---

Papers will be considered for publication on all aspects of drug action, including chemotherapy.

Manuscripts (two copies) should be sent to Dr H.M. Adam, Department of Pharmacology, University of Edinburgh Medical School, 1 George Square, Edinburgh EH8 9JZ. Authors should consult the instructions inside the back cover.

*The British Journal of Pharmacology* is published monthly by Macmillan Journals Ltd, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633. ISSN 0007-1188.

Annual subscription £36.00 (\$90 USA and Canada). (Orders must be accompanied by remittance. Prices applicable only to orders received before 31st December 1975.)

Cheques should be made payable to Macmillan Journals Limited: Subscription Department, Brunel Road, Basingstoke, Hampshire RG21 2XS, England.

Enquiries concerning advertising space and rates should be addressed to: Advertisement Department, Macmillan Journals Limited, 4 Little Essex Street, London WC2R 3LF. Telephone: 01-836 6633.

# SUBJECT INDEX

## A

- Acepromazine**, in combination with etorphine, intravenously, effect of, on respiratory function in ponies, 269P
- Acetylcholine**, action of agonists of, on amino acid responses of frog spinal cord *in vitro*, 449
- , at high concentrations, cause small contractions of innervated mouse soleus muscle, 125
  - , behavioural changes induced in conscious mice by intracerebroventricular injection of, 351
  - , effect of ergometrine on vasodilator responses to, in canine hindlimb, 167
  - , effect of, in chronically denervated mouse soleus muscle, 125
  - , effect of, on cerebrocortical neurones during general anaesthesia, 275P
  - , induces contractions in guinea-pig cremaster muscle, 487
  - , studies on mechanism by which surplus, released by, in a sympathetic ganglion, 189
  - , vasodilator response to, unaffected by mepyramine and metiamide, 181
  - , effect of, on membrane potential changes in rabbit superior cervical ganglion, 199
  - , bradycardia induced by, effect of prostaglandins on, in anaesthetized mouse, 47
  - , chemoreceptor discharges induced by, in cat carotid body, effect of 5-HT on, 27
  - , response of single cortical and caudate neurones to, effect of iprindole on, 17
  - , effect of, on bronchial function in pithed rat, 423
- Actinomycin D**, effect of, on capacity of rat kidneys to metabolize prostaglandins, 233
- Adenohypophysis**, production of corticotrophin by segments of, *in vitro*, 272P
- Adenosine**, action of, and interaction with diprydamole, on isolated coronary strips of cattle, 431
- 3',5'-Adenosine cyclic monophosphate**, antidiuretic response to, in rat, effect of lithium ions on, 527
- Adenosine diphosphate**, effect of, on circulating platelets, 254P
- Adenosine triphosphate**, antidiuretic responses to, in rat, effect of lithium ions on, 527
- , effect of, on circulating platelets, 254P
  - , a possible inhibitory neurotransmitter in rat stomach, 285P
- Adenosine triphosphatase**, synaptic vesicle magnesium, as possible site of action of anticonvulsant drugs, 252P
- Adenylate cyclase**, sensitive to noradrenaline, in rat limbic forebrain homogenates, effects of agonists and antagonists on, 299P
- Adrenal corticosteroids**, release of, possible mode of anti-inflammatory action of glucagon in rats, 65
- Adrenal glands**, removal of, effect of, on pressor response to procaine in dog cerebral ventricles, 3
- Adrenal medulla**, removal of, effect of, on anti-inflammatory action of glucagon, 65
- Adrenalectomy**, effect of, on effect of reserpine on cholinesterase activity in rat anococcygeus muscle, 69
- , effect of, on anti-inflammatory action of glucagon, 65
- Adrenaline**, effect of, on bronchodilation in guinea-pig isolated lungs, 547
- , effect of, on gastric glycoprotein synthesis in rat, 387
  - , cardiovascular potency of, in chicken similar to that of noradrenaline, 343
  - , evidence for noradrenaline and, as sympathetic transmitters in the chicken, 343
  - , produces contractions in guinea-pig cremaster muscle, 487
- Adrenaline reversal**, mechanism of, in anaesthetized cat and rabbit, 282P
- $\beta$ -Adrenoceptors**, cyclic AMP formation in brain mediated by, 300P
- $\beta$ -Adrenoceptor blockade**, effect of, on response of rat lung to humoral mediators of anaphylaxis, 423
- , effects of, on adrenergic neuromuscular transmission, 87
- $\beta$ -Adrenoceptors**, mediate inotropic and chronotropic effects of dopamine on dog heart, 475
- Adrenocorticotrophic hormones**, analogues of, effects of, on extinction of conditioned taste aversion, 270P
- AG19417**, NMR spectroscopy of, 258P
- AH21132**, NMR spectroscopy of, 258P
- $\beta$ -Alanine**, effects of, on frog spinal cord, 449
- , effect of, on ventral root responses of hemisected amphibian spinal cord in presence of procaine, 519
- Albumin**, bovine serum, conjugates with prostaglandins, production of, 503
- Aldosterone**, effect of, on sodium channels
- Allopurinol**, injection of, together with hydrocortisone, effect of, on tryptophan metabolism in rat liver, 253P
- Alytesin**, pharmacological activity of, 221
- Amidephrine**, effect of, on intracellular cyclic AMP levels and glycogen phosphorylase activity in guinea-pig liver, 286P
- Amiloride**, binding of, as a label for sodium channels in transporting epithelia, 250P
- Amino acid decarboxylase inhibitor**, effect of, on formation of DOPA in rat compared with guinea-pig vas deferens, 73
- Amino acids**, perfused, ventral root responses of hemisected amphibian spinal cord perfused with, in presence of procaine, 519
- , endogenous, spontaneous and electrically evoked release of, from rat visual cortex, 279P
- 3 $\alpha$ -Amino-5 $\alpha$ -adrostane-2 $\beta$ -ol-17-one hydrochloride**, *see* ORG6001, 359

