

INDEX TO VOLUME 8

INDEX TO AUTHORS

A

- AMBACHE, N., and Robertson, P. A.: The nicotine-like actions of the 3-bromo- and 3:5-dibromophenyl ethers of choline (MBF and DBF), 147

B

- BARER, Gwenda R., and Nusser, E.: The part played by bronchial muscles in pulmonary reflexes, 315
- BARNES, J. M.: The reactions of rabbits to poisoning by *p*-nitrophenyldiethylphosphate (E600), 208
- and Duff, Janet I.: The role of cholinesterase at the myoneural junction, 334
- BASIL, B.: *see* Tomich, E. G., Basil, B., and Davis, B.
- BENFEY, B. G.: The purification, potency, and amino acid content of melanophore-expanding, pressor, and oxytocic preparations from beef pituitary gland, 435
- BERGMANN, F., and Wislicki, L.: The pharmacological effects of massive doses of nicotinamide, 49
- BIANCHI, C.: Experimental observations on a test for synovial permeability, 130
- BOGUE, J. Y., and Carrington, H. C.: The evaluation of "Mysoline"—a new anticonvulsant drug, 230
- BORN, G. V. R.: The effect of copper on the enzymic oxidation of histamine and aliphatic diamines, 42
- BRIERLEY, J. B., and McCoubrey, A.: Tissue distribution of α -¹⁴C-labelled alkyloxy α -phenylethylamines in relation to analgesic activity, 366
- BROADBENT, J. L.: Observations on itching produced by cowhage, and on the part played by histamine as a mediator of the itch sensation, 263
- de BRUYN, Willemina M.: *see* Mendel, B., Myers, D. K., Uyltort, Ina E., Ruys, A. Charlotte, and de Bruyn, Willemina M.
- BUEDING, E., Peters, L., Koletsky, S., and Moore, D. V.: Effect of respiratory inhibition on *Schistosoma mansoni*, 15
- *see* Mansour, T. E., and Bueding, E.
- BURN, J. H., and Philpot, Flora, J.: Effect of sympathetic denervation on the cholinesterase in the nictitating membrane and the iris, 248
- *see* Fleckenstein, A., and Burn, J. H.

C

- CANDOLE, C. A. de, Douglas, W. W., Evans, C. Lovatt, Holmes, R., Spencer, K. E. V., Torrance, R. W., and Wilson, K. M.: The failure of respiration in death by anticholinesterase poisoning, 466
- CARRINGTON, H. C.: *see* Bogue, J. Y., and Carrington, H. C.
- CERIOTTI, G., Defranceschi, A., de Carneri, I., and Zamboni, V.: A comparative study on the metabolism of isonicotinic acid hydrazide and of isonicotinoylhydrazinomethanesulphonic acid in the rat, 356
- CHANCE, M. R. A., and Mansour, T. E.: A contribution to the pharmacology of movement in the liver fluke, 134
- CHANTRILL, B. H.: *see* Dickinson, L., Chantrell, B. H., Inkley, G. W., and Thompson, Mildred J.
- CHAPMAN, R. N.: *see* Dekanski, J., and Chapman, R. N.
- COLLIER, H. O. J., and Phillips, Margaret: The action of 2:4-diamino-6:7-dibenzylpteridine against antibiotic-resistant staphylococci, 444
- Potter, M. D., and Taylor, E. P.: Antibacterial activities of some bisisoquinolinium salts, 34
- CRICK, Joan, and Jackson, H.: The selective localization of *p*-radioiodophenylhydroxylamine in red cells: its relation to methaemoglobinaemia, 87
- CROWTHER, A. F., and Levi, A. A.: Proguanil—the isolation of a metabolite with high antimalarial activity, 93

D

- DARCEL, C. le Q.: Observations on the effect of triethylene melamine, aminopterin, and A-methopterin on the growth of transplantable avian lymphoid tumours, 278
- DAVIS, B.: *see* Tomich, E. G., Basil, B., and Davis, B.
- DAVISON, A. N.: Some observations on the cholinesterases of the central nervous system after the administration of organo-phosphorus compounds, 212

- DAWES, G. S., and Widdicombe, J. G.: The afferent pathway of the Bezold reflex: left vagal branches in dogs, 395
- DE, N. N.: *see* Pradhan, S. N., and De, N. N.
- DEFRANCESCHI, A.: *see* Ceriotti, G., Defranceschi, A., Carneri, I. de, and Zamboni, V.
- DEKANSKI, J., and Chapman, R. N.: Testosterone phenyl propionate (TPP): biological trials with a new androgen, 271
- DEWS, P. B.: The measurement of the influence of drugs on voluntary activity in mice, 46
- DICKINSON, L.: Tests against mouse pneumonitis (Nigg) virus in mice, 452
- Chantrell, B. H., Inkley, G. W., and Thompson, Mildred J.: The antiviral action of phenanthridinium compounds, 139
- DOUGLAS, W. W.: *see* Candole, C. A. de, Douglas, W. W., Evans, C. Lovatt, Holmes, R., Spencer, K. E. V., Torrance, R. W., and Wilson, K. M.
- DUFF, Janet I.: *see* Barnes, J. M., and Duff, Janet I.
- E**
- EARL, C. J., Thompson, R. H. S., and Webster, G. R.: Observations on the specificity of the inhibition of cholinesterases by tri-*ortho*-cresyl phosphate, 110
- EDGE, N. D.: A quantitative method of estimating parasympathetic ganglion block, 10
- EULER, U. S. von, and Hökfelt, B.: Colorimetric and biological estimation of adrenaline and nor-adrenaline in suprarenals of guinea-pigs, 66
- EVANS, C. Lovatt: *see* Candole, C. A. de, Douglas, W. W., Evans, C. Lovatt, Holmes, R., Spencer, K. E. V., Torrance, R. W., and Wilson, K. M.
- F**
- FABINYI-SZEBEHELY, M., Hahn, L., and Szebehely, J.: Investigation *in vivo* of new inhibitors of hyaluronidase, 30
- FAWAZ, G., and Meyer, Hildegard: Rat poison from white squill, 440
- FELDBERG, W., and Smith, A. N.: Release of histamine by tryptamine and 5-hydroxytryptamine, 406
- FLECKENSTEIN, A., and Burn, J. H.: The effect of denervation on the action of sympathomimetic amines on the nictitating membrane, 69
- FLOREY, H. W.: *see* Heatley, N. G., and Florey, H. W.
- FORDA, Olga, and McIlwain, H.: Anticonvulsants on electrically stimulated metabolism of separated mammalian cerebral cortex, 225
- FRANCIS, J.: The treatment of tuberculosis in the guinea-pig with streptomycin alone or in combination with dapsone, thiosemicarbazones, PAS, or sodium iodide, 259
- FRANCIS, J., and Hoggarth, E.: The use of the chick embryo in the search for antituberculous drugs, 125
- G**
- GADDUM, J. H.: The technique of superfusion, 321
- GERNANDT, Bo E., and Schmiterlöw, C. G.: Some observations concerning the mode of action of the antihistaminic drug "Lergigan" (N(α -methyl- β -dimethyl aminoethyl)phenothiazine hydrochloride) in motion sickness, 181
- GINZEL, K. H., and Kottegoda, S. R.: Nicotine-like actions in auricles and blood vessels after denervation, 348
- GLASER, E. M.: Experiments on the side-effects of drugs, 187
- GRAHAM, J. D. P., and Lewis, G. P.: The antihistamine and antiadrenaline properties of a series of N-naphthylmethyl-2-haloethylamine derivatives, 54
- GREEN, A. F.: Analgesic and other properties of 3:3-dithienylalkenylamines, 2
- The antagonism of histamine and the anaphylactic response by phenylpyridylallylamines, 171
- GREENBURGH, H., Robson, J. M., and Willcox, D. R. C.: The effect of cortisone on experimental corneal tuberculous lesions, 120
- GRUNDY, P. M.: *see* Leech, F. B., and Grundy, P. M.
- H**
- HAHN, L.: *see* Fabinyi-Szebehely, M., Hahn, L., and Szebehely, J.
- HEATLEY, N. G., and Florey, H. W.: A comparison of the biological properties of cephalosporin N and penicillin, 252
- HERXHEIMER, H.: The protective action of antihistaminic and sympathomimetic aerosols in anaphylactic microshock of the guinea-pig, 461
- and Rosa, L.: The protective effect of sympathomimetic amines and of aminophylline in the anaphylactic microshock of the guinea-pig, 177
- HODGES, J. R.: The effect of desoxycorticosterone acetate on the release of adrenocorticotrophin by the pituitary gland, 242
- HÖKFELT, B.: *see* Euler, U. S. von, and Hökfelt, B.
- HOGGARTH, E.: *see* Francis, J., and Hoggarth, E.
- HOLMES, R.: *see* Candole, C. A. de, Douglas, W. W., Evans, C. Lovatt, Holmes, R., Spencer, K. E. V., Torrance, R. W., and Wilson, K. M.
- HUNTER, A. R.: 5:6-dithiadecamethylene 1:10-bis-(trimethylammonium iodide): A new myoneural blocking agent of the depolarizing type, 115
- HURST, E. W., Landquist, J. K., Melvin, P., Peters, J. M., Senior, N., Silk, J. A., and Stacey, G. J.: The therapy of experimental psittacosis and lymphogranuloma venereum (inguinale), 297

I

- ING, Dr. H. R., 1
- INKLEY, G. W.: Chemotherapeutic studies on the viruses of sheep abortion and mouse pneumonitis (Nigg) with special reference to an embryonated egg method, 448
- see Dickinson, L., Chantrill, B. H., Inkley, G. W., and Thompson, Mildred J.
- IZQUIERDO, J. A., and Stoppani, A. O. M.: Inhibition of smooth muscle contractility by indole and some indole compounds, 389

J

- JACKSON, H.: see Crick, Joan, and Jackson, H.
- JONES, J. V.: The afferent pathway of the Bezold reflex: the right vagal branches in cats, 352
- JONES, W. R., Landquist, J. K., and Stewart, G. T.: Synthetic amoebicides: Part II. The anti-amoebic action of quinoxaline-1: 4-dioxide and some derivatives, 286

K

- KOLETSKY, S.: see Bueding, E., Peters, L., Koletsky, S., and Moore, D. V.
- KONZETT, H., and Rothlin, E.: Investigations on the hypotensive effect of the hydrogenated ergot alkaloids, 201
- KOTTGODA, S. R.: The action of nicotine and acetylcholine on the vessels of the rabbit's ear, 156
- Stimulation of isolated rabbit auricles by substances which stimulate ganglia, 83
- see Ginzel, K. H., and Kottgoda, S. R.

L

- LANDQUIST, J. K.: see Hurst, E. W., Landquist, J. K., Melvin, P., Peters, J. M., Senior, N., Silk, J. A., and Stacey, G. J.
- see Jones, W. R., Landquist, J. K., and Stewart, G. T.
- LAURENCE, D. R., and Stacey, R. S.: Mechanism of the prevention of nicotine convulsions by hexamethonium and by adrenaline blocking agents, 62
- LEECH, F. B., and Grundy, P. M.: A nomogram for assays in randomized blocks, 281
- LEVI, A. A.: see Crowther, A. F., and Levi, A. A.
- LEWIS, G. P.: see Graham, J. D. P., and Lewis, G. P.
- LING, H. W.: see Robinson, Judith A., and Ling, H. W.

M

- MCCOUBREY, A.: Some morphine-like properties of ($\pm$)-cyclohexyloxy- α -phenylethylamines, 22
- see Brierley, J. B., and McCoubrey, A.
- MCDUGAL, Mary D., and West, G. B.: The action of drugs on isolated mammalian bronchial muscle, 26

- McILWAIN, H.: see Forda, Olga, and McIlwain, H.
- MANSOUR, T. E., and Bueding, E.: Kinetics of lactic dehydrogenases of *Schistosoma mansoni* and of rabbit muscle, 431
- see Chance, M. R. A., and Mansour, T. E.
- MASON, D. F. J.: see Wien, R., and Mason, D. F. J.
- MELVIN, P.: see Hurst, E. W., Landquist, J. K., Melvin, P., Peters, J. M., Senior, N., Silk, J. A., and Stacey, G. J.
- MENDEL, B., Myers, D. K., Uyldert, Ina E., Ruys, A. Charlotte, and de Bruyn, Willemina M.: Aliesterase inhibitors and growth, 217
- MEYER, Hildegard: see Fawaz, G., and Meyer, Hildegard
- MILLS, R. F. N.: The action of 2: 7-bis(2'-dihydroglyoxaliny)-9-phenylphenanthridine on a bacteriophage of *Pseudomonas pyocyanea*, 143
- MONGAR, J. L., and Schild, H. O.: Quantitative measurement of the histamine-releasing activity of a series of mono-alkylamines using minced guinea-pig lung, 103
- MOORE, D. V.: see Bueding, E., Peters, L., Koletsky, S., and Moore, D. V.
- MOTT, J. C., and Paintal, A. S.: The action of 5-hydroxytryptamine on pulmonary and cardiovascular vagal afferent fibres and its reflex respiratory effects, 238
- MUNRO, A. F.: The effect of adrenaline and nor-adrenaline on the activity of isolated preparations of the gut from the foetal guinea-pig, 38
- MYERS, D. K.: see Mendel, B., Myers, D. K., Uyldert, Ina E., Ruys, A. Charlotte, and de Bruyn, Willemina M.

N

- NISSIM, J. A.: Physico-chemical properties and toxicities of different iron preparations, 197
- Plasma iron levels and urinary iron excretion after the intravenous administration of different preparations, 371
- NUSSER, E.: see Barer, Gwenda R., and Nusser, E.

P

- PAINTAL, A. S.: see Mott, J. C., and Paintal, A. S.
- PETERS, J. M.: see Hurst, E. W., Landquist, J. K., Melvin, P., Peters, J. M., Senior, N., Silk, J. A., and Stacey, G. J.
- PETERS, L.: see Bueding, E., Peters, L., Koletsky, S., and Moore, D. V.
- PHILLIPS, Margaret: see Collier, H. O. J., and Phillips, Margaret

SUBJECT INDEX

A

- Acetylcholine antagonists, action on mollusc heart, 327
- and nicotine, vascular effects of, 156
- Adrenaline and analogues, antianaphylactic effects of, 177
- and noradrenaline, estimation of in adrenal extracts, 66
- — — actions of on isolated foetal gut, 38
- — — influence of thyroid on, 454
- — — respiratory effects of, 98
- Adrenergic drugs, action of on denervated nictitating membrane, 69
- Adrenocorticotrophin release, effect of deoxycortone acetate on, 242
- Adrenolytic drugs, inhibition of nicotine convulsions by, 62
- properties of N-naphthylmethyl-2-halo-ethylamines, 54
- Aerosols, protective action of against anaphylactic shock, 461
- Ali-esterase inhibitors, studies on, 217
- A-methopterin and avian lymphoid tumours, 278
- Amine oxidase, influence of thyroid on, 454
- Amines, aliphatic, histamine-releasing activity of, 103
- 6-Aminoanthrapyrimidine, metabolic studies on, 290
- 6-Amino-4-methyl-2:3:5:7-tetra-azaindene, anti-tuberculous activity of, 125
- Aminophylline, antianaphylactic effect of, 177
- Aminopterin and avian lymphoid tumours, 278
- p*-Aminosalicylic acid and other drugs in experimental tuberculosis, 259
- Amoebicides derived from quinoxaline-1:4-dioxide, 286
- Anaesthetic activity among 3:3-dithienylalkenylamines, 2
- Analgesic activity among arylalkylamines, 22, 366
- compounds of arylalkylamine type, tracer studies on, 366
- properties among 3:3-dithienylalkenylamines, 2
- Anaphylactic microshock, protective effects of drugs against, 177

- Anaphylactic shock, protective action of aerosols against, 461
- — — effects of antihistamines, 171
- Anaphylaxis and histamine release, studies on, 412
- Androgen, a new, trials of, 271
- α -Antiarin in Borneo dart poison, 79, 237
- Antiaris toxicaria*, dart poison from, 79, 237
- Anticonvulsants, *in vitro* studies on, 225
- Antihistamine aerosols, protective action of against anaphylactic shock, 461
- Antimalarial activity, mechanisms of, 424
- Antimonials, antiplasmodial activity among, 162
- Arrow poison from Borneo, 79, 237
- Arthritis, synovial permeability test in therapeutic investigations on, 130
- Assay, biological, nomogram for, 281
- Atropine-like activity among 3:3-dithienylalkenylamines, 2
- Aureomycin, antiplasmodial activity of, 162
- Auricle, stimulation of *in vitro* by autonomic drugs, 83
- Autonomic mechanism in motion sickness, 181

B

- Bacteriophage inhibition by phenanthridinium compounds, 139, 143
- "Benadryl": *see* Diphenhydramine
- Benzylpenicillin and cephalosporin N, comparison of, 252
- Bezold reflex, afferent pathways of, 352, 395
- Biological assays, nomogram for use in, 281
- Bisisoquinolinium salts, antibacterial activity among, 34
- Blowpipe dart poison from Borneo, 79, 237
- 3-Bromophenoxycholine, nicotine-like activity of, 147
- Bronchial muscle preparation in comparison of bronchodilator drugs, 26
- muscles and pulmonary reflexes, 315

C

- Cardiac effects of cholinergic drugs, *in vitro* studies on, 87
- Central stimulants, technique for comparison of, 46
- Cephalosporin N and benzylpenicillin, comparison of, 252

- Cephalotropic drugs, technique for comparison of, 46
 Chick embryo method for screening antituberculous drugs, 125
 Choline ethers, bromo-aryl, pharmacology of, 147
 Cholinergic drugs, effect of on isolated auricle, 83
 Cholinesterase content of denervated iris, 248
 — inhibition by *p*-nitrophenyldiethylphosphate, 208
 — inhibitors, mechanism of toxic effects of, 466
 — presence of in liver fluke, 134
 — role of at myoneural junction, 334
 Cholinesterases, selective inhibition of by tri-*o*-cresyl phosphate, 110
 “Cobefrin,” antianaphylactic effect of, 177
 Compound 20: *see* “Laudolissin”
 — 7438: *see* 6-amino-4-methyl-2: 3: 5: 7- tetra-azaindene
 Contrast agent, propyliodone as, 166
 Convulsions, drug-induced, mechanism of prevention of, 62
 Copper, potentiation of histaminase by, 42
 “Corbasil”: *see* “Cobefrin”
 Corticosteroids and synovial permeability, 130
 Cortisone: effect on corneal tuberculous lesions, 120
 Cowhage, studies on cutaneous itching produced by, 263
 Curariform action of Ro 3-0386, 115
 — drugs, effects of on mollusc heart, 327
 — properties of hayatin methiodide, 399
 Cyanine dye, schistosomicidal activity of, 15
 Cytotoxic agents and avian lymphoid tumours, 278
- ### D
- Dapsone and other drugs in experimental tuberculosis, 259
 Dart poison from Borneo, 79, 237
 DBF: *see* 3: 5-dibromophenoxycholine
n-Decylamine, histamine-releasing activity of, 103
 Dehydrogenase activity in schistosomes, 431
 Demyelination by phosphorus compounds, studies on, 212
 Deoxycortone acetate and release of pituitary adrenocorticotrophin, 242
 Desoxycorticosterone: *see* deoxycortone
 Dextran sulphates, effects of on blood *in vitro*, 340
 — — molecular weight and biological properties of, 476
 2: 4-Diamino-6: 7-dibenzylpteridine: *see* dibenzylpteridine
 4: 4'-Diaminodiphenylsulphone: *see* dapsone
 Dibenzylpteridine, action of against antibiotic-resistant staphylococci, 444
 3: 5-Dibromophenoxycholine, nicotine-like activity of, 147
 Digentistic acid, hyaluronidase inhibition by, 30
- ### 2H
- 1-(3: 4 - Dihydroxyphenyl) - 2 - isopropylamino - *n* - butanol: *see* “Neosuprel”
 “Dionosil”: *see* propyliodone
 Diphenhydramine in motion sickness, 187
 Diquaternary compounds, a new series of, 306
 5: 6-Dithiadecamethylene 1: 10-bis(trimethylammonium iodide: curariform effects of, 115
 Dithienylalkenylamines, properties of, 2
 Dithiobiuret derivatives with trypanocidal activity, 420
 DOCA: *see* Deoxycortone acetate
Dolichos pruriens Linn: *see* Cowhage
- ### E
- Entamoeba histolytica*, chemotherapeutic studies on, 286, 290
 Enzyme-inhibitory actions of tri-*o*-cresyl phosphate, 110
 Enzymic oxidation of histamine, role of copper in, 42
 Ephedrine and analogues, antianaphylactic effects of, 177
 Ergot alkaloids, hydrogenated, hypotensive effect of, 201
 Erythrocytes, selective localization of *p*-iodophenyl-hydroxylamine by, 87
 Esterase inhibitors, studies on, 217
 5-Ethyl-5-phenylhexahydropyrimidine-4: 6-dione: *see* Primidone
- ### F
- Fasciola hepatica*, pharmacological studies on, 134
 Ferric salts, toxicological studies on, 197
 Ferrous salts, toxicological studies on, 197
 Folic acid antagonism and antimalarial activity, 424
 — — antagonists and avian lymphoid tumours, 278
- ### G
- Ganglion-blocking agents, new series of, 306
 Ganglionectomy, effect of on response to adrenergic drugs, 69
 Ganglionic blocking effects of Ro 3-0386, 115
 Gentisic acid polymers, hyaluronidase-inhibitory activity of, 30
 Glycolytic enzymes of schistosomes and mammalia, 431
- ### H
- Hayatin methiodide, curariform properties of, 399
 Hexamethonium, inhibition of nicotine convulsions by, 62
 Histaminase, potentiation of by copper, 42
 Histamine antagonism by phenylpyridylallyl amines, 171
 — antagonist (“Lergigan”) in motion sickness, 181
 — — based on N-naphthylmethyl-2-halo-ethylamines, 54

Histamine antagonists derived from 3:3-dithienylalk-enylamines, 2
 — release and anaphylactic phenomena, 412
 — — by tryptamine and 5-hydroxytryptamine, 406
 — releasing activity of mono-alkylamines, 103
 — role of in itch sensation, 263
 Hyaluronidase inhibitors, *in vivo*, study of, 30
 "Hydergine," hypotensive effects of, 201
 5-Hydroxytryptamine, action on isolated ileum, 378
 — and anaphylaxis, 412
 — histamine-releasing properties of, 406
 — pharmacology of, 238, 378
 Hyoscine in motion sickness, side-effects of, 187
 Hypotensive effects of hydrogenated ergot alkaloids, 201
 Hypothalamus, canine, hormonal content of, 193
 Hyperglycaemia, sympathomimetic, influence of thyroid on, 454

I

Indole derivatives with antispasmodic activity, 389
 Influenza A virus, effect of phenanthridinium compounds on, 139
 Iodide and antituberculous drugs, 259
 Iodine, radioactive, in studies on methaemoglobin-aemia, 87
p-Iodophenylhydroxylamine, tracer studies on, 87
 Iris, denervated, cholinesterase in, 248
 Iron preparations, injectable, comparative studies on 371
 — — toxicological studies on, 197
 Isoniazid and methanesulphonate, metabolic studies on, 356
 Isoprenaline, antianaphylactic effect of, 177
 Itching, studies on mechanism of, 263

L

Lactic dehydrogenases of schistosomes and mam-malia, 431
 "Laudolissin" and analogues, antibacterial activity among, 34
 "Lergigan" in motion sickness, 181
 Liver fluke, pharmacological studies on, 134
 Lung preparation in study of histamine-releasing agents, 103
 Lymphogranuloma virus, experimental chemotherapy of, 297

M

Malaria, chemotherapeutic activity of a proguanil metabolite against, 93
 — (*P. berghei*), chemotherapeutic studies on, 162
 Maphenide, antiplasmodial activity of, 162

"Marfanil": *see* maphenide
 MBF: *see* 3-bromophenoxycholine
 Melanophore-expanding hormone, analytical study of, 435
 Methaemoglobinaemia, I^{131} in investigations on, 87
 Methonium compounds, mydriatic technique for assay of, 10
 N(α -Methyl- β -dimethylaminoethyl)phenothiazine hydrochloride: *see* "Lergigan"
 Methylene blue, antiplasmodial activity of, 162
 Methylephedrine, antianaphylactic effect of, 177
 N-Methylephedrine, antianaphylactic effect of, 177
trans-1-(4'-Methylphenyl)-1-(2'-pyridyl)-3-pyrrolidino-prop-1-ene: *see* "Actidil"
 Mollusc heart preparation, actions of curariform drugs on, 327
 Morphine-like activity in arylalkylamines, 22
 Motion sickness, pharmacological studies on remedies for, 181, 187
 Mouse pneumonitis virus, chemotherapeutic studies on, 448
Mucuna pruriens DC: *see* Cowhage
 Mydriasis as index of ganglion-blocking activity, 10
 "Mysoline": *see* Primidone

N

N-Naphthylmethyl-2-halo-ethylamines, pharmacology of, 54
 Neoarsphenamine, antiplasmodial activity of, 162
 "Neosuprel," antianaphylactic effect of, 177
 Nicotinamide, effects of massive doses of, 49
 Nicotine and acetylcholine, vascular effects of, 156
 — convulsions, drugs inhibiting, 62
 — like actions in auricles and blood vessels, 348
 — — activity of choline ethers, 147
p-Nitrophenyldiethylphosphate, toxicity in rabbit, 208
 Nomogram for assays, 281
 Noradrenaline and adrenaline, respiratory effects of, 98
 — antianaphylactic effect of, 177
 — effect on isolated foetal gut, 38
 — estimation of in adrenal extracts, 66
 — influence of thyroid on hyperglycaemic effect of, 454

O

Oxidases, potentiation of by copper, 42
 Oxytocin, analytical study of, 435

P

"Paludrine": *see* Proguanil
 Parasympathomimetic activity, mydriasis as index of, 10
 PAS: *see* *p*-Aminosalicylic acid

- Penicillin G: *see* Benzylpenicillin
- Periarticular tissues, test for permeability of, 130
- Phenanthridinium compounds, antiviral activity among, 139
- "Phenergan": *see* Promethazine
- Phenyl alkane bis-quaternary compounds, pharmacology of, 306
- Phosphorus compounds, organic, anticholinesterase activity of, 208, 212, 217
- Pituitary (posterior) hormones in dog's hypothalamus, 193
- (— lobe), analysis of hormones of, 435
- Plasmodium berghei*, chemotherapeutic studies on, 162
- Posterior pituitary hormones in dog's hypothalamus, 193
- Primidone, anticonvulsant activity of, 230
- Proguanil metabolite with high antimalarial activity, 93
- and related antimalarials, mode of action of, 424
- Promethazine in motion sickness, 187
- n*-Propyl 3: 5-diiodo-4-pyridone-N-acetate: *see* propylidone
- Propylidone, properties of, 166
- Pruritus, studies on mechanism of sensation, 263
- Pseudomonas pyocyanea* bacteriophage inhibition by phenanthridinium compounds, 139, 143
- Psittacosis, experimental chemotherapy of, 297
- Psychomotor stimulants, technique for comparison of, 46
- Pteroylglutamic acid: *see* Folic acid
- Pulmonary reflexes, role of bronchial muscles in, 315

Q

- Quaternary bisisoquinoline compounds with antibacterial activity, 34
- Quinoxaline-1: 4-dioxide, chemotherapeutic agents derived from, 286, 297

R

- Radiographic contrast agent, propylidone as, 166
- Rat poison from white squill, 440
- Respiratory effects of 5-hydroxytryptamine, 238
- — — sympathomimetic amines, 98
- exchange, influence of drugs on, 315
- failure in anticholinesterase poisoning, 466
- Rodenticide glycoside from white squill, 440
- Rous sarcoma virus, effect of phenanthridinium compounds on, 139

S

- Salicylates and synovial permeability, 130
- Schistosoma mansoni*, glycolytic enzymes in, 431
- — — metabolic studies on, 15, 431

- Scilliroside from white squill, 440
- Serotonin: *see* 5-Hydroxytryptamine
- Sheep abortion, chemotherapeutic studies on, 448
- Side-effects of motion sickness remedies, 187
- Sodium iodide in tuberculosis chemotherapy, 259
- Spasmolytic activity among indole compounds, 389
- Squill white, rat poison from, 440
- Staphylococci, antibiotic-resistant, action of dibenzylpteridine against, 444
- Stimulant drugs, technique for comparison of, 46
- Streptomycin and other drugs in experimental tuberculosis, 259
- Succinylcholine: *see* Suxamethonium
- Superfusion technique for drug assays, 321
- Suxamethonium, pharmacology of, 19
- Sympathectomy and cholinesterases in iris, 248
- Sympathetic activity, influence of on drug-induced convulsions, 62
- Sympathomimetic aerosols, protective action of against anaphylactic shock, 461
- amines, action of on denervated nictitating membrane, 69
- Sympathomimetica, antianaphylactic effects of, 177
- Synovial permeability, test for, 130

T

- TCP: *see* Testosterone cyclopentylpropionate
- T.E.M.: *see* Triethylene melamine
- Terramycin, antiplasmodial activity of, 162
- Testosterone cyclopentylpropionate, androgenic properties of, 271
- new esters of, 271
- phenyl propionate, androgenic properties of, 271
- Theophylline with ethylenediamine: *see* aminophylline
- Thiacetazone and other drugs in experimental tuberculosis, 259
- Thiosemicarbazones and other drugs in experimental tuberculosis, 259
- Thyroid, influence of on hyperglycaemic effects of sympathomimetic amines, 454
- T.O.C.P.: *see* Tri-*o*-cresyl phosphate
- TPP: *see* Testosterone phenyl propionate
- Triazine derivative from proguanil, antimalarial activity of, 93
- Triethylene melamine and other cytotoxic agents, effect of on avian lymphoid tumours, 278
- Trigentic acid, hyaluronidase inhibition by, 30
- Tri-*o*-cresyl phosphate, cholinesterase inhibition by, 110
- Trypanocidal activity among dithiobiuret derivatives, 420
- Tryptamine, histamine-releasing properties of, 406

- Tuberculins, nomogram for assay of, 281
Tuberculosis, experimental chemotherapy of, 259
Tuberculostatic drugs, chick embryo technique for screening, 125
Tuberculous lesions, corneal, effect of cortisone on, 120
Tumour-inhibiting agents, observations on, 278
- U
- Upas tree, dart poison from, 79, 237
- V
- Vagal effects of 5-hydroxytryptamine, 238
— mechanism in motion sickness, 181
Vasoconstrictor effects of nicotine and other drugs, 156
Vasodepressor effects of hydrogenated ergot alkaloids, 201
— mechanism in motion sickness, 181
Vasodilatation by nicotine and other drugs, 156
Vasopressin, analytical study of, 435
Venus mercenaria preparation in pharmacological studies, 327
Viruses, activity of phenanthridinium compounds against, 139
— chemotherapeutic studies on, 297, 448
Vitamin K antagonists, chemotherapeutic activity among, 286, 297
- Ro 3-0386: new myoneural blocking agent, 115
E600: *see p*-Nitrophenyldiethylphosphate
WIN 3046: *see* "Neosuprel"
