

SUBJECT INDEX

- Acetylcholinesterase
Nature of the acceleration by tetraethylammonium of the methanesulphonylation — (Pavlič) (327) 393
- β -N-Acetylhexosaminidase
Inhibition of — by lactones (Kanfner, Spielvogel) (327) 405
- S-Adenosyl-L-methionine
Interaction between — and pyridoxal 5' phosphate, and its effect on *Saccharomyces cerevisiae* (Trewyn et al.) (327) 336
- Adenylate cyclase
Influence of Li^+ on epinephrine-stimulated — activity in cultured glial tumor cells (Schimmer) (327) 186
- Aldehyde dehydrogenases
Comparison of — from cytosol and mitochondria of rat liver (Marjanen) (327) 238
- Alkaline phosphatase
— of chicken liver microsomes. II. Activity with AMP and other substrates (Naito, Tsushima) (327) 398
- D-Amino acid oxidase
Improved purification, amino acid analysis and molecular weight of homogeneous — from pig kidney (Curti et al.) (327) 266
- p-Aminobenzyl alcohol dehydrogenase
Metabolites of p-aminobenzoic acid. V. Isolation and properties of — (Sloane) (327) 11
- Aminopeptidases
Studies on — in rat liver and plasma (Tamura et al.) (327) 437
- Arginase
Effect of manganese and amino acids on proteolytic inactivation of beef liver — (Bond) (327) 157
- L-Asparaginase A
Purification and properties of — from *Acinetobacter calcoaceticus* (Joner et al.) (327) 146
- Aspartate aminotransferases
Conformational changes of — in the region of Cys-45 residue observed by means of spin label (Polyanovsky et al.) (327) 57
- Bilirubin
—: A potent inhibitor of NAD-linked isocitrate dehydrogenase (Ogasawara et al.) (327) 233
- Bilirubin UDPglucuronyltransferase
Solubilization and characterization of hepatic — (Gregory, Strickland) (327) 36
- Carbonic anhydrase
Purification and some properties of erythrocyte — from the European moose (Carls-son et al.) (327) 515
- Carotene
Purification and properties of a — co-oxidizing lipoxygenase from peas (Arens et al.) (327) 295
- Complement
Relation of C1s, a subunit of the activated first component of — to other plasma enzymes (Sumi et al.) (327) 207
- Dipeptidase
Studies on a soluble — from pig intestinal mucosa. I. Purification and specificity (Noren et al.) (327) 446
- 1,3-Diphosphoglycerate-glucose phosphotransferase
Synthesis of glucose 6-phosphate by a — activity of liver microsomes (Stetten, Goldsmith) (327) 82
- Dopamine β -hydroxylase
Bovine adrenal medullary —: Purification by affinity chromatography, kinetic studies and presence of essential histidyl residues (Aunis et al.) (327) 313
- Elastin
New radioactive assay for enzymes with elastolytic activity using reduced tritiated —. The effect of sodium dodecyl sulfate on elastolysis (Takahashi et al.) (327) 138
- Elastolytic activity
New radioactive assay for enzymes with — using reduced tritiated elastin. The effect of sodium dodecyl sulfate on elastolysis (Takahashi et al.) (327) 138
- Enolase
Use of absorption optics to measure dissociation of yeast — into enzymatically active monomers (Holleman) (327) 176
- Enzymatic hydrolysis
Simple and sensitive method for the determination of — of various esters (Chiou) (327) 374
- Epinephrine
Influence of Li^+ on — stimulated adenylate cyclase activity in cultured glial tumour cells (Schimmer) (327) 186
- Erythrocuprein
Singlet oxygen decontaminating activity of — (superoxide dismutase) (Paschen, Weser) (327) 217
- Esters
Simple and sensitive method for the determination of enzymatic hydrolysis of various — (Chiou) (327) 374
- Glucose-6-phosphatase
Studies on a pyrophosphatase and — from *Aspergillus oryzae* (Gold, Veitch) (327) 166

- Glucose 6-phosphate
 Synthesis of — by a 1,3-diphosphoglycerate-glucose phosphotransferase activity of liver microsomes (Stetten, Goldsmith) (327) 82
- Glucose-6-phosphate dehydrogenases
 Kinetic analysis of partially purified — from rat muscle, adipose tissue, and liver, and from baker's yeast (Geisler et al.) (327) 1