- , antiarrhythmic, haemodynamic and metabolic effects of, in greyhounds following acute coronary artery ligation, 359
- $\gamma$ -Aminobutyric acid, action of, on d.c. and field potential recordings from rat cuneate nucleus, 280P
- , effect of, on identified ventromedial hypothalamic nucleus neurones, 277P
- , effect of, on ventral root responses of hemisected amphibian spinal cord in presence of procaine, 519
- , neurones releasing, selective autoradiographic markers for, 308P
- , effects of, on frog spinal cord, 449
- , topographical study of distribution of, in human substantia nigra, 309P
- , receptor, on vascular smooth muscle of dog cerebral arteries, 561
- , synthesis, anticonvulsant activity of ketamine in mice following inhibition of, 276P
- [ $^{14}$ C]- $\gamma$ -aminobutyric acid, spontaneous and evoked release of, from rat brain slices, 310P
- $\gamma$ -Aminobutyric acid transaminase, unilateral inhibition of, circling behaviour resulting from, 288P
- 2-(2-Aminoethyl)pyridine, lowers blood pressure in cat, 173
- , vasodilator response to in peripheral vascular beds in the cat, 181
- 2-(2-Aminoethyl)thiazole, lowers blood pressure in cat, 173
- , vasodilator response to, in peripheral vascular beds in the cat, 181
- Aminoxyacetic acid, potentiates metoclopramide-induced catalepsy, 381
- Aminophylline, effect of, on bronchodilation in guinea-pig isolated lungs, 547
- Amisriptyline, effect of, on [ $^3$ H]-5-HT binding to rat blood platelets, 375P
- Amodiaquine, effect of, on gastric histamine methyltransferase and on histamine-stimulated gastric secretion, 321
- (+)-Amphetamine, effect of, on timid singly-housed mice, 141
- (+)-Amphetamine, effect of, on analgesics and rotational behaviour after lesions of rat substantia nigra, 316P
- Anaesthetics, local, pressor response induced by, perfused through cerebral ventricles of dog, 3
- , anticholinergic effects of general, on cerebrocortical neurones, 275P
- Analgesics, and rotational behaviour, in rats with substantia nigra lesions, 316P
- Anaphylatoxin, comparison of histopathological effects of, and PGE<sub>2</sub> and PGF<sub>2 $\alpha$</sub>  in guinea-pig lungs, 240P
- , histopathological effects of, mimicked by PGF<sub>2 $\alpha$</sub> , 240P
- Anaphylaxis, passive lung, mediators of, in rat, 57
- , humoral mediators of, response of rat lung to, and its modification by drugs and sensitization, 423
- , simple model of, using mouse pinna, 315P
- Angiotensin, increases hepatic arterial vascular resistance, 272P
- Anticholinesterase, new, RX72601, effect of central administration of, on behavioural and temperature responses in unanaesthetized cat, 9
- Antidiuretic action, of vasopressin, effect of lithium ions on, in rat, 527
- Antidotal thirst, voluntary lithium intake and concurrent behaviour in rats, 409
- Antidepressants, tricyclic, possible pharmacological action of, 17
- Anti-inflammatory action, of glucagon in rats, 65
- Anti-inflammatory analgesic drugs, effect of, on response of rat lung to humoral mediators of anaphylaxis, 423
- Anti-inflammatory drugs, non-steroidal, effect of, on ability of prostaglandins, arachidonic acid and linolenic acid to modulate experimentally induced oedema in rat paw, 51
- Anti-inflammatory steroids, effect of, on ability of arachidonic acid, linolenic acid and prostaglandins to modulate experimentally induced oedema in rat paw, 51
- Antinociceptive activity, of benzomorphans, assessment of, in guinea-pig ileum and mouse vas deferens, 541
- Antipsychotic drugs, do they act by dopamine receptor blockade in nucleus accumbens, 295P
- Antipyrine, relationship between clearance of, and indocyanine green before and after phenobarbitone treatment, 263P
- Antisera, to prostaglandins B<sub>2</sub> and F<sub>2 $\alpha$</sub> , development of, and their analysis using solid-phase and double antibody radioimmunoassay methods, 503
- Antithrombotic properties, of dihomono- $\gamma$ -linolenate *in vitro*, 316P
- Apomorphine, inhibition of metoclopramide-induced catalepsy and increase in striatal homovanillic acid content, 381
- Aprotinin, effect of, on passive lung anaphylaxis in rat, 57
- Arachidonic acid, ability of, to modulate experimentally induced oedema in rat paw, 51
- [ $^{14}$ C]-arachidonic acid, conversion of, to prostaglandin, by homogenates of pregnant rat uterus, 535
- Artery, coronary, isolated, strips of cattle, actions and interactions of adenosine and dipyridamole on, 431
- Arylamidinouraeas, forecasting antimalarial properties of, from their physicochemical properties, 117
- Aspirin, effect of, on gastric glycoprotein synthesis in rat, 387
- , effect of, on passive lung anaphylaxis in rat, 57
- , does not inhibit pupillary meiosis, 157
- , effect of, on bronchoconstriction and level of circulating platelets, 254P
- , interaction of carbenoxolone sodium with, bound to plasma proteins, 252P
- Asthmatic patients, using bronchodilators, tolerance gained after prolonged use in excess, 547
- Atria, guinea-pig, rate and tension responses to isoprenaline and salbutamol of, reserpine-induced supersensitivity to, 284P
- Atropine, effect of, on response of rat lung to humoral mediators of anaphylaxis, 423
- , effect of, on chemoreceptor response to 5-HT in cat carotid body, 27
- , abolishes contractions induced by acetylcholine and carbachol in guinea-pig cremaster muscle, 487
- , antagonizes methacholine effects on time course of noradrenaline release, 248P
- , blocks acetylcholine-induced but not nicotine-induced release of surplus acetylcholine at sympathetic ganglia, 189
- , blocks behavioural changes in conscious mice induced by acetylcholine, 351

- , effect of, on GABA response of dog cerebral arteries, 561
  - , effect of, on histamine-induced tachycardia in the rat, 274P
  - , effect of, on responses of frog spinal cord to GABA and  $\beta$ -alanine, 449
  - , has no effect on metoclopramide-induced increase in striatal homovanillic acid concentration, 381
  - , intraventricularly, effects of, on central effects of clonidine, 459
- Autoradiographic markers**, selective, for GABA-releasing interneurons and nerve terminals, 308P

## B

- Barbitone**, effect of, on timid singly-housed mice, 141
- Behavioural responses**, in unanaesthetized cat, induced by RX72601, 9
- Benzene sulphonate**, effect of, on membrane potential changes in rabbit superior cervical ganglion, 199
- Benzomorphans**, assesment of, which have strong antinociceptive activity but do not substitute for morphine in dependent monkey, 541
- Betazole**, maximum secretory response of Heidenhain pouch dogs to, enhanced by amodiaquine, 321
- Bethanidine**, causes fall in resting arterial pressure in anaesthetized cat, 246P
- Bicuculline**, effect of, on ventral root responses of hemisectioned amphibian spinal cord to perfused amino acids, 519
- Bioassay**, parallel, of bombesin and litorin, 213
- Bitch**, prostaglandins in pyometrial fluid from, 515
- Blood platelets**, human, action of flupenthixol on 5-HT induced aggregation and uptake of 5-HT and dopamine by, 555
- Blood pressure**, arterial, effect of local anaesthetics on, in dog cerebral ventricles, 3
- , effect of guanethidine, SK&F 24260 and hydralazine on, in anaesthetized rabbits, 393
  - , histamine causes dose-related increase in, in rats, 274P
- Bombesin**, -like, peptides, relative potency of, 221
- , parallel bioassay of, with litorin, 213
- Bordetella pertussis** vaccine, sensitization with, effect of, on passive lung anaphylaxis in rat, 57
- Bovine serum albumin**, conjugates with prostaglandins, production of, 503
- Bradycardia**, vagal, effects of prostaglandins  $E_1$ ,  $E_2$  and  $F_{2\alpha}$  on, in anaesthetized mouse, 47
- Bradykinin**, ability of, to induce oedema in rat paw, 51
- , effect of, on passive lung anaphylaxis in rat, 57
  - , effect of, on bronchial function in pithed rat, 423
  - , effect of, on mechanical responses of rat isolated uterine horns to transmural stimulation, 41
  - , dose-dependent contraction of sheep pulmonary artery and vein induced by, 329
  - , effect of ergometrine on vasodilator responses to, in canine hindlimb, 167
  - , increased vascular permeability induced by, unaffected by  $PGD_1$ , 239P
  - , vasodilator response to, unaffected by mepyramine and metiamide, 181

- Brain**, regional areas, tolerance to morphine-induced calcium depletion in, characterization with reserpine and protein synthesis inhibitors, 431
- , cyclic AMP formation in, mediated by  $\beta$ -adrenoceptors, 300P
- Brocresine (3-hydroxy-4-bromobenzyloxyamine dihydrogen sulphate)**, effect of, on formation of DOPA in rat compared with guinea-pig vas deferens, 73
- Bronchodilators**, sympathomimetic, tolerance to, in guinea-pig isolated lungs following chronic administration *in vivo*, 547

