

BRITISH JOURNAL OF PHARMACOLOGY AND CHEMOTHERAPY

EDITED FOR
THE BRITISH PHARMACOLOGICAL SOCIETY
BY

A. C. FRAZER L. G. GOODWIN W. L. M. PERRY
H. O. SCHILD A. SPINKS J. W. TREVAN E. J. WAYNE
A. D. MACDONALD (Chairman) G. S. DAWES (Secretary)
W. A. BAIN (Press Editor) G. A. MOGEY (Assistant Press Editor)

In co-operation with the EDITOR of the British Medical Journal

VOLUME 10, 1955

LONDON
BRITISH MEDICAL ASSOCIATION
TAVISTOCK SQUARE, W.C.1

NOTICE TO CONTRIBUTORS

The JOURNAL, which appears quarterly, publishes original work in all branches of pharmacology and experimental chemotherapy, including the biochemical and pathological aspects of the subject. Provision is also made for short communications and for brief notes on technique. Papers submitted for publication should be addressed to the Secretary to the Editorial Board, Dr. G. S. Dawes, Nuffield Institute for Medical Research, 43, Woodstock Road, Oxford.

Papers submitted to the JOURNAL are accepted on the understanding that they have not been and will not be published in whole or in part in any other journal; they are subject to editorial revision.

MSS. and illustrations should bear the name and full address of the author to whom proofs are to be sent. Papers should be in double-spaced typing on one side only of quarto or foolscap sheets, with a margin of not less than $1\frac{1}{4}$ in. Papers must be as concise as possible, and only recognized abbreviations should be used.

In stating the object of the research the author should refer to previous work only if it has a direct bearing on the subject of the paper; as a rule a complete historical review is unnecessary. A paper should conclude with a brief but self-explanatory summary giving in numbered paragraphs the results and conclusions described in the paper; it should not exceed 1-20th of the length of the paper.

TABLES.—Tables are to be typed on separate numbered sheets and referred to in the text by Roman numerals. Tables should be comprehensible without reference to the text.

ILLUSTRATIONS.—Illustrations are to be referred to in the text by Arabic numerals. Legends or captions are to be typed on separate sheets and numbered correspondingly; they should render the illustrations comprehensible without reference to the text. Line drawings and graphs, which should be about twice their intended final size, are to be carefully drawn in Indian ink on tracing linen, or Bristol board, or stout smooth white paper; blue-lined graph paper of good quality may be used for graphs. Letterings of drawings and graphs must be lightly written in pencil. Lettering on kymograph records should be large enough to be legible on photographic reproduction. When half-tone reproduction of x-ray or other illustrations is required the author is advised to send the original film unless he wishes to bring out special points in a print of his own choice. Photographs and photomicrographs should be printed on glossy paper, should be larger than the size desired for reproduction, and, if transmitted through the post in a tube, should be rolled with the picture outside.

REFERENCES.—References should be arranged according to the Harvard system. In the text the year of publication must follow the author's name, more than one paper in any one year being indicated by a small letter (a, b, c) after the date. At the end of the paper references should be arranged in the alphabetical order of the authors' names and should include: author's name, followed by initials; year of publication, in parentheses; title of publication, underlined, and abbreviated in accordance with the *World List of Scientific Periodicals*; volume number in Arabic numerals underlined with a wavy line to indicate bold type; the number of the first page in Arabic numerals, thus:

Barger, G., and Dale, H. H. (1910-11). *J. Physiol.*, 41, 19.

The BRITISH JOURNAL OF PHARMACOLOGY AND CHEMOTHERAPY should be referred to in the list of references as *Brit. J. Pharmacol.*

When reference is made to a book the author's name and the date should be followed by: title, underlined; edition, volume number (vol.), and page (p. or pp.); town of origin; and the publisher, thus:

Clark, A. J. (1940). *Applied Pharmacology*, 7th ed., p. 378. London: Churchill.

For further information on the preparation of MSS. authors are recommended to study the "Suggestions to Authors" in the *Journal of Physiology* (1952), 116, 1. For abbreviations and symbols, however, back numbers of this JOURNAL should be consulted.

PROOFS.—Contributors will receive one proof in page, but it will be assumed that all but verbal corrections have been made in the original MS.; an allowance at the rate of ten shillings per sheet of sixteen pages is made for alterations in the proof (printer's errors excepted), and contributors will be charged for any excess.

REPRINTS.—Twenty-five reprints of an article will, if desired, be given to an author or divided among the authors. A limited number of additional reprints at cost price can be supplied if application is made when the proofs are returned, and an estimate of costs can be obtained from the Publishing Manager, British Medical Association.

COPYRIGHT.—Papers which have been published become the property of the JOURNAL and permission to republish must be obtained from the Editors.
