

INDEX TO VOLUME 7

INDEX TO AUTHORS

A

- AHMAD, Nazeer ud din: *see* Marshall, P. B., Ahmad, Nazeer ud din, and Weston, R. E.
AKCASU, A., Sinha, Y. K., and West, G. B.: The pharmacology of benzoylcholine, 331
ALEXANDER, F.: The effects of some humoral agents on the horse ileum, 25
ARMITAGE, P., Herxheimer, H., and Rosa, L.: The protective action of antihistamines in the anaphylactic microshock of the guinea-pig, 625

B

- BECK, I. T.: Pharmacological actions of injected cholinesterase, 483
BENACERRAF, B.: *see* Halpern, B. N., Benacerraf, B., and Briot, M.
BEZNAK, Margaret: On the absence and the return of pendulum movements after contraction, 237
BODMAN, R. I.: Evaluation of two synthetic curarizing agents in conscious volunteers, 409
BORN, G. V. R., and Vane, J. R.: The quantitative determination of diffusible histamine in blood, 298
BRIOT, M.: *see* Halpern, B. N., Benacerraf, B., and Briot, M.
BROWNLEE, G., Bushby, S. R. M., and Short, E. I.: The chemotherapy and pharmacology of the polymyxins, 170
BUEDING, E.: Acetylcholinesterase activity of *Schistosoma mansoni*, 563
BÜLBRING, E.: *see* Kordik, P., Bülbiring, E., and Burn, J. H.
BURN, J. H., Kordik, P., and Mole, R. H.: The effect of x-irradiation on the response of the intestine to acetylcholine and on its content of "pseudo"-cholinesterase, 58
— and Robinson, J.: Effect of denervation on amine oxidase in structures innervated by the sympathetic, 304
— *see* Kordik, P., Bülbiring, E., and Burn, J. H.
— *see* Spinks, A., and Burn, J. H.
BUSHBY, S. R. M.: *see* Brownlee, G., Bushby, S. R. M., and Short, E. I.

C

- CHANDLER, R. L.: *see* Goodwin, L. G., and Chandler, R. L.
COLLIER, H. O. J.: The effect of chain-length on curarizing potency in three homologous series, 392
— and Macauley, B.: The pharmacological properties of "Laudolissin"—a long-acting curarizing agent, 398
— and Waterhouse, P. D.: The activities of some 2:4-diaminopteridines and sulphathiazole against *Streptococcus faecalis* and *Staphylococcus aureus*, 161
CRICK, Joan, and Jackson, H.: A tracer study of the metabolism of *p*-iodophenyl urethane; the selective localization of radioactive material, 142

D

- DALLEMAGNE, J., and Philippot, E.: Antagonistic actions at the neuromuscular junction, 601
DEKANSKI, J.: The quantitative assay of vasopressin, 567
DICKINSON, L., and Thompson, M. J.: Chemotherapeutic investigations with Rous sarcoma virus, 277

E

- EARL, C. J., and Thompson, R. H. S.: Cholinesterase levels in the nervous system in tri-*o*-cresyl phosphate poisoning, 685
— — The inhibitory action of tri-*o*-cresyl phosphate on cholinesterases, 261
EDGE, N. D.: *see* Wien, R., Mason, D. F. J., Edge, N. D., and Langston, G. T.
EVANS, A. G. J., Nasmyth, P. A., and Stewart, H. C.: The fall of blood pressure caused by intravenous morphine in the rat and the cat, 542

F

- FASTIER, F. N., and Reid, C. S. W.: Influence of chain-length upon some pharmacological properties of S-alkyl isothiourreas, 417