## C

- Caecum**, rat, enlargement of, 260P
- Caffeine**, effects of, in chronically denervated mouse soleus muscle, 125
- 45-Calcium**, uptake of, in rat peritoneal mast cells, 283P
- Calcium**, dynamics of subcellular pools of, in resting and stimulated acinar cells, 369
- , depletion, morphine-induced, tolerance to, in regional brain areas, characterization with reserpine and protein synthesis, 431
  - , effects of, ion concentration of, on time course of noradrenaline release caused by high potassium-low sodium solution, 248P
  - , electrophysiological analysis of the effect of, ions on neuromuscular transmission in mouse vas deferens, 97
  - , endothelial cells depolarized when heated in the presence of, ions, 105
  - , ions, comparison of hypothermic effects of, with those of TRH in the cat, 273P
  - , ions, effect of, on membrane changes in rabbit superior cervical ganglion, 199
  - , not required for potassium-induced efflux of noradrenaline, 247P
  - , secretion-dynamics of subcellular, pools in resting and stimulated acinar cells, 369
- Carbachol**, induces contractions in guinea-pig cremaster muscle, 487
- Carbachol binding**, to muscarinic receptors in intestinal smooth muscle, effect of chlorpromazine on, 303P
- Carbamylcholine**, dose-dependent contraction of sheep pulmonary artery and vein induced by, 329
- Carbenoxolone sodium**, interaction of, with other drugs bound to plasma proteins, 252P
- Cardiac output**, use of radioactive microspheres to compare effect of drugs on, in rabbit, 393
- Carotid body**, cat, chemoreceptor discharges of, action of 5-HT on, 27
- Carrageenin**, ability of, to induce oedema in rat paw, 51
- , effect of, on anti-inflammatory action of glucagon in rats, 65
- Catecholamines**, accumulation of, in rat vas deferens, after removal of amino acid decarboxylase inhibitor, 73
- , behavioural changes induced in conscious mice by intracerebroventricular injection of, 351
  - , effect of, on action of prostaglandin  $E_2$  on myocardial mechanics, coronary vascular resistance and oxygen consumption in guinea-pig isolated heart, 403
  - , radiochemical assay of, in blood plasma, 306P

- Cells, HeLa, cyclic AMP in, stimulated with cholera enterotoxin and methylxanthines, 287P**
- , rat peritoneal mast, 45-calcium uptake in, 283P
- Chemoreceptor, discharges from, of cat carotid body, action of 5-hydroxytryptamine on, 27**
- Chloramphenicol, characterization with, of tolerance to morphine-induced calcium depletion in regional brain areas, 431**
- Chlordiazepoxide, effect of, on timid singly-housed mice, 141**
- , hypersensitivity induced by, in rats, 293P
- Chlorimipramine, effect of, on [<sup>3</sup>H]-5-HT binding to rat blood platelets, 257P**
- 7-Chloro -1- (dimethyl-phosphinylmethyl) -5- phenyl-1, 3-dihydro-2H-1,4-benzodiazepin-2-on), see fosazepam 262P**
- 3-Chloro,4,nitrophenylamidinourea, antimalarial properties of, 117**
- †-(o-Chlorophenyl) 2-methylamino cyclohexanone, see ketamine, 245P**
- p-Chlorophenylalanine, protects against effects of interaction of furazolidone and pethidine in rabbits, 497**
- Chlorpromazine, action of, in nucleus accumbens, 295P**
- , effect of, on carbachol binding to muscarinic receptors in intestinal smooth muscle, 303P
  - , effect of, on [<sup>3</sup>H]-5-HT binding to rat blood platelets, 257P
  - , effect of, on timid singly-housed mice, 141
  - , protects against effects of furazolidone-pethidine interaction in rabbits, 497
- Cholera enterotoxin, cyclic AMP in HeLa cells stimulated by, 287P**
- Choline, effect of, on membrane potential changes in rabbit superior cervical ganglion, 199**
- , failure of denervation to influence the high affinity uptake of, by sympathetic ganglia, 278P
- Cholinesterase activity, reduction in, or rat anococcygeus muscle produced by corticosterone, 69**
- Cicloxolone, interaction of carbenoxolone sodium with, bound to plasma proteins, 252P**
- Circling behaviour, comparison of, following unilateral inhibition of GABA transaminase or discrete electrolytic lesion of rat substantia nigra, 288P**
- Circling responses, differences in, following electrolytic and 6-hydroxydopamine lesions of nigro-striatal pathway, 289P**
- Cinanserin, effect of, on [<sup>3</sup>H]-5-HT binding to rat blood platelets, 257P**
- Clonidine, intravenously, elicits longer-lasting sleep than intraventricularly, 459**
- Clonidine 2-(2, 6-dichlorophenylamino) -2- imidazoline hydrochloride, central effects of, in fowls, 459**
- Clorgyline, inhibition of MAO by, effect of on 5-HT in rat brain, and hyperactivity after tryptophan administration, 415**
- CNS excitability, halothane-induced sleeping time as index of, 307P**
- Cocaine, effect of, on chronotropic and inotropic effects of dopamine on dog heart, 475**
- , effect of, on potassium-induced efflux of noradrenaline, 247P
  - , enhances inotropic and chronotropic effects of noradrenaline on dog heart, 475
- , increases duration of excitatory junction potential to single impulse, 87
- Compound 48/80, ability of, to induce oedema in rat paw, 51**
- Conalbumin, sensitization with, of effect of, on mediators of passive lung anaphylaxis, 57**
- Concurrent behaviour, antidotal thirst, and voluntary lithium intake in rats, 409**
- Conditioned taste aversion, peptide hormones and extinction of, 270P**
- Coronary vascular resistance, action of prostaglandin E<sub>2</sub> on, in guinea-pig isolated heart, 403**
- Corticosterone, reduction in cholinesterase activity of rat anococcygeus muscle produced by, 69**
- Corticotrophin, production of, by rat adenohipophysial segments *in vitro*, 272P**
- Cortisol, inhibits release but not synthesis of ACTH in rat adenohipophysial segments *in vitro*, 272P**
- Cow, prostaglandins in pyometrial fluid from, 515**
- Cremaster muscle, guinea-pig, consists of a mixture of striated and smooth muscles, 487**
- , some pharmacological properties of, in guinea-pig, 487
- Cupric, ions, endothelial cells depolarized when heated in the presence of, 105**
- Cuprous, ions, depolarize endothelial cells at normal body temperature, 105**
- Curare, effect of, on response of frog spinal cord to GABA and  $\beta$ -alanine, 449**
- Cyclic AMP, in HeLa cells stimulated with cholera enterotoxin and methylxanthines, 287P**
- , formation of, mediated by  $\beta$ -adrenoceptors in brain, 300P
  - , intracellular levels, effects of selective  $\alpha$ - and  $\beta$ -receptor agonists on, in guinea-pig liver, 286P
- Cyproheptadine, effect of, on ability of arachidonic acid, linolenic acid and prostaglandins to modulate experimentally induced oedema in rat paw, 51**
- , effect of, on [<sup>3</sup>H]-5-HT binding to rat blood platelets, 257P
  - , protects against effects of interaction between furazolidone and pethidine in rabbits, 497
- Cycloheximide, effect of, on capacity of rat kidneys to metabolize prostaglandins, 233**
- , characterization with, of tolerance to morphine-induced calcium depletion in regional brain areas, 431

## D

- Dapsone, penetration of, into peripheral nerves, 151**
- d.c. and field potentials, action of GABA on, in rat cuneate nucleus, 280P**
- DDT, accelerates the interaction between furazolidone and pethidine in rabbits, 497**
- Debrisoquine, correlation between response to, and amount of unchanged, excreted in the urine, 264P**
- Demecolcine, effect of, on accumulation of vesicular material in sectioned rat dorsal roots, 265P**
- Dental pulp, dog, stimulation test, 314P**
- Deprenil, inhibition of MAO by, effect of, on 5-HT in rat brain, and hyperactivity after tryptophan administration, 415**

