilson, T. H., see Wong, P. T. S., (196) 336
- Wold, F., see Niehaus, Jr., W. G., (196) 170
- Wong, P. T. S. and Wilson, T. H.
Counterflow of galactosides in *Escherichia coli*, (196) 336
- Yu-Tu, L., see Schultz, S. G., (196) 351
- Zehavi, U., see Kenig-Vakshal, R., (196) 107
