

INDEX TO VOLUME 6

INDEX TO AUTHORS

A

- ABRAHAM, E. P., *see* Newton, G. G. F., Abraham, E. P., Florey, H. W., Smith, N., and Ross, J.
- ADAM, K. R.: Dithiols and the distribution of mercury, 483
- AMBACHE, N.: Reversed action of nicotine by botulinum toxin, 51
- AMBACHE, N., and Edwards, J.: Reversed action of nicotine by atropine, 311
- AMBACHE, N., and Rocha e Silva, M.: Interactions of nicotine with bradykinin and histamine, 68
- ANDERSON, C. T., Blaschko, H., Burn, J. H., and Mole, R. H.: Pressor amines in the adrenal medulla after irradiation, 342
- ANGUIANO, G., and McIwain, H.: Convulsants, effect of on phosphates of brain, 448
- CERIOTTI, G., *see* Bianchi, C., and Ceriotti, G.
- CHANCE, M. R. A.: Brain glycogen increment patterns produced by convulsant drugs, 1
- CONDON, N. E.: Modification of manometer for blood-pressure recordings, 19
- CRAWFORD, T. B. B., and Outschoorn, A. S.: Separation of adrenaline and noradrenaline in biological fluids, 8

B

- BECK, I. T.: Pharmacological study of injected cholinesterase, 144
- BERNHARD, C. G., and Taverner, D.: Tubocurarine on extensor reflex, 540
- BERNHARD, C. G., Taverner, D., and Widén, L.: Tubocurarine and strychnine on the central nervous system, 551
- BIANCHI, C., and Ceriotti, G.: Apparatus for studying isolated organs, 182
- BLASCHKO, H., *see* Anderson, C. T., Blaschko, H., Burn, J. H., and Mole, R. H.
- BURGEN, A. S. V., and Hobbiger, F.: Inhibition of cholinesterases by alkylphosphates, 593
- BURN, G. P., and Grewal, R. Singh: Anti-diuretic experiments in man, 471
- BURN, J. H., and Robinson, J.: Noradrenaline and adrenaline in vessels in relation to amine oxidase, 101
- BURN, J. H., and Robinson, J.: Reversal of vascular response to acetylcholine and adrenaline, 110
- BURN, J. H., *see* Anderson, C. T., Blaschko, H., Burn, J. H., and Mole, R. H.
- BUTTLE, G. A. H., *see* Hsu, Y. C., and Buttle, G. A. H.

C

- CAMPBELL, R. M., Innes, I. R., and Kosterlitz, H. W.: Dietary protein and liver sympathin, 659

D

- DAWES, G. S., Mott, J. C., and Widdicombe, J. G.: The depressor action of the *Veratrum* alkaloids, 675
- DEKANSKI, J.: A pressor substance in urine, 351
- DICKER, S. E.: Renal effects of urethane and colchicine in rats, 169
- DIDCOCK, K., Robson, J. M., and Sharaf, A. A.: Chorionic gonadotrophin implants, 445

E

- EDWARDS, J., *see* Ambache, N., and Edwards, J.
- EULER, U. S. von, and Luft, R.: Noradrenaline output in human urine, 286

F

- FALCO, E. A., Goodwin, L. G., Hitchings, G. H., Rollo, I. M., and Russell, P. B.: 2:4-diaminopyrimidines—a new series of antimalarials, 185
- FASTIER, F. N., and Hawkins, J.: Inhibition of amine oxidase by isothiourreas, 256
- FAWAZ, G.: Dibenamine and cardiac arrhythmias, 492
- FLOREY, H. W., *see* Newton, G. G. F., Abraham, E. P., Florey, H. W., Smith, N., and Ross, J.
- FLOREY, H. W., *see* Ritchie, A. C., Smith, N., and Florey, H. W.
- FORBES, O. C., and Marshall, P. B.: Pharmacology of benzoic acid derivatives, 634

G

- GINSBURG, M.: Assay of antidiuretic activity, 411
- GODFREY, E. I.: Analgesiometric pressure apparatus, 586

