---

Papers will be considered for publication on all aspects of drug action, including chemotherapy.

Manuscripts (two copies) should be sent to Dr H.M. Adam, Department of Pharmacology, University of Edinburgh Medical School, 1 George Square, Edinburgh EH8 9JZ. Authors should consult the instructions inside the back cover.

*The British Journal of Pharmacology* is published monthly by Macmillan Journals Ltd, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633.

Annual subscription £30.00 (£35.50 USA and Canada). (Payment may be made in any currency at the current exchange rate. Orders must be accompanied by remittance. Prices applicable only to orders received before 31st December 1975.)

Cheques should be made payable to Macmillan Journals Limited: Subscription Department, Brunel Road, Basingstoke, Hampshire RG21 2XS, England.

Enquiries concerning advertising space and rates should be addressed to: Advertisement Department, Macmillan Journals Limited, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633.

Copyright © 1975 by the *British Journal of Pharmacology*. All rights of reproduction are reserved in respect of all papers, articles, illustrations, etc., published in this journal in all countries of the world.

Second class postage paid at New York, N.Y.

## Pharmacologist

---

Experienced, with veterinary or medical qualifications preferred, required for pharmacological research and toxicological studies of compounds of potential therapeutic importance. Also vacancies for New Graduates as trainees. Excellent opportunities for advancement in modern, well-equipped laboratory, Pension and Assurance Scheme. Application forms from

The Secretary,

### **Biorex Laboratories Ltd.,**

Biorex House, Canonbury Villas,  
London N1 2HB.

# British Journal of Pharmacology

## INDEX (1966–1973)

The eight year cumulative index (1966–1973) to the British Journal of Pharmacology is now available.

Price £10.45 (including postage)

Available from:

DEPARTMENT AS11,  
MACMILLAN JOURNALS LTD.,  
BRUNEL ROAD,  
BASINGSTOKE, RG21 2XS,  
HAMPSHIRE, ENGLAND.

Orders must be accompanied by remittance. Cheques should be made payable to Macmillan Journals Ltd. Payment may be made in any currency at the current exchange rate.

## BIOLOGICAL EFFECTS OF DRUGS IN RELATION TO THEIR PLASMA CONCENTRATION

Edited by Donald S. Davies and B. N. C. Prichard

A complete record of the proceedings of a British Pharmacological Society symposium held in London in 1972.

'This is an exciting area of research at the interface of pharmaceutical and clinical sciences, and all interested in it will find this volume informative and provocative, as well as well-produced and reasonable in price' —Paul Turner,  
(Pharmaceutical Journal)

**£6.50 MACMILLAN**

## DRUG RECEPTORS

Edited by H. P. Rang

The proceedings of the 1972 Biological Council symposium on drug action at which experts from throughout the world discussed the results of recent research into the labelling of cholinergic receptors.

'A wealth of up to date information . . . every pharmaceutical or medical science library should have copies available or on its shelves' —W. C. Bowman,  
(Pharmaceutical Journal)

**£7.80 MACMILLAN**

# INDEX TO VOLUME 53

## AUTHOR INDEX

# SUBJECT INDEX

## A

- AH 5158**, combined  $\alpha$ - and  $\beta$ -adrenoceptor blocking drug, 585
- , 5-[1-hydroxy-2-[(1-methyl-3-phenylpropyl)-amino]ethyl]salicylamide, 585
- AH 10407**, a novel short-acting competitive neuromuscular blocking drug in man and animals, 446P
- Acebutolol**, effect of, on cardiovascular and bronchodilator responses to isoprenaline, 173
- Acetylcholine**, effect of, on changes in contractility, heart rate and phosphorylase activity produced by isoprenaline, salbutamol and aminophylline in perfused guinea-pig heart, 531
- , effect of, on cloacal temperature in pigeon, 317
  - , effect of, on myenteric plexus-longitudinal muscle, 131
  - , effect of, on neonatal rabbit ileum, 428
  - , effect of surugatoxin on effects of, 207
  - , energy dependence of contractions of isolated smooth muscle induced by, 59
  - , increases antagonistic effect of 2-2'pyridylisatogen tosylate to ATP, 575
  - , induced currents, effect of hyperpolarization on, at frog endplates, 308
  - , potentiation and antagonism of excitatory responses to, following application of imipramine or desipramine, 29
  - , sensitivity of brain stem cells to, 462P
- Acetylcholine mustard**, irreversible binding of, to muscarinic receptors in intestinal smooth muscle of the guinea-pig, 363
- N-acetylcysteine**, effect of, on toxicity of M & B 16,573 in cat, 93
- Acetyl- $\beta$ -methylcholine**, sensitivity of brain stem cells to, 462P
- ACTH**, activity of, as measure of effect of reserpine on hypothalamo-pituitary-adrenocortical function in the rat, 555
- Adenosine 5'-triphosphate**, antagonism of relaxation induced by, in taenia of guinea-pig caecum, by 2-2'pyridylisatogen, 575
- Adrenal**, stimulation of, by compounds formed in inflamed tissue, 75
- Adrenal medulla**, rat, effect of reserpine on, in spontaneous hypertension, 349
- Adrenaline**, contractile response of vascular tissue to, role of extraneuronal mechanisms in termination of, 267
- , effect of, on histamine constricted guinea-pig lung, 463P
  - , effect of surugatoxin on effects of, 207
  - , effects of dexamethasone on release of, in adult and neonatal rat brain, 453P
  - , effects of, on canine peripheral canine lymph flow, 499
  - , effects of, on production and release of renin by isolated renal cortical cells of cat, 67
  - , effect of, on ventricular fibrillation threshold blocked by propranolol and pindolol, 3
  - , lowers ventricular fibrillation threshold in isolated rabbit heart, 3
  - , lowering effect of, on ventricular fibrillation threshold in isolated rabbit heart unaffected by carbachol, 3
  - , uptake, effect of reserpine on, in adrenal medulla of spontaneously hypertensive rat, 349
- ( $\pm$ )-Adrenaline**, uptake of, by membranes of adrenal chromaffin granules, 257
- [ $^3$ H]-adrenaline**, metabolism of, in rat liver during pregnancy, 241
- Adrenergic nerves**, responsibility of, for uptake of noradrenaline in guinea-pig isolated trachea, 109
- Adrenergic neurone-blocking action**, of propranolol, 517
- $\alpha$ -adrenoceptor-blocking drugs**, effect of, on vascular response to sympathetic nerve stimulation, 517
- $\alpha$ -adrenoceptor**, action of antagonists on response to isoprenaline in oestrogen dominated rabbit uterus, 393
- , agonists and antagonists effects of, on release of  $^3$ H-(–)-noradrenaline from guinea-pig hypothalamic slices, 454P
  - , effect of aminophylline on, blockade, 163
  - , further studies on blocking of, in anaesthetized animals, 585
- $\beta$ -Adrenoceptor**, action of, antagonists on response to isoprenaline in the oestrogen dominated rabbit uterus, 393
- , effect of aminophylline on, blockade, 163
  - , mediate effect of adrenaline, noradrenaline and isoprenaline on ventricular fibrillation threshold in isolated rabbit heart, 3
  - , possible role of, in regulation of noradrenaline release by nerve stimulation through a positive feed-back mechanism, 43
  - , role in muscle glycogenolysis in the dog, 157
- $\beta_1$ -adrenoceptors**, mediate lipolysis in the dog, 157
- $\beta_2$ -adrenoceptors**, mediate liver glycogenolysis in the dog, 157
- Adrenoceptor-blocking drugs**, effects of, on canine peripheral lymph flow, 499
- Adrenocorticotrophic hormone**, effect of, on nicotine-induced steroidogenesis in adrenocortical cells of rat, 357
- Agonist conductance changes**, kinetics of, during hyperpolarization at frog endplates, 308
- Alcohol**, voluntary consumption of, in rat, failure of *p*-chlorophenylalanine to affect, 299