- FLECKENSTEIN, A.: A quantitative study of antagonists of adrenaline on the vessels of the rabbit's ear, 553
- FLOREY, H. W.: *see* Gowans, J. L., Smith, N., and Florey, H. W.
- FRANCIS, J.: The sulphonamides: relative potencies and specificity of action, 189
- G
- GOODWIN, L. G., and Chandler, R. L.: The chemotherapeutic action of phenanthridine compounds. Part VI. The prophylactic and toxic actions of 2:7-diamino-9-*p*-aminophenyl-10-methylphenanthridinium chloride (150C47) and iodide, 591
- and Unsworth, K.: The chemotherapeutic action of phenanthridine compounds. Part V. The effect of four new phenanthridine derivatives upon fly-transmitted *T. vivax* infections in cattle, 581
- GOWANS, J. L., Smith, N., and Florey, H. W.: Some properties of nisin, 438
- GREWAL, R. Singh: A method for testing analgesics in mice, 433
- The pharmacological actions of 6-methyl-adrenaline, 338
- H
- HALPERN, B. N., Benacerraf, B., and Briot, M.: The roles of cortisone, desoxycorticosterone, and adrenaline in protecting adrenalectomized animals against haemorrhagic, traumatic, and histaminic shock, 287
- HAWKING, F., Ormerod, W. E., Thurston, J. P., and Webber, W. A. F.: The antifilarial action and toxicity of methylene violet and of other compounds of the phenosafranine series, 494
- HAWKINS, Joyce, and Walker, J. M.: The effect of colchicine on the enzyme content of regenerating rat liver and on the pressor amine content of the adrenal, 152
- HERXHEIMER, H.: *see* Armitage, P., Herxheimer, H., and Rosa, L.
- HEY, P.: On relationships between structure and nicotine-like stimulant activity in choline esters and ethers, 117
- HOBBIGER, F.: The mechanism of anticurare action of certain neostigmine analogues, 223
- HOWARTH, F.: Observations on the passage of a colloid from cerebrospinal fluid to blood and tissues, 573
- HURST, E. W., Melvin, P., and Peters, J. M.: The prevention of encephalitis due to viruses of Eastern equine encephalomyelitis and louping-ill: experiments with trypan red, mepacrine, and many other substances, 455
- HURST, E. W., Peters, J. M., and Melvin, P.: The action of mepacrine and trypan red in a number of virus diseases, 473
- HUTCHEON, D. E., and McCullough, Lois: The respiratory stimulant action of octylamines, 42
- I
- ING, H. R., Kordik, P., and Tudor Williams, D. P. H.: Studies on the structure-action relationships of the choline group, 103
- J
- JACKSON, H.: The effect of analgesic drugs on the sensation of thermal pain in man, 204
- The evaluation of analgesic potency of drugs using thermal stimulation in the rat, 196
- *see* Crick, J., and Jackson, H.
- JONES, J. V.: The nature of the pulmonary receptors excited by antihistamines, 450
- JONES, W. R., Landquist, J. K., and Senior, N.: Synthetic amoebicides: Part I. Anthrapyrimidines, 486
- K
- KORDIK, Pamela, Bülbring, E., and Burn, J. H.: Ciliary movement and acetylcholine, 67
- *see* Burn, J. H., Kordik, P., and Mole, R. H.
- *see* Ing, H. R., Kordik, P., and Tudor Williams, D. P. H.
- L
- LANDQUIST, J. K.: *see* Jones, W. R., Landquist, J. K., and Senior, N.
- LANGSTON, G. T.: *see* Wren, R., Mason, D. F. J., Edge, N. D., and Langston, G. T.
- LAURENCE, D. R., and Stacey, R. S.: Effect of hexamethonium on the response to insulin in animals and man, 255
- The effect of methonium compounds on nicotine convulsions, 80
- LEE, J.: Reversal of the action of adrenaline on a single melanophore in the frog (*Rana temporaria*), 641
- LOURIE, E. M.: Pharmacological effects of some derivatives of furan and choline, with special reference to action on the bladder and to toxicity, 130
- LU, F. C.: The effects of proteolytic enzymes on the isolated rabbit intestine, 637
- M
- MACAULEY, Barbara: *see* Collier, H. O. J., and Macauley, Barbara
- MCCULLOUGH, Lois: *see* Hutcheon, D. E., and McCullough, Lois