- GOODWIN, L. G., *see* Falco, E. A., Goodwin, L. G., Hitchings, G. H., Rollo, I. M., and Russell, P. B.
- GREEN, A. F., and Young, P. A.: Heat and pressure analgesiometric methods, 572
- GREEN, A. F., *see* White, A. C., Green, A. F., and Hudson, A.
- GREWAL, R. Singh: Method of testing miotics on the mouse pupil, 696
- GREWAL, R. Singh, *see* Burn, G. P., and Grewal, R. Singh
- GUIMARAES, J. L., and Lourie, E. M.: Inhibition of pharmacological actions of pentamidine by suramin, 514

H

- HAWKINS, D. F., and Schild, H. O.: Action of drugs on the human bronchi, 682
- HAWKINS, J., *see* Fastier, F. N., and Hawkins, J.
- HENDRY, J. A., Homer, R. F., Rose, F. L., and Walpole, A. L.:
 II. Bis-epoxides as cytotoxic agents, 235
 III. Ethyleneimines as cytotoxic agents, 357
- HENDRY, J. A., Rose, F. L., and Walpole, A. L.: I. Methylolamides as cytotoxic agents, 201
- HITCHINGS, G. H., *see* Falco, E. A., Goodwin, L. G., Hitchings, G. H., Rollo, I. M., and Russell, P. B.
- HOBBIGER, F.: Inhibition of cholinesterases by irreversible inhibitors, 21
- HOBBIGER, F., *see* Burgen, A. S. V., and Hobbiger, F.
- HOGGARTH, E., and Martin, A. R.: Chemotherapy of tuberculosis: Part VII. Thiosemicarbazones, 454
- HOMER, R. F., *see* Hendry, J. A., Homer, R. F., Rose, F. L., and Walpole, A. L.
- HSU, Y. C., and Buttle, G. A. H.: Enhancement of oral penicillin by use of oil containing aluminium resinate, 89
- HUDSON, A., *see* White, A. C., Green, A. F., and Hudson, A.
- HUTCHEON, D. E.: Susceptibility to ventricular fibrillation during chloroform and cyclopropane anaesthesia, 31
- HUTTER, O. F., and Pascoe, J. E.: Decurization by decamethonium, 691

I

- INNES, I. R., *see* Campbell, R. M., Innes, I. R., and Kosterlitz, H. W.
- INNES, I. R., and Kosterlitz, H. W.: Cocaine on chronotropic action of adrenaline and noradrenaline, 651

J

- JARRETT, I. G.: Effect of adrenaline, noradrenaline on adrenal ascorbic acid, 294

K

- KORDIK, P.: Responses of coronary vessels to posterior pituitary and to adrenaline, 75
- KOSTERLITZ, H. W., *see* Campbell, R. M., Innes, I. R., and Kosterlitz, H. W.
- KOSTERLITZ, H. W., *see* Innes, I. R., and Kosterlitz, H. W.

L

- LANGEMANN, H.: Enzymes of ox adrenals, 318
- LOURIE, E. M., Morley, J. S., Simpson, J. C. E., and Walker, J. M.: A cinnoline compound ("528") for *T. congolense* infections, 643
- LOURIE, E. M., and Walker, J. M.: The toxicity of antrycide methylsulphate, 630
- LOURIE, E. M., *see* Guimaraes, J. L., and Lourie, E. M.
- LUFT, R., *see* Euler, U. S. von, and Luft, R.

M

- McILWAIN, H.: Atropine and related compounds on stimulated cerebral cortex, 531
- McILWAIN, H., *see* Anguiano, G., and McIlwain, H.
- MANN, M., and West, G. B.: Nature of uterine and intestinal sympathin, 79
- MANSOUR, T. E.: Action of antimonial compounds on liver fluke, 588
- MARSHALL, P. B., *see* Forbes, O. C., and Marshall, P. B.
- MARTIN, A. R., *see* Hoggarth, E., and Martin, A. R.
- MASON, D. F. J., *see* Wien, R., and Mason, D. F. J.
- MOLE, R. H., *see* Anderson, C. T., Blaschko, H., Burn, J. H., and Mole, R. H.
- MORLEY, J. S., *see* Lourie, E. M., Morley, J. S., Simpson, J. C. E., and Walker, J. M.
- MOTT, J. C., *see* Dawes, G. S., Mott, J. C., and Widdicombe, J. G.