**Desipramine**, effect of, on potassium-induced efflux of noradrenaline, 247P

- , increases duration of excitatory junction potential to single impulse, 87

**Desmethylinipramine**, reduces inotropic and chronotropic effects of dopamine on dog heart and enhances effects of noradrenaline and nerve stimulation, 475

**Dexamethasone**, effect of, on response of rat lung to humoral mediators of anaphylaxis, 423

**Dexamphetamine**, hyperactivity induced by, in rats, 293P

- , interaction between, and clonidine in fowls, 459

**Dextran**, effect of, on anti-inflammatory action of glucagon in rats, 65

**Dextran B**, ability of, to induce oedema in rat paw, 51

**Diazepam**, effect of anaesthesia with, on responsiveness of cerebrocortical neurones to L-glutamate and acetylcholine, 275P

- , effect of, on Mg-ATPase in synaptic vesicles, 252P
- , effect of, on sleep in man, 262P
- , effect of, on timid singly-housed mice, 141

**Dibenzamine hydrochloride**, effect of, on adrenergic neuromuscular transmission, 87

**2, 6-bis (Diethanolamino) -4- piperidinopyrimido-[5,4-d] pyrimidine**, *see* RA 233

**Dihomo- $\gamma$  linolenate**, thrombolytic and antithrombotic properties of, *in vitro*, 316P

**1,4 - Dihydro - 2,6 - dimethyl - 4 - (2 - trifluoromethyl - phenyl)-3, 5-pyridinedicarboxylic acid diethyl ester**, *see* SK&F 24260, 393

**Dihydroergocornine**, effect of, on adrenergic neuromuscular transmission, 87

**Dihydro- $\beta$ -erythroidine**, effects of, on amino acid responses of frog spinal cord, 449

**Dihydroxyphenylacetic acid**, hyperactivity produced by, in rats, 293P

- , tissue levels, postnatal development of, in rat striatum, 558

**Diprenorphine**, effect of, on depressed respiratory function in ponies induced by etorphine and acepromazine, 269P

**Dipyridamole**, action of, and interaction with adenosine, on isolated coronary artery strips of cattle, 431

- , n.m.r. spectroscopy of, 258P

**Disodium cromoglycate**, effect of, on passive lung anaphylaxis in rat, 57

**DOPA**, formation of, in rat compared with guinea-pig vas deferens, 73

- , effects of on single cortical neurones, 301P

**L-DOPA**, motor activity produced by, in rodents, involvement of noradrenaline in, 292P

**Dopamine**, behavioural changes induced in conscious mice by intracerebroventricular injection of, 351

- , effect of, on identified ventromedial hypothalamic nucleus neurones, 277P
- , effects of, on sinus rate and ventricular contractile force of the dog heart *in vitro* and *in vivo*, 475
- , formation of, in rat compared with guinea-pig vas deferens, 73
- , hyperactivity induced by, in rats, 293P
- , in rat brain, effect of MAO inhibition by clorgyline, deprenil and tranlylcypromine on, 415
- , intra-arterially, following phentolamine, caused increased femoral blood flow in some anaesthetized dogs, 167

- , levels, in rat striatum, effect of reserpine on, 296P
- , potentiation of response of neurones to, by iprindole, 17
- , role of, in rotational behaviour produced by unilateral lesions of locus coeruleus, 290P
- , uptake of, by human blood platelets, effect of flupenthixol, 555
- , vascular, receptors in canine hindlimb, 167

**Dopamine deamination**, postnatal development of, in rat striatum, 558

**Dopamine receptor blockade**, possible mode of action for antipsychotic drugs, in nucleus accumbens, 295P

**Dopamine receptors**, supersensitive mesolimbic, action of LSD on, 291P

**Dorsal roots**, rat, light and electron microscopic study of accumulation of vesicular material in sectioned, 265P

**Double antibody radioimmunoassay method**, use of, to analyze antisera to prostaglandins B<sub>2</sub> and F<sub>2 $\alpha$</sub> , 503

**Drugs**, change in sensitivity to halothane induced by acute administration of CNS depressant, in the rat, 266P

- , study of binding of, of blood constituents, 258P
- , value of timid singly-housed mice in prediction of psychotropic activity of, 141

## E

**EEG recording**, combined with intraventricular administration of drugs in conscious rat, 312P

**Electrolytic lesion**, circling responses following, of nigro-striatal pathway, 289P

- , discrete, in rat substantia nigra, circling behaviour resulting from, 288P

**Endothelial cells**, binding of divalent metallic ions to, 105

**Enoxolone**, interaction of carbenoxolone sodium with, bound to plasma proteins, 252P

**Ergometrine**, depressed dilator effects of dopamine on canine hindlimb, 167

- , effect of, on femoral dilator responses to acetylcholine, histamine, isoprenaline, bradykinin and 5-hydroxytryptamine, 167

**Erythrosine**, mechanism of effect of, in caecal enlargement in the rat, 260P

**Etorphine**, in combination with acepromazine, intravenously, effect of, on respiratory function in ponies, 269P

## F

**Fasting**, effect of, on gastric glycoprotein synthesis in rat, 387

**Fenfluramine**, relationship between, and norfenfluramine blood levels and anorectic activity in the rat, 261P

**Ferret**, prostaglandins in pyometrial fluid from, 515

**Ferrous**, ions, endothelial cells depolarized when heated in the presence of, 105

**Flufenamic acid**, interaction of carbenoxolone sodium with, bound to plasma proteins, 252P

**Fluocinolone**, effect of, on ability of arachidonic and linolenic acids to modulate experimentally induced oedema in rat paw, 51

- Flupenthixol**, actions of, on 5-HT-induced aggregation and uptake of 5-HT and dopamine by human blood platelets, 555
- Fluphenazine**, action of, in nucleus accumbens, 295P
- Folic acid**, proconvulsant action of, 265P
- , raised concentration of, increases cortical activity, 266P
- Forebrain**, rat limbic, homogenates, noradrenaline-sensitive adenylate cyclase in, effects of agonists and antagonists on, 299P
- Fosazepam**, effect of, on sleep in man, 262P
- , soluble salt of diazepam, 262P
- FPL 55712**, effect of, on passive lung anaphylaxis in rats, 57
- Freund's adjuvant**, effect of, on anti-inflammatory action of glucagon in rats, 65
- Furazolidone**, interaction with pethidine in rabbits, 497

## G

- Gallamine**, effects of, on amino acid responses of frog spinal cord, 449
- Ganglion**, rabbit superior cervical, membrane potential changes induced by 5-HT in, 199
- Glucagon**, anti-inflammatory action in rats, 65
- , effects of, on hepatic arterial vasculature of the dog, 272P
- Glutamate**, neuronal response to, effect of iprindole on, 17
- , convulsant action of, 265P
  - , effect of, on identified ventromedial hypothalamic nucleus neurones, 277P
  - , effect of, on membrane conductance, 250P
- L-glutamate**, effect of, on ventral root responses of hemisected amphibian spinal cord in presence of procaine, 519
- , effect of, on cerebrocortical neurones during general anaesthesia, 275P
- Glycine**, bimodal effect of, on frog spinal motoneurones, 281P
- , effect of, on identified ventromedial hypothalamic nucleus neurones, 277P
  - , anomalous effect of, on ventral root responses of hemisected amphibian spinal cord to perfused amino acids in presence of procaine, 519
- Glycogen phosphorylase**, activity of, effects of selective  $\alpha$ - and  $\beta$ -receptor agonists on, in guinea-pig liver, 286P
- Glycoprotein**, gastric, synthesis, effects of fasting, stress and drugs on, in rat, 387
- Gramine**, effect of, on chemoreceptor response to 5-HT in cat carotid body, 27
- Guanethidine**, effect of, on mechanical responses of rat isolated uterine horns to transmural stimulation, 41
- , effect of, on redistribution of cardiac output in anaesthetized rabbits, use of radioactive microspheres to measure, 393

