

AUTHOR INDEX

- Abrudan, I., see Bârzu, O. (452) 406
- Afroz, H., Otto, K., Müller, R. and Fuhge, P.
On the specificity of bovine spleen cathepsin B2 (452) 503
- Airas, R.K.
Determination of the binding constant of ligand to protein by thermal inactivation technique. Effect of two binding sites (452) 186
- Airas, R.K.
Thermal inactivation of pantothenase from *Pseudomonas fluorescens* (452) 193
- Airas, R.K.
On the partial reactivation of inactivated pantothenase from *Pseudomonas fluorescens* (452) 201
- Albers, R.W., see Jean, D.H. (452) 219
- Alexandre, Y., see Daegelen-Proux, D. (452) 398
- Aleksandrowicz, Z., see Świerczyński, J. (452) 310
- Aoyagi, T., Suda, H., Nagai, M., Ogawa, K., Suzuki, J., Takeuchi, T. and Umezawa, H.
Aminopeptidase activities on the surface of mammalian cells (452) 131
- Baratti, J. and Maroux, S.
On the catalytic and binding sites of porcine enteropeptidase (452) 488
- Barns, R.J. and Elmslie, R.G.
The effect of calcium ions on the hydrolysis of benzoylarginine ethyl ester by porcine enteropeptidase (452) 161
- Bârzu, O., Abrudan, I., Proinov, I., Kiss, L., Ty, N.G., Jebeleanu, G., Goia, I., Kezdi, M. and Mantsch, H.H.
Nucleotide specificity of pyruvate kinase and phosphoenolpyruvate carboxykinase (452) 406
- Bertini, I., Luchinat, C. and Scozzafava, A.
Interaction of cobalt-bovine carbonic anhydrase with the acetate ion (452) 239
- Blake, II, R., see O'Brien, T.A. (452) 13
- Braun, H.
External yeast β -fructosidase. Affinity labeling of the active site (452) 452
- Brodrick, J.W., Geokas, M.C. and Largman, C.
Human carboxypeptidase B. II. Purification of the enzyme from pancreatic tissue and comparison with the enzymes present in pancreatic secretion (452) 468
- Breuer, H., see Rao, M.L. (452) 89
- Burton, J., see Poulsen, K. (452) 533
- Buxman, M.M. and Wuepper, K.D.
Isolation, purification and characterization of bovine epidermal transglutaminase (452) 356
- Cassel, D. and Selinger, Z.
Catecholamine-stimulated GTPase activity in turkey erythrocyte membranes (452) 538
- Cheng, Y.-C.
Deoxythymidine kinase induced in HeLa TK⁻ cells by Herpes simplex virus Type I and Type II. Substrate specificity and kinetic behavior (452) 370
- Chulavatnatol, M. and Ruenwongsa, P.
Activation of proenzyme of acidic protease from human seminal plasma (452) 525
- Cooke, R.D., Ferber, C.E.M. and Kanagasa-bapathy, L.
Purification and characterisation of polygalacturonases from a commercial *Aspergillus niger* preparation (452) 440
- Cooney, C.L., see Weaver, J.C. (452) 285
- Daegelen-Proux, D., Pierres, M., Alexandre, Y. and Dreyfus, J.-C.
Molecular heterogeneity of rabbit heart phosphorylase kinase (452) 398
- Davis, L.C. and Orme-Johnson, W.H.
Nitrogenase IX. Effects of the MgATP generator on the catalytic and EPR properties of the enzyme in vitro (452) 42
- Dawson, R.M.
Inactivation of acetylcholinesterase by propanol and sodium dodecyl sulphate (452) 413
- de Araujo, P.S., Mies, V. and Miranda, O.
Subcellular distribution of low- and high-molecular-weight acid phosphatases (452) 121
- Degn, H., see Petersen, L.C. (452) 59
- de Haas, G.H., see van Wezel, F.M. (452) 101
- Dons, R.F. and Doughty, C.C.
Isolation and characterization of aldose reductase from calf brain (452) 1

- Doughty, C.C., see Dons, R.F. (452) 1
- Dreyfus, J.-C., see Daegelen-Pioux, D. (452) 398
- Duh, G.M., see Pan, F. (452) 271
- Elmslie, R.G., see Barns, R.J. (452) 161
- Fabre, C., see Labia, R. (452) 209
- Farooqui, A.A. and Roy, A.B.
The sulphatase of ox liver. XX. The preparation of sulphatases B1 α and B1 β (452) 431
- Feinstein, R.N., see Lindahl, R. (452) 345
- Ferber, C.E.M., see Cooke, R.D. (452) 440
- Fletcher, L., Rider, C.C. and Taylor, C.B.
Enolase isoenzymes. III. Chromatographic and immunological characteristics of rat brain enolase (452) 245
- Friedman, R.M., see Rinderknecht, H. (452) 497
- Fuhge, P., see Afroz, H. (452) 503
- Fulton, S.P., see Weaver, J.C. (452) 285
- Gennis, R.B., see O'Brien, T.A. (452) 13
- Geokas, M.C., see Brodrick, J.W. (452) 468
- Goia, I., see Bârzu, O. (452) 406
- Grossman, S.H.
A note on the dual role of glucose in the protection of glucokinase against inactivation (452) 392
- Guoo, J.Y., see Pan, F. (452) 271
- Haber, E., see Poulsen, K. (452) 533
- Halling, S.M. and Stahly, D.P.
Dihydrodipicolinic acid synthase of *Bacillus licheniformis*. Quaternary structure, kinetics and stability in the presence of sodium chloride and substrates (452) 580
- Harvey, R.J., see Spector, T. (452) 597
- Hatakeyama, H., see Tachiki, T. (452) 621
- Hatcher, V.B., see Levine, N. (452) 458
- Heyde, E.
A unifying concept for the active site region in aspartate transcarbamylase (452) 81
- Hiromi, K., see Nakatani, H. (452) 521
- Hiwada, K., see Nishimura, K. (452) 144
- Hylemon, P.B., see Stellwag, E.J. (452) 165
- Iemura, Y., see Tachiki, T. (452) 621
- Inbar, L. and Miller, I.R.
Enzymic activity at interfaces. II. Enzymic activity of microsomal nuclease and bovine pancreatic ribonuclease at the air/water interface (452) 421
- Ingebretsen, O.C.
Mechanism of the inhibitory effect of glyoxylate plus oxaloacetate and oxalomalate on the NADP-specific isocitrate dehydrogenase (452) 302
- Ishikawa, T., see Uno, I. (452) 112
- Jean, D.H. and Albers, R.W.
Immunochemical studies on the large polypeptide of *Electrophorus* electroplax (Na⁺ + K⁺)-ATPase (452) 219
- Jebeleanu, G., see Bârzu, O. (452) 406
- Jinks, D.C. and Matz, L.L.
Purification of the reduced nicotinamide adenine dinucleotide dehydrogenase from membranes of *Acholeplasma laidlawii* (452) 30
- Joblin, K.N., Johnson, A.W., Lappert, M.F. and Wallis, O.C.
Coenzyme B-12-dependent reactions. Part IV. Observations on the purification of ethanolamine ammonia-lyase (452) 262
- Johnson, A.W., see Joblin, K.N. (452) 262
- Johnson, D.A.
Purification and properties of rabbit trypsin (452) 482
- Jones, T.E., see Spector, T. (452) 597
- Kanagasabapathy, L., see Cooke, R.D. (452) 440
