

TITLES OF RELATED PAPERS IN OTHER SECTIONS

BBA-GENERAL SUBJECTS

- Formation of the yeast mitochondrial membrane. V. Differences in the assembly process of cytochrome oxidase and coenzyme QH₂: cytochrome c reductase during respiratory adaptation (BBA 28381)
by G.G. Brown and D.S. Beattie (New York, N.Y., U.S.A.) 538 (1978) 173–187
- Effect of hydrolytic enzymes and protein-modifying reagents on gonadotropin receptors in bovine corpus luteum cell membranes (BBA 28410)
by Ch.V. Rao (Louisville, Ky., U.S.A.) 538 (1978) 212–225
- Effect of colchicine on estrogen action. I. Inhibition of 17 β -estradiol-induced water and potassium uptake in the immature rat uterus (BBA 28411)
by G.I. Fujimoto and G.A. Morrill (New York, N.Y., U.S.A.) 538 (1978) 226–230
- Calcium and pancreatic β -cell function. 2. Mobilisation of glucose-sensitive ⁴⁵Ca from perfused islets rich in β -cells (BBA 28376)
by E. Gylfe and B. Hellman (Uppsala, Sweden) 538 (1978) 249–257
- Insulin degradation. XXIII. Distribution of glutathione-insulin transhydrogenase in isolated rat hepatocytes as studied by immuno-ferritin and electron microscopy (BBA 28391)
by P.T. Varandani, D. Raveed and M.A. Nafz (Yellow Springs, Ohio, U.S.A.) 538 (1978) 343–353
- Carbohydrate-binding specificity of pokeweed mitogens (BBA 28407)
by K. Yokoyama, T. Terao and T. Osawa (Tokyo, Japan) 538 (1978) 384–396
- A membrane-associated isozyme of invertase in yeast. Precursor of the external glycoprotein (BBA 28426)
by P. Babczinski and W. Tanner (Regensburg, G.F.R.) 538 (1978) 426–434
- Zinc uptake by isolated rat liver parenchymal cells (BBA 28396)
by M.L. Failla and R.J. Cousins (New Brunswick, N.J., U.S.A.) 538 (1978) 435–444
- Synthesis and decomposition of alcohol esters of 5'-AMP by rat liver plasma membrane (BBA 28415)
by Z. Kiss and J. Hanoune (Créteil, France) 538 (1978) 458–472
- Cyclic AMP-induced pH changes in *Dictyostelium discoideum* and their control by calcium (BBA 28387)
by D. Malchow, V. Nanjundiah, B. Wurster, F. Eckstein and G. Gerisch (Basel, Switzerland and Göttingen, G.F.R.) 538 (1978) 473–480
- Hormone action at the membrane level. VI. Binding of (–)-[³H]dihydroalprenolol and (±)-[³H]isoproterenol to turkey erythrocytes and correlation with adenylate cyclase activity (BBA 28403)
by C.D. Malchoff and G.V. Marinetti (Rochester, N.Y., U.S.A.) 538 (1978) 541–554
- Reduced glucose transport and increased binding of insulin in adipocytes from diabetic and fasted rats (BBA 28418)
by T. Wieringa and J.M.J. Krans (Leiden, The Netherlands) 538 (1978) 563–570

Interactions between chondroitin sulfate and concanavalin A (BBA 28417)	
by J.E. Morris and S.C. Chan (Corvallis, Oreg., U.S.A.)	538 (1978) 571—579
Glycosylation of endogenous lipids and proteins by preparations of chicken embryo fibroblasts (BBA 28428)	
by S.S. Krag (Cambridge, Mass., U.S.A.)	538 (1978) 603—615
Protein secretion from parotid glands of vitamin D deficient and glucocorticoid-treated rats (BBA 21465)	
by A. Tenenhouse and G. Afari (Quebec, Canada)	538 (1978) 631—634
Differences between human and rabbit transferrins (BBA 28433)	
by J.V. Princiotta and E.J. Zapolski (Washington, D.C., U.S.A.) .	539 (1978) 81—87
Effects of a polyoxyethylene detergent (Brij 58) on platelet aggregation and clotting activity (BBA 28441)	
by P.G. Barton (Edmonton, Canada)	539 (1978) 98—113

BBA-PROTEIN STRUCTURE

Isolation of a sulfobromophthalein-binding protein from hepatocyte plasma membrane (BBA 37825)	
by C. Tiribelli, G. Lunazzi, M. Luciani, E. Panfili, B. Gazzin, G. Liut, G. Sandri and G. Sottocasa (Trieste, Italy)	532 (1978) 105—112
Studies on lectins. XLI. Isolation and characterization of blood group B- specific lectin from the roe of the powan (<i>Coregonus lavaretus maraena</i>) (BBA 37835)	
by A. Krajhanzl, V. Hořejší and J. Kocourek (Prague, Czechoslovakia)	532 (1978) 209—214
Studies on lectins. XLII. Isolation, partial characterization and comparison of lectins from the roe of five fish species (BBA 37836)	
by A. Krajhanzl, V. Hořejší and J. Kocourek (Prague, Czechoslovakia)	532 (1978) 215—224
An Anti-A ₁ lectin in the seeds of <i>Amphicarpaea bracteata</i> (BBA 37839)	
by L.J. Blacik, M. Breen, H.G. Weinstein, R.A. Sitting and M. Cole (North Chicago, Ill., U.S.A.)	532 (1978) 225—231

BBA-BIOENERGETICS

Photoaffinity labeling of the adenine nucleotide carrier in heart and yeast mitochondria by an arylazido ADP analog (BBA 47421)	
by G.J.M. Lauquin, G. Brandolin, J. Lunardi and P.V. Vignais (Grenoble, France)	501 (1978) 10—19
The structure of a cytochrome oxidase-lipid model membrane (BBA 47431)	
by J.K. Blasie, M. Erecińska, S. Samuels and J.S. Leigh (Philadelphia, Pa., U.S.A.)	501 (1978) 33—52
Studies on the orientations of the mitochondrial redox carriers. I. Orientation of the hemes of cytochrome <i>c</i> oxidase with respect to the plane of a cytochrome oxidase-lipid model membrane (BBA 47432)	
by M. Erecińska, D.F. Wilson and J.K. Blasie (Philadelphia, Pa., U.S.A.)	501 (1978) 53—62
Studies on the orientations of the mitochondrial redox carriers. II. Orientation of the mitochondrial chromophores with respect to the plane of the membrane in hydrated, oriented mitochondrial multilayers (BBA 47433)	
by M. Erecińska, D.F. Wilson and J.K. Blasie (Philadelphia, Pa., U.S.A.)	501 (1978) 63—71

- The formation of bacteriochlorophyll · protein complexes of the photosynthetic apparatus of *Rhodospseudomonas capsulata* during early stages of development (BBA 47435)
 by A. Schumacher and G. Drews (Freiburg, G.F.R.) 501 (1978) 183—194
- The role of plastidic cytochrome *c* in algal electron transport and photophosphorylation (BBA 47444)
 by H. Böhme, K.J. Kunert and P. Böger (Constance, G.F.R.) . . . 501 (1978) 275—285
- On the rate-limiting step in the transfer of long-chain acyl groups across the inner membrane of brown adipose tissue mitochondria (BBA 47428)
 by P.T. Normann, O.C. Ingebretsen and T. Flatmark (Bergen, Norway) 501 (1978) 286—295