## H

- H<sub>1</sub>-receptors**, involvement of, in blood pressure response to histamine in the cat, 173
- , involvement of, in vasodilator responses to histamine, 181

- H<sub>2</sub>-receptors**, involvement of, in blood pressure response to histamine in cat, 173
- , involvement of, in vasodilator responses to histamine, 181
- Haloperidol**, effects of, on central effects of clonidine, 459
- Halopyramine**, pressor response induced by, perfused through cerebral ventricles of dog, 3
- Halothane**, induced sleeping time, use of, as index of CNS excitability, 307P
- , change in sensitivity to, induced by acute administration of CNS depressant drugs in the rat, 266P
  - , effect of anaesthesia with, on responsiveness of cerebrocortical neurones to L-glutamate and acetylcholine, 275P
- Heart**, guinea-pig isolated, action of prostaglandin E<sub>2</sub> on myocardial mechanics, coronary vascular resistance and oxygen consumption in, 403
- Heart rate**, histamine causes dose-related increase in, in rats, 274P
- cis 1,2,3,4,4a,10b - Hexahydro - 8,9 - dimethoxy - 2 - methyl - 6 - phenylbenzo [c] [1,6] - naphthyridine bis hydrogen maleate**, see AG19417
- Hexamethonium**, effect of, on pressor response to procaine in dog cerebral ventricles, 3
- , effect of, on chemoreceptor response to 5-HT in cat carotid body, 27
  - , effect of, on mechanical responses of rat isolated uterine horns to transmural stimulation, 41
  - , blocks nicotine- and acetylcholine-induced release of surplus acetylcholine from sympathetic ganglia, 189
- Histamine**, -induced inflammation, simple model of, using mouse pinna, 315P
- , effect of, on function in pithed rat, 423
  - , effect of, on passive lung anaphylaxis in rat, 57
  - , release of, from isolated perfused lungs after challenge with antigen, 57
  - , ability of, to induce oedema in rat paw, 51
  - , effect of, on bronchodilation in guinea-pig isolated lungs, 547
  - , central hypertensive action of, in rats, 274P
  - , comparison of effects of, with anaphylatoxin in guinea-pig lungs, 240P
  - , dose-dependent contraction of sheep pulmonary artery and vein induced by, 329
  - , effects of, agonists on blood pressure in cat, 173
  - , effect of ergometrine on vasodilator responses to, in canine hindlimb, 167
  - , effect of, on identified ventromedial hypothalamic nucleus neurones, 277P
  - , effect of, on quiescent preparations of guinea-pig cremaster muscle, 487
  - , increased vascular permeability induced by, unaffected by PGD<sub>1</sub>, 239P
  - , receptors in peripheral vascular beds in the cat, 181
  - , -stimulated gastric secretion, enhanced by amodiaquine, 321
- Histamine methyltransferase**, effect of amodiaquine on gastric, and on histamine-stimulated gastric secretion, 321
- DL-homocysteate**, motoneurone depolarization with membrane conductance decrease induced by, 250P
- Homocysteic acid**, convulsant action of, 265P

- Homovanillic acid**, tissue levels, postnatal development of, in rat striatum, 558
- Humoral mediators**, response of rat lung to, of anaphylaxis and its modification by drugs and sensitization, 423
- Hydralazine**, effect of, on redistribution of cardiac output in anaesthetized rabbits, use of radioactive microspheres to measure, 393
- Hydrocortisone**, effect of, on ability of prostaglandins, arachidonic acid and linolenic acid to modulate experimentally-induced oedema in rat paw, 51
- , effect of, on potassium-induced efflux of noradrenaline, 247P
  - , effect of, on tryptophan concentration in rat liver, 253P
- Hydrogen peroxide**, depolarizes endothelial cells, 105
- 6-Hydroxydopamine**, lesions by, impaired response control after, to dorsal noradrenaline bundles, 293P
- , effects of, on histamine-induced pressor responses in the rat, 274P
  - , lesion by, circling responses following, of nigro-striatal pathway, 289P
  - , pretreatment with, decreases noradrenaline and adrenaline concentrations in certain chicken organs, 343
- 5-Hydroxyindoles**, concentrations of, as measure of effect of lithium on metabolism of L-tryptophan in rat forebrain, 268P
- 3-Hydroxy-N-methylpyridinium**, pharmacokinetics of, in the rat, 335
- , urinary excretion of, dose-dependent, 335
- 5-Hydroxytryptamine**, behavioural changes induced in conscious mice by intracerebroventricular injection of, 351
- , concentration of, as measure of effect of lithium on metabolism of L-tryptophan in rat forebrain, 268P
  - , dose-dependent contraction of sheep pulmonary artery induced by, without tachyphylaxis, 329
  - , effect of ergometrine on vasodilator responses to, in canine hindlimb, 167
  - , induced receptor for, in guinea-pig vas deferens, 302P
  - , effects of, on sheep pulmonary vein, 329
  - , membrane potential changes induced by, in rabbit superior cervical ganglion, 199
  - , action of, on chemoreceptor discharges of cat carotid body, 27
  - , potentiation of neuronal response to, by iprindole, 17
  - , effect of, on bronchial function of pithed rat, 423
  - , concentrations in rat brain, effects of MAO inhibition by clorgyline, deprenil and tranylcypromine on, and hyperactivity after tryptophan administration, 415
  - , release of, from isolated perfused lungs after challenge with antigen, 57
  - , ability of, to induce oedema in rat paw, 51
  - , aggregation induced by, action of flupenthixol on, in human blood platelets, 555
  - , -induced inflammation, simple model of, using mouse pinna, 315P
- 5-Hydroxy-[<sup>3</sup>H]-tryptamine**, inhibition of binding of, to rat blood platelets by 5-HT antagonists and uptake inhibitors, 257P
- 5-Hydroxytryptophan**, effect of, in rabbits pretreated with furazolidone, 497
- Hyoscine**, antagonism by, of mechanical responses of rat isolated uterine horns to transmural stimulation, 41
- Hypertension**, possible contribution of prostaglandins to genetic, in rats: identification of a biochemical lesion, 244P
- Hyperthermia**, in unanaesthetized cat, induced by RX72601, 9
- Hypothalamus**, ventromedial, response of identified neurones of, to putative neurotransmitters applied by microiontophoresis, 277P
- I
- Ileum**, guinea-pig, assessment in, of benzomorphans which have strong antinociceptive activity but do not substitute for morphine in dependent monkeys, 541
- Imipramine**, effect of, on [<sup>3</sup>H]-5-HT binding to rat blood platelets, 257P
- , effect of, on timid singly-housed mice, 141
  - , interaction of carbenoxolone sodium with, bound to plasma proteins, 252P
- Indocyanine green**, relationship between clearance of, and antipyrine before and after phenobarbitone treatment, 263P
- Indomethacin**, does not inhibit pupillary meiosis, 157
- , effect of, on depolarization of endothelial cells induced by mono- and divalent cations, 105
  - , effect of, on potassium-induced efflux of noradrenaline, 247P
  - , interaction of mono- and divalent metallic cations and of, on membrane potential of vascular endothelial cells *in vitro*, 105
  - , local treatment with, prevents development of Schwartzman-like reaction in dog knee joint, 241P
  - , effect of, on ability of prostaglandins, arachidonic acid and linolenic acid to modulate experimentally induced oedema in rat paw, 31
  - , effect of, on synthesis and release of prostaglandins from pregnant rat uterus, 535
- Inflammatory fluid**, presence of prostaglandins in, 515
- Iprindole**, effects of, on responses of single cortical and caudate neurones to monoamines and acetylcholine, 17
- Iproniazid**, effect of pretreatment with, on effect of reserpine on adrenergic neuromuscular transmission, 79
- Isoniazid**, penetration of, into peripheral nerves, 151
- Isoprenaline**, pretreatment with, reduced blood flow increase caused by dopamine in canine hindlimb, 167
- , dose-dependent relaxation of sheep pulmonary artery and vein induced by, 329
  - , effect of ergometrine on vasodilatory responses to, in canine hindlimb, 167
  - , vasodilator response to, unaffected by mepyramine and metiamide, 181
  - , effect of, on intracellular cyclic AMP levels and glycogen phosphorylase activity in guinea-pig liver, 286P
  - , rate and tension responses to, of guinea-pig atria, reserpine-induced supersensitivity to, 284P
  - , effect of, on bronchodilation in guinea-pig isolated lungs, 547