N

- NEWTON, G. G. F., Abraham, E. P., Florey, H. W., Smith, N., and Ross, J.: Biological properties of bacitracins, A, B, and C, 417

O

- ORMEROD, W. E.: Inclusion bodies produced by chemotherapeutic agents in trypanosomes, 334

- ORMEROD, W. E.: Mode of action of antry-
cide, 325
- ORTELLI, M.: Apparatus for studying isolated
organs, 182
- OUTSCHOORN, A. S., *see* Crawford, T. B. B.,
and Outschoorn, A. S.
- P
- PASCOE, J. E., *see* Hutter, O. F., and Pascoe,
J. E.
- PATON, W. D. M.: Compound 48/80: A
histamine liberator, 499
- PATON, W. D. M., and Perry, W. L. M.:
Pharmacology of the toxiferines, 299
- PATON, W. D. M., and Schachter, M.: Mepyr-
amine and histamine release, 509
- PATON, W. D. M., and Zaimis, E. J.: Paralysis
of autonomic ganglia by methonium salts,
155
- PERRY, W. L. M., *see* Paton, W. D. M., and
Perry, W. L. M.
- R
- REES, R. J. W., and Robson, J. M.: Activity
of thiosemicarbazones in corneal tubercu-
losis, 83
- RITCHIE, A. C., Smith, N., and Florey, H. W.:
Biological properties of cephalosporin P,
430
- ROBINSON, J., *see* Burn, J. H., and Robinson,
J.
- ROBSON, J. M., *see* Didcock, K., Robson,
J. M., and Sharaf, A. A.
- ROBSON, J. M., *see* Rees, R. J. W., and
Robson, J. M.
- ROCHA E SILVA, M., *see* Ambache, N., and
Rocha e Silva, M.
- ROLLO, I. M., *see* Falco, E. A., Goodwin,
L. G., Hitchings, G. H., Rollo, I. M.,
and Russell, P. B.
- ROSE, F. L., *see* Hendry, J. A., Homer, R. F.,
Rose, F. L., and Walpole, A. L.
- ROSE, F. L., *see* Hendry, J. A., Rose, F. L.,
and Walpole, A. L.
- ROSS, J., *see* Newton, G. G. F., Abraham,
E. P., Florey, H. W., Smith, N., and
Ross, J.
- RUSSELL, P. B., *see* Falco, E. A., Goodwin,
L. G., Hitchings, G. H., Rollo, I. M., and
Russell, P. B.

- WEST, G. B., *see* Shepherd, D. M., and West,
G. B.

- WHITE, A. C., Green, A. F., and Hudson, A.: Diphenylpropanolamine, allyl- and propylamines, 560
- WIDDICOMBE, J. G., *see* Dawes, G. S., Mott, J. C., and Widdicombe, J. G.
- WIDÉN, L., *see* Bernhard, C. G., Taverner, D., and Widén, L.
- WIEN, R., and Mason, D. F. J.: Action of hexamethonium and homologues, 611
- WILLIAMS, E. M. V., *see* Vaughan Williams, E. M.
- WRIGHT, Samson, *see* Salama, S., and Wright, S.

Y

- YOUNG, P. A.: Duration of cocaine anaesthesia in the rabbit cornea, 273
- YOUNG, P. A., *see* Green, A. F., and Young, P. A.

Z

- ZAIMIS, E. J., *see* Paton, W. D. M., and Zaimis, E. J.