- MACKIE, A.: *see* Parnell, I. W., and Mackie, A.
 — and Raeburn, J.: The effect of some oxidation products of phenothiazine on liver fluke (*Fasciola hepatica*) *in vitro*, 215
 — — The influence of groups in the molecule of 2 : 3-dihydro-3-ketobenzo-1 : 4-thiazine on its effect on liver fluke (*Fasciola hepatica*) *in vitro*, 219
- MARSHALL, P. B., Ahmad, Nazeer ud din, and Weston, R. E.: The pharmacology of some basic ketones and related compounds, 85
- MASON, D. F. J.: *see* Wien, R., Mason, D. F. J., Edge, N. D., and Langston, G. T.
- MELVIN, P.: *see* Hurst, E. W., Melvin, P., and Peters, J. M.
- MOLE, R. H.: *see* Burn, J. H., Kordik, P., and Mole, R. H.
- N
- NASMYTH, P. A.: *see* Evans, A. G. J., Nasmyth, P. A., and Stewart, H. C.
- O
- ORMEROD, W. E.: A study of resistance to antrycide in a strain of *Trypanosoma equiperdum*, 674
 — *see* Hawking, F., Ormerod, W. E., Thurston, J. P., and Weber, W. A. F.
- OUTSCHOORN, A. S.: The hormones of the adrenal medulla and their release, 605
 — The nature of sympathin released in the rabbit's ear, 616
 — and Vogt, M.: The nature of cardiac sympathin in the dog, 319
- P
- PARDOE, A. Ursula: Renal function in lead poisoning, 349
 — and Weatherall, M.: The uptake and excretion of water in rats poisoned with lead, 358
- PARNELL, I. W., and Mackie, A.: Some observations on the lethal effects of various chemicals against the free-living stages of sclerostomes (nematoda), 509
- PETERS, J. M.: *see* Hurst, E. W., Melvin, P., and Peters, J. M.
- PHILIPPOT, E.: *see* Dallemagne, M. J., and Philippot, E.
- PHILPOT, Flora J.: *see* Born, G. V. R., and Vane, J. R. (Addendum)
- PLACKETT, R. L.: *see* Rollo, I. M., and Williamson, J. (Statistical Addendum)
- R
- RAEBURN, J.: *see* Mackie, A., and Raeburn, J.
 REID, C. S. W.: *see* Fastier, F. N., and Reid, C. S. W.
- ROBINSON, Judith: Amine oxidase in the iris and nictitating membrane of the cat and the rabbit, 99
 — *see* Burn, J. H., and Robinson, J.
- ROLLO, I. M., and Williamson, J.: Acquired resistance to penicillin and to neosarsphenamine in *Spirochaeta recurrentis*, 33
- ROSA, L.: *see* Armitage, P., Herxheimer, H., and Rosa, L.
- S
- SALAMA, S., and Wright, S.: Action on central nervous system of compounds RP 3565 and RP 3697 and of tetramethylammonium and tetraethylammonium, 1
 — — Influence of various drugs on the action of curare on the central nervous system of the cat, 14
- SCHACHTER, M.: The release of histamine by pethidine, atropine, quinine, and other drugs, 646
- SCHOFIELD, Brenda M.: The action of nicotine on the ciliary ganglion, 665
 — Cholinesterase in the iris after removal of the ciliary ganglion, 670
- SENIOR, N.: *see* Jones, W. R., Landquist, J. K., and Senior, N.
- SHORT, Eileen I.: Mechanism of methionine protection against the nephrotoxicity of polymyxin A, 248
 — *see* Brownlee, G., Bushby, S. R. M., and Short, E. I.
- SINHA, Y. K.: *see* Akcasu, A., Sinha, Y. K., and West, G. B.
- SMITH, N.: *see* Gowans, J. L., Smith, N., and Florey, H. W.

- STACEY, R. S.: *see* Laurence, D. R., and Stacey, R. S.
- STEWART, H. C.: *see* Evans, A. G. J., Nasmyth, P. A., and Stewart, H. C.
- STEWART, W. C.: Accumulation of acetylcholine in brain and blood of animals poisoned with cholinesterase inhibitors, 270
- STREETEN, D. H. P.: *see* Vaughan Williams, E. M., and Streeten, D. H. P.
- T
- TAVERNER, D.: The action of $\alpha\beta$ -dihydroxy- γ -(2-methylphenoxy)-propane (myanesin) on the spinal cord of the cat, 655
- THOMPSON, M. J.: *see* Dickinson, L., and Thompson, M. J.
- THOMPSON, R. H. S.: *see* Earl, C. J., and Thompson, R. H. S.

THURSTON, J. P.: *see* Hawking, F., Ormerod, W. E., Thurston, J. P., and Webber, W. A. F.

TUDOR WILLIAMS, D. P. H.: *see* Ing, H. R., Kordik, P., and Tudor Williams, D. P. H.

U

UNSWORTH, K.: *see* Goodwin, L. G., and Unsworth, K.

V

VANE, J. R.: *see* Born, G. V. R., and Vane, J. R.

VAUGHAN WILLIAMS, E. M., and Streeten, D. H. P.: The action of posterior pituitary extracts upon propulsion in the small intestine of conscious dogs, 47

VOGT, Marthe: The secretion of the denervated adrenal medulla of the cat, 325

— *see* Outschoorn, A. S., and Vogt, M.

W

WALKER, J. M.: *see* Hawkins, Joyce, and Walker, J. M.

WALTON, K. W.: The biological behaviour of a new synthetic anticoagulant (dextran sulphate) possessing heparin-like properties, 370

WEBBER, W. A. F.: *see* Hawking, F., Ormerod, W. E., Thurston, J. P., and Webber, W. A. F.

WEST, G. B.: *see* Akcasu, A., Sinha, Y. K., and West, G. B.

WESTON, R. E.: *see* Marshall, P. B., Ahmad, Nazeer ud din, and Weston, R. E.

WIEN, R., Mason, D. F. J., Edge, N. D., and Langston, G. T.: The ganglion blocking properties of homologous compounds in the methonium series, 534

WILLIAMS, E. M., V.: *see* Vaughan Williams, E. M.

