Ober, Raimund J., Sripad Ram, and E. Sally Ward. 2004. Localization accuracy in single-molecule microscopy. *Biophys. J.* 86:1185–1200.

The equation below Eq. 7 should read:

$$\mathcal{L}(\theta | z_1, \dots, z_K) = \ln[p(T_1 = t_1, \dots, T_K = t_K | Z(t) = K)] + \ln[P(Z(t) = K)] + \sum_{k=1}^K \ln[f_{\theta}(r_K)].$$
