Volume 8 No. 1

Burdige D.J.: The effects of sediment slurring on microbial processes, and the role of amino acids as substrates for sulfate reduction in anoxic marine sediments	1
DeLaune R.D., Feijtel T.C. & Patrick W.H., Jr.: Nitrogen flows in Louisiana Gulf Coast salt marsh: Spatial considerations	25
Binkley D., Valentine D., Wells C. & Valentine U.: An empirical analysis of the factors contributing to 20-year decrease in soil pH in an old-field plantation of loblolly pine	39
Wilson J.O., Crill P.M., Bartlett K.B., Sebacher D.I., Harriss R.C. & Sass R.L.: Seasonal variation of methane emissions from a temperate swamp	55
Billen G., Dessery S., Lancelot C. & Meybeck M.: Seasonal and inter-annual variations of nitrogen diagenesis in the sediments of a recently impounded basin	73

Volume 8 No. 2

Saunders III, J.F., & Lewis, Jr., W.M.: Transport of major solutes and the relationship between solute concentrations and discharge in the Apure River, Venezuela	101
Gosz J.R. & Moore D.I.: Strontium isotope studies of atmospheric inputs to forested watersheds in New Mexico	115
Admiraal W. & Botermans Y.J.H.: Comparison of nitrification rates in three branches of the lower river Rhine	135
Koerselman W., De Caluwe H. & Kierskamp W.M.: Denitrification and dinitrogen fixation in two quaking fens in the Vechtplassen area, The Netherlands	153
Hill A.R. & Shackleton M.: Soil N mineralization and nitrification in relation to nitrogen solution chemistry in a small forested watershed	167

Volume 8 No. 3

Devito K.J., Dillon P.J. & LaZerte B.D.: Phosphorus and nitrogen retention in five Precambrian shield wetlands	185
Fossing H. & Jørgensen B.B.: Measurement of bacterial sulfate reduction in sediments: Evaluation of a single-step chromium reduction method	205

Schoenau J.J., Stewart J.W.B. & Bettany J.R.: Forms and cycling of phosphorus in prairie and boreal forest soils	223
Lovett G.M., Reiners W.A. & Olson R.K.: Factors controlling throughfall chemistry in a balsam fir canopy: A modeling approach	239
Myrold D.D., Matson P.A. & Peterson D.L.: Relationships between soil microbial properties and aboveground stand characteristics of conifer forests in Oregon	265