WILLIAMS, D. P. H. T.: *see* Tudor Williams, D. P. H.

WILLIAMSON, J.: *see* Rollo, I. M., and Williamson, J.

WEATHERALL, M.: *see* Pardoe, A. Ursula, and Weatherall, M.

WRIGHT, S.: *see* Salama, S., and Wright, S.

SUBJECT INDEX

A

3-Acetoxy-N-methyldiethylanilinium iodide: anticurare action of, 223

Acetylcholine analogues, action on bladder and toxicity, 130

— — structure-action relationships in, 103

— antagonism among S-alkyl *iso*-thioureas, 417

— effect of enzymes on intestinal response to, 637

— — — on ciliary movement, 67

— — — *x*-irradiation on intestinal response to, 58

— influence of, on central action of curare alkaloids, 14

— — — on pendulum movements in isolated intestine, 237

— tissue accumulation after cholinesterase inhibitors; 270

Acetylcholine-cholinesterase phenomena, influence of injected cholinesterase on, 482

Acetylcholinesterase activity in *Schistosoma mansoni*, 563

Acetyl- β -methylcholine: *see* Methacholine

ACh: *see* Acetylcholine

Acridine derivatives, antiviral activity among, 455, 473

Adrenal hormones in protection against shock, 287

Adrenal medulla, denervated cat, hormone secretion of, 325

— — hormones, adrenaline-noradrenaline ratios in, 605

Adrenaline, effect of, on ciliary movement, 67

— — — on horse ileum, 25

— inactivation of, by amine oxidase in eye, 99

— influence of colchicine on biosynthesis of, 152

— 6-methyl-, pharmacology of, 338

— protective role of, in shock, 287

— response, influence of thyroid activity on, 93

Adrenaline-noradrenaline ratios in adrenal medullary secretion, 605

— — ratios in cardiac sympathin of dog, 319

— — in denervated adrenal medulla of cat, 325

— — in nerve sympathin, 616

Adrenaline-reversal phenomenon in frog melanophore, 641

Adrenolytic activity in basic ketones and related compounds, 85

— agents, comparative studies on, 553

Alkaloids and other compounds, histamine release by, 646

Amidone and other analgesics, comparative studies on, 196, 433

Amine oxidase, effect of sympathectomy on tissue levels of, 304

- Amine oxidase in eye of cat and rabbit, 99
 — — — in liver, effect of thyroid activity on, 93
 — — — — tissue, effect of colchicine on content of, 152
 Amino-acids, protective action of, against nephrotoxic agents
 Aminoanthrapyrimidines with amoebicidal activity, 486
p-Aminobenzoic acid, sulphonamide antagonism by, 189
 Aminobutyramidines, pharmacology of, 85
 Aminoketones, N-substituted, pharmacology of, 85
 1-Amino-octane, respiratory stimulant action of, 42
 2-Amino-octane, respiratory stimulant action of, 42
 Amoebicides based upon anthrapyrimidine, 486
 Amphetamine and octylamines, respiratory stimulant action of, 42
*iso*Amylamine, inactivation of, by amine oxidase in eye, 99
 Amyltrimethylammonium, antagonism of, by *d*-tubocurarine, 601
 Analgesics, technique for evaluation of, in man, 204
 — — — — in animals, 433
 — thermal stimulation techniques for evaluation of, 196, 204
 Anaphylactic shock, protective action of anti-histamines in, 625
 Anaphylaxis, drug-induced, studies on, 646
 — microshock technique in studies on, 625
 Anilinium compounds, substituted, anticurare action of, 223
 "Anthisan": *see* Mepyramine
 Anthrapyrimidines, amoebicidal activity of, 486
 Antibiotic properties of nisin, 438
 Anticoagulant properties of dextran sulphate, 370
 Antihistamines, protective value of, against anaphylactic shock, 625
 "Antrycide," comparison of, with new phenanthridines in bovine trypanosomiasis, 581
 — fixation of, *in vivo* by colloidal copper, 674
 — resistance in *Trypanosoma equiperdum*, 674
 Atropine and other drugs, histamine release by, 646
 — effect of, on ciliary movement, 67
 — influence of, on central action of curare alkaloids, 14
 Autonomic ganglia, effects of curarizing agents on, 392, 398
- B**
- Bacteriophage inhibitors and Rous sarcoma virus, 277
 Barium, effect of enzymes on intestinal response to, 637
- BCh: *see* Benzoylcholine
 "Benadryl": *see* Diphenhydramine
 Benzothiazone derivatives, effect on liver fluke *in vitro*, 219
 3-Benzoxo-N-trimethylanilinium bromide, anticurare action of, 223
 Benzoylcholine in studies on cholinesterases, 670
 — pharmacology of, 331
 2-Benzylimidazoline: *see* Tolazoline
 Bile salts and other drugs, histamine release by, 646
 1: 5-Bis-(dimethylaminophenoxy)-pentane dimethiodide, central action of, 1
 Bispidines, pharmacology of, 85
 Bis-trialkylammonium compounds, homologous, ganglion blocking properties of, 534
 Bladder, action of some cholinergic drugs on, 103
 Blood-brain barrier, studies on, using colloidal palladium, 573
 Blood coagulation, effects of dextran sulphate on, 370
 Blood-pressure response to pituitary vasopressin after "Dibenamine," 567
 Blood-sugar levels, influence of hexamethonium on, 255
 BuCh: *see* Butyrylcholine
 Butyrylcholine, enzyme hydrolysis of, 261
 — in differentiation of cholinesterases, 563, 685
- C**
- Carbamylcholine: *see* Carbachol
 Carbachol, effects of, on horse ileum, 25
 Central nervous system, action of some curarizing agents on, 1
 Cerebrospinal fluid, passage of colloidal palladium into, 573
 Chain-length and activity among S-alkyl *iso*-thioureas, 417
 — and curariform activity in polymethylene bisquaternary compounds, 392
 Choline esters and ethers, structure and nicotinic activity in, 117
 — — effect of, on ciliary movement, 67
 — — effect of x-irradiation on intestinal response to, 58
 — — structure-action relationships in, 103
 Cholinesterase activity in *Schistosoma mansoni*, specificity of, 563
 — content of denervated iris, 670
 — inhibition by anilinium compounds, 223
 — injected, pharmacological actions of, 482
 — inhibitors and tissue accumulation of acetylcholine, 270
 Cholinesterases in central nervous system, effect of tri-*o*-cresyl phosphate on, 685
 — intestinal, effect of x-irradiation on, 58
 — presence of, in rabbit tracheal membrane, 67

