

## SUBJECT INDEX

- Acetylcholinesterase  
 Determination of the molar concentration of — based on phosphorylation by paraxon or soman (Nenner), 242 (1971) 371
- Adenyl cyclase  
 — and "ATPase" in rat corpus luteum. I. Some properties of the enzymes (Stansfield, Franks), 242 (1971) 606
- Adenyl cyclase  
 — from renal cortex (Marcus, Aurbach), 242 (1971) 410
- Aldose reductase  
 Reaction mechanism of — from *Rhodotorula* (Sheys, Doughty), 242 (1971) 523
- Alkaline phosphatase isozymes  
 Plasma —: Isolation and characterization of isozymes (Aminoff et al.), 242 (1971) 108
- Amidinotransferase  
 Streptomycin biosynthesis. I. Existence of two — activities in *Streptomyces griseus* (Costa Plá), 242 (1971) 541
- $\omega$ -Amino acid esters  
 Inhibitory effects of — on trypsin, plasmin, plasma kallikrein and thrombin (Mura-matu, Fujii), 242 (1971) 203
- 2-Amino-4-hydroxy-6-carboxypteridine  
 NAD<sup>+</sup>-dependent formation of — from 2-amino-4-hydroxy-6-formylpteridine by cell-free extracts of *Escherichia coli* (Suzuki, Mitsuda), 242 (1971) 504
- 2-Amino-4-hydroxy-6-formylpteridine  
 NAD<sup>+</sup>-dependent formation of 2-amino-4-hydroxy-6-carboxypteridine from — by cell-free extracts of *Escherichia coli* (Suzuki, Mitsuda), 242 (1971) 504
- Angiotensin I converting enzyme  
 Peptide inhibitors of pulmonary — (Sander et al.), 242 (1971) 662
- Arylsulphatase  
 Purification and properties of — of *Aspergillus nidulans* (Apte, Siddiqi), 242 (1971) 129
- Asparaginase  
 Factors influencing the 'in vitro' enhancement of L- — activity (Lee et al.), 242 (1971) 226
- Aspartate aminopeptidase  
 Soluble — from dog kidney (Cheung, Cushman), 242 (1971) 190
- ATPase  
 Adenyl cyclase and "—" in rat corpus luteum. I. Some properties of the enzymes (Stansfield, Franks), 242 (1971) 606
- ATP-hydrolyzing enzyme  
 Properties of a Ca<sup>2+</sup>- and Mg<sup>2+</sup>-activated — in rat kidney cortex (Parkinson, Radde), 242 (1971) 238
- Calcium and magnesium-activated ATP-hydrolyzing enzyme  
 Properties of a — in rat kidney cortex (Parkinson, Radde), 242 (1971) 238
- Co-lipase  
 Pancreatic juice —: Physiological importance (Borgström, Erlanson), 242 (1971) 509
- Corynebacterium acnes*  
 Partial purification and some properties of a lipase from — (Hassing), 242 (1971) 381
- $\alpha$ -Cyanoamino acids  
 — and related nitriles as inhibitors of glutamate decarboxylase (Ressler, Koga), 242 (1971) 473
- Cyclic 3',5'-nucleotide phosphodiesterase  
 — effect of divalent cations (Cheung), 242 (1971) 395
- Cyclic 3',5'-nucleotide phosphodiesterase  
 —: Properties of the enzyme of human blood platelets (Song, Cheung), 242 (1971) 593
- Cystathionine  $\beta$ -synthase  
 Specificity and some other properties of liver serine sulphhydrylase: Evidence for its identity with — (Braunstein et al.), 242 (1971) 247
- 3-Deoxy-D-arabino-heptulosonate-7-phosphate synthase  
 — of *Streptomyces aureofaciens* Tü 24. I. Partial purification and properties (Görisch, Lingens), 242 (1971) 617
- 3-Deoxy-D-arabino-heptulosonate-7-phosphate synthase  
 — of *Streptomyces aureofaciens* Tü 24. II. Repression and inhibition by tryptophan analogues (Görisch, Lingens), 242 (1971) 630
- Di- $\gamma$ -glutamylcystine  
 — as a substrate for glutathione reductase (Smith), 242 (1971) 36
- Dipeptidase  
 Renal —: Localization and inhibition (Harper et al.), 242 (1971) 446
- Enterokinase  
 Rat —: The effect of ions and the localization in the intestine (Nordström, Dahlqvist), 242 (1971) 209
- Enzymes  
 Porous glass as a solid support for immobilisation or affinity chromatography of — (Robinson et al.), 242 (1971) 659
- Enzymic parameters  
 —: Measurement of V and K<sub>m</sub> (Lee, Wilson), 242 (1971) 519
- $\alpha$ -Fucosidase  
 Intraneural glycosidases. II. Purification and properties of —,  $\beta$ -fucosidase,  $\alpha$ -mannosidase and  $\beta$ -xylosidase of rat cerebral cortex (Bosmann, Hemsworth), 242 (1971) 152

