Papers will be considered for publication on all aspects of drug action, including chemotherapy.

Manuscripts (two copies) should be sent to Dr H.M. Adam, Department of Pharmacology, University of Edinburgh Medical School, 1 George Square, Edinburgh EH8 9JZ. Authors should consult the instructions inside the back cover.

The British Journal of Pharmacology is published monthly by Macmillan Journals Ltd, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633.

Annual subscription £30.00 (£35.50 USA and Canada). (Payment may be made in any currency at the current exchange rate. Orders must be accompanied by remittance. Prices applicable only to orders received before 31st December 1975.)

Cheques should be made payable to Macmillan Journals Limited: Subscription Department, Brunel Road, Basingstoke, Hampshire RG21 2XS, England.

Enquiries concerning advertising space and rates should be addressed to: Advertisement Department, Macmillan Journals Limited, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633.

Second class postage paid at New York, N.Y.

INSTRUCTIONS TO AUTHORS

Papers will be considered for publication on all aspects of drug action, including chemotherapy. A recent issue of the Journal is a good guide to style.

Manuscripts (two copies) should be sent to Dr H.M. Adam, Department of Pharmacology, University of Edinburgh Medical School, 1 George Square, Edinburgh, EH8 9JZ, from whom copies of the full Instructions to Authors, published in *Br. J. Pharmac.* **50**, 3-23, may also be obtained. Specific points to note are:

1. **Manuscript** should be typed in double spacing on one side of paper not larger than A4 (206 x 294 mm). There should be a separate title page giving the names and addresses of the authors in **alphabetical order**. A short title of not more than 50 letters should also be suggested.

2. **Statement Papers** are accepted only if accompanied by a statement that they have not been and will not be published in whole or in part in any other Journal.

3. **Summary** (2 copies) This should be a short summary of results and conclusions arranged in numbered paragraphs.

4. **Abstract** (2 copies) An abstract of about 100 words suitable for inclusion in *International Abstracts of Biological Sciences* should be typed on a separate sheet, giving the author's name and address and the title of the paper.

5. **Figures** These should not be larger than A4 (206 x 294 mm) and may be in the form of original drawings, recorded tracings or high quality photographic prints made from them. Negative prints of kymograph tracings (black on white) should be provided, and both ordinates and abscissae should be calibrated. Lettering on figures should be inserted in pencil. Symbols which are to appear in figures or legends should be chosen from the following:

○ ● □ ■ △ ▲ ▽ ▼

Photographs and photomicrographs should be printed on glossy paper and should be larger than the size required for reproduction.

6. **Tables** These should not have more than 85 characters to a line (counting spaces between columns as 4 characters) and certainly not more than 110 characters to a line, unless absolutely unavoidable. **Figure legends** and **tables** should be typed on separate sheets of paper.

7. **References** These should be collected in alphabetical order at the end of the paper. They should include the authors' names, year of publication (in brackets), title of article, title of publication (abbreviated in accordance with the fourth edition of the *World List of Scientific Periodicals*), volume number and first and last page numbers. References to books should in addition, include the names of editors, the edition number, where appropriate, and the town of origin and name of publisher.

Two page proofs will be supplied, one of which may be retained by the authors. The other should be corrected immediately and returned to the Press Editor. Corrections should be kept to a minimum.

Twenty-five reprints will be supplied to the authors free of charge. Additional reprints can be purchased. A reprint order form, which should be returned promptly, will be sent out with the proofs. No reprints of abstracts are supplied.

Short Communications Exactly as for full papers, except that the Summary should only be a single paragraph. There must not be more than 1,200 words in the communication and only one figure or one table.

British Journal of Pharmacology

VOLUME 53 NUMBER 2 FEBRUARY 1975

page

Systematic Pharmacology

- 157 KELLY, J.G. & SHANKS, R.G. Metabolic and cardiovascular effects of isoprenaline and salbutamol in the dog
- 163 PAOLONI, H.J. & WILCKEN, D.E.L. The action of aminophylline on the acutely transplanted dog-heart: effect of α - and β -adrenoceptor blockade
- 173 DALY, M.J., BLOOM, JUDITH J. & LEVY, G.P. The selectivity of β -adrenoceptor antagonists on cardiovascular and bronchodilator responses to isoprenaline in the anaesthetized dog
- 183 McCALDEN, T.A. The inhibitory action of oestradiol-17- β and progesterone on venous smooth muscle
- 193 MARLEY, E. & NISTICÒ, G. Tryptamines and some other substances affecting waking and sleep in fowls

Autopharmacology

- 207 HAYASHI, E. & YAMADA, S. Pharmacological studies on surugatoxin, the toxic principle from Japanese ivory mollusc (*Babylonia japonica*)
- 217 MAIN, I.H.M. & WHITTLE, B.J.R. Investigation of the vasodilator and antisecretory role of prostaglandins in the rat gastric mucosa by use of non-steroidal anti-inflammatory drugs
- 225 DONOVAN, B.T. Indomethacin, ketoprofen and corpus luteum regression in the guinea-pig
- 229 NUSTAD, K., PIERCE, J.V. & VAAJE, KIRSTEN. Synthesis of kallikreins by rat kidney slices

Pharmacokinetics

- 235 BOND, P.A., BROOKS, B.A. & JUDD, A. The distribution of lithium, sodium and magnesium in rat brain and plasma after various periods of administration of lithium in the diet
- 241 PARVEZ, SIMONE, PARVEZ, S.H. & YODIM, M.B.H. Variation in activity of monoamine metabolizing enzymes in rat liver during pregnancy
- 247 GARCÍA, A.G. & SÁNCHEZ-GARCÍA, P. Influence of cocaine and sodium on bretylium uptake by reserpine-treated guinea-pig left atrium
- 257 DA PRADA, M., OBRIST, R. & PLETSCHER, A. Discrimination of monoamine uptake by membranes of adrenal chromaffin granules

Drug Mechanisms

- 267 KALSNER, S. Role of extraneuronal mechanisms in the termination of contractile responses to amines in vascular tissue
- 279 CHIOU, C.Y. & MALAGODI, MARJORIE H. Studies on the mechanism of action of a new Ca^{2+} antagonist, 8-(*N,N*-diethylamino)octyl 3,4,5-trimethoxybenzoate hydrochloride in smooth and skeletal muscles
- 287 GREEN, A.R., SOURKES, T.L. & YOUNG, S.N. Liver and brain tryptophan metabolism following hydrocortisone administration to rats and gerbils
- 293 HARRIS, D.W., SMY, J.R., REED, J.D. & VENABLES, C.W. The effects of burimamide and metiamide on basal gastric function in the cat

Psychopharmacology

- 299 HOLMAN, R.B., HOYLAND, VALERIE & SHILLITO, ELIZABETH E. The failure of *p*-chlorophenylalanine to affect voluntary alcohol consumption in rats
- 305 SHORT COMMUNICATIONS