- Cholinesterases, selective inhibition of, by tri-*o*-cresyl phosphate, 261
- Choline ethers, structure-action relationships in, 103
- Cholinergic drugs, action on bladder and toxicity, 103
- Chymotrypsin, effect of, on isolated intestine, 637
- Ciliary activity, effect of acetylcholine on, 67
- ganglion, action of nicotine on, 665
- Cocaine, effect of, on ciliary movement, 67
- inhibition of amine oxidase by, 99, 304
- Colchicine, effect of, on enzyme content of regenerating rat liver, 152
- — — Rous sarcoma virus, 277
- Colloids, negotiation of blood-brain barrier by, 573
- Compounds 14, 15, 20, curariform activity of, 392, 398, 409
- Compound 20: *see* "Laudolissin"
- Copper, colloidal, and drug-resistance in trypanosomes, 674
- Cortisone, protective role of, in shock, 287
- Curare alkaloids, influence of drugs on central action of, 14
- antagonism by neostigmine analogues, mechanism of, 223
- Curariform drugs, antagonisms between, 601
- — synthetic, central action of, 1
- Curarizing agents, influence of drugs on central action of, 14
- — structure-activity relationships in, 392
- Cytotoxic agents, effects of, on Rous sarcoma virus, 277
- D**
- Dapsone and sulphonamides, potencies and specificity, 189
- Decamethonium-*d*-tubocurarine antagonism, 601
- Demyelination by tri-*o*-cresyl phosphate, mechanism of, 685
- Deoxycortone, protective role of, in shock, 287
- Desoxycorticosterone: *see* Deoxycortone
- Dextran sulphate, heparin-like activity of, 370
- DFP: *see* Isoflurophate
- 4: 4'-Diaminodiphenylsulphone: *see* Dapsone
- 2: 7-Diamino-9-*p*-aminophenyl-10-methylphenanthridinium chloride and iodide, comparison of, in cattle, 591
- 2: 4-Diamino-6: 7-dibenzylpteridine: *see* Dibenzylpteridine
- 2: 4-Diaminopteridine derivatives, antibacterial activity among, 161
- Diamorphine and other analgesics, comparative studies on, 196, 204
- "Dibenamine" and other adrenolytic agents, comparison of vascular effects of, *in vivo*, 553
- pharmacology of compounds related to, 85
- use of, in assay of vasopressin, 567
- N: N-Dibenzyl- β -chloroethylamine: *see* "Dibenamine"
- Dibenzylpteridine, antibacterial activity of, 161
- Diethyl *p*-nitrophenyl phosphate: *see* "Paraoxon"
- Diethylmethyl homologues of methonium series, ganglion blocking properties of, 534
- 2: 3-Dihydro-3-ketobenzo-1: 4-thiazine and derivatives: effect on liver fluke *in vitro*, 219
- Dihydroglyoxalines, pharmacology of, 85
- $\alpha\beta$ -Dihydroxy- γ -(2-methylphenoxy)-propane: *see* Mephesisin
- Diisopropylfluorophosphonate: *see* Isoflurophate
- "Dilvasène": *see* 1-Dimethylamino-2: 3-methylene-dioxyp propane methiodide
- 1-Dimethylamino-2: 3-ethylidenedioxyp propane methiodide, action on bladder and toxicity, 130
- — — methylenedioxyp propane methiodide, action on bladder and toxicity, 130
- Dimidium, new analogues of, in bovine trypanosomiasis, 581, 591
- Diphenhydramine and mepyramine, actions of, on respiratory reflexes, 450
- Diquaternary compounds, curariform activity in, 392, 398, 409
- Diuresis, effects of lead poisoning on, 349, 358
- DOPA-decarboxylase content of liver, effect of colchicine on, 152
- Drug reactions, anaphylactoid, role of histamine release in, 646
- E**
- Encephalitides, experimental prophylaxis of, 455, 473
- Entamoeba* spp., chemotherapeutic studies on, 486
- Enzyme content of liver tissue, effect of colchicine on, 152
- Enzymes, proteolytic, effect of, on isolated intestine, 637
- Ephedrine, use of, in studies on nerve sympathin, 616
- Ergometrine, adrenaline-reversal effect of in frog melanophore, 641
- Ergot alkaloids and other adrenolytic agents, comparative vascular effects of, *in vivo*, 553
- Ergotoxine, adrenaline-reversal effect of in frog melanophore, 641
- and other adrenolytic agents, comparison of vascular effects of *in vivo*, 553
- Eserine: *see* Physostigmine
- Ethyl pyrophosphate and acetylcholine levels in brain, 270
- Ethylidimethyl homologues of methonium series, ganglion-blocking properties of, 534