$\beta$ -Fucosidase

Intraneural glycosidases. II. Purification and properties of  $\alpha$ -fucosidase, —,  $\alpha$ -mannosidase and  $\beta$ -xylosidase of rat cerebral cortex (Bosmann, Hemsworth), 242 (1971) 152

## Glucoamylase

Maltase, isomaltase and — activities of the acid  $\alpha$ -D-glucoside glucohydrolase isolated from cattle liver (Sica et al.), 242 (1971) 422

## Glucokinase

Control of glucose phosphorylation in *Euglena gracilis*: I. Partial characterization of a — (Lucchini), 242 (1971) 365

## Glucose dehydrogenase

Activation by bicarbonate, orthophosphate, and sulfate of rat liver microsomal — (Horne, Nordlie), 242 (1971) 1

## Glucose-6-phosphate dehydrogenase

— adsorbed on collodion membranes (Goldman, Lenhoff), 242 (1971) 514

## Glucose phosphorylation

Control of — in *Euglena gracilis*: I. Partial characterization of a glucokinase (Lucchini), 242 (1971) 365

 $\alpha$ -D-Glucoside glucohydrolase

Maltase, isomaltase and glucoamylase activities of the acid — isolated from cattle liver (Sica et al.), 242 (1971) 422

## Glutamate decarboxylase

$\alpha$ -Cyanoamino acids and related nitriles as inhibitors of — (Ressler, Koga), 242 (1971) 473

## Glutamate decarboxylase

Proposed structure for the 330-nm chromophore of — and other pyridoxal 5'-phosphate dependent enzymes (O'Leary), 242 (1971) 484

## Glutamate dehydrogenase

NADP<sup>+</sup>-specific yeast —. Effect of phosphate on the oxidative deamination of glutamate (Fourcade, Venard), 242 (1971) 331

## Glutathione reductase

Di- $\gamma$ -glutamylcystine as a substrate for — (Smith), 242 (1971) 36

## Glycogen phosphorylase

Purification and properties of — from bovine spleen (Kamogawa, Fukui), 242 (1971) 55

## Glycogen synthase

Molecular characteristics of the totally dependent and independent forms of — of rabbit skeletal muscle. I. Preparation and characteristics of the totally glucose 6-phosphate dependent form (Brown, Lerner), 242 (1971) 69

## Glycogen synthase

Molecular characteristics of the totally dependent and independent forms of — of rabbit skeletal muscle. II. Some chemical characteristics of the enzyme protein and of its change on interconversion (Smith

et al.), 242 (1971) 81

## Glyoxylate carboxy-lyase

— activity in the unicellular green alga *Gloeomonas* sp. (Badour, Waygood), 242 (1971) 493

 $\beta$ -Haemolysin

Studies on extracellular proteins from *Staphylococcus aureus*. VI. Production and purification of — in large scale (Wadström, Möllby), 242 (1971) 288

 $\beta$ -Haemolysin

Studies on extracellular proteins from *Staphylococcus aureus*. VII. Studies on — (Wadström, Möllby), 242 (1971) 308

## Hexokinase

Solubilization and partial purification of — of frog skeletal muscle. Physical and kinetic properties of bound, unbound and rebound hexokinase (Karparkin, Braun), 242 (1971) 89

## Hyaluronidase

Mucopolysaccharide-degrading enzymes from the liver of the squid, *Ommastrephes sloani pacificus*. I. — (Kawai, Anno), 242 (1971) 428

## Immobilisation

Porous glass as a solid support for — or affinity chromatography of enzymes (Robinson et al.), 242 (1971) 659

## Intraneural glycosidases

— II. Purification and properties of  $\alpha$ -fucosidase,  $\beta$ -fucosidase,  $\alpha$ -mannosidase and  $\beta$ -xylosidase of rat cerebral cortex (Bosmann, Hemsworth), 242 (1971) 152

