The Publisher regrets that, due to a publishing error, the IC₅₀ values of compound **1** were reported incorrectly in Table 1 of the above article.

The correct values are shown below:

Table 1. Inhibitory activities of the lead compound **1** in various kinase and cellular assays

1

IC₅₀ = 1.5 μ M (IKK- β)

IC₅₀ > 20 μ M (IKK- α , Syk and MKK4)