F

- Fasciola hepatica*, *in vitro* chemotherapeutic studies on, 215, 219
- Fibrinogen, interaction of, with heparin and with dextran sulphates, 370
- Filariae*, activity of phenosafranine derivatives against, 494
- Filariasis, bancroftian, methylene violet in, 494
- Folic acid antagonists, antibacterial activity among, 161
- Furan derivatives, cholinergic, pharmacology of, 130
- — parasympathomimetic activity in, 103
- "Furmethide" : *see* Furtrethonium iodide
- Furtrethonium iodide and derivatives, action on bladder and toxicity, 130

G

- Gallamine triethiodide, central action of, 1
- Ganglion block and insulin response, 255
- Ganglion-blocking effects of curarizing agents, 392, 398
- — properties of methonium homologues, 534
- Ganglionectomy, effect of, on tissue amine oxidase levels, 304
- Ganglionic action of nicotine, 665
- Glycotaurocholate and other drugs, histamine release by, 646
- Grazing plants, West African, hepatotoxic properties of, in cattle, 591

H

- Helminths, parasitic, studies on chemical destruction of free-living stages of, 509
- Heparin-like properties of dextran sulphate, 370
- Heptamethonium, effect of, on nicotine convulsions, 80
- HETP: *see* Hexaethyltetraphosphate
- Hexaethyltetraphosphate, influence of, on central action of curare alkaloids, 14
- Hexamethonium antagonism of hypotensive effects of intravenous morphine, 542
- effect of, on insulin response, 255
- — — nicotine convulsions, 80
- Histamine antagonism among S-alkyl isothioureas, 417
- antagonists, actions of, on respiratory reflexes, 450
- — comparison of vascular effects of, *in vivo*, 553
- — protective value of, in anaphylactic shock, 625
- blood-levels, determination of, 298
- effects of, on horse ileum, 25
- — effect of x -irradiation on intestinal response to, 58
- release by drugs, studies on, 646

2Y

- Histamine release in mechanism of hypotensive response to intravenous morphine, 542
- — by synthetic curarizing agents, 392, 398
- shock, protective roles of adrenal hormones in, 287
- 3-Hydroxy-N-dimethylethylanilinium bromide: *see* "Tensilon"
- 2-Hydroxystilbamidine, differential effects of, in drug-resistant trypanosomes, 674
- Hypoglycaemia, effect of hexamethonium on, 255