## Invertase

Chemical modification of the active site of yeast — (Waheed, Shall), 242 (1971) 172

## Isocitrate dehydrogenase

Purification of NAD<sup>+</sup>-specific — from porcine heart (Cohen, Colman), 242 (1971) 325

## Isomaltase

Maltase, — and glucoamylase activities of the acid  $\alpha$ -D-glucoside glucohydrolase isolated from cattle liver (Sica et al.), 242 (1971) 422

## Kallikrein

Inhibitory effects of  $\omega$ -amino acid esters on trypsin, plasmin, plasma — and thrombin (Muramatsu, Fujii), 242 (1971) 203

 $\alpha$ -Ketoglutarate:glyoxylate carboligase

Purification, general properties and two other catalytic activities of — of *Mycobacterium phlei* (Yamasaki, Moriyama), 242 (1971) 637

 $\Delta^5$ -3-ketosteroid isomerase

An active-site-directed irreversible inhibitor of — (Büki et al.), 242 (1971) 268

## Lipase

Pancreatic juice co-—: Physiological importance (Borgström, Erlanson), 242 (1971) 509

## Lipase

Partial purification and some properties

- of a — from *Corynebacterium acnes* (Hassing), 242 (1917) 381
- Lipase**  
On the sulphhydryl groups of porcine pancreatic — and their possible role in the activity of the enzyme (Verger et al.), 242 (1971) 580
- Maltase**  
—, isomaltase and glucoamylase activities of the acid  $\alpha$ -D-glucoside glucohydrolase isolated from cattle liver, (Sica et al.), 242 (1971) 422
- $\alpha$ -Mannosidase**  
Intraneural glycosidases. II. Purification and properties of  $\alpha$ -fucosidase,  $\beta$ -fucosidase, — and  $\beta$ -xylosidase of rat cerebral cortex (Bosmann, Hemsworth), 242 (1971) 152
- N<sup>5</sup>-Methyltetrahydrofolate-homoxysteine cobalamin methyltransferase**  
*Escherichia coli* B —: Gel-filtration behavior of apoenzyme and holoenzymes (Taylor), 242 (1971) 355
- Michaelis constant**  
Enzymic parameters: Measurement of V and — (Lee, Wilson), 242 (1971) 519
- Mucopolysaccharide-degrading enzymes**  
— from the liver of the squid, *Omastrephes sloani pacificus*. I. Hyaluronidase (Kawai, Anno), 242 (1971) 428
- Mycobacterium phlei**  
Purification, general properties and two other catalytic activities of  $\alpha$ -ketoglutarate:glyoxylate carboligase of — (Yamasaki, Moriyama), 242 (1971) 637
- NAD**  
Role of dehydrogenase binding in protection of — from enzymatic hydrolysis (Bernofsky, Pankow), 242 (1971) 437
- Paraoxon**  
Determination of the molar concentration of acetylcholinesterase based on phosphorylation by — or soman (Nenner), 242 (1971) 371
- Pepsin**  
— insolubilized by covalent attachment to glass: Preparation and characterization (Line et al.), 242 (1971) 194
- Phenylalanine hydroxylase**  
Activation of — by phenylalanine (Tourian), 242 (1971) 345
- Phosphoenolpyruvate carboxykinases**  
Electrophoretic and chromatographic separation of — (Ballard), 242 (1971) 470
- Phosphofructokinase**  
Cooperativity in pea-seed — (Kelly, Turner), 242 (1971) 559
- Phospholipase A<sub>1</sub>**  
— activity of guinea pig pancreas (White et al.), 242 (1971) 99
- Phosphorylase**  
Purification and properties of glycogen — from bovine spleen (Kamogawa, Fukui), 242 (1971) 55
- Phosphotransacetylase**  
Kinetic studies with — (Hibbert et al.), 242 (1971) 39
- Plasmin**  
Inhibitory effects of  $\omega$ -amino acid esters on trypsin, —, plasma kallikrein and thrombin (Muramatsu, Fujii), 242 (1971) 203
- Procarboxypeptidase A**  
Four forms of human pancreatic — demonstrated by isoelectric focusing (Kim, White), 242 (1971) 441
- Protein phosphatase**  
Further comparative characterization of rat liver mitochondrial cytosol — (Magni et al.), 242 (1971) 123
- Proteolytic enzymes**  
— of the yolk-sac splanchnopleur (Jones, Hemmings), 242 (1971) 278
- Pyridoxal 5'-phosphate dependent enzymes**  
Proposed structure for the 330-nm chromophore of glutamate decarboxylase and other — (O'Leary), 242 (1971) 484
- Pyruvate kinase isozymes**  
— in adult tissue and eggs of *Rana pipiens*. II. Physical and kinetic studies of purified skeletal and heart muscle pyruvate kinases (Flanders, et al.), 242 (1971) 566
- Riboflavin synthetase**  
Second-order kinetic reaction catalyzed by — from a high-riboflavinogenic *Eremothecium ashbyii* (Suzuki, Mitsuda), 242 (1971) 500
- Sarcoplasmic reticulum-bound hexokinase**  
Solubilization and partial purification of — of frog skeletal muscle. Physical and kinetic properties of bound, unbound and rebound hexokinase (Karparkin, Braun), 242 (1971) 89
- Serine sulphhydrase**  
Specificity and some other properties of liver —: Evidence for its identity with cystathionine  $\beta$ -synthase (Braunstein et al.), 242 (1971) 247
- Soman**  
Determination of the molar concentration of acetylcholinesterase based on phosphorylation by paraoxon or — (Nenner), 242 (1971) 371
- Splanchnopleur**  
Proteolytic enzymes of the yolk-sac — (Jones, Hemmings), 242 (1971) 278
- Staphylococcus aureus**  
Studies on extracellular proteins from —. VI. Production and purification of  $\beta$ -haemolysin in large scale (Wadström, Möllby), (1971) 288
- Staphylococcus aureus**  
Studies on extracellular proteins from —. VII. Studies on  $\beta$ -haemolysin (Wadström, Möllby), 242 (1971) 308
- Streptomyces aureofaciens**  
3-Deoxy-D-arabino-heptulosonate-7-phosphate synthase of — Tü 24. I. Partial purification and properties (Görisch, Lin-