- Glycogen synthetase D
 Conversion of — of rat liver to a form that resembles synthetase D of skeletal muscle (Abe, Tsuiki) (327) 345
- " β -Glycosidase complex"
 Small intestinal phlorizin-hydrolase: The — (Colombo et al.) (327) 412
- Guanosine 5'-phosphate reductase
 — of human erythrocytes (MacKenzie, Sorensen) (327) 282
- α -Hydrazino ornithine
 Ornithine decarboxylase: Inhibition by — (Harik, Snyder) (327) 501
- Hydrolysis
 Simple and sensitive method for the determination of enzymatic — of various esters (Chiou) (327) 374
- 2'-Hydroxy pyridoxal phosphate
 Interaction of tyrosine phenol-lyase with pyridoxal phosphate N-oxide and — (Kumagai et al.) (327) 510
- Inorganic pyrophosphatase
 Effect of free magnesium and salts on the — purified from a slightly halophilic *Vibrio alginolyticus* (Unemoto et al.) (327) 490
- Isocitrate dehydrogenase
 Bilirubin: A potent inhibitor of NAD-linked — (Ogasawara et al.) (327) 233
- Jatrophone
 Reaction of biological thiols with the tumour inhibitor —. Inhibition of RNA polymerase (Lillehaug et al.) (327) 92
- β -Lactamase
 Affinity labelling of an *Escherichia coli* — (Ogawara, Umezawa) (327) 481
- Lactate dehydrogenase
 Frog —: kinetics at physiological enzyme levels (Eby et al.) (327) 227
- Lipase
 Role of carboxyl groups in the activity of pancreatic — (Dufour et al.) (327) 101
- Lipase activity
 Roles of tryptophan residues on the *Rhizopus delemar* —: Chemical modification in a water-olive oil emulsion (Chiba et al.) (327) 380
- Lipoxygenase
 Purification and properties of a carotene oxidizing — from peas (Arcens et al.) (327) 295
- Lipoxygenase
 Soyabean —: An iron-containing enzyme (Roza, Francke) (327) 24
- Lipoxygenase
 Soyabean —: An iron-containing dioxygenase (Chan) (327) 32
- Lithium ions
 Influence of — on epinephrine-stimulated adenylate cyclase activity in cultured glial tumour cells (Schimmer) (327) 186
- Managanese
 Effect of — and amino acids on proteolytic inactivation of beef liver arginase (Bond) (327) 157
- 3-Methylcholanthrene
 Effects of phenobarbital and — on substrate specificity of rat liver microsomal UDPglucuronyltransferase (Bock et al.) (327) 46
- Multi-enzyme aggregates
 —: new evidence for an association of glycolytic components (Clarke, Masters) (327) 223
- Myrosinases
 Studies on —. III. Enzymatic properties of myrosinases from *Sinapis alba* and *Brassica napus* seeds (Björkman, Lönnerdal) (327) 121
- Neuraminidase
 Simple method for the purification of commercial — preparations free from proteases (Hatton, Regoezi) (327) 114
- Nitrate reductase
 Kinetic aspects of — from *Cyanidium caldarium*. Inhibition by reduced pyridine nucleotides (Rigano et al.) (327) 19
- One-electron transfer reactions
 — in biochemical systems. VII. Two types of electron-outlets in milk xanthine oxidase (Nakamura, Yamazaki) (327) 247
- One-electron transfer reactions
 — in biochemical systems. VIII. Kinetic study of superoxide dismutase (Sawada, Yamazaki) (327) 257
- Ornithine decarboxylase
 —: Inhibition by α -hydrazino ornithine (Harik, Snyder) (327) 501
- Pepsin
 New polyamine carrier for the immobilization of protein. Water-insoluble derivatives of — and trypsin (Goldstein) (327) 132
- Peptide hydrolases
 Purification and characterization of one of the forms of — from guinea-pig small intestinal mucosa (Donlon, Fottrell) (327) 425
- Phenobarbital
 Effects of — and 3-methylcholanthrene on substrate specificity of rat liver microsomal UDPglucuronyltransferase (Bock et al.) (327) 46
- Phenolsulphotransferase
 Rat brain — partial purification and some properties (Foldes, Meek) (327) 365
- Phlorizin hydrolase
 Small intestinal —: The " β -glycosidase complex" (Colombo et al.) (327) 412

- Phosphatase
Alkaline — of chicken liver microsomes.