SUBJECT INDEX

A

- Abietic acid derivatives, enhancement of oral penicillin with, 89
- p*-Acetylbenzaldehyde thiosemicarbazone, *see* Thiacetazone
- Acetylcholine, action of on bronchial chain preparation, 682
- Acetylcholine and adrenaline, reversal of vascular response, 110
- Acetylcholine and cortical metabolism, 531
- Adrenal gland, bovine, enzyme activity in, 318
- Adrenal medulla after irradiation, pressor amines in the, 342
- Adrenaline, action of on bronchial chain preparation, 682
- Adrenaline, effect of, on adrenal ascorbic acid, 294
- Adrenaline, potentiation of by antihistamines and related drugs, 606
- Adrenaline and acetylcholine, reversal of vascular response, 110
- Adrenaline and *nor*adrenaline in adrenal medulla after irradiation, 342
- Adrenaline and *nor*adrenaline, biological estimation in presence of histamine or acetylcholine, 120
- Adrenaline and *nor*adrenaline, factors affecting chronotropic action of, 651
- Adrenaline and *nor*adrenaline, inactivation by amine oxidase, 101
- Adrenaline and *nor*adrenaline, quantitative separation in biological fluids, 8
- Adrenaline-*nor*adrenaline ratio in suprarenal medulla, 665
- Adrenaline and pituitary (posterior lobe), responses of coronary vessels to, 75
- nor*Adrenaline, *see* *Nor*adrenaline
- Alkylphosphates, inhibition of cholinesterases *in vitro* and *in vivo* by, 21
- Allobarbitone antagonism of central effect of *d*-tubocurarine, 540
- Aluminium resinate, enhancement of oral penicillin with, 89
- Amidone and other analgesics, methods of comparison, 572
- Amine oxidase activity of ox adrenal gland, 318
- Amine oxidase, inhibition by antihistamines and related drugs, 606
- Amine oxidase, inhibition by *isothioureas*, 256
- Amine oxidase, selective action on *nor*-adrenaline, 101
- p*-Aminobenzaldehyde thiosemicarbazone and analogues, estimation, 35
- Aminophylline, action of on bronchial chain preparation, 682
- p*-Aminosalicylic acid and thiosemicarbazones in corneal tuberculosis, 83
- Amphetamine and other convulsants, effect on brain metabolism, 1
- Anaesthetics, local, derived from benzilic acid, 634
- Analgesics, heat and pressure methods of assessing, 572
- Antazoline, inhibition of amine oxidase by, 606
- Anthelmintics, *Fasciola hepatica* as test organism for, 588
- Anthisan, *see* Mepyramine
- Antidiuretic activity, method of assay, 411
- Antidiuretic experiments in man, 471
- Antimony compounds, action of on *Fasciola hepatica*, 588
- Antistix, *see* Antazoline
- Antrycide, mode of action, 325, 334
- Antrycide, toxicity and dose volume, 630
- Ascorbic acid, adrenal, effect of adrenergic drugs on, 294
- Aspasan and analogues, spasmolytic activity of, 560
- Atropine and related compounds, effect of on cortical metabolism, 531
- Atropine, reversal of nicotine action by, 311

Autonomic blocking agents related to hexamethonium, 611
 Autonomic ganglia, paralysis by methonium salts, 155
 Ayfivin, biological properties of, 417

B

Bacitracin A, B, and C. biological properties of, 417
l- and *d*-Bebeerine, action of on the central nervous system, 459
 Benadryl, *see* Diphenhydramine
 Benzoic acid derivatives, actions of, 634
l-Benzylthiosemicarbazides, antituberculous activity of, 454
 Berculon A, *see* Thiacetazone
 Berculon B, *see p*-Ethylsulphonylbenzaldehyde thiosemicarbazone
 N¹:N³-Bis(4'-aminocinnolyl-6')-guanidine dimethiodide, trypanocidal activity of, 643
 Bis-epoxides, cytotoxic activity of, 235
 Botulinum toxin, nicotine-reversal by, 51
 Bradykinin and histamine, interactions of nicotine with, 68
 Brain glycogen patterns produced by convulsant drugs, 1
 Brain metabolism, effect of atropine and analogues on, 531
 Bronchial chain preparation, action of drugs on, 682

