---

Papers will be considered for publication on all aspects of drug action, including chemotherapy.

Manuscripts (two copies) should be sent to Dr H.M. Adam, Department of Pharmacology, University of Edinburgh Medical School, 1 George Square, Edinburgh EH8 9JZ. Authors should consult the instructions inside the back cover.

*The British Journal of Pharmacology* is published monthly by Macmillan Journals Ltd, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633.

Annual subscription £30.00 (£35.50 USA and Canada). (Payment may be made in any currency at the current exchange rate. Orders must be accompanied by remittance. Prices applicable only to orders received before 31st December 1975.)

Cheques should be made payable to Macmillan Journals Limited: Subscription Department, Brunel Road, Basingstoke, Hampshire RG21 2XS, England.

Enquiries concerning advertising space and rates should be addressed to: Advertisement Department, Macmillan Journals Limited, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633.

Copyright © 1975 by the *British Journal of Pharmacology*. All rights of reproduction are reserved in respect of all papers, articles, illustrations, etc., published in this journal in all countries of the world.

Second class postage paid at New York, N.Y.

# INSTRUCTIONS TO AUTHORS

Papers will be considered for publication on all aspects of drug action, including chemotherapy. A recent issue of the Journal is a good guide to style.

Manuscripts (two copies) should be sent to Dr H.M. Adam, Department of Pharmacology, University of Edinburgh Medical School, 1 George Square, Edinburgh, EH8 9JZ, from whom copies of the full Instructions to Authors, published in *Br. J. Pharmac.* **50**, 3-23, may also be obtained. Specific points to note are:

1. **Manuscript** should be typed in double spacing on one side of paper not larger than A4 (206 x 294 mm). There should be a separate title page giving the names and addresses of the authors in **alphabetical order**. A short title of not more than 50 letters should also be suggested.

2. **Statement** Papers are accepted only if accompanied by a statement that they have not been and will not be published in whole or in part in any other Journal.

3. **Summary** (2 copies) This should be a short summary of results and conclusions arranged in numbered paragraphs.

4. **Abstract** (2 copies) An abstract of about 100 words suitable for inclusion in an abstracting journal should be typed on a separate sheet, giving the author's name and address and the title of the paper.

5. **Figures** These should not be larger than A4 (206 x 294 mm) and may be in the form of original drawings, recorded tracings or high quality photographic prints made from them. Negative prints of kymograph tracings (black on white) should be provided, and both ordinates and abscissae should be calibrated. Lettering on figures should be inserted in pencil. Symbols which are to appear in figures or legends should be chosen from the following:

○ ● □ ■ △ ▲ ▽ ▼

Photographs and photomicrographs should be printed on glossy paper and should be larger than the size required for reproduction.

6. **Tables** These should not have more than 85 characters to a line (counting spaces between columns as 4 characters) and certainly not more than 110 characters to a line, unless absolutely unavoidable. **Figure legends** and **tables** should be typed on separate sheets of paper.

7. **References** These should be collected in alphabetical order at the end of the paper. They should include the authors' names, year of publication (in brackets), title of article, title of publication (abbreviated in accordance with the fourth edition of the *World List of Scientific Periodicals*), volume number and first and last page numbers. References to books should in addition, include the names of editors, the edition number, where appropriate, and the town of origin and name of publisher.

**Two page proofs** will be supplied, one of which may be retained by the authors. The other should be corrected immediately and returned to the Press Editor. Corrections should be kept to a minimum.

**Twenty-five reprints** will be supplied to the authors free of charge. Additional reprints can be purchased. A reprint order form, which should be returned promptly, will be sent out with the proofs. No reprints of abstracts are supplied.

**Short Communications** These may be accepted if they merit priority publication and do not require revision. They may contain up to 1,200 words of text and only one figure or table. The summary should be a single paragraph.

# British Journal of Pharmacology

VOLUME 54 NUMBER 2 JUNE 1975

*page*

## Systematic Pharmacology

- 129 JAMES, I.M. & MACDONELL, LINDSAY. Factors affecting the cerebrovascular response to noradrenaline in the dog
- 145 ARCHER, L.T., BLACK, M.R. & HINSHAW, L.B. Myocardial failure with altered response to adrenaline in endotoxin shock
- 157 GAITONDÉ, B.B. & JOGLEKAR, S.N. Role of catecholamines in the central mechanism of emetic response induced by peruvoside and ouabain in cats
- 163 DEY, P.K. & FELDBERG, W. Hyperglycaemia produced by drugs with analgesic properties introduced into the cerebral ventricles of cats
- 171 CUTTING, D.A. & JORDAN, C.C. Alternative approaches to analgesia: Baclofen as a model compound
- 181 SEGAL, M., SIMS, K. & SMISSMAN, E. Characterization of an inhibitory receptor in rat hippocampus: A microiontophoretic study using conformationally restricted amino acid analogues

## Autopharmacology

- 189 FRAME, MADELINE H. & HEDQVIST, P. Evidence for prostaglandin mediated prejunctional control of renal sympathetic transmitter release and vascular tone
- 197 BENNETT, A., ELEY, K.G. & STOCKLEY, HELEN L. The effects of prostaglandins on guinea-pig isolated intestine and their possible contribution to muscle activity and tone
- 205 DAVIES, B.N. & WITHRINGTON, P.G. The responses of the isolated blood-perfused spleen of the dog to angiotensin, oxytocin and vasopressin

## Drug Mechanisms

- 213 RIBEIRO, J.A. & WALKER, J. The effects of adenosine triphosphate and adenosine diphosphate on transmission at the rat and frog neuromuscular junctions
- 219P PROCEEDINGS OF THE BRITISH PHARMACOLOGICAL SOCIETY, Cardiff, 26-27 March, 1975.