## K

- Kaolin**, ability of, to induce oedema in rat paw, 51
- Ketamine**, anticonvulsant activity of, in mice, following inhibition of GABA synthesis by mercaptopropionic acid, 276P
- , can prevent convulsive effects of mercaptopropionate in mice, 276P
  - , effects of, on peripheral sympathetic nervous system of the rat, 245P
  - , potentiates smooth muscle sensitivity to noradrenaline, 245P
- Kinin mediation**, ability of arachidonic and linolenic acids and prostaglandins to modulate experimentally induced oedema in rat paw discussed in terms of, 51
- Kynurenine**, concentration of, in medium as a measure of tryptophan pyrrolase activity, 253P

## L

- Leprosy**, penetration of drugs used in treatment of, 151
- Leptazol**, convulsant action of, 265P
- Lesions**, unilateral, role of dopamine in rotational behaviour produced by, in locus coeruleus, 290P
- , 6-hydroxydopamine, impaired response control in rat after, to dorsal noradrenaline bundles, 293P
  - , rat substantia nigra, effect of (+)-amphetamine on analgesics and rotational behaviour after, 316P
- Lidocaine**, effect of, on potassium-induced efflux of noradrenaline, 247P
- Lilly 103947**, effect of, on [<sup>3</sup>H]-5-HT binding to rat blood platelets, 257P
- Lilly 110140**, effect of, on [<sup>3</sup>H]-5-HT binding to rat blood platelets, 257P
- Linolenic acid**, ability of, to modulate experimentally induced oedema in rat paw, 51
- Lithium**, voluntary intake of, antidotal thirst and concurrent behaviour in rats, 409
- , effects of chronic administration of, on metabolism of L-tryptophan in rat forebrain, 268P
- Lithium ions**, effect of, on antidiuretic action of vasopressin in rat, 527
- Litoria aurea**, parallel bioassay of bombesin and litorin, a bombesin-like peptide from skin of, 213
- Litorin**, parallel bioassay of, with bombesin, 213
- , pharmacological activity of, 221
- Liver**, guinea-pig, effects of selective  $\alpha$ - and  $\beta$ -receptor agonists on intracellular cyclic AMP levels and glycogen phosphorylase activity in, 286P
- Locus coeruleus**, unilateral lesions of, rotational behaviour produced by, role of dopamine in, 290P
- Lower body negative pressure**, cardiovascular responses of anaesthetized cat exposed to, 246P
- Lung**, rat, response of, to humoral mediators of anaphylaxis and its modification by drugs and sensitization, 423
- , rat, mediators of passive anaphylaxis in, 57
  - , guinea-pig isolated, tolerance to sympathomimetic bronchodilators in, following chronic administration *in vivo*, 547
- Lysergic acid diethylamide**, action of, on supersensitive mesolimbic dopamine receptors, 291P
- , effect of, on timid singly-housed mice, 141

- (+)-Lysergic acid diethylamide, effect of, on chemoreceptor response to 5-HT in cat carotid body, 27
- , effect of, on [<sup>3</sup>H]-5-HT binding to rat blood platelets, 257P

## M

- Magnesium**, adenosine triphosphatase, synaptic vesicle as a possible site of action of anticonvulsant drugs, 252P
- , effect of external concentration of, on synaptic potential due to noradrenaline release, 97
  - , ions, abolish responses of frog spinal cord to acetylcholine and carbachol, 449
- Malaria**, forecasting anti-, properties of arylamidinouras, 117
- Mecamylamine**, effects of, on histamine-induced cardiovascular effects in the rat, 274P
- Meclofenamate**, effect of, on response of rat lung to humoral mediators of anaphylaxis, 423
- Meiosis**, pupillary, not inhibited by aspirin, 157
- Membrane**, potential changes, induced by 5-HT in rabbit superior cervical ganglion, 199
- Meprobamate**, pretreatment with, effect of, on halothane sleeping time, 266P
- Mepyramine**, pressor response induced by, perfused through cerebral ventricles of dog, 3
- , effect of, on response of rat lung to humoral mediators of anaphylaxis, 423
  - , effect of, on passive lung anaphylaxis in rat, 57
  - , effect of, on histamine- and anaphylatoxin-induced changes in guinea-pig lungs, 240P
  - , effect of, on vasodilator response to histamine, 181
  - , pretreatment with, effects of, on histamine-induced cardiovascular effects in rat, 274P
- Mercaptopropionic acid**, anticonvulsant activity of ketamine in mice following inhibition of GABA synthesis by, 276P
- Mescaline**, comparison of effect of, on activity and emotional defaecation in seven mouse strains, 133
- , inhibits emotional defaecation in certain mouse strains, 133
  - , stimulated activity in certain mouse strains, 133
- Metaraminol**, effect of PGE<sub>1</sub> and PGE<sub>2</sub> on release of [<sup>3</sup>H]-noradrenaline from rat mesenteric arteries induced by, 243P
- Methacholine**, effects of, on time course of noradrenaline release caused by high potassium-low sodium solutions, 248P
- Methergoline**, effect of, on [<sup>3</sup>H]-5-HT binding to rat blood platelets, 257P
- 2-Methylhistamine**, lowers blood pressure in cat, 173
- , vasodilator responses to, in peripheral vascular beds of the cat, 181
- 4-Methylhistamine**, vasodilator response to, in peripheral vascular beds of the cat, 181
- , lowers blood pressure in cat, 173
- $\gamma$ -Methyl-p-tyrosine**, effect of, on interaction between furazolidone and pethidine in rabbits, 497
- Methylxanthines**, cyclic AMP in HeLa cells stimulated with, 287P
- Methysergide**, effect of, on chemoreceptor response to 5-HT in cat carotid body, 27
- , effect of, on passive lung anaphylaxis in rat, 57

