

Experiments to investigate the mechanism of the anti-luteolytic action of the guinea-pig conceptus (T)

FELICITY MAULE WALKER & N.L. POYSER
(introduced by E.W. HORTON)

*Department of Pharmacology, University of Edinburgh, 1
George Square, Edinburgh EH8 9JZ*

Effects of some drugs on epileptiform spikes in the rat (T)

R.C. DOW, A.G. HILL &
JUDITH K. McQUEEN

M.R.C. Brain Metabolism Unit, Department of Pharmacology, University of Edinburgh, Edinburgh

Influence of local temperature changes on carotid chemoreceptor activity (T)

D. McQUEEN (introduced by E.W. HORTON)

Department of Pharmacology, University of Edinburgh, Edinburgh

Neurofibrillary tangles induced in the rabbit by aluminium chloride

A. GORDON, A.F.J. MALONEY, HELEN WILSON
& CELIA M. YATES

M.R.C. Brain Metabolism Unit, Department of Pharmacology, Edinburgh
