

Dan Siegal-Gaskins and Sean Crosson. 2008. Tightly regulated and heritable division control in single bacterial cells. *Biophys. J.* 95:2063–2072.

Fig. 3 is incorrect, in that a section of the “mother” line in panel B is the same color as the “daughter” line (*blue*), which makes the mother and daughter lines indistinguishable. The correct figure is shown here:
