

INDEX TO VOLUME 9

INDEX TO AUTHORS

A

- AARSEN, P. N.: *see* Noordwijk, J. van, and Aarsen, P. N.
 ADAM, H. M., Card, W. I., Riddell, M. J., Roberts, M., and Strong, J. A.: The effect of intravenous infusions of histamine on the urinary histamine and on gastric secretion in man, 62
 — — — — and Woolf, B.: Dose-response curves for the effect of histamine on acid gastric secretion in man, 329
 — Hardwick, D. C., and Spencer, K. E. V.: Assay of histamine on the isolated guinea-pig intestine by the method of superfusion, 360
 AMIRA, P.: *see* Danopoulos, E., Angelopoulos, B., Ziordrou, C., and Amira, P.
 ANGELOPOULOS, B.: *see* Danopoulos, E., Angelopoulos, B., Ziordrou, C., and Amira, P.
 ARMITAGE, A. K., and Ing, H. R.: Studies on the structure-action relationships of parasympathomimetic furan compounds, 376
 — *see* Kopera, J., and Armitage, A. K.
 AUSTIN, L., and Davies, D. R.: The part played by inhibition of cholinesterases of the CNS in producing paralysis in chickens, 145
 AUSTIN, W. T. S.: *see* addendum, Adam, H. M., Hardwick, D. C., Spencer, K. E. V., 365

B

- BARER, Gwenda R.: Quantitative measurements on spreading phenomena in skin, 346
 BARNES, J. M., and Duff, Janet I.: Acetylcholine production in animals poisoned by diethyl-*p*-nitrophenyl phosphate (paraoxon), 153
 BARTORELLI, C., Carpi, A., and Cavalca, L.: Potentiation of the pressor action of noradrenaline by hexamethonium salts, tetraethylammonium, and methantheline, 476
 BIANCHI, C.: Further studies on compounds reducing synovial membrane permeability, 166
 — and Franceschini, Jolanda: Experimental observations on Haffner's method for testing analgesic drugs, 280
 BOURA, A., Mongar, J. L., and Schild, H. O.: Improved automatic apparatus for pharmacological assays on isolated preparations, 24
 BRISCOE, Sheila, and Burn, J. H.: Quinidine and anticholinesterases on rabbit auricles, 42
 BUEDING, E.: *see* Mansour, T. E., and Bueding, E.
 — *see* Mansour, T. E., Bueding, E., and Stavitsky, A. B.

- BUNZL, A., Burgen, A. S. V., Burns, B. D., Pedley, Norah, and Terroux, Kathleen G.: Methods for studying the reflex activity of the frog's spinal cord, 229
 BURGEN, A. S. V.: *see* Bunzl, A., Burgen, A. S. V., Burns, B. D., Pedley, Norah, and Terroux, Kathleen G.
 BURN, J. H., Philpot, Flora J., and Trendelenburg, U.: Effect of denervation on enzymes in iris and blood vessels, 423
 — and Trendelenburg, U.: The hypersensitivity of the denervated nictitating membrane to various substances, 202
 — *see* Briscoe, Sheila, and Burn, J. H.
 BURNS, B. D.: *see* Bunzl, A., Burgen, A. S. V., Burns, B. D., Pedley, Norah, and Terroux, Kathleen G.

C

- CAMBRIDGE, G. W., and Holgate, J. A.: Some observations on the method of superfusion, 370
 CARD, W. I.: *see* Adam, H. M., Card, W. I., Riddell, M. J., Roberts, M., and Strong, J. A.
 — *see* Adam, H. M., Card, W. I., Riddell, M. J., Roberts, M., Strong, J. A., and Woolf, B.
 CARPI, A.: *see* Bartorelli, C., Carpi, A., and Cavalca, L.
 CAVALCA, L.: *see* Bartorelli, C., Carpi, A., and Cavalca, L.
 CHATTERJEE, M. L.: The modification of the action of ouabain in cardiac tissue by eserine and acetylcholine, 285
 CHUBB, L. G., and Laursen, A. L.: Further observations on the effect of aminopterin, A-methopterin and *citrovorum* factor on the growth of transplantable avian lymphoid tumours, 419

D

- DALE, R. A., and Sanderson, P. H.: Observations on the character of mercurial diuresis, 210
 DANOPOULOS, E., Angelopoulos, B., Ziordrou, C., and Amira, P.: Chloramphenicol excretion in the bile, 260
 DASGUPTA, S. R., and Werner, G.: Inhibition of hypothalamic, medullary and reflex vasomotor responses by chlorpromazine, 389
 DAVIES, D. R.: *see* Austin, L., and Davies, D. R.
 DAVIES, G. E., Francis, J., Martin, A. R., Rose, F. L., and Swain, G.: 1: 6-di-4'-Chlorophenyl-diguanidohexane ("Hibitane"). Laboratory investigation of a new antibacterial agent of high potency, 192

- DEKANSKI, J.: The quantitative assay of angiotonin, 187
- DIRNHUBER, P., and Evans, C. Lovatt: The effects of anticholinesterases on humoral transmission in the submaxillary gland, 441
- DUFF, F., and Whelan, R. F.: The effects of antihistamine substances on the response to histamine of the blood vessels of the human forearm, 413
- DUFF, Janet I.: *see* Barnes, J. M., and Duff, Janet I.
- DUTTA, N. K., and Narayanan, K. G. A.: Release of histamine from skeletal muscle by snake venoms, 408
- E**
- EDGE, N. D., Hill, J., and Stone, Rachel: Biological standardization of "MSb polymer" (sodium *p*-melaminyl phenyl stibonate), 125
- ERSPAMER, V., and Sala, G.: Identification of the stable antidiuretic substance ("stable ADS") of serum with 5-hydroxytryptamine, 31
- EVANS, C. Lovatt: *see* Dirnhuber, P., and Evans, C. Lovatt
- EXLEY, K. A.: Depression of autonomic ganglia by barbiturates, 170
- F**
- FELDBERG, W., and Mongar, J. L.: Comparison of histamine release by compound 48/80 and octylamine in perfused tissues, 197
- FLINTAN, P., and Keele, C. A.: Analgesic and other actions of some dithienylbutenylamine compounds in man, 106
- FOLDES, F. F., and Norton, Stata: The urinary excretion of succinylcholine and succinylmonocholine in man, 385
- FRANCESCHINI, Jolanda: *see* Bianchi, C., and Franceschini, Jolanda
- FRANCIS, J., Martin, A. R., Rose, F. L., and Spinks, A.: The absorption, toxicity and experimental antituberculous action of 5-amino-7-methyl-1: 2: 4: 6-tetra-azaindene, 437
- *see* Davies, G. E., Francis, J., Martin, A. R., Rose, F. L., and Swain, G.
- FRASER, P. J.: Hydrolysis of succinylcholine salts, 429
- FULTON, Muriel P., and Mogey, G. A.: Some selective inhibitors of true cholinesterase, 138
- G**
- GADDUM, J. H., and Hameed, K. A.: Drugs which antagonize 5-hydroxytryptamine, 240
- GALLAGHER, D. J. A.: A medium for perfusion of innervated blood vessels, 129
- GIOTTI, A.: Interaction of nicotine and eserine, ephedrine, atropine, hexamethonium, and adrenaline in isolated guinea-pig auricles, 15
- GOLDBERG, A., Paton, W. D. M., and Thompson, J. W.: Pharmacology of the porphyrins and porphobilinogen, 91
- GRAHAM, J. D. P., and Lewis, G. P.: The role of the cyclic ethyleneiminium ion in the pharmacological activity of the 2-haloethylamines, 68
- and Tonks, R. S.: The effect of two ethylenediamines on neuromuscular transmission and on striated muscle, 379
- H**
- HAGEN, P.: The intracellular distribution of histamine in dog's liver, 101
- HALEY, T. J.: *see* Leitch, J. L., Liebig, C. S., and Haley, T. J.
- HAMEED, K. A.: *see* Gaddum, J. H., and Hameed, K. A.
- HARDWICK, D. C.: *see* Adam, H. M., Hardwick, D. C., and Spencer, K. E. V.
- HENDRY, J. A.: *see* Walpole, A. L., Roberts, D. C., Rose, F. L., Hendry, J. A., and Homer, R. F.
- HEY, P., and Willey, G. L.: Choline 2:6-xylyl ether bromide; an active quaternary local anaesthetic, 471
- HILL, J.: *see* Edge, N. D., Hill, J., and Stone, Rachel
- HOBBIGER, F.: The inhibition of cholinesterases by 3-(diethoxyphosphinyloxy)-*N*-methyl-quinolinium methylsulphate and its tertiary base, 159
- HOLGATE, J. A.: *see* Cambridge, G. W., and Holgate, J. A.
- HOLZBAUER, Margarethe, and Vogt, Marthe: The action of chlorpromazine on diencephalic sympathetic activity and on the release of adrenocorticotrophic hormone, 402
- — The concentration of adrenaline in the peripheral blood during insulin hypoglycaemia, 249
- HOMER, R. F.: *see* Walpole, A. L., Roberts, D. C., Rose, F. L., Hendry, J. A., and Homer, R. F.
- I**
- ING, H. R.: *see* Armitage, A. K., and Ing, H. R.
- J**
- JAQUES, R., and Schachter, M.: The presence of histamine, 5-hydroxytryptamine and a potent, slow contracting substance in wasp venom, 53
- — A sea anemone extract (thalassine) which liberates histamine and a slow contracting substance, 49
- JOHNSON, E. A.: The effect of antifibrillatory drugs on the cat's heart *in vivo*, 341
- and Wood, D. R.: A comparison of the peripheral parasympatholytic and autonomic ganglion blocking activities of methantheline ("Banthine") and propantheline ("Pro-Banthine") with atropine and hexamethonium, 218
- JONES, Tudor S. G.: *see* addendum, Fraser, P. J., 429
- JOYCE, C. R. B., Moore, Henrietta, and Weatherall, M.: The effects of lead, mercury, and gold on the potassium turnover of rabbit blood cells, 463
- K**
- KARIB, El A. El.: *see* Neal, R. A., and Karib, El A. El.
- KEELE, C. A.: *see* Flintan, P., and Keele, C. A.
- KOPERA, J., and Armitage, A. K.: Comparison of some pharmacological properties of chlorpromazine, promethazine and pethidine, 392
- L**
- LAURSEN, A. L.: *see* Chubb, L. G., and Laursen, A. L.
- LEITCH, J. L., Liebig, C. S., and Haley, T. J.: The use of the rat's isolated seminal vesicle for the assay of sympatholytic drugs, 236
- LEWIS, G. P.: The importance of ionization in the activity of sympathomimetic amines, 488
- *see* Graham, J. D. P., and Lewis, G. P.

LIEBIG, C. S.: *see* Leitch, J. L., Liebig, C. S., and Haley, T. J.

LOCKETT, Mary F.: Identification of an isoprenaline-like substance in extracts of adrenal glands, 458

LONG, D. A.: Influence of cysteinamine on tuberculin sensitivity in guinea-pigs, 118

M

MCCOUBREY, A.: Antagonism of analgesia by *p*-cyclohexyloxy- α -phenylethylallylamine and some observations on hyperalgesia, 289

— Depletion of adrenal ascorbic acid and cholesterol by *p*-cyclohexyloxy- α -phenylethylamine and related amines in rats, 295

MCDUGAL, Mary D., and West, G. B.: The inhibition of the peristaltic reflex by sympathomimetic amines, 131

MANSOUR, T. E., Bueding, E., and Stavitsky, A. B.: The effect of a specific antiserum on the activities of lactic dehydrogenase of mammalian muscle and of *Schistosoma mansoni*, 182

— The actions of antimonials on glycolytic enzymes of *Schistosoma mansoni*, 459

MARTIN, A. R.: *see* Davies, G. E., Francis, J., Martin, A. R., Rose, F. L., and Swain, G.

— *see* Francis, J., Martin, A. R., Rose, F. L., and Spinks, A.

MAY, A. J., and Widdicombe, J. G.: Depression of the cough reflex by pentobarbitone and some opium derivatives, 335

MOGEY, G. A.: *see* Fulton, Muriel P., and Moge, G. A.

MONGAR, J. L.: *see* Boura, A., Mongar, J. L., and Schild, H. O.

— *see* Feldberg, W., and Mongar, J. L.

MOORE, Henrietta: *see* Joyce, C. R. B., Moore, Henrietta, and Weatherall, M.

N

NARAYANAN, K. G. A.: *see* Dutta, N. K., and Narayanan, K. G. A.

NASMYTH, P. A.: Factors influencing the effect of morphine sulphate on the ascorbic acid content of rats' adrenal glands, 95

NEAL, R. A., and Karib, El A. El.: The chemotherapeutic action of phenanthridine compounds, 37

NISSIM, J. A.: The mechanisms of toxicity of some iron preparations, 103

NOORDWIJK, J. van, and Aarsen, P. N.: Acid gastric secretion in the rat and its inhibition by phloxin, 253

NORTON, Stata: Quantitative determination of mast cell fragmentation by compound 48/80, 494

— *see* Foldes, F. F., and Norton, Stata

P

PAIN, P. J.: *see* addendum, Fraser, P. J., 429

PARKES, M. W., and Sacra, P.: Protection against the toxicity of cholinesterase inhibitors by acetylcholine antagonists, 299

PATON, W. D. M.: *see* Goldberg, A., Paton, W. D. M., and Thompson, J. W.

PEDLEY, Norah: *see* Bunzl, A., Burgen, A. S. V., Burns, B. D., Pedley, Norah, and Terroux, Kathleen G.

PERRY, W. L. M., and Reinert, H.: The action of cardiac glycosides on autonomic ganglia, 324

HILPOT, Flora J.: *see* Burn, J. H., Hilpot, Flora J., and Trendelenburg, U.

R

REINERT, H.: *see* Perry, W. L. M., and Reinert, H.

RICKETTS, C. R.: The blood anticoagulant effect of short chain-length dextran sulphates, 224

RIDDELL, M. J.: *see* Adam, H. M., Card, W. I., Riddell, M. J., Roberts, M., and Strong, J. A.

— *see* Adam, H. M., Card, W. I., Riddell, M. J., Roberts, M., Strong, J. A., and Woolf, B.

ROBERTS, D. C.: *see* Walpole, A. L., Roberts, D. C., Rose, F. L., Hendry, J. A., and Homer, R. F.

— *see* Adam, H. M., Card, W. I., Riddell, M. J., Roberts, M., and Strong, J. A.

— *see* Adam, H. M., Card, W. I., Riddell, M. J., Roberts, M., Strong, J. A., and Woolf, B.

ROSE, F. L.: *see* Davies, G. E., Francis, J., Martin, A. R., Rose, F. L., and Swain, G.

— *see* Francis, J., Martin, A. R., Rose, F. L., and Spinks, A.

— *see* Walpole, A. L., Roberts, D. C., Rose, F. L., Hendry, J. A., and Homer, R. F.

SHORT, Eileen I.: The effect of PAS on the distribution of sulphetrone after simultaneous administration of the drugs, 271

SPEIRS, A. L.: Stool concentrations and absorption of chloramphenicol and its palmitate in babies, 59

SPENCER, K. E. V.: *see* Adam, H. M., Hardwick, D. C., and Spencer, K. E. V.

SPINKS, A.: *see* Francis, J., Martin, A. R., Rose, F. L., and Spinks, A.

SPROULL, D. H.: The glycogenolytic action of sodium salicylate, 121

— A peripheral action of sodium salicylate, 262

STAVITSKY, A. B.: *see* Mansour, T. E., Bueding, E., and Stavitsky, A. B.

STONE, Rachel: *see* Edge, N. D., Hill, J., and Stone, Rachel

STRONG, J. A.: *see* Adam, H. M., Card, W. I., Riddell, M. J., Roberts, M., and Strong, J. A.

— *see* Adam, H. M., Card, W. I., Riddell, M. J., Roberts, M., Strong, J. A., and Woolf, B.

SWAIN, G.: *see* Davies, G. E., Francis, J., Martin, A. R., Rose, F. L., and Swain, G.

T

TAVERNER, D.: The action of eserine sulphate on the spinal cord of the cat, 84

TEDESCHI, R. E.: Atropine-like activity of some anticholinesterases on the rabbit atria, 367

TERROUX, Kathleen G.: *see* Bunzl, A., Burgen, A. S. V., Burns, B. D., Pedley, Norah, and Terroux, Kathleen G.

THAIN, E. M.: *see* Schachter, M., and Thain, E. M.

- THOMPSON, J. W.: *see* Goldberg, A., Paton, W. D. M., and Thompson, J. W.
 TODRICK, A.: The inhibition of cholinesterases by antagonists of acetylcholine and histamine, 76
 TONKS, K. S.: *see* Graham, J. D. P., and Tonks, R. S.
 TREDELENBURG, U.: The action of histamine and pilocarpine on the superior cervical ganglion and the adrenal glands of the cat, 481
 — *see* Burn, J. H., Philpot, Flora J., and Trendelenburg, U.
 — *see* Burn, J. H., and Trendelenburg, U.

W

- WALPOLE, A. L., Roberts, D. C., Rose, F. L., Hendry, J. A., and Homer, R. F.: Cytotoxic agents: IV, the carcinogenic actions of some monofunctional ethyleneimine derivatives, 306
 WALTON, K. W.: Investigation of the toxicity of a series of dextran sulphates of varying molecular weight, 1
 WEATHERALL, M.: *see* Joyce, C. R. B., Moore, Henrietta, and Weatherall, M.

V

- VOGT, Marthe: *see* Holzbauer, Margarethe, and Vogt, Marthe

Z

- ZAUSMER, D. M.: *see* addendum, McCoubrey, A., 289
 ZIORDROU, C.: *see* Danopolous, E., Angelopoulos, B., Ziordrou, C., and Amira, P.

SUBJECT INDEX

A

- Acetylcholine antagonists, protective value of against cholinesterase inhibitors, 299
 — assay by superfusion technique, 371
 — effect of on action of ouabain, 285
 — production after diethyl-*p*-nitrophenyl phosphate poisoning, 153
Actinia spp., pharmacology of extract from, 49
 Adrenal cortex, effect of morphine on, 95
 — gland, a new sympathomimetic amine identified in, 498
 — secretions, effects of phenylethylamines on, 295
 Adrenaline and analogues, ionization and activity of, 488
 — circulating, influence of insulin hypoglycaemia on, 249
 Adrenocortical mechanism in analgesia, 295
 Adrenolytic agents, role of ethyleneiminium ion in activity of, 68
 — drugs as antagonists of 5-hydroxytryptamine, 240
 — — seminal vesicle preparation in assay of, 236
 A-methopterin, effect of on avian lymphoid tumours, 419
 Amine oxidase in denervated organs, 423
 5-Amino-7-methyl-1 : 2 : 4 : 6-tetra-azaindene, experimental studies on, 437
 Aminopterin, effect of on avian lymphoid tumours, 419
p-Aminosalicylic acid, effect of on distribution of solapson, 271
 Amylobarbitone, ganglion-depressant activity of, 170
 Anaesthesia, local, new quaternary compounds producing, 471
 Analgesia, adrenocortical mechanism in, 295
 Analgesic activity of dithienylbutenylamines, 106
 — antagonism among phenylethylamines, 289
 Analgesics, Haflner method for comparison of, 280
 Angiotonin, quantitative assay of, 187
 Anticoagulant effects of iron preparations, 103
 — effect of short-chain dextran sulphates, 224
 Antidiuretic serum factor, stable, identification of with 5-hydroxytryptamine, 31
 Antimony compounds, chemotherapeutic mechanisms of in schistosomiasis, 459

- Arthritis, synovial permeability test in therapeutic investigations on, 166
 Ascorbic acid content of adrenal gland, effect of morphine on, 95
 Assays, pharmacological, automatic apparatus for use in, 24
 Atropine-like action of anticholinesterases on rabbit atrium, 367
 — activity of methantheline and propantheline bromides, 218
 Autonomic activity of cardiac glycosides, 324
 — mechanisms in salivary secretion, 441
 — responses in denervated nictitating membrane, 202

B

- Bacterial inhibition by bisdiguanydes, 192
 — — — phenanthridinium compounds, 265
 "Banthine": *see* Methantheline bromide
 Barbiturates, depression of autonomic ganglia by, 170
 "Becaptan": *see* Cysteinamine
 Benzoylcarbinols, effect of on synovial permeability, 166
 Bisdiguanydes, antibacterial activity of, 192
 Blood coagulation, effect of short-chain dextran sulphates on, 224
 Bradykinin-like factor in sea anemone tentacles, 49
 — substance in wasp venom, 53, 352

C

- Carcinogenic activity of ethyleneimine derivatives, 306
 Cardiac arrhythmias, effects of quinidine and other drugs in, 341
 — glycosides, effects of physostigmine and acetylcholine on action of, 285
 — — ganglionic action of, 324
 Chemotherapeutic studies on bisdiguanydes, 192

Chloramphenicol and palmitate, absorption and excretion of, 59
 — biliary excretion of, 260
 Chlorcyclizine, antifibrillatory action of, 341
 2-Chloroethylamine derivatives, role of ethyleneiminium ion in activity of, 68
 Chlorpromazine, inhibition of vasomotor reflexes by, 389
 — pharmacological comparison of with other drugs, 392
 — sympatholytic and adrenocortical effects of, 402
 Choline 2:6-xylol ether bromide, local anaesthetic properties of, 471
 Cholinesterase inhibition by antagonists of acetylcholine and histamine, 76
 — — phosphorus compounds, studies of, 145, 153, 159
 — inhibitors and quinidine, effects of in isolated auricle, 42
 — — submaxillary gland secretion, 441
 — — protection against by acetylcholine antagonists, 299
 — — with atropine-like activity on rabbit atrium, 367
 — in denervated organs, 423
 — true, selective inhibitors of, 138
 "Citrovorum factor," effect of on avian lymphoid tumours, 419
 Cortisone and skin spreading phenomena, 346
 Cough reflex, pharmacological studies on, 335
 Curariform activity of ethylenediamine derivatives, 379
 Cysteamine, influence of on tuberculin sensitivity in guinea-pig, 118
 Cytotoxic agents, carcinogenic activity among, 306

D

Denervation, effects of on enzyme secretion, 423
 Depolarizing effects of new ethylenediamine derivatives, 379
 Dextran sulphate, anticoagulant effect of lower polymers, 224
 — sulphates, comparative toxicity of, 1
 DFP: *see* Dyflos
 "Dibenamine" and related compounds, significance of ethyleneiminium ion in activity of, 68
 1:6-di-4'-Chlorophenyldiguanidohexane, antibacterial activity of, 192
 3-(Diethoxyphosphinyloxy)-quinoline, anticholinesterases based upon, 159
 Diethyl-*p*-nitrophenyl phosphate poisoning, acetylcholine production after, 153
 Digitalis glycosides, ganglionic action of, 324
 Diisopropyl fluorophosphonate: *see* Dyflos
 Diquaternary compounds with selective anticholinesterase activity, 138
 Dithienylbutenylamines, analgesic and other actions of, 106
 Diuresis, mercurial, study of, 210
 Dyflos, chronic toxicity of in chickens, 145

E

Electrolyte excretion following mersalyl diuresis in man, 210
 Enteramine: *see* 5-Hydroxytryptamine
 Enzyme activity in denervated organs, 423
 Ergot alkaloids and derivatives as antagonists of 5-hydroxytryptamine, 240
 Erythrocytes, ion exchanges in, effects of heavy metals on, 463
 Eserine: *see* Physostigmine

Ethylenediamines with neuromuscular blocking activity, 379
 Ethyleneimine derivatives, carcinogenic activity of, 306
 Ethyleneiminium ion, role of in activity of 2-haloethylamines, 68

F

Ferrous chloride ascorbate, anticoagulant action of, 103
 Fibrillation, *in vivo* study of drugs effective in, 341
 Fibrinogen, interaction of large-molecule dextran sulphates with, 1
 Folic acid analogues, effects of on avian lymphoid tumours, 419
 Frog spinal cord preparation for perfusion studies, 229
 Furan derivatives, quaternary, structure-action relationships among, 376
 Furfuryltrimethylammonium iodide and analogues, structure-action relationships among, 376
 "Furmethide": *see* Furfuryltrimethylammonium iodide

G

Ganglion-blocking activities of methantheline and propantheline bromides, 218
 Ganglion-depressant activity among barbiturates, 170
 Gastric acid secretion, dose-response curves for histamine stimulation of, 329
 — secretion, effect of phloxin on acidity of, 253
 Glycogenolytic action of salicylate, 121
 Glycolysis inhibition in chemotherapy of schistosomiasis, 459
 Gold, effects of on potassium turnover of erythrocytes, 463

H

Haemolytic effects of iron preparations, 103
 Haffner method for assay of analgesic drugs, 280
 Heart, isolated, study of effects of autonomic ganglionic-blocking agents in, 15
 Heparin-like effects of dextran sulphates, 1
p-cycloHexyloxy- α -phenylethylallylamine, analgesic-antagonist activity of, 289
p-cycloHexyloxy- α -phenylethylamine, depletion of adrenal ascorbic acid and cholesterol by, 295
 "Hibitane": *see* 1:6-di-4'-Chlorophenyldiguanidohexane
 Histamine and gastric secretion, dose-response curves for, 329
 — antagonists and vascular response to histamine in man, 413
 — — cholinesterase-inhibitory actions of, 76
 — — protective effects of against snake venoms, 408
 — — quinidine-like activity among, 341
 — — role of ethyleneiminium ion in activity of, 68
 — effects of intravenous infusion in man, 62
 — — on ganglia and adrenal gland, 481
 — intracellular distribution of on dog's liver, 100
 — phloxin interaction and acid gastric secretion, 253
 — presence of in wasp venom, 53
 — release by compound 48/80 and by octylamine, 197
 — — snake venoms, 408
 — -releasing factor in sea anemone tentacles, 49
 — superfusion technique in assay of, 360, 370
 Hyaluronidase and skin spreading phenomena, 346
 5-Hydroxytryptamine antagonists, investigation of, 240
 — identification of with "stable antidiuretic factor" of serum, 31

5-Hydroxytryptamine, presence of in wasp venom, 53
 — superfusion technique in assay of, 370
 Hypertensin: *see* Angiotonin
 Hypoglycaemia, insulin-induced, and adrenaline blood-level, 249
 Hypotensive activity of barbiturates, 170

I

Ileum, isolated, effect of sympathomimetic amines on reflex activity of, 131
 Insulin hypoglycaemia, influence of on adrenaline blood-levels, 249
 Intradermal spreading phenomena, quantitative measurement of, 346
 Iron injections, mechanisms of toxicity of, 103
 Isoprenaline-like compound from adrenal extracts, 498

K

Kinin in wasp venom, investigation of, 53, 352

L

Lactic dehydrogenases, mammalian and schistosomal, serological differentiation of, 182
 "Largactil": *see* Chlorpromazine
 Lead, effects of on potassium turnover of erythrocytes, 463
 Liver, dog, cellular distribution of histamine in, 100
 Local anaesthetics, new series of, 471
 LSD: *see* Lysergic acid diethylamide
 Lysergic acid diethylamide as antagonist of 5-hydroxytryptamine, 240

M

Mast cell fragmentation by compound 48/80, 494
 "Megaphen": *see* Chlorpromazine
 Mercurial diuresis, study of, 210
 Mercury, effects of on potassium turnover of erythrocytes, 463
 Mersalyl diuresis, study of, 210
 Methantheline bromide and other drugs, pharmacological comparison of, 218
 Morphine-antagonist action of phenylethylallylamines, 289
 Morphine derivatives, cough-suppressant action of, 335
 — effect of on adrenal cortex, 95
 2'-Morpholinoethylmorphine: *see* Pholcodine
 MSb polymer: *see* Sodium *p*-melaminyl phenyl stibonate
 Mustine and related drugs, role of ethyleneiminium ion in activity of, 68

N

Nalorphine-like activity of *p*-cyclohexyloxy- α -phenylethylallylamine, 289
 Nicotine and other drugs, effects of in isolated auricles, 15
 Nictitating membrane, denervated, pharmacological studies on, 202
 Nitrogen mustard: *see* Mustine
 Noradrenaline, potentiation of pressor action of by ganglionic blocking agents, 476

O

Octylamine, histamine-releasing activity of, 197
 Opium derivatives, depression of cough reflex by, 335

Ouabain, effects of physostigmine and acetylcholine on action of, 285

P

Paralysis in chickens produced by cholinesterase inhibitors, 145
 "Paraoxon": *see* Diethyl-*p*-nitrophenyl phosphate
 Parasympatholytic activities of methantheline and propantheline bromides, 218
 Parasympathomimetic compounds derived from furan, 376
 — drugs, effects of in isolated auricle, 15
 Parkinsonism, characteristics of drugs effective in, 76
 PAS: *see* *p*-Aminosalicylic acid
 Pentobarbitone, cough-suppressant action of, 335
 Perfusion experiments, automatic apparatus for use in, 24
 — medium for innervated blood vessels, 129
 Peristaltic reflex, inhibition of by sympathomimetic amines, 131
 Pethidine, comparison with chlorpromazine and promethazine, 392
 Phenanthridinium compounds, antibacterial activity among, 265
 — — chemotherapeutic action of, 37
 Phenindamine, antibrillatory action of, 341
 Phenylethylallylamines, analgesic antagonism among, 289
 Phloxin, effect of on acid gastric secretion, 253
 Pholcodine, cough-suppressant action of, 335
 Phosphates, organic, pharmacological studies of, 145, 153, 159
 Physostigmine and nicotine, effects of in isolated auricle, 15
 — — quinidine, synergic effects of in isolated auricle, 42
 — effect of on action of ouabain, 285
 — effects of on spinal reflexes, 84
 Pilocarpine, effects of on ganglia and adrenal gland, 481
 Porphyrins and porphobilinogen, pharmacology of, 91
 Potassium exchanges in erythrocytes, effects of heavy metals on, 463
 — ions and activity of cardiac glycosides, 324
 "Pro-Banthine": *see* Propantheline bromide
 Promethazine, comparison with chlorpromazine and pethidine, 392
 Propantheline bromide and other drugs, pharmacological comparison of, 218

Q

Quinidine and physostigmine, synergic effects of in isolated auricle, 42

S

Salicylate, effects of on tissue respiration, 262
 — glycogenolytic action of, 121
 Salivary secretion, effects of anticholinesterases on, 441
 Schistosomes, effects of antimonials on glycolysis in, 459
 — studies on lactic dehydrogenase of, 182
 Sea anemone extract (thalassine), pharmacology of, 49
 Seminal vesicle preparation for assay of sympatholytic agents, 236
 Serotonin: *see* 5-Hydroxytryptamine
 Skin, spreading of injected material in, 346
 Snake venoms, histamine-releasing effects of, 408
 Sodium *p*-melaminyl phenyl stibonate, biological standardization of, 125
 Solapsone blood-levels, influence of *p*-aminosalicylic acid on, 271

- Spinal cord, frog, technique for perfusion studies, 229
 — reflexes, effects of physostigmine on, 84
 Squill glycosides, ganglionic action of, 324
 Strophanthin-G: *see* Ouabain
 Strophanthus glycosides, ganglionic action of, 324
 Succinylcholine: *see* Suxamethonium
 Succinylidicholine: *see* Suxamethonium
 Succinylmonocholine and suxamethonium, comparison of, 429
 — — — urinary excretion of in man, 385
 "Sulphetrone": *see* Solapson
 Sulphydryl compounds and tuberculin sensitivity, 118
 Superfusion technique in histamine assays, 360, 370
 Suxamethonium and succinylmonocholine, urinary excretion of in man, 385
 — salts, hydrolysis of, 429
 Sympatholytic agents, rat seminal vesicle for assay of, 236
 — drugs as antagonists of 5-hydroxytryptamine, 240
 Sympathomimetic amine, new, in adrenal extracts, 498
 — — inhibition of peristaltic reflex by, 131
 — — ionization and activity of, 488
 — drugs, effects of in isolated auricle, 15
 Synovial permeability, compounds reducing, 166
- T
- Thalassine (sea anemone extract), pharmacology of, 49
 Trypanosomiasis, bovine, effects of new phenanthridinium compound in, 37
 Tuberculin sensitivity, influence of cysteinamine on, 118
 Tuberculosis, compound 7438 in experimental chemotherapy of, 437
 Tumours, avian lymphoid, study of folic acid analogues in, 419
- U
- Urinary constituents following mersalyl diuresis, 210
- V
- Vagal ganglionic effects of cardiac glycosides, 324
 Vasodilators, new perfusion medium for study of, 130
 Vasopressor agents, technique for assay of, 187
- W
- Wasp venom, constituents of, 53
 — — smooth-muscle stimulating factor in, 352
- E600: *see* Diethyl-*p*-nitrophenyl phosphate
 Ro 3-0422: *see* 3-(Diethoxyphosphinyloxy)-*N*-methylquinolinium methylsulphate
 48/80 and mast cell fragmentation, 494
 — — octylamine, comparison of histamine release by, 197
 4560 RP: *see* Chlorpromazine
 7438, experimental studies on, 437
 10,040: *see* 1:6-di-4'-Chlorophenyldiguanidohexane