- gens), 242 (1971) 617
- Streptomyces aureofaciens*  
3-Deoxy-D-arabino-heptulosonate-7-phosphate synthase of — Tü 24. II. Repression and inhibition by tryptophan and tryptophan analogues (Görisch, Lingens), 242 (1971) 630
- Streptomyces griseus*  
Streptomycin biosynthesis. I. Existence of two amidinotransferase activities in (Costa Plá), 242 (1971) 541
- Streptomycin biosynthesis  
—, I. Existence of two amidinotransferase activities in *Streptomyces griseus* (Costa Plá), 242 (1971) 541
- Succinate dehydrogenase  
Activation of — by 2,4-dinitrophenol — a competitive inhibitor (Susheela, Ramasarma), 242 (1971) 532
- Succinate dehydrogenase  
Studies on —. VII. The effect of temperature on the succinate oxidation (Zeylemaker et al.), 242 (1971) 14
- Sulphatase A  
Sulphatase of ox liver. XV. Changes in the properties of — in the presence of substrate (Nicholls, Roy), 242 (1971) 141
- Thiamine diphosphatase  
Effects of monovalent cations and ATP on brain — of normal rats (Inoue, Iwata), 242 (1971) 459
- Thrombin  
Inhibitory effects of  $\omega$ -amino acid esters on trypsin, plasmin, plasma kallikrein and — (Muramatsu, Fujii), 242 (1971) 203
- Triose phosphate isomerase  
Purification and properties of liver — (Lee et al.), 242 (1971) 261
- Trypsin  
Inhibitory effects of  $\omega$ -amino acid esters on —, plasmin, plasma kallikrein and thrombin (Muramatsu, Fujii), 242 (1971) 203
- Tyramine oxidase  
Properties of — from *Sarcina lutea*: Oxidation of SH groups and qualitative alteration in substrate and inhibitor specificity (Tatyanenko et al.), 242 (1971) 23
- UDP glucuronyltransferase  
Effects of sulfhydryl reacting agents on hepatic — in vitro (Winsnes), 242 (1971) 549
- Urease  
Purification and biochemical characteristics of — from *Proteus rettgeri* (Magaña-Plaza et al.), 242 (1971) 230
- $\beta$ -Xylosidase  
Intraneural glycosidases. II. Purification and properties of  $\alpha$ -fucosidase,  $\beta$  fucosidase,  $\alpha$ -mannosidase and — of rat cerebral cortex (Bosmann, Hemsworth), 242 (1971) 152