**N-amidine-2-(2,6-dichlorophenol) acetamide hydrochloride**, see BS 100-141, 513

**Amines**, contractile responses to, in vascular tissue, role of extraneuronal mechanisms in termination of, 267

**$\gamma$ -aminobutyric acid**, actions of, on ganglionic transmission and ganglion cell excitability, 438P

- , effect on membrane conductance at crab neuromuscular junction induced by, and effect of tetramethylene-disulphotetramine, 598
- , depolarization of isolated superior cervical ganglion induced by, inhibited by tetramethylenedisulphotetramine, 422

**2-Amino-6,7-dihydroxyl-1,2,3,4-tetrahydronaphthalene**, effect of, on motor activity in rat, 456P

**Aminooxyacetic acid**, effect of, on metoclopramide-induced catalepsy in rat striatum, 460P

**Aminophylline**, action of, on transplanted dog heart, 163

- , changes in contractility, heart rate and phosphorylase activity produced by, in perfused guinea-pig heart, effect of acetylcholine on, 531
- , effect on coronary blood flow and myocardial contractility, 163
- , effect of, on histamine constricted guinea-pig lung, 463P
- , effect of, on membrane potential of vascular endothelial cells, 113

**Aminopyrine**, effect of, on membrane potential of vascular endothelial cells, 113

**Amodiaquin**, effect of, on contractile response of vascular tissue to amines, 267

**AMP**, effect of, on nicotine-induced steroidogenesis in adrenocortical cells in cat, 357

**(+)-Amphetamine**, comparison of effects of, on rat blood platelets, with (+)-fenfluramine, 563

**(+)-Amphetamine**, effect of, on avoidance behaviour in selected rat strains, 461P

**Angiotensin**, energy dependence of contractions of isolated smooth muscle induced by, 59

- , reduction in response to, following exposure to 2,4-dinitrophenol, 59
- , response to, can be aerobic or anaerobic depending on tissue site, 59

**Antihistamines**, effects of, on sympathetic nerve responses in canine paw, 51

**Antihypertensive action**, of propranolol, 517

**Anti-inflammatory drugs**, effect of, on membrane potential of vascular endothelial cells, 113

**Anti-inflammatory substances**, endogenous, possible occurrence of, in blood of injured rats, 85

**Aortic strips**, relaxation of, after contraction in response to amines, 267

**Apomorphine**, effect of, on metoclopramide-induced catalepsy in rat striatum, 460P

- , effects of, on audiogenic seizures in DBA/2 mice, 419

**Artery**, human umbilical, kinetics and characteristics of noradrenaline uptake by, 152

**L-ascorbic acid**, inhibitory effect of, on yield of prostaglandin F from guinea-pig uterine homogenates, 469P

**Aspirin**, effect of, on prostaglandin synthesis in microsomal fraction of rat skin, 470P

**ATP**, effect of, on uptake of monoamines by membranes of adrenal chromaffin granules, 257

**Atria**, kitten isolated, indirect sympathomimetic effect of burimamide on, 525

**Atropine**, effect of, on cardiovascular effects of surugatoxin, 207

- , effect of, on cloacal temperature in pigeon, 317
- , effect of, on gastric secretion and mucosal blood flow in conscious dog, 432P
- , effect of, on metoclopramide-induced catalepsy in rat striatum, 460P
- , effect of, on pentagastrin-induced gastric acid secretion and mucosal blood flow in conscious rat, 434P
- , effect of, on responses to acetylcholine in cortical neurones, 29
- , thermoregulatory changes induced by, in sheep cerebral ventricles, 489
- , vasodilator responses to histamine, bradykinin and sympathetic nerve stimulation in canine paw infused with, 51

## B

**BS 100-141**, inhibitory effects of, on response to sympathetic nerve stimulation in cats and rabbits, 513

***Babylonia japonica***, Japanese ivory mollusc, pharmacological studies on toxic principle from, 207

**Bacterial pyrogen**, effect of various amine-depleting drugs on fever response in rabbits to, 21

**Benzindamine**, effect of, on membrane potential of vascular endothelial cells, 113

**Blood**, presence of anti-inflammatory substances in, in injured rat, 85

**Blood flow**, gastric mucosal, effect of burimamide and metiamide on, in cat, 293

- , mucosal, effect of atropine on, in conscious dog, 432P

- , mucosal, effect of atropine on pentagastrin-induced, in conscious rat, 434P

**Blood platelets**, human, aggregation of, inhibition of, by chlorpromazine, 121

**Blood vessels**, of cremaster muscle of rat, effect of oxytocin on, 149

**Bradykinin**, effect of active inflammatory perfusates on response to, in isolated preparations, 75

- , effect of, on myenteric plexus-longitudinal muscle, 131

**Brain**, isolated perfused rat, 5-HT synthesis in, 450P

**Bretium**, uptake of, effect of cocaine and sodium on, in reserpine-treated guinea-pig left atrium, 247

- , vasodilator responses to histamine, bradykinin and sympathetic nerve stimulation in canine paw infused with, 51

**British Pharmacological Society**, Proceedings of, January 8-10, 1975, 431P

**Burimamide**, activation of histidine decarboxylase by, in rat stomach, mechanisms of action of, 127

- , effect of, on basal gastric function in cat, 293
- , effect of, on histamine uptake and metabolism in the guinea-pig atrium and mouse neoplastic mast cells, 569

- , effect of, on vasoconstrictor response to exogenous noradrenaline in canine paw, 51

- , effect of, on vasodilator responses in canine paw, 51

- , sympathomimetic effect of, on kitten isolated atria, 525

**Butaclamol**, effect of, on dopamine receptors in rat striatum, 457P

**Betamethasone**, effect of, on prostaglandin synthesis in microsomal fraction of rat skin, 470P

**Butoxamine**, effect of, on cardiovascular and bronchodilator responses to isoprenaline, 173

**n-Butyl alcohol**, metabolism of, in rat isolated liver, 443P

**6-n-butyl-2,8-dicarboxy-4,10-dioxo-1,4,7,10-tetrahydro-1,7-phenanthroline**, *see* ICI 74,917, 409

## C

**Ca<sup>++</sup>**, metabolism of, in smooth and skeletal muscle, in response to TMB-8, 279

**Calcium**, effect of on depolarization produced by anti-inflammatory drugs in vascular endothelial cells, 113

- , effect of, on nicotine-induced steroidogenesis in adrenocortical cells of cat, 357

**Carbachol**, contractile response of, abolished by acetylcholine mustard at high concentrations, 363

- , effect of desipramine on responses to, in cortical neurones, 29

- , effect of, on cloacal temperature in pigeon, 317

- , increases antagonistic effect of 2-2'pyridylisotogen tosylate to ATP, 575

- , induced currents, effect of hyperpolarization on, at frog endplates, 308

- , lowering effect of adrenaline on ventricular fibrillation threshold in isolated rabbit heart unaffected by, 3

- , thermoregulatory changes induced by, in sheep cerebral ventricle, 489

**Cardiac sympathetic nerves**, stimulant effects of 5-HT on, 449P

**Carrageenin**, inflammatory effects of active perfusates of, on responses of isolated preparations to histamine, bradykinin, prostaglandins and 5-HT, 75

**Catechol-O-methyltransferase**, activity of, in rat liver, during pregnancy, 241

- , effect of inhibition of, on contractile response of vascular tissue to amines, 267

**Catecholamines**, effects of, on canine peripheral lymph flow, 499

- , in adrenal medulla of spontaneously hypertensive rat, effect of reserpine on, 349

