## ERRATUM

### The influence of cytochrome P450 enzyme activity on the composition and quantity of volatile organics in expired breath

R. M. Mathews, J. H. Raymer, G. R. Velez, C. Edwin Garner and J. R. Bucher, *Biomarkers*, **1**, 196–201.

We regret that on p. 198 figure 2 was printed incorrectly. Figure 2 is printed correctly below:

**Figure 2.** Time courses of the total mass of VOCs exhaled (●) and the content of hepatic microsomal P450 (■) from rats following treatment with ABT (100 mg kg<sup>-1</sup> i.p.). Values are means ± standard deviation for N = 3 rats, except for the pre-dose (0 h) VOCs, for which N = 4 rats. \*Significantly different from control (0 h), p < 0.05.

We apologise to the authors, Editors and readers of the Journal for the confusion caused.