C

Caffeine and other convulsants, effect on brain metabolism, 1
 Caffeine, effect of on phosphates of brain *in vitro*, 448
 Calabash curare, *see* Curare, calabash
 Carbachol, action of on bronchial chain preparation, 682
 Carbachol and other miotics, comparison of, 696
 Carcinoma Walker 256 in screening tumour inhibitors, 135
 Cardiac arrhythmias, protective action of Dibenamine, 492
 Central nervous function and changes in brain metabolite concentration, 1
 Cephalosporin P₁, biological properties of, 430
 Cerebral cortex, effect of atropine and analogues on metabolism of, 531
 Chloroform- α -adrenaline arrhythmias, protective action of dibenamine against, 492
 Chloroform and cyclopropane anaesthesia, ventricular fibrillation during, 31
 Cholinesterase activity of ox adrenal gland, 318

Cholinesterase inhibition by alkylphosphates and alkylphenolphosphates, 593
 Cholinesterases, inhibition by irreversible inhibitors *in vitro* and *in vivo*, 21
 Cholinesterase inhibitors, miotic activity of, 696
 Cholinesterase, pharmacological study of injected, 144
 Chorionic gonadotrophin, *see* Gonadotrophin, chorionic
 Chromatographic separation of adrenaline and noradrenaline in biological fluids, 8
 Cinchocaine anaesthesia, duration of, 273
 Cinnoline compound 528, trypanocidal activity of, 643
 Cocaine anaesthesia, duration of, 273
 Cocaine and related compounds, effect of on cortical metabolism, 531
 Cocaine, effect on action of adrenaline and noradrenaline, 651
 Colchicine and urethane, renal effects, 169
 Compound 48/80: A potent histamine liberator, 499, 509
 Convulsant drugs, brain glycogen patterns produced by, 1
 Convulsive agents, effect of on phosphates of brain *in vitro*, 448
 Coronary vessels, responses to pituitary (posterior lobe) and adrenaline, 75
 Cortical metabolism, effect of atropine and analogues on, 531
 Curare activity of toxiferines, 299
 Curare, calabash, action on the central nervous system of, 459
 Curare, *see also d*-Tubocurarine
 Curine dimethyl ether dimethiodide, action of on central nervous system, 459
 Cyclopropane-adrenaline arrhythmias, protective action of dibenamine against, 492
 Cyclopropane and chloroform anaesthesia, ventricular fibrillation during, 31
 Cytotoxic activity of bis-epoxides, 235
 Cytotoxic activity of ethyleneimines, 357
 Cytotoxic activity of methylolamides, 201

D

Decamethonium antagonism of *d*-tubocurarine, 691
 DFP, *see* Diisopropylfluorophosphonate
 Dial, *see* Allobarbitone
 2:4 - Diamino - 5 - *p* - chlorophenyl - 6 - ethyl - pyrimidine, antimalarial activity of, 185
 2:4-Diaminopyrimidine derivatives, antimalarial activity of, 185
 Dibenamine and other convulsants, effect on brain metabolism, 1

Dibenamine, inhibition of amine oxidase by, 606
 Dibenamine, protective action against cardiac arrhythmias, 492
 N:N-Dibenzyl- β -chloroethylamine, *see* Dibenamine
 Diethylamine *p*-aminophenylstibinate, *see* Ethylstibamine
 3:4-Dihydroxyphenylserine, biosynthesis of *nor*adrenaline from, 127
 Dihydroxypropyltrimethylammonium derivatives, mitotic activity of, 696
 Disopropylfluorophosphonate and related anticholinesterases, 593
 Dimercaprol and dimercaprol glucoside, effect of on distribution of mercury, 483
 Dimidium bromide, mode of trypanocidal action, 334
 Diphenhydramine, activity of compounds related to, 634
 Diphenhydramine, inhibition of amine oxidase by, 606
 Diphenylacetic acid derivatives, actions of, 634
 Diphenylalkamines with spasmolytic properties, 560
 3:3-Diphenylallylamines, spasmolytic properties of, 560
 Diphenylhydantoin sodium, *see* Phenytoin sodium
 3:3-Diphenylpropanolamines, spasmolytic properties of, 560
 3:3 - Diphenylpropan - 3 - ol - methyldiethylammonium iodide, atropine-like activity of, 560
 3:3-Diphenylpropylamines, spasmolytic properties of, 560
 Dithiols and the distribution of mercury, 483
 Dopa-decarboxylase activity of liver extracts after irradiation, 342