- , in isolated cat cerebral cortex, 455P

- , release of, from kitten isolated atria, by burimamide, 525

**Cells**, adrenocortical, cat, stimulation of nicotine-induced steroidogenesis in, 357

- , vascular endothelial, membrane potential of, effect of anti-inflammatory drugs on, 113

**Cerebral ventricles**, sheep, thermoregulatory changes induced by cholinomimetic substances introduced into, 489

**N-2-chloroethyl-N-methyl-2-acetoxyethylamine**, *see* acetylcholine mustard, 363

**Chloroform**, lowering effect of adrenaline on ventricular fibrillation threshold in isolated rabbit heart potentiated by, 3

- , lowering effect of isoprenaline on ventricular fibrillation threshold in isolated rabbit heart unaffected by, 3

**Chloroimipramine**, comparison of effects of, on rat blood platelets, with (+)-fenfluramine, 563

**p-Chlorophenylalanine**, failure of, to affect voluntary alcohol consumption in rat, 299

- , pretreatment with, in combination with  $\alpha$ -methyl-tyrosine slightly enhances fevers produced by bacterial and leucocyte pyrogen, 21

- , pretreatment with, slightly enhances fever response to both bacterial and leucocyte pyrogen in rabbit, 21

**4-(m-Chlorophenylcarbamoyloxy)-2-butyryltrimethylammonium chloride**, effect of, affected by surugatoxin in anaesthetized cats, 207

**Chloroquine**, effect of, on membrane potential of vascular endothelial cells, 113

**Chlorpheniramine**, effect of, on histamine uptake and metabolism in guinea-pig atrium and mouse neoplastic mast cells, 569

**Chlorpromazine**, and metabolites, distribution of, in subfractions of rat brain, 451P

- , and metabolites, inhibition of 5-hydroxytryptamine-induced human blood platelet aggregation by, 121

- , effect of, on  $\beta$ -adrenoceptor system in rat striatum, 457P

**Chlorpromazine sulphoxide**, inhibition of 5-hydroxytryptamine-induced human blood platelet aggregation by, 121

**[<sup>3</sup>H]-choline**, uptake and subcellular distribution of, in retina, 447P

**Cholinergic mechanisms**, in central thermoregulation in pigeon, 317

**Cholinomimetic substances**, thermoregulatory changes induced by, introduced into cerebral ventricles of sheep, 489

**Chorisondamine**, effect of, on effect of reserpine on adrenal medulla in spontaneously hypertensive rat, 349

**Chromaffin granules**, adrenal, membranes of, discrimination of monoamine uptake in, 257

**Cimetidine**, a new histamine H<sub>2</sub>-receptor antagonist, 435P

**Cinchocaine**, effect of, on membrane potential of vascular endothelial cells, 113

**Clonidine**, inhibitory effects of, on responses to sympathetic nerve stimulation in cats and rabbits, 513

**Clozapine**, bioanalytical assay of, and its N-oxide metabolite and determination of blood levels in dog, 440P

**Cocaine**, effect of, on contractile response of vascular tissue to amines, 267

- , effect of, on histamine uptake and metabolism in guinea-pig atrium and mouse neoplastic mast cells, 569

- , effect of, on neuronal uptake of noradrenaline, 517

- , effect of, on response of kitten isolated atria to burimamide, 525

- , effect of, on uptake of noradrenaline by human umbilical artery, 152

- , influence of, on bretylium uptake by reserpine-treated guinea-pig left atrium, 247

- , pretreatment with, effect of AH 5158 on noradrenaline pressor responses, 585

- Concavalin A**, induced inflammation in rat, mechanisms of, 445P
- Contractile responses**, termination of, role of extra-neuronal mechanisms on, 267
- Contractility**, changes in, effect of acetylcholine on, produced by isoprenaline, salbutamol and aminophylline in perfused guinea-pig heart, 531
- Corticotrophin**, adaptation of release of, to administration of reserpine, 555
- Cortisol**, effect of, on lung inactivation of prostaglandin  $E_2$ , 547
- Cross-desensitization**, in guinea-pig ileum, 448P
- Cyclazocine**, effect of, on myenteric plexus-longitudinal muscle, 131
- Cyclic AMP**, effect of dopamine receptor stimulants on levels of, in rat striatum, 456P
- Cyclic adenosine 3',5'-monophosphate**, role of, in isoprenaline-induced relaxation of oestrogen dominated rabbit uterus, 403
- Cycloheximide**, effect of, on prostaglandin synthesis, 467P
- , responsiveness to analgesic effects of morphine administered together with, in rats, 383
- N-cyclohexylmethyl-N-ethyl- $\beta$ -chloroethylamine**, see GD-131, 267
- Cystamine**, effect of, on toxicity of M & B 16,573 in cat, 93
- Cysteine**, effect of, on effect of M & B 16,573 in cat, 93

## D

- Depolarization**, of membranes of vascular endothelial cells, effect of anti-inflammatory drugs on, 113
- Desimipramine**, effect of, on neuronal monoamines in cerebral cortex and corpus striatum, 459P
- Desipramine**, effect of, on excitatory responses to acetylcholine in cortical neurones, 29
- , effect of, on response to carbachol in cortical neurones, 29
- Desmethylinipramine**, effect of, on neuronal uptake of noradrenaline, 517
- Dexamethasone**, effect of, on prostaglandin synthesis in microsomal fraction of rat skin, 470P
- , effects of, on phenylethanolamine N-methyltransferase and adrenaline in adult and neonatal rat brain, 453P
- Dexamphetamine**, induction of drowsiness by, infused into the hypothalamus of fowl, 193
- Dexpropranolol**, effect of, on vascular responses to sympathetic nerve stimulation, 517
- Dextrorphan**, effect of, on brain stem neurones, 462P
- , effect of, on myenteric plexus-longitudinal muscle, 131
- L-2,4-diaminobutyric acid**, as a selective marker for inhibitory nerve terminals in rat brain, 439P
- Dibenzoxazepine**, effect of, on sensory nerves, 436P
- Dibutyl cyclic adenosine 3',5'-monophosphate**, effect of, in rat gastric mucosa, 217
- Dibutyl cyclic AMP**, effect of, compared with that of isoprenaline in oestrogen dominated rabbit uterus, 304
- Didesmethylchlorpromazine**, inhibition of 5-hydroxytryptamine-induced human blood platelet aggregation by, 121
- Didesmethylchlorpromazine sulphoxide**, inhibition of 5-hydroxytryptamine-induced blood platelet aggregation by, 121
- 8-(N,N-diethylamino)octyl 3,4,5-trimethoxy benzoate hydrochloride**, a new  $Ca^{++}$  antagonist, action of, in smooth and skeletal muscle, 279
- Dihydroergotoxine**, effect of, on canine peripheral lymph flow, 499
- 3,4-Dihydroxy-2-methyl propiophenone**, see U-0521, 267
- 3,4-Dihydroxyphenylacetic acid**, estimation of, in nervous tissue by gas-liquid chromatography and electron capture detection, 143
- Dimercaprol**, effect of, on toxicity of M & B 16,573 in cat, 93
- 2,6-Dimethoxybenzoquinone**, effect of, in cat, 93
- 3,7-Dimethoxychlorpromazine**, inhibition of 5-hydroxytryptamine-induced human blood platelet aggregation by, 121
- 2,6-Dimethoxyphenol**, and its ester, toxicity of, prevention of, by sulphydryl compounds in cat, 93
- (-)-2,6-Dimethoxyphenyl-2-morpholino propionate hydrochloride**, see M & B 16,573
- 2,6-Dimethoxyquinol**, effect of, in cat, 93
- 1,1-Dimethyl-4-phenylpiperazinium iodide**, effect of surugatoxin on effects of, 207
- 2,4-Dinitrophenol**, effect of, on angiotensin response of smooth muscle, 59
- Di-4-phloretin phosphate**, effect of, on pulmonary inactivation in rabbits *in vivo*, 467P
- Dipyridamole**, action of nitroglycerine and, in normal and ischaemic dog heart, 11
- , depresses heat production in normal and ischaemic myocardium, 11
  - , depression of myocardial heat production by, may be result of action on efficiency of oxygen utilization during cardiac contraction, 11
  - , dilates network and post-network vessels equally effectively in ischaemic dog heart, 11
  - , increases heat clearance in normal but not ischaemic myocardium, 11
- DOPAC**, see 3,4-dihydroxyphenylacetic acid, 143
- Dopamine**, action of apomorphine, ergocornine and piribedil as agonists of, in audiogenic seizures in DBA/2 mice, 419
- , concentration of, in rabbit brainstem during bacterial or leucocyte pyrogen fever, 21
  - , metabolites of, estimation of, in nervous tissue by gas-liquid chromatography and electron capture detection, 143
  - , effect of metoclopramide under influence of various drugs, on striatal content of, 460P
  - , effect of, on waking and sleeping in fowl, 193
  - , effect of stimulants on receptors for, on locomotor activity and cyclic AMP levels in rat striatum, 456P
  - , quaternary methyl derivative of, thermoregulatory changes induced by, in sheep cerebral ventricles, 489
  - , uptake of, by membranes of adrenal chromaffin granules, 257
- Dopamine- $\beta$ -hydroxylase**, activity of, in human plasma following intravenous theophylline, 425
- , in adrenal medulla of spontaneously hypertensive rat, effects of reserpine on, 349