II. Activity with AMP and other substrates
(Naito, Tsushima) (327) 398
- Phosphofructokinase
Sedoheptulose -7-phosphate kinase activity
of — from the different tissues of rabbit
(Karadsheh et al.) (327) 66
- Prolidase
Purification and specificity of pig intestinal
— (Sjöström et al.) (327) 457
- Protein kinase
Purification and characterization of a —
in *Tetrahymena cilia* (Murofushi) (327) 354
- Protocatechuate 3,4-dioxygenase
— IV. Preparation and properties of apo-
and reconstituted enzymes (Fujiwara, No-
zaki) (327) 306
- Pyridoxal 5'phosphate
Interaction between S-adenosyl-L-methio-
nine and —, and its effect on *Saccharo-
myces cerevisiae* (Trewyn et al.) (327) 336
- Pyridoxal phosphate N-oxide
Interaction of tyrosine phenol-lyase with
— and 2'-hydroxy pyridoxal phosphate
(Kumagai et al.) (327) 510
- Pyrophosphatase
Effect of free magnesium and salts on the
inorganic — purified from a slightly
halophilic *Vibrio alginolyticus* (Unemoto et
al.) (327) 490
- Pyrophosphatase
Studies on a — and glucose-6-phosphatase
from *Aspergillus oryzae* (Gold, Veitch) (327)
166
- Renin
Kinetics of the reaction of human — with
natural substrates and tetradecapeptide
substrate (Favre, Vallotton) (327) 471
- RNA polymerase
Reaction of biological thiols with the tumour
inhibitor jatrophone. Inhibition of —
(Lillehaug et al.) (327) 92
- Sedoheptulose-7-phosphate kinase
— activity of phosphofructokinase from
the different tissues of rabbit (Karadsheh et
al.) (327) 66
- Serine transhydroxymethylase
Purification and characterization of —
from *Saccharomyces cerevisiae* (Nakamura
et al.) (327) 328
- Superoxide dismutase
One-electron transfer reactions in biochem-
ical systems. VIII. Kinetic study of —
(Sawada, Yamazaki) (327) 257
- Superoxide dismutase
Singlet oxygen decontaminating activity of
erythrocyte (—) (Paschen, Weser)
(327) 217
- Tetradecapeptide substrate
Kinetics of the reaction of human renin with
natural substrates and — (Favre, Vallot-
ton) (327) 471
- Tetraethylammonium
Nature of the acceleration by — of the
methanesulphonylation of acetylcholin-
esterase (Pavlič) (327) 393
- Thioredoxin reductase
Purification and characterization of yeast
— (Speranza et al.) (327) 274
- Trypsin
New polyamine carrier for the immobiliza-
tion of protein. Water-insoluble derivatives
of pepsin and — (Goldstein) (327) 132
- Tryptophan
Roles of — residues on the *Rhizopus
delemar* lipase activity: Chemical modifica-
tion in a water-olive oil emulsion (Chiba et
al.) (327) 380
- Tyrosine phenol-lyase
Interaction of — with pyridoxal phos-
phate N-oxide and 2'-hydroxy pyridoxal
phosphate (Kumagai et al.) (327) 510
- UDPGlucuronyltransferase
Effects of phenobarbital and 3-methyl-
cholanthrene on substrate specificity of rat
liver microsomal — (Bock et al.) (327) 46
- UDP-N-acetylglucosamine 2'-epimerase
Purification and properties of — from rat
liver (Kikuchi, Tsuiki) (327) 193
- Vibrio alginolyticus*
Effect of free magnesium and salts on the in-
organic pyrophosphatase purified from a
slightly halophilic — (Unemoto et al.)
(327) 490
- Xanthine oxidase
One-electron transfer reactions in biochemi-
cal systems. VII. Two types of electron-out-
lets in milk — (Nakamura, Yamazaki)
(327) 247