E

Enzyme inhibition by antihistamines and related drugs, 606
 Ephedrine, cardiovascular effects of, 75
 Ephedrine, potentiation of adrenaline and *nor*-adrenaline by, 101
 Erythroidines, action of on central nervous system, 459
 Eserine, *see* Physostigmine
 Ethyleneimines, cytotoxic activity of, 357
 Ethyl pyrophosphate, inhibition of cholinesterases by, 21
 Ethyl pyrophosphate and related anticholinesterases, 593
 Ethylstibamine, action of on *Fasciola hepatica*, 588

p-Ethylsulphonylbenzaldehyde thiosemicarbazone and analogues in corneal tuberculosis, 83

p-Ethylsulphonylbenzaldehyde thiosemicarbazone and analogues, estimation, 35

F

Fasciola hepatica as test organism for comparison of anthelmintics, 588
 Fibrillation, induced, protective action of dibenamine, 492
 Fibrillation, ventricular, during chloroform and cyclopropane anaesthesia, 31
 Fouadin, *see* Stibophen
 Fournau quaternary compounds, mitotic activity of, 696
 Furfuryltrimethylammonium iodide, *see* Furtrethonium
 Furmethide, *see* Furtrethonium
 Furtrethonium and methyl derivative, mitotic activity of, 696

G

Ganglion blocking agents related to hexamethonium, 611
 Ganglionic block by methonium salts, 155
 Glycogen increment patterns produced by convulsant drugs, 1
 Gonadotrophin, chorionic, preparation of implants, 445
 Gonadotrophin, chorionic, prolongation of action of, 445

H

Hexamethonium and homologues, actions of, 611
 Hexamethonium, paralysis of autonomic ganglia by, 155
 Hexane - 1 : 6 - bis - ethyldimethylammonium, actions of, 611
 Hexane - 1 : 6 - bis - diethylmethylammonium, actions of, 611
 Hexane-1:6-bistriethylammonium, actions of, 611
 Hexoestrol, adrenal hypertrophy caused by, 342
 Histamine, action of on bronchial chain preparation, 682
 Histamine antagonism in diphenylalkamines, 560
 Histamine antagonists derived from benzilic acid, 634
 Histamine antagonists, inhibition of amine oxidase by, 606

- Histamine and bradykinin, interaction of nicotine with, 68
 Histamine liberator: Compound 48/80, 499, 509
 Höchst 10116, *see* Aspasan
 Hyoscine and related compounds, effect of on cortical metabolism, 531
 Hyoscyamine and related compounds, effect of on cortical metabolism, 531

I

- Insulin and other convulsants, effect on brain metabolism, 1
 Insulin, effect of on suprarenal medulla, 289
 Intestinal motility, apparatus for study of, 182
 Isoprenaline, action of on bronchial chain preparation, 682
 Isoprenaline, effect of on adrenal ascorbic acid, 294

L

- Leptazol and other convulsants, effect on brain metabolism, 1
 Leptazol, effect of on phosphates of brain *in vitro*, 448
 Liver fluke as test organism for comparison of anthelmintics, 588