- [<sup>3</sup>H]-dopamine, synthesis of, in cat cerebellar cortex, 455P  
 Dose ratios, calculation of, use of logistic function for, 139  
 Drug desensitization, in guinea-pig ileum, 448P

## E

- E. coli* endotoxin, protective effect of sodium meclofenamate in experimental, shock, 466P  
 – , release of prostaglandins and incapacitation following injection of, in dog knee joint, 465P  
 – , endotoxin shock, in cat, treatment of, with indomethacin, 485  
 Electrical stimulation, effect of, on noradrenaline release in cat nictitating membrane and guinea-pig ileum myenteric plexus-longitudinal muscle preparation, 505  
 Electron capture detection, use of to estimate homovanillic acid, homo-isovanillic acid and 3,4-dihydroxyphenylacetic acid in nervous tissue, 143  
 Endotoxin shock, *E. coli*, in cat, treatment of, with indomethacin, 485  
 Endplates, frog, agonist conductance changes during hyperpolarization at kinetics of, 308  
 Ergocornine, effects of, on audiogenic seizures in DBA/2 mice, 419  
 Ergometrine, effect of, on motor activity in rat, 456P  
 Ergotamine, effect of, on canine peripheral lymph flow, 499  
 ET 495, see Piribedil, 419  
 Ethanol, effect of, on hepatic microsomal metabolism of foreign compounds in rat, 442P  
 Ethyl alcohol, metabolism of, by rat isolated liver, 443P  
 N-ethylmaleimide, effect of, on monoamine uptake by membranes of adrenal chromaffin granules, 257  
 n-Ethyl 3-piperidyl benzilate, effect of, on avoidance behaviour in selected rat strains, 461P  
 Extraneuronal mechanisms, role of, in termination of contractile responses to amines in vascular tissue, 267

## F

- Fenfluramine, effect of, on 5-hydroxytryptamine uptake and release by rat blood platelets, 563  
 (+)-Fenfluramine, comparison of effects of, with chloroimipramine, (+)-amphetamine, (–)-fenfluramine and (±)-norfenfluramine, 563  
 Flufenamic acid, effect of, on membrane potential of vascular endothelial cells, 113  
 Fluphenazine, effect of, on tissue noradrenaline concentrations and interaction with pargyline, 593  
 Flupenthixol, effect of, on glucagon-sensitive adenylate cyclase system in rat striatum, 457P  
 Fluorescence histochemistry, use of, to demonstrate destruction of adrenergic nerve terminals, 109  
 Fluocinolone acetonide, effect of, on prostaglandin synthesis in microsomal fraction of rat skin, 470P  
 – , effect of, on prostaglandin synthesis in microsomal fraction of rat skin, 470P

## G

- GD-131, effect of, on contractile response of vascular tissue to amines, 267

- Gaddum Memorial Lecture, Fifth, The glycine synaptic receptor, 473  
 Ganglion cell excitability, action of GABA on, 438P  
 Ganglionic transmission, action of GABA on, 438P  
 Gas-liquid chromatography, use of, to estimate homovanillic, homo-isovanillic and 3,4-dihydroxyphenylacetic acids, 143  
 Gastric acid secretion, effect of burimamide on, in cat, 293  
 – , effect of atropine on pentagastrin-induced, in conscious rat, 434P  
 Gastric secretion, effect of atropine on, in conscious dog, 432P  
 Gastrin, serum concentration, effect of histamine H<sub>2</sub>-receptor antagonists on, 127  
 Glucose, effects of isoprenaline and salbutamol on levels of, in the dog, 157  
 Glutamate, action of, on lobster muscle fibre and frog spinal cord, 437P  
 Glycine synaptic receptor, in mammalian CNS, 473  
 Glycogen, correlation of tissue levels of, with differences in energy requirements for angiotensin II- and acetylcholine-induced contractions in isolated smooth muscle, 59  
 Guanethidine, effect of, on motor transmission in mouse vas deferens, 323  
 – , effects of various vasodilator responses in canine paw infused with, 51

## H

- H<sub>2</sub>-receptor blockade, activation of histidine decarboxylase by, 127  
 Haloalkylamine, effect of, on contractile response of vascular tissue to amines, 267  
 Halothane, change in sensitivity to, induced by administration of central nervous system depressant drugs, 452P  
 Heart, guinea-pig perfused, changes in contractility, heart rate and phosphorylase activity in, produced by isoprenaline, salbutamol and aminophylline, effect of acetylcholine on, 531  
 Heart rate, changes in, effect of acetylcholine on, produced by isoprenaline, salbutamol and aminophylline in perfused guinea-pig heart, 531  
 Hepatic microsomal metabolism, effect of ethanol on, in rat, 442P  
 Hexamethonium, effect of, on myenteric plexus-longitudinal muscle, 131  
 Histamine, effect of active inflammatory perfusates on response to, in isolated preparations, 75  
 – , contractile response of vascular tissue to, role of extraneuronal mechanisms in, 267  
 – , effect of, on membrane potential of vascular endothelial cells, 113  
 – , dose response relationship and comparison of secretory potency of methyl histamine on isolated guinea-pig stomach, 432P  
 – , effect of, on myenteric plexus-longitudinal muscle, 131  
 – , effect of surugatoxin on effects of, 207  
 – , effects of, on isolated cat nictitating membrane, 431P

