

ERRATUM

In the paper by Michael Ginsburg and Lucy M. Brown in the September, 1956, issue (Vol. 11, No. 3) the legend to Fig. 4 on p. 240 was incorrectly printed and should read as follows:

FIG. 4.—Effect of rapid haemorrhage on blood pressure, and antidiuretic activity in external jugular blood. 5.5 ml. blood was withdrawn in 2 min. and the blood pressure was maintained at 33–37 mm. Hg. ——— blood pressure, mm. Hg; ●—● mU. vasopressin/ml. blood.