M

- Malaria, 2:4-Diaminopyrimidines in chemotherapy of, 185
 Manometer for blood-pressure recordings, modification of, 19
 Mepyramine, action of on bronchial chain preparation, 682
 Mepyramine, inhibition of amine oxidase by, 606
 Mercury, effect of dithiols on distribution, 483
 Methonium homologues, actions of, 611
 Methonium salts, paralysis of autonomic ganglia by, 155
p-Methoxyphenylethylmethylamine polymer, histamine-liberating action of, 499, 509
 5-Methylfurfuryltrimethylammonium iodide, miotic activity of, 696
 Methylolamides, cytotoxic activity of, 201
 Miotics, mouse pupil method for testing, 696
 Morphine, effect on intestinal motility, 263
 Morphine and other analgesics, methods of comparison, 572
 Motility of isolated organs, apparatus for study of, 182
 Muscarine-like compounds, miotic activity of, 696

N

- Neostibosan, *see* Ethylstibamine
 Neostigmine and other miotics, comparison of, 696
 Neostigmine, phosphorus compounds related to, 593
 Nicotine, antidiuretic action of in relation to pituitary (posterior lobe) extract, 471
 Nicotine, interactions with bradykinin and histamine, 68
 Nicotine-reversal by atropine, 311
 Nicotine-reversal by botulinum toxin, 51
 Nikethamide and other convulsants, effect on brain metabolism, 1
 Noradrenaline, action of on bronchial chain preparation, 682
 Noradrenaline, biosynthesis from 3:4-Dihydroxyphenylserine, 127
 Noradrenaline, effect of on adrenal ascorbic acid, 294
 Noradrenaline, secretion and dietary protein, 659
 Noradrenaline, urinary excretion of, 286
 Noradrenaline-adrenaline ratio in suprarenal medulla, 665
 Noradrenaline and adrenaline, biological estimation in presence of histamine or acetylcholine, 120
 Noradrenaline and adrenaline, factors affecting chronotropic action of, 651
 Noradrenaline and adrenaline, inactivation by amine oxidase, 101
 Noradrenaline and adrenaline, quantitative separation in biological fluids, 8
 Noradrenaline and adrenaline, *see also* sympathins
 Noradrenaline carboxylic acid, *see* 3:4-Dihydroxyphenylserine
 Nupercaine, *see* Cinchocaine

P

- Pain threshold techniques for assessing analgesic activity, 572
 Penicillin (oral) enhancement with aluminium resinate, 89
 Pentamethonium, paralysis of autonomic ganglia by, 155
 Pentamethylenetetrazole, *see* Leptazol
 Pentamidine and suramin, pharmacological interference between, 514
 Perfusion apparatus for isolated organs, 182
 Pethidine and other analgesics, methods of comparison, 572
 Phenanthridinium, cinnoline derivatives analogous to, 643

Phenergan, *see* Promethazine
 Phenindamine, inhibition of amine oxidase by, 606
 Phenytoin sodium and other convulsants, effect on brain metabolism, 1
 Phosphorus compounds with anticholinesterase activity, 593
 Phosphostigmines, anticholinesterase activity of, 593
 Physostigmine and cortical metabolism, 531
 Physostigmine and other miotics, comparison of, 696
 PicROTOXIN and other convulsants, effect on brain metabolism, 1
 PicROTOXIN and phosphates of brain *in vitro*, 448
 Pilocarpine, action of on bronchial chain preparation, 682
 Piperoxane, inhibition of amine oxidase by, 606
 Pituitary (posterior lobe) and adrenaline, responses of coronary vessels, 75
 Pituitary (posterior lobe), antidiuretic experiments with reference to nicotine, 471
 Potassium antimonyltartrate, action of on *Fasciola hepatica*, 588
 Pregnyl, *see* Gonadotrophin, chorionic
 Pressor amines in the adrenal medulla after irradiation, 342
 Pressor substance in urine, 351
 Pressure apparatus for assessment of analgesics, 572, 586
 Promethazine, inhibition of amine oxidase by, 606
*iso*Propylnoradrenaline, *see* Isoprenaline
 Pyribenzamine, *see* Tripeleminamine
 Pyridoxal-5-phosphate, effect on dopa-decarboxylase activity after irradiation, 342
 Pyridoxine, relation to dopa-decarboxylase activity after irradiation, 342
 Pyrimidines as cytotoxic agents, 357