- , influence of,  $H_1$  and  $H_2$ -receptor blockers on sympathetic vasodilator and vasoconstrictor responses in canine paw, 51
  - , interaction of  $H_1$  and  $H_2$ -receptor antagonists with histamine uptake and metabolism by guinea-pig isolated atrium and mouse neoplastic mast-cells *in vitro*, 569
  - , sensitivity of neonatal rabbit ileum to, 428
  - , uptake of, by membranes of adrenal chromaffin granules, 257
  - Histidine decarboxylase**, activation of, by  $H_2$ -receptor blockade, 127
  - Homo-isovanillic acid**, estimation of, in nervous tissue by gas-liquid chromatography and electron capture detection, 143
  - , effect of metoclopramide on striatal content of, under influence of various drugs, 460P
  - , estimation of, in nervous tissue by gas-liquid chromatography and electron capture detection, 143
  - HVA**, *see* homovanillic acid, 143
  - iso-HVA**, *see* homo-isovanillic acid, 143
  - Hydrocortisone**, effect of, on prostaglandin synthesis in microsomal fraction of rat skin, 470P
  - , effect of, on membrane potential of vascular endothelial cells, 113
  - , effect on spontaneous mechanical activity of veins, 183
  - , treatment with, effect of, on liver and brain metabolism or tryptophan in rat and gerbil, 287
  - 7-Hydroxychlorpromazine**, inhibition of 5-hydroxytryptamine-induced human blood platelet aggregation by, 121
  - 6-Hydroxydopamine**, destruction of adrenergic nerve terminals by, in guinea-pig isolated trachea, 109
  - , effect of, on renal hypertension in rabbit, 455P
  - 3-Hydroxy-4-methoxyphenylacetic acid**, *see* homo-isovanillic acid, 143
  - 4-Hydroxy-3-methoxyphenylacetic acid**, *see* homovanillic acid, 143
  - 5-[1-Hydroxy-2-[(1-methyl-3-phenylpropyl)amino]-ethyl]salicylamide**, *see* AH 5158, 585
  - 5-Hydroxytryptamine**, central effects of, in young chickens at and below thermoneutrality, 37
  - , concentration of, in rabbit brainstem during bacterial or leucocyte pyrogen fever, 21
  - , contractile response of vascular tissue to, role of extraneuronal mechanisms in, 267
  - , effect of active inflammatory perfusates on response to, in isolated preparations, 75
  - , effect of, on waking and sleeping in fowl, 193
  - , -induced human blood platelet aggregation, inhibition of, by chlorpromazine and its metabolites, 121
  - , possible role of, as thermoregulatory transmitter in rabbit, 21
  - , salts of, produce behavioural sleep in young chickens below thermoneutrality, 37
  - , stimulant effect of, on cardiac sympathetic nerves, 449P
  - , synthesis in isolated perfused rat brain, 450P
  - , uptake and release of, effect of fenfluramine on, in rat blood platelets, 563
  - , uptake of, by membranes of adrenal chromaffin granules, 257
  - 5-Hydroxytryptamine creatinine sulphate**, produces hypothermia in small doses and hyperthermia at higher doses in young chickens, 37
  - 5-Hydroxytryptamine hydrogen maleinate**, produces hypothermia in young chickens, 37
  - Hyoscine**, effect of, on myenteric plexus-longitudinal muscle, 135
  - Hyperpolarization**, at frog endplates, agonist conductance changes during, kinetics of, 308
  - Hypertension**, spontaneous, in rat, effect of reserpine on, 349
  - Hyperthermia**, effect of cholinergic mechanisms on, in pigeon, 317
  - , effect of cholinergic mechanisms on, in pigeon, 317
  - Hypothalamus**, stimulation of, by compounds formed in inflamed tissue, 75
- I
- Ibuprofen**, effect of, on prostaglandin synthesis in microsomal fraction of rat skin, 470P
  - ICI 74,917**, effects of, in certain laboratory animals, 409
  - , inhibition of immediate hypersensitivity reactions in laboratory animals by, 409
  - , novel anti-allergic compound, 409
  - Imipramine**, effect of, on excitatory responses to acetylcholine in cortical neurones, 29
  - Indomethacin**, effect of, on corpus luteum regression in the guinea-pig, 225
  - , effect of, on incapacitation of dog knee joint following injection of endotoxin, 465P
  - , effect of, on membrane potential of vascular endothelial cells, 113
  - , effect of, on noradrenaline release in rabbit, 596
  - , effect of, on prostaglandin synthesis in microsomal fraction of rat skin, 470P
  - , effect of, on prostaglandins in rat gastric mucosa, 217
  - , effect of, on protective effect of sodium meclofenamate in experimental endotoxin shock, 466P
  - , potentiation by, of response of rabbit portal vein to electrical stimulation, 596
  - , treatment of *E. coli* endotoxin shock with, 485
  - Inflammation**, stimulation of hypothalamo-pituitary-adrenal axis by compounds formed in inflamed tissue, 75
  - Inflammatory lesion**, production of prostaglandin by, in sheep, 305
  - Inhibitory nerve terminals**, rat brain, L-2,4-diaminobutyric acid as a selective marker for, 439P
  - Iprindole**, effect of, on neuronal monoamines in cerebral cortex and corpus striatum, 459P
  - Iproniazid**, effect of, on contractile response of vascular tissue to amines, 267
  - Iso-amyl alcohol**, metabolism of, in rat isolated liver, 443P
  - Isoprenaline**, action of  $\beta$ -adrenoceptor antagonists on the response to, in oestrogen dominated rabbit uterus, 393
  - , changes in contractility heart rate and phosphorylase activity produced by, in perfused guinea-pig heart, effect of acetylcholine, 531

- , effect of, on canine peripheral lymph flow, 499
- , effect of, on cyclic AMP in oestrogen dominated rabbit uterus, 403
- , effect of, on histamine constricted guinea-pig lung, 463P
- , effect of, on membrane potential of vascular endothelial cells, 113
- , effect of, on noradrenaline overflow produced by nerve stimulation in guinea-pig isolated atria, 43
- , effect of, on oestrogen dominated rabbit uterus, 403
- , effect of, on  $^{86}\text{Rb}$  uptake by horse lymphocytes *in vitro*, 448P
- , effects of, on production and release of renin by isolated renal cortical cells of cat, 67
- , i.c.v., tachycardia produced by in mice, 341
- , lack of cardiac or bronchodilator tachyphylaxis to, in dog, 333
- , lowers ventricular fibrillation threshold in isolated rabbit heart, 3
- , metabolic and cardiovascular effects of, in the dog, 157
- , selectivity of  $\beta$ -adrenoceptor antagonists on cardiovascular and bronchodilator responses to, in anaesthetized dog, 173
- , uptake by horse lymphocytes *in vitro*, effect of  $^{86}\text{Rb}$  on, 448P

## K

- Kainic acid**, action of, on lobster muscle fibre and frog spinal cord, 437P
- Kallikreins**, synthesis of, by rat kidney slices, 229
- Ketoprofen**, effect of, on corpus luteum regression in the guinea-pig, 225

## L

- Lactic acid**, effects of isoprenaline and salbutamol on levels of, in the dog, 157
- Lanthanum**, effect of, on membrane potential of vascular endothelial cells, 113
- Lesion**, inflammatory, in rats, production of anti-inflammatory substances by, 85
- , mild inflammatory, production of prostaglandin by, in sheep, 305
- [ $^3\text{H}$ ]-L-leucine, isolation of radioactive kallikreins from rat kidney slices incubated with, 229
- Leucocyte pyrogen**, effect of various amine-depleting drugs on fever response in rabbits to, 21
- Levorphanol**, effect of, on brain stem neurones, 462P
- , effect of, on myenteric plexus-longitudinal muscle, 131
- Lithium**, distribution of, in rat brain and plasma following administration of lithium in diet, 235
- Liver**, rat isolated, metabolism of alcohols by, 443P
- Logistic function**, use of, for calculation of dose-ratios and potency ratios, 139
- Lymph flow**, peripheral canine, effects of catecholamines and adrenoceptor-blocking drugs on, 499