- , effect of, on response of rat lung to humoral mediators of anaphylaxis, 423
- , has no effect on behavioural changes in conscious mice induced by 5-hydroxytryptamine, 351
- , blocks contractile response of sheep pulmonary artery to 5-HT, 329
- , effect of, on [<sup>3</sup>H]-5-HT binding to rat blood platelets, 257P
- , effects of, on central effects of clonidine, 459
- Metiamide**, effect of, alone and with mepyramine, on vasodilator response to histamine, 181
- , inhibits formation of indomethacin-induced gastric erosions, 242P
- , pretreatment with, effects of, on histamine-induced cardiovascular effects in rat, 274P
- Metoclopramide**, induces increase in striatal homovanillic acid concentration, 381
- Metirapone**, effect of, on cholinesterase activity in rat anococcygeus muscle, 69
- , effect of, on synthesis and release of prostaglandins from pregnant rat uterus, 535
- Mice**, timid and singly-housed, value of, in prediction of psychotropic activity of drugs, 141
- Microelectrodes**, glass, screening of, simple method for, 312P
- Microiontophoresis**, response of identified ventromedial hypothalamic nucleus neurones to putative neurotransmitters applied by, 277P
- Microspheres**, radioactive, use of, to compare effects of hydralazine, guanethidine and SK&F 24260 on redistribution of cardiac output in anaesthetized rabbits, 393
- Mitochondria**, rat brain, distinct populations of, monoamine oxidase activity in, 298P
- Monoamines**, response of single cortical and caudate neurones to, effects of iprindole on, 17
- Monoamine oxidase activity**, towards dopamine, postnatal development of, in rat striatum, 558
- , changes of, with age, in rat vas deferens, 305P
- , inhibition by cloglyline, deprenil or tranlylcypromine on 5-HT in rat brain, and hyperactivity following subsequent tryptophan administration, 415
- , in distinct populations of rat brain mitochondria, 298P
- Monoamine oxidase inhibitors**, effect of, on membrane potential changes in rabbit superior cervical ganglion, 199
- Morphine**, inhibition of twitch response of mouse vas deferens induced by, unlikely to be mediated by noradrenaline, 267P
- , -induced calcium depletion in regional brain areas, tolerance to, characterization with reserpine and protein synthesis inhibitors, 431
- , effect of, on cholinesterase activity of rat anococcygeus muscle, 69
- , assessment of benzomorphans which have strong antinociceptive activity but do not substitute for, in dependent monkey, 541
- 4-Morpholino-2-piperazine-thiopheno[3,2-b] pyrimidine**, see VK 774
- Motoneurones**, frog spinal, bimodal effect of glycine on, 281P
- Motor activity**, produced by L-DOPA in rodents, involvement of noradrenaline in, 292P

- γ-MSH**, melanocyte stimulating hormone, effect of, on extinction of conditioned taste aversion, 270P
- Mucosa**, gastric, glycoprotein synthesis in, effect of stress, fasting and drugs on, in rat, 387
- Muscarinic receptors**, carbachol binding to, in intestinal smooth muscle, effect of chlorpromazine on, 303P
- , slow activation of, as possible explanation of latency of parasympathetic nerve effects, 304P
- Muscle**, intestinal smooth, carbachol binding to muscarinic receptors in, effect of chlorpromazine on, 303P
- , anococcygeus, rat, reduction in cholinesterase activity of, produced by corticosterone, 69
- , mammalian, fibres, effects of Procion Brilliant Red H3BN on, 281P
- Myocardial infarction**, ORG6001 may be more useful than currently-used drugs in treatment of early arrhythmias following, 359
- Myocardial mechanics**, action of prostaglandin E<sub>2</sub> on, in guinea-pig isolated heart, 403
- Myocardium**, dog, effects of dopamine and noradrenaline on, 475

## N

- N-acetyl[<sup>3</sup>H]-glucosamine**, rate of incorporation of, effect of stress, fasting and drugs on, in rat, 387
- N-cyclopropylmethyl-5,9-dialkyl-2'-hydroxy-6,7-benzomorphans**, assessment of, in guinea-pig ileum and mouse vas deferens, 541
- N-dimethyl-furyl-5,9-dimethyl-2'-hydroxy-6,7-benzomorphans**, assessment of, in guinea-pig ileum and mouse vas deferens, 541
- Naloxone**, effect of, on effect of benzomorphans on guinea-pig ileum and mouse vas deferens, 541
- , effect of, on inhibition of twitch response of mouse vas deferens induced by noradrenaline, 267P
- Naproxen**, effect of, on ability of prostaglandins, arachidonic and linoleic acids to modulate experimentally induced oedema in rat paw, 51
- Narcotic analgesic drugs**, evaluation of, in dog dental pulp stimulation test, 314P
- Negative pressure**, cardiovascular responses of anaesthetized cat exposed to lower body, 246P
- Nerve**, parasympathetic, latency of, effects, may be due to slow activation of muscarinic receptors, 304P
- , parasympathetic, activity of, modification of, by prostaglandins, 47
- , sectioned peripheral vagus, bradycardia in, effect of prostaglandins on, in anaesthetized mouse, 47
- Neuroleptic drugs**, pre- and post-synaptic actions of, 297P
- , see anti-psychotic drugs, 295P
- Neuromuscular transmission**, effect of Ca ions on, in mouse vas deferens, 97
- , effects of amine-uptake blockers and α-adrenoceptor blockers on adrenergic, 87
- , effects of reserpine on adrenergic, 79
- Neurones**, cholinergic motor and noradrenergic inhibitory postganglionic, transmural stimulation as a method of exciting, 41
- , single cortical and caudate, responses of, to monoamines and acetylcholine, effects of iprindole on, 17

- , single cortical, effects of DOPA and noradrenaline on, 301P
- , GABA-releasing, selective autoradiographic markers for, 308P
- , adrenergic, centrally-acting antihypertensive agent (R28935) not acting via, 313P
- Nicotine**, effect of, on membrane potential changes in rabbit superior cervical ganglion, 199
- , effect of, on response of frog spinal cord to GABA and  $\beta$ -alanine, 449
- , releases surplus acetylcholine from sympathetic ganglia, 189
- Nigro-striatal pathway**, differences in circling responses following electrolytic and 6-hydroxydopamine lesions of, 289P
- Nippostrongylus brasiliensis**, potentiation with, of production of antibodies to conalbumin, 57
- , sensitization with, effect of, on response of rat lung to humoral mediators of anaphylaxis, 423
- Noradrenaline**, formation of, in rat compared with guinea-pig vas deferens, 73
- , potentiation of response of neurones to, by iprindole, 17
- , involvement of, in motor activity produced by L-DOPA in rodents, 292P
- , dorsal, bundles, 6-hydroxydopamine lesions to, impaired response control after, 293P
- , adenylate cyclase sensitive to, in rat limbic forebrain homogenates, effects of agonists and antagonists on, 299P
- , effects of, on single cortical neurones, 301P
- , induced receptor for, in guinea-pig vas deferens, 302P
- , behavioural changes induced in conscious mice by intracerebroventricular injection of, 351
- , cardiovascular potency of, in chicken similar to that of adrenaline, 343
- , comparison of effects of, on dog heart with those of dopamine, 475
- , comparison of hypothermic effects of, with those of TRH in the cat, 273P
- , dose-dependent contraction of sheep pulmonary artery and vein induced by, 329
- , evidence for, and adrenaline as sympathetic transmitters in the chicken, 343
- , increases hepatic arterial vasculature resistance, 272P
- , inhibits twitch response of mouse vas deferens, 267P
- , mechanism of  $K^+$ -induced release of cytoplasmic, from adrenergic nerves, 247P
- , output of, from mouse vas deferens, 267P
- , produces contractions in guinea-pig cremaster muscle, 487
- , released by single impulses, effect of, on post-synaptic  $\alpha$ -adrenoceptors terminated by diffusion, 87
- , release of, and relationship to calcium ion concentration, 97
- , release of, reduced by pretreatment of adrenergic nerve terminals with reserpine, 79
- , stored in synaptic vesicles, 79
- , time course of release of, caused by high potassium-low sodium solution, 248P
- , unlikely to mediate the twitch response inhibition by morphine in mouse vas deferens, 267P
- , uptake and release of, 87