I

- Ileum, horse, effects of humoral agents on, 25
- isolated, effects of proteolytic enzymes on, 637
- Insulin, effect of hexamethonium on response to, 255
- effects of, on adrenal medullary hormones, 605
- Intestine, isolated, effects of proteolytic enzymes on, 637
- Intestinal cholinesterases, effect of x rays on, 58
- motility, action of pituitary (posterior lobe) extract on, 47
- muscle, pendulum movements in, 237
- Iodine, radioactive, in tracer studies on urethane derivatives, 142
- p*-Iodoaniline, tracer studies on, 142
- p*-Iodophenyl urethane, tracer study of metabolism of, 142
- Iris, denervated, cholinesterase in, 670
- Isoflurophate and brain acetylcholine levels, 270

K

- Keto-amyltrimethylammonium isomers, pharmacology of, 103
- Ketobemidone and other analgesics, comparative studies on, 196
- Ketones, basic, pharmacology of, 85
- Kidney damage by polymyxin A, protective action of methionine against, 248
- function in lead poisoning, 349, 358

L

- Larvicidal effects of chemical agents against sclerostomes, 509
- "Laudolissin," pharmacological studies on, 392, 398, 409
- Lead poisoning, effects of, on renal function, 349, 358
- Litomosoides carinii*, chemotherapeutic studies on, 494
- Liver fluke, *in vitro* chemotherapeutic studies on, 215, 219
- Lobeline, influence of, on central action of curare alkaloids, 14
- Local anaesthetic activity in basic ketones and related compounds, 85

Louping-ill, experimental prophylaxis by chemical agents, 455

M

- Mannich bases, pharmacology of, 85
 Manure disinfestation by larvicidal agents, 509
 MCh: *see* Methacholine
 Melanophore, frog, adrenaline-reversal in, 641
 Meningeal membranes, negotiation of, by colloids, 573
 Methacholine in differentiation of cholinesterases, 670, 685
 — enzyme hydrolysis of, 261
 Methionine protection against nephrotoxicity of polymyxin A, 248
 Methonium compounds, antagonism of, by *d*-tubocurarine, 601
 — effect of, on nicotine convulsions, 80
 — homologues, ganglion blocking properties of, 534
 6-Methyladrenaline, pharmacological actions of, 338
 S-Methylcysteine, protective action against nephrotoxicity of polymyxin A, 248
 N-Methyl-3 : 4-dihydroxy-6-methylphenylethanolamine: *see* 6-Methyladrenaline
 Methylene violet, antifilarial activity of, 494
 5-Methyl-furthrethonium iodide, action on bladder and toxicity, 130
 S-Methylisothiurea and homologues, pharmacological comparison of, 417
 Methyl transfer in prevention of kidney damage by polymyxin A, 248
 Mepacrine and other drugs, antiviral activity among, 455, 473
 Mephnesin, action of, on cat spinal cord, 655
 Mepyramine and diphenhydramine, action of, on respiratory reflexes, 450
 — antagonism of hypotensive effects of intravenous morphine, 542
 Morphine and other analgesics, comparative studies on, 196, 204, 433
 — effects of, on adrenal medullary hormones, 605
 — intravenous, mepyramine antagonism of hypotensive effect, 542
 "Myanesin": *see* Mephnesin
 Mydriatic action of nicotine after ciliary ganglionectomy, 665

N

- Nematodes, chemical destruction of free-living stages, 509
 Neoarsphenamine, acquired resistance to in *Spirochaeta recurrentis*, 33
 — and other drugs, histamine release by, 646

- Neostigmine analogues, mechanism of anticholinergic action of, 223
 — influence of, on central action of curare alkaloids, 14
 Neuromuscular junction, drug antagonisms at, 601
 — transmission, effect of injected cholinesterase on, 482
 Nicotine, action of, on ciliary ganglion, 665
 — convulsions, effect of methonium compounds on, 80
 — influence of, on central action of curare alkaloids, 14
 Nicotinic activity in choline esters and ethers, 117
 Nisin, some properties of, 438
 Nitrogen mustards, effects of, on Rous sarcoma virus, 277
 Noradrenaline content of cardiac sympathin in dog, 319
 — effect of cocaine on response to, 304
 — effect of, on ciliary movement, 67
 — inactivation of, by amine oxidase in eye, 99
 — secretion by denervated adrenal medulla in cat, 325
 Noradrenaline-adrenaline ratios in adrenal medullary secretion, 605
 — ratios in nerve sympathin, 616
 Nucleoprotein, cytoplasmic, relation to drug-resistance in trypanosomes, 675

O

- Ocular effects of nicotine after ganglionectomy, 665
 Octylamines, isomeric, respiratory stimulant action of, 42
 Onchocerciasis, methylene violet in, 494
 Oxytocin, action of, on intestinal motility, 47