## M

- M & B 16,573**, toxicity of, in cat, prevention of, by sulphhydryl compounds, 93
- Magnesium**, distribution of, in rat brain and plasma following administration of lithium in diet, 235
- Mebanazine**, effect of, on waking and sleeping in fowl, 193
- Meclofenamic acid**, effect of, on membrane potential of vascular endothelial cells, 113
- , effect of, on prostaglandin synthesis in microsomal fraction of rat skin, 470P
- Meclofenamate**, effect of, on prostaglandins in rat gastric mucosa, 217
- Membrane potential**, of vascular endothelial cells, effect of anti-inflammatory drugs, on, 113
- Mepyramine**, variation in number of receptors sensitive to, related to age in rabbit ileum, 428
- [ $^3\text{H}$ ]-metanephrene, metabolism of, in rat liver during pregnancy, 241
- ( $\pm$ )-Metaraminol, uptake of, by membranes of adrenal chromaffin granules, 257
- $\alpha$ -Methyl dichloroisoprenaline, effect of, on cardiovascular and bronchodilator responses to isoprenaline, 173
- Methyl histamine**, dose response relationship and comparison of secretory potency of, with histamine on isolated guinea-pig stomach, 432P
- N*-methyl-*N'*-4-([4(5)-imidazolyl] butyl thiourea), burimamide, 51
- Methyltryptamine**, effects of, on waking and sleeping in fowl, 193
- $\alpha$ -Methyltyrosine, pretreatment with, in combination with *p*-chlorophenylalanine slightly enhances fevers produced by bacterial and leucocyte pyrogen, 21
- , pretreatment with, reduces fever response to both bacterial and leucocyte pyrogen in rabbit, 21
- Methysergide**, prevents hypothermia produced by 5-hydroxytryptamine hydrogen maleinate, 37
- Metamide**, activation of histidine decarboxylase by, in rat stomach, mechanism of action of, 127
- , effect of, on basal gastric function in cat, 293
  - , effect of, on histamine uptake and metabolism in the guinea-pig atrium and mouse neoplastic mast cells, 569
  - , effect of, on kitten isolated atria, 525
  - , effects of, on vasodilator responses in canine paw, 51
- Metoclopramide**, cataleptic action of, affected by drug induced alteration of dopaminergic or cholinergic activity or GABA content of rat striatum, 460P
- Monoamine-metabolizing enzymes**, variation in activity of, in rat liver during pregnancy, 241
- , oxidase, activity of, in rat liver during pregnancy, 241
- Monoamine oxidase**, effect of inhibition of, on contractile response of vascular tissue to amines, 267
- , effects of age on irreversible inhibition of cardiac, 458P
  - , inhibition of, intensifies magnitude and response of 5-hydroxytryptamine hydrogen maleinate at thermoneutrality, 37
- Monoamines**, relationship between uptake blockade and potentiation of neuronal responses, effects of, 459P

- Monoamine uptake**, discrimination of, by membranes of adrenal chromaffin granules, 257
- Monodesmethylchlorpromazine**, inhibition of 5-hydroxytryptamine-induced human blood platelet aggregation by, 121
- Morphine**, acute tolerance to, in guinea-pig isolated ileum, an analysis of, 131
- , effect of, on adrenergic transmission in mouse vas deferens, 371
  - , effect of, on release of noradrenaline from cat isolated nictitating membrane and guinea-pig ileum myenteric plexus-longitudinal muscle preparation, 505
  - , microiontophoretic study of stereospecific action of, on brain stem neuronal activity, 462P
  - , offset of tolerance to, in rats and mice, 383
- Morphine receptors**, of myenteric plexus-longitudinal muscle, involvement of, in acute tolerance to morphine, 131
- Morpholinopropionyl ester**, of 2,6-dimethoxyphenol, prevention of toxicity of, by sulphhydryl compounds in cat, 93
- Muscle**, cremaster, of rat, effect of oxytocin on blood vessels of, 149
- , isolated papillary, guinea-pig, kinetics of [<sup>3</sup>H]-ouabain uptake in, 99
  - , smooth and skeletal, action of a new Ca<sup>++</sup> antagonist, TMB-8, in, 279
  - , myenteric plexus-longitudinal, morphine receptors of, 131
- Myenteric plexus-longitudinal muscle preparation**, guinea-pig ileum, effect of morphine on noradrenaline release in, 505
- ## N
- NADPH**, dependent warfarin reductase in human and rat liver and kidney and soluble fraction, 441P
- Nalorphine**, effect of, on myenteric plexus-longitudinal muscle, 131
- Naloxone**, antagonizes effect of morphine on mouse vas deferens, 371
- , antagonism of morphine-induced depression of brain stem cell firing by, 462P
  - , effect of, on noradrenaline release from cat nictitating membrane and guinea-pig ileum myenteric plexus-longitudinal muscle preparation, 505
  - , effect of, on myenteric plexus-longitudinal muscle, 131
- Naltrexone**, antagonizes effect of morphine on mouse vas deferens, 371
- Naproxen**, effect of, on prostaglandin synthesis in microsomal fraction of rat skin, 470P
- Narcotic analgesics**, comparison of effects of various, on noradrenaline output and longitudinal contraction of mouse vas deferens, 371
- Nerve**, sympathetic, stimulation of, inhibitory effects of clonidine and BS 100-141, 513
- , sympathetic, stimulation of, vascular response to, effect of propranolol on, 517
- Nerve stimulation**, responses of rat heart to, effect of vinblastine or vincristine on, 444P
- Neuronal uptake**, effect of inhibition of, on contractile response of vascular tissue to amines, 267
- Nialamide**, effect of, on monoamine-metabolizing enzymes in rat liver during pregnancy, 241
- Nicergoline**, effect of, on canine peripheral lymph flow, 499
- Nicotine**, effect of, on adrenal medulla of spontaneously hypertensive rat, 349
- , thermoregulatory changes induced by, in sheep cerebral ventricles, 489
  - , stimulation of steroidogenesis in adrenocortical cells of cat, induced by, 357
- Nictitating membrane**, cat, effects of morphine on noradrenaline release in, 505
- , isolated cat, effects of histamine on, 431P
  - , responses of, induced by stimulation of sympathetic nerve effect of clonidine on, 513
- Nitroglycerine**, action of, of dipyridamole in normal and ischaemic dog heart, 11
- Nitroglycerine**, dilates network vessels twice as effectively as post-network vessels in ischaemic dog heart, 11
- , dilates resistance vessels in ischaemic dog heart, 11
  - , effectiveness of, not entirely dependent on coronary vasodilator properties, 11
  - , reduces both diastolic and systolic blood pressures in dog, 11
- N-nonyl-vanillylamide**, effect of, on sensory nerves, 436P
- Noradrenaline**, and motor transmission in mouse vas deferens, 323
- , concentration of, in rabbit brainstem during bacterial or leucocyte pyrogen fever, 21
  - , contractile response of vascular tissue to, role of extraneuronal mechanisms in transmission termination of, 267
  - , effect of burimamide on vasoconstrictor response to, in canine paw, 51
  - , effect of fluphenazine on tissue concentrations of, 593
  - , effect of, on waking and sleeping in fowl, 193
  - , effects of, on peripheral canine lymph flow, 499
  - , effects of, on production and release of renin by isolated renal cortical cells of cat, 67
  - , lowers ventricular fibrillation threshold in isolated rabbit heart, 3
  - , possible role of, as thermoregulatory transmitter in rabbit, 21
  - , possible role of a  $\beta$ -adrenoceptor in regulation of release of, by nerve stimulation through a positive feed-back mechanism, 43
  - , release of, effect of, morphine on, in cat nictitating membrane and guinea-pig ileum myenteric plexus longitudinal muscle preparation, 505
  - , uptake of, kinetics and some characteristics of, by human umbilical artery, 152
  - , uptake of, in guinea-pig isolated trachea, responsibility of adrenergic nerves for, 109
  - , vasopressor responses induced by, effect of AH 5158 on, 585
- <sup>3</sup>H-(–)-noradrenaline**, effects of adrenoceptor agonists and antagonists on release of, from guinea-pig hypothalamic slices, 454P
- [<sup>3</sup>H]-noradrenaline**, synthesis of, in cat cerebellar cortex, 455P
- (–)-Noradrenaline**, uptake of, by membranes of adrenal chromaffin granules, 257