S

Spasmolytic activity in benzilic acid derivatives, 634
 Spasmolytics, diphenylalkamine type, 560
 Stearoylethyleneimine as a cytotoxic agent, 357
 Stibophen, action of on *Fasciola hepatica*, 588
 Streptomycin and thiosemicarbazones in corneal tuberculosis, 83
 Strychnine and other convulsants, effect on brain metabolism, 1
 Strychnine, effect of on phosphates of brain *in vitro*, 448

22

Strychnine and *d*-tubocurarine, comparison of central effects, 551
Strychnos toxifera alkaloids (toxiferines), pharmacology of, 299
 Suprarenal medulla, adrenaline and *nor*-adrenaline in, 665
 Suprarenal medulla, effect of insulin on, 289
 Suramin, mode of trypanocidal action, 334
 Suramin and pentamidine, pharmacological interference between, 514
 Sympathin, liver, dietary protein and, 659
 Sympathins, nature of uterine and intestinal, 79

T

Tachycardia, induced, protective action of dibenamine, 492
 Tartar emetic, *see* Potassium antimonyltartrate
 TEPP, *see* Ethyl pyrophosphate
 Tetraethylpyrophosphate, *see* Ethyl pyrophosphate
 Tetramethonium, autonomic effects, 155
 Theophylline with ethylenediamine, *see* Aminophylline
 Thephorin, *see* Phenindamine
 Thiacetazone and analogues in corneal tuberculosis, 83
 Thiacetazone and analogues, estimation and photolability, 35
 Thiosemicarbazone derivatives, chemotherapy of, 454
 Thiosemicarbazones, estimation and photolability of some, 35
*iso*Thioureas, inhibition of by amine oxidase, 256
 Toxiferines, pharmacology of, 299
 Trasentin, activity of compounds related to, 634
 Triazines as cytotoxic agents, 357
 Tripeleminamine, inhibition of amine oxidase by, 606
 2:4:6-Tris-ethyleneimino-1:3:5-triazine as a cytotoxic agent, 357
 Tropine derivatives, effect of on cortical metabolism, 531
 Trypanocidal action of antrycide, 325
Trypanosoma congolense, cinnoline compound active against, 643
 Trypanosomes, production of inclusion bodies in, 334
 Tuberculosis, chemotherapy of: Part VII. Oxidation and reduction products of thiosemicarbazones, 454
 Tuberculosis, corneal, activity of thiosemicarbazones in, 83
d-Tubocurarine, action of on monosynaptic extensor reflex, 540

- d*-Tubocurarine, antagonism of by decamethonium, 691
d-Tubocurarine and strychnine, comparison of central effects, 551
d-Tubocurarine and toxiferines, comparison of, 299
Tumour inhibitors, Walker carcinoma 256 in the screening of, 135
Tumour inhibitory activity of bis-epoxides, 235
Tumour inhibitory activity of ethyleneimines, 357
Tumour inhibitory activity of methylolamides, 201

U

- Ureas as cytotoxic agents, 357
Urethane and colchicine, renal effects, 169
Urine, a pressor substance in, 351
Uterine motility, apparatus for study of, 182

V

- Vasopressin activity in urine concentrates, 351
Ventricular fibrillation during chloroform and cyclopropane anaesthesia, 31
Veratridine, depressor action of, 675
Veratrum alkaloids, depressor action of, 675
Veriloid, depressor action of, 675

W

- Walker carcinoma 256 in screening tumour inhibitors, 135
50-63, *see* 2:4-Diamino-5-*p*-chlorophenyl-6-ethylpyrimidine
933F, *see* Piperoxane
2249F, mitotic activity of, 696
2268F, mitotic activity of, 696
6198, *see p*-Aminobenzaldehyde thiosemicarbazone
8388, *see p*-Ethylsulphonylbenzaldehyde thiosemicarbazone