P

- Palladium, radio-active, passage of, into cerebrospinal fluid, 573
 "Pallamine" (colloidal palladium) in studies on blood-brain barrier, 573
 "Paraoxone" and brain acetylcholine levels, 270
 Parasympathomimetic drugs, structure-action relationships in, 103
 Pasture disinfestation by larvicidal agents, 509
 Pendulum movements in isolated intestine, 237
 Penicillin, acquired resistance to, in *Spirochaeta recurrentis*, 33
 Pentamethonium, effect of, on nicotine convulsions, 80
 Pentobarbitone-antagonist action of octylamines, 42
 Pepsin, effect of, on isolated intestine, 637

- Pethidine and other analgesics, comparative studies on, 196, 433
 — and other drugs, histamine release by, 646
 Phenadoxone and other analgesics, comparative studies on, 196, 433
 Phenanthridine compounds, new, in bovine *Trypanosoma vivax* infections, 581, 591
 Phenosafranine dyes, antilarial activity among, 494
 Phenothiazine derivatives, effects on liver fluke *in vitro*, 215, 219
 γ -Phenoxypropyl, homologous quaternary ammonium derivatives of, 534
 γ -Phenoxypropyltrialkylammonium bromides, ganglion blocking properties of, 534
 Photosensitization in cattle by phenanthridine derivatives, 591
 Physostigmine and brain acetylcholine levels, 270
 — and pituitary (posterior lobe) extract, comparative actions of, on intestinal motility, 47
 — effect of, on ciliary movement, 67
 — influence of, on central action of curare alkaloids, 14
 Piperoxane and other adrenolytic agents, comparison of vascular effects of, *in vivo*, 553
 "Pitocin": *see* Oxytocin
 "Pitressin": *see* Vasopressin
 Pituitary (posterior lobe) extract, action of, on intestinal motility, 47
 — — — effects of, on horse ileum, 25
 — — — quantitative assay of vasopressin in, 567
 "Pituitrin": *see* Pituitary (posterior lobe) extract
 Polymethylene bis*iso*quinolinium derivatives with curare activity, 392, 398, 409
 Polymyxin A, methionine protection against nephrotoxicity of, 248
 Polymyxins, chemotherapy and pharmacology of, 170
 Potassium chloride, influence of on central action of curare alkaloids, 14
 Pressor response to pituitary vasopressin after "Dibenamine," 567
 "Priscol": *see* Tolazoline
 Proteolytic enzymes, effect of, on isolated intestine, 637
 Pseudo-cholinesterases, selective inhibition of, 261
 Pulmonary receptors excited by antihistamines, 450
 Pyrilamine: *see* Mepyramine
 Pyrimidine derivatives with amoebicidal activity, 486
- Q
- Quaternary ammonium derivatives, central action of, 1
 Quaternary ammonium derivatives, homologous, ganglion blocking properties of, 534
 — — — with curare activity, 392
 — anilinium compounds, anticurare action of, 223
 Quinine and other drugs, histamine release by, 646
*iso*Quinolinium derivatives with curare activity, 392, 398
- R
- "Regitine" and other adrenolytic agents, comparison of vascular effects of, *in vivo*, 553
 Renal damage by polymyxin A, protective action of methionine against, 248
 — function in lead poisoning, 349, 358
 Reticulo-endothelial blockage in protection against virus encephalitis, 455
 Ribonucleoprotein, cytoplasmic, relation to drug-resistance in trypanosomes, 674
 Rous sarcoma virus, chemotherapeutic studies on, 277
 Russian spring-summer encephalitis, experimental prophylaxis by chemical agents, 455, 473
- S
- Sarcoma virus, Rous, chemotherapeutic studies on, 277
Schistosoma mansoni, acetylcholinesterase activity of, 563
 Sclerostomes, chemical destruction of free-living stages, 509
 Shock, protective roles of adrenal hormones in, 287
 Sodium glycocholate and other drugs, histamine release by, 646
 Soil disinfection by larvicidal agents, 509
 Spasmolytic activity in basic ketones and related compounds, 85
Spirochaeta duttoni: *see* *Spirochaeta recurrentis*
Spirochaeta recurrentis, acquired resistance to penicillin and neoarsphenamine in, 33
 Spring-summer encephalitis, Russian, experimental prophylaxis of, 455, 473
Staphylococcus aureus, activities of 2: 4-diaminopteridines and sulphathiazole against, 161
Streptococcus faecalis, activities of 2: 4-diaminopteridines and sulphathiazole against, 161
 Stock poisoning as possible complicating factor in toxicity of trypanocides in West Africa, 591
 Strychnine, influence of, on central effects of mephensin, 655
 Succinylcholine, antagonism of curarizing agents by, 398
 Sulphanilamide derivatives: potencies and specificity, 189

- Sulphathiazole-diaminopteridine synergy in bacterial inhibition, 161
- Sulphonamides: potencies and specificity, 189