**Norfenfluramine**, comparison of effects of, on rat blood platelets, with (+)-fenfluramine, 563

**Normetanephrine**, contractile response of vascular tissue to, role of extraneuronal mechanisms in, 267

—, effect of, on uptake of noradrenaline by human umbilical artery, 152

**Normorphine**, comparison of effects of, with morphine on mouse vas deferens, 371

—, effect of, on cat nictitating membrane and guinea-pig ileum myenteric plexus-longitudinal muscle preparation, 505

## O

(+)-Octopamine, uptake of, by membranes of adrenal chromaffin granules, 257

**Oedema, carrageenin rat paw**, use of, in determination of anti-inflammatory substances in injured rat, 85

**Oestradiol**, effects of, following  $\beta$ -adrenoceptor blockade, 183

**Oestradiol-17- $\beta$** , inhibitory action of, on venous smooth muscle, 183

**Oestradiol monobenzoate**, effect of, on lung inactivation of prostaglandin  $E_2$ , 547

**17 $\beta$ -Oestradiol**, effect of, on contractile response of vascular tissue to amines, 267

**Oestrogen**, action of  $\beta$ -adrenoceptor antagonists on response to isoprenaline in rabbit uterus dominated by, 393

**Ouabain**, effect of, on monoamine uptake by membranes of adrenal chromaffin granules, 257

[ $^3H$ ]-ouabain, kinetics of uptake of, and exchange in isolated papillary muscle of guinea-pig, 99

**Oxotremorine**, thermoregulatory changes induced by, in sheep cerebral ventricles, 489

**Oxytocin**, effect of, on blood vessels of cremaster muscle of rat, 149

## P

**Paracetamol**, effect of, on prostaglandin synthesis in microsomal fraction of rat skin, 470P

**Pargyline**, interaction of, with fluphenazine and tissue noradrenaline concentrations, 593

**Pempidine**, effect of, on tachycardia produced by isoprenaline in mice, 341

—, thermoregulatory changes induced by, in sheep cerebral ventricles, 489

**Pentagastrin**, effect of metiamide and burimamide on gastric acid secretion stimulated by, in cat, 293

—, gastric acid secretion and mucosal blood flow induced by, effect of atropine on, in conscious rat, 434P

**Pentobarbitone**, change in sensitivity to, induced by administration of central nervous system depressant drugs, 452P

**Phenothiazines**, inhibition of 5-hydroxytryptamine-induced human blood platelet aggregation by, 121

**Phenoxylbenzamine**, effect of, on canine peripheral lymph flow, 499

—, effect of, on dose-response curve of isoprenaline in oestrogen dominated rabbit uterus, 393

—, effect of, on noradrenaline release in cat nictitating membrane and guinea-pig ileum myenteric plexus-longitudinal muscle preparation, 505

—, effect of, on response to aminophylline, 163

**Phentolamine**, effect of, on dose-response curve of isoprenaline in oestrogen-dominated rabbit uterus, 393

—, effect of, on heart rate response to clonidine and BS 100-141, 513

—, effect of, on motor transmission in mouse vas deferens, 323

—, effect of, on noradrenaline overflow produced by nerve stimulation in guinea-pig isolated atria, 43

—, lowering effect of adrenaline on ventricular fibrillation threshold in isolated rabbit heart not influenced by, 3

**Phenylbutazone**, effect of, on membrane potential of vascular endothelial cells, 113

—, effect of, on prostaglandins in rat gastric mucosa, 217

**Phenylephrine**, vasopressor responses induced by, antagonized by AH 5158, 585

**Phenylethanolamine N-methyltransferase**, effects of dexamethasone on release of, in adult and neonatal rat brain, 453P

**$\beta$ -Phenylethylamine**, uptake of, by membranes of adrenal chromaffin granules, 257

**Phosphorylase activity**, changes in, effect of acetylcholine on, produced by isoprenaline, salbutamol and aminophylline in perfused guinea-pig heart, 531

**Physostigmine**, effect of, on myenteric plexus-longitudinal muscle, 131

—, thermoregulatory changes induced by, in sheep, cerebral ventricles, 489

—, salicylate—effect of, on avoidance behaviour in selected rat strains, 461P

**Pindolol**, blocks effect of, adrenaline on ventricular fibrillation threshold, 3

**Piribedil**, effects of, on audiogenic seizures in DBA/2 mice, 419

**Pituitary**, stimulation of, by compounds formed in inflamed tissue, 75

**Potency ratios**, calculation of, use of logistic function for, 139

**Practolol**, effect of, on cardiovascular and bronchodilator responses to isoprenaline, 173

—, effect of, on dose-response curve of isoprenaline in oestrogen dominated rabbit uterus, 393

**Pregnancy**, activity of monoamine-metabolizing enzymes in rat liver during, 241

**Prenylamine**, effect of, on waking and sleeping in fowl, 193

**Progesterone**, effects of, following  $\beta$ -adrenoceptor blockade, 183

—, enhanced inactivation of prostaglandin  $E_2$  in rabbit lung during treatment with, 547

—, inhibitory action of, on venous smooth muscle, 183

**Propranolol**, blocks effect of adrenaline on ventricular fibrillation threshold, 3

—, effect of, on  $\beta$ -adrenoceptors in transplanted dog heart, 163

—, effect of, on canine peripheral lymph flow, 499

—, effect of, on cardiovascular and bronchodilator responses to isoprenaline, 173

- , effect of, on cardiovascular effects of surugatoxin, 207
- , effect of, on dose-response curve of isoprenaline in oestrogen dominated rabbit uterus, 393
- , effect of, on noradrenaline overflow produced by nerve stimulation in guinea-pig isolated atria, 43
- , effect of, on production of cyclic AMP in oestrogen dominated rabbit uterus, 403
- , effect of, on vascular response to sympathetic nerve stimulation, 517
- (+)-Propranolol**, effect of, on dose-response curve of isoprenaline in oestrogen dominated rabbit uterus, 393
- (-)-Propranolol**, effect of, on response of kitten isolated atria to burimamide, 525
- n-Propyl alcohol**, metabolism of, in rat isolated liver, 443P
- [<sup>3</sup>H]-propylbenzylcholine mustard**, effect of, inhibited by acetylcholine mustard, 363
- Prostaglandin**, production of, by mild inflammatory lesion in sheep, 305
  - , synthesis of, affected by various non-steroid and steroid anti-inflammatory drugs in microsomal fraction of rat skin, 470P
  - , synthesis of, inhibited by indomethacin in guinea-pig luteal regression, 225
  - , actions of, on arterial system of sheep, 464P
  - , chemotactic role for, released from polymorphonuclear leucocytes during phagocytosis, 539
  - , effect of active inflammatory perfusates on response to, in isolated preparations, 75
  - , inhibition of pulmonary inactivation of, in rabbit *in vivo*, 467P
  - , release of, and incapacitation following injection of endotoxin in dog knee joint, 465P
  - , vasodilator and antisecretory role of, in rat gastric mucosa, 217
- Prostaglandin E<sub>1</sub>**, chemotactic role of, in rabbit polymorphonuclear leucocytes, 539
- Prostaglandin E<sub>2</sub>**, chemotactic role of, in rabbit polymorphonuclear leucocytes, 539
  - , effect of, on nicotine-induced steroidogenesis in adrenocortical cells in cat, 357
  - , enhanced inactivation of, by rabbit lung during pregnancy or progesterone treatment, 547
- Prostaglandin F**, inhibitory effect of L-ascorbic acid on yield of, from guinea-pig uterine homogenates, 469P
- Prostaglandin F<sub>2α</sub>**, chemotactic role of, in rabbit polymorphonuclear leucocytes, 539
- Prostaglandin synthetase**, factors influencing turnover of, 467P
- 2,2'-Pyridylisatogen tosylate**, effect of, on ATP-induced relaxation in isolated guinea-pig taenia caeci, 575
- Pyrogen**, effect of various amine-depleting drugs on fever response in rabbits to bacterial, or leucocyte, 21

## R

- Receptor theory**, an ambiguity in, 311
- Renin**, production and release of, in isolated renal cortical cells of cat in presence of adrenaline, noradrenaline, isoprenaline or salbutamol, 67

- Reserpine**, diminishes fever response to bacterial and leucocyte pyrogen in rabbit, 21
  - , effects of, on adrenal medulla of spontaneously hypertensive rat, 349
  - , effect of, on monoamine-metabolizing enzymes in rat liver during pregnancy, 241
  - , effect of, on monoamine uptake by membranes of adrenal chromaffin granules, 257
  - , effect of, on hypothalamo-pituitary-adrenocortical function in the rat, 555
  - , effect of, on secretion of ACTH, 555
  - , effect of, on tachycardia produced by isoprenaline in mice, 341
  - , effect of, on waking and sleeping in fowl, 193
  - , pretreatment with, effect on response of kitten isolated atria to burimamide, 525
  - , -treated guinea-pig left atrium, effect of cocaine and sodium on bretylium uptake in, 247

## S

- Salbutamol**, changes in contractility, heart rate and phosphorylase activity produced by, in perfused guinea-pig heart, effect of acetylcholine on, 531
  - , effects of, on production and release of renin by isolated renal cortical cells of cat, 67
  - , metabolic and cardiovascular effects of, in the dog, 157
- Salicylic acid**, effect of, on membrane potential of vascular endothelial cells, 113
- Saline**, effect of intake of, on effect of 6-hydroxydopamine on renal hypertension in rabbit, 455P
- Sodium**, effect of, on bretylium uptake in reserpine-treated guinea-pig left atrium, 247
  - , distribution of, in rat brain and plasma following administration of lithium in diet, 235
- Sodium deficiency**, effect of, on uptake of noradrenaline by human umbilical artery, 152
- Sodium meclofenamate**, protective effect of, in experimental endotoxin shock, 466P
- Steroidogenesis**, stimulation of, nicotine-induced, in adrenocortical cells of cat, 357
- Sulphydryl compounds**, prevention of, toxicity of 2,6-dimethoxyphenol and its ester by, in cat, 93
- Surugatoxin**, pharmacological studies on, 207
- Sympathomimetic effect**, indirect, of burimamide on kitten isolated atria, 525

## T

- Tachycardia**, induced by stimulation of sympathetic nerve, effect of clonidine on, 513
  - , produced by i.c.v. injections of isoprenaline in mice, 341
- Tachyphylaxis**, cardiac or bronchodilator, response of, to isoprenaline in dog, 333
- Tetramethylenedisulphotetramine**, effect of, on  $\gamma$ -aminobutyric acid induced depolarization of the isolated superior cervical ganglion of the rat, 422
  - , effect of, on membrane conductance increase produced by  $\gamma$ -aminobutyric acid at crab neuromuscular junction, 598

- Theophylline**, intravenous administration of, changing human plasma dopamine- $\beta$ -hydroxylase activity, 425
- Thermoregulation**, role of cholinergic mechanisms in, in pigeon, 317
- Thermoregulatory**, changes, induced by cholinomimetic substances introduced into cerebral ventricles of sheep, 489
- TMB-8**, action of, in smooth and skeletal muscle, 279
- Tolerance**, acute, to morphine, in guinea-pig isolated ileum, and analysis of, 131
- Trachea**, guinea-pig isolated, responsibility of adrenergic nerves for uptake of noradrenaline in, 109
- Triamcinolone acetonide**, effect of, on prostaglandin synthesis in microsomal fraction of rat skin, 470P
- Tricyclic antidepressants**, effect of, on cholinergic responses of single cortical neurones, 29
- , relationship between uptake blockade and potentiation of neuronal responses, effects of, 459P
- Tripelennamine**, effect on vasodilator response to histamine in canine paw, 51
- , effect on vasodilator response to nerve stimulation in canine paw, 51
- Tripolidine**, effect of, on histamine uptake and metabolism in guinea-pig atrium and mouse neoplastic mast cells, 569
- Tryptamine**, effects of, on waking and sleeping in fowl, 193
- , uptake of, by membranes of adrenal chromaffin granules, 257

- Tryptophan**, liver and brain metabolism of, following hydrocortisone treatment in rats and gerbils, 287
- (+)-Tubocurarine**, effect of, on cloacal temperature in pigeon, 317
- Tyramine**, uptake of, by membranes of adrenal chromaffin granules, 267

## U

- U-0521**, effect of, on contractile response of vascular tissue to amines, 267

## V

- Vas deferens**, mouse, effect of noradrenaline on motor transmission in, 323
- Ventricular fibrillation**, effect of sympathomimetic amines on, threshold in rabbit isolated heart, 3
- Vinblastine**, effect of, on responses of rat heart to nerve stimulation and to drugs, 444P
- Vincristine**, effect of, on rat heart responses to nerve stimulation and to drugs, 444P

## W

- Warfarin**, reductase, NADPH-dependent in human and rat liver and kidney soluble fraction, 441P

# INSTRUCTIONS TO AUTHORS

Papers will be considered for publication on all aspects of drug action, including chemotherapy. A recent issue of the Journal is a good guide to style.

Manuscripts (two copies) should be sent to Dr H.M. Adam, Department of Pharmacology, University of Edinburgh Medical School, 1 George Square, Edinburgh, EH8 9JZ, from whom copies of the full Instructions to Authors, published in *Br. J. Pharmac.* **50**, 3-23, may also be obtained. Specific points to note are:

1. **Manuscript** should be typed in double spacing on one side of paper not larger than A4 (206 x 294 mm). There should be a separate title page giving the names and addresses of the authors in alphabetical order. A short title of not more than 50 letters should also be suggested.

2. **Statement** Papers are accepted only if accompanied by a statement that they have not been and will not be published in whole or in part in any other Journal.

3. **Summary** (2 copies) This should be a short summary of results and conclusions arranged in numbered paragraphs.

4. **Abstract** (2 copies) An abstract of about 100 words suitable for inclusion in *International Abstracts of Biological Sciences* should be typed on a separate sheet, giving the author's name and address and the title of the paper.

5. **Figures** These should not be larger than A4 (206 x 294 mm) and may be in the form of original drawings, recorded tracings or high quality photographic prints made from them. Negative prints of kymograph tracings (black on white) should be provided, and both ordinates and abscissae should be calibrated. Lettering on figures should be inserted in pencil. Symbols which are to appear in figures or legends should be chosen from the following: 7

○ ● □ ■ △ ▲ ▽ ▼

Photographs and photomicrographs should be printed on glossy paper and should be larger than the size required for reproduction.

6. **Tables** These should not have more than 85 characters to a line (counting spaces between columns as 4 characters) and certainly not more than 110 characters to a line, unless absolutely unavoidable. **Figure legends** and **tables** should be typed on separate sheets of paper.

7. **References** These should be collected in alphabetical order at the end of the paper. They should include the authors' names, year of publication (in brackets), title of article, title of publication (abbreviated in accordance with the fourth edition of the *World List of Scientific Periodicals*), volume number and first and last page numbers. References to books should in addition, include the names of editors, the edition number, where appropriate, and the town of origin and name of publisher.

**Two page proofs** will be supplied, one of which may be retained by the authors. The other should be corrected immediately and returned to the Press Editor. Corrections should be kept to a minimum.

**Twenty-five reprints** will be supplied to the authors free of charge. Additional reprints can be purchased. A reprint order form, which should be returned promptly, will be sent out with the proofs. No reprints of abstracts are supplied.

**Short Communications** Exactly as for full papers, except that the Summary should only be a single paragraph. There must not be more than 1,200 words in the communication and only one figure or one table.