- [ $^3H$ ]-Noradrenaline, effect of PGE<sub>1</sub> and PGE<sub>2</sub> on drug-induced release of, from rat mesenteric arteries, 243P
- Noradrenergic blocker**, modifies reflex cardiovascular changes induced by lower body negative pressure, 246P
- Norfenfluramine**, relationship between fenfluramine and, blood levels and anorectic activity in the rat, 261P
- Nuclear magnetic resonance**, use of, in study of binding of drugs to inhibit platelet aggregation, 258P
- Nucleus**, rat cuneate, action of GABA on d.c. and field potential recordings from, 280P
- Nucleus accumbens**, dopamine receptor blockade in, possible mode of action for anti-psychotic drugs, 295P

## O

- Octopamine**, effect of PGE<sub>1</sub> and PGE<sub>2</sub> on release of [ $^3H$ ]-noradrenaline induced by, from rat mesenteric arteries, 243P
- Oedema**, experimentally induced, ability of prostaglandin E<sub>1</sub> and arachidonic acid to modulate, in rat paw, 51
- Oestradiol**, effect of, on *in vitro* production of prostaglandin F<sub>2</sub> by guinea-pig uterus, 229
- ORG6001**, antiarrhythmic, haemodynamic and metabolic effects of, in greyhounds following acute coronary artery ligation, 359
- , a new amino steroid, 359
- , pretreatment with, reduces metabolic changes indicative of myocardial ischaemia in greyhounds following acute coronary artery ligation, 359
- Ouabain**, effect of, on GABA response of dog cerebral arteries, 561
- , mechanism of mechanical inhibition of smooth muscle by, 111
- , proconvulsant action of, 265P
- , stimulation and inhibition by, of the sodium pump in guinea-pig atria, 249P
- , effect of, on membrane potential changes in rabbit superior cervical ganglion, 199
- Oxprenolol**, effect of, on formation of arterial platelet thrombi, 255P
- Oxygen consumption**, action of prostaglandin E<sub>2</sub> on, in guinea-pig isolated heart, 403
- Oxymetazoline**, effect of, on potassium-induced efflux of noradrenaline, 247P
- Oxytetracycline**, effect of, on potassium-induced efflux of noradrenaline, 247P
- , pretreatment with, prevents interaction between furazolidone and pethidine in rabbits, 497

## P

- Pancreas**, studies on functional significance of calcium pools associated with, acinar cells, 369
- Paracetamol**, effect of, on ability of arachidonic and linoleic acids and prostaglandins to modulate experimentally induced oedema in rat paw, 51
- Parturition**, in rat, effect of metyrapone on, 535
- Paw**, rat, oedema reduced by anti-inflammatory action of glucagon. 65

- , rat, experimentally induced oedema in, ability of prostaglandin  $E_1$  and arachidonic acid to modulate, 51
- Pempidine**, effect of, on mechanical responses of rat isolated uterine horns to transmural stimulation, 41
- Pethidine**, interaction with furazolidone in rabbits, 497
- Phenobarbitone**, effect of, on Mg-ATPase in synaptic vesicles, 252P
  - , increases drug metabolizing capacity of liver, 263P
  - , relationship between clearance of antipyrine and indocyanine green before and after treatment with, 263P
- Phenoxybenzamine**, effects of, on inotropic and chronotropic effects of dopamine, noradrenaline and nerve stimulation in dog heart, 475
  - , effects of, on locomotor activities in conscious mice induced by i.c.v. injection of noradrenaline, 351
  - , prevents hypothermic effects of clonidine in fowls, 459
  - , prevents increase in locomotor activity in conscious mice induced by i.c.v. injection of noradrenaline, 351
- Phentolamine**, abolishes contractions caused by adrenaline and noradrenaline in guinea-pig cremaster muscle, 487
  - , effect of, on adrenergic neuromuscular transmission, 87
  - , effect of, on histamine-induced pressor responses in the rat, 274P
  - , effect of, on hypothermia in cats induced by TRH, noradrenaline or calcium ions, 273P
  - , effect of, on hypothermic effects of clonidine, 459
  - , effect of, on inhibition of twitch response of mouse vas deferens induced by noradrenaline, 267P
  - , effect of, on potassium-induced efflux of noradrenaline, 247P
  - , intravenicularly, attenuates soporific effects of clonidine in fowls, 459
  - , pretreatment with, followed by intra-arterial injections of dopamine caused increased blood flow in some anaesthetized dogs, 167
  - , effect of, on pressor response to procaine in dog cerebral ventricles, 3
- Phenylbutazone**, interaction of carbenoxolone sodium with, bound to plasma proteins, 252P
  - , effect of, on gastric glycoprotein synthesis in rat, 387
  - , effect of, on ability of arachidonic and linoleic acids and prostaglandins to modulate experimentally induced oedema in rat paw, 51
- Phenylethylamine**, effect of MAO inhibition by clorgyline, and deprenil and tranlycypromine on, 415
- Phenytol**, effect of, on Mg-ATPase in synaptic vesicles, 252P
  - , interaction of carbenoxolone sodium with, bound to plasma proteins, 252P
- Picrotoxin**, blocks relaxant effect of GABA on dog cerebral arteries, 561
  - , effect of, on identified ventromedial hypothalamic nucleus neurones, 277P
  - , proconvulsant action of, 265P
  - , effect of, on ventral root responses of hemisectioned spinal cord amphibian, to perfused amino acids in presence of procaine, 519
- Pilocarpine**, releases surplus acetylcholine from sympathetic ganglia, 189
- Pimozide**, blocks behavioural changes in conscious mice induced by dopamine, 351
- Pinna**, mouse, simple models of anaphylaxis and histamine and 5-HT-induced inflammation using, 315P
- Physostigmine**, potentiation by, of mechanical responses of rat isolated uterine horns to transmural stimulation, 41
- Pizotifen**, effect of, on [ $^3$ H]-5-HT binding to rat blood platelets, 257P
- Platelets**, role of aggregation of, in bronchoconstriction in guinea-pigs, 254P
  - , study of nuclear magnetic resonance spectroscopy of compounds inhibiting aggregation of, 258P
- Potassium**, effect of ouabain on smooth muscle preparation in presence of extracellular, 111
  - , ions, depolarized endothelial cells at normal body temperature, 105
  - , mechanism of release of cytoplasmic noradrenaline from adrenergic nerves induced by, 247P
  - , time course of noradrenaline release from low sodium-high potassium solution, 248P
  - , ions, effect of, on membrane potential changes in rabbit superior cervical ganglion, 199
- Potassium chloride**, effects of, in chronically denervated mouse soleus muscle, 125
- Prednisolone**, interaction of carbenoxolone sodium with, bound to plasma proteins, 252P
  - , effect of, on gastric glycoprotein synthesis in rat, 387
- Procaine**, effect of, on potassium-induced efflux of noradrenaline, 247P
  - , pressor response induced by, perfused through cerebral ventricles of dog, 3
  - , effect of, on ventral root responses of hemisectioned amphibian spinal cord to perfused amino acids, 519
- Proceedings of the British Pharmacological Society**, Cambridge, 15-17 September, 1975, 239P
- Procion Brilliant Red H3BN**, effects of, on mammalian muscle fibres, 281P
  - , a method for microinjection into mammalian muscle fibres, 306P
- Progesterone**, effect of, on *in vitro* production of prostaglandin  $F_{2\alpha}$  by guinea-pig uterus, 229
- Propranolol**, effect of, on response of rat lung to humoral mediators of anaphylaxis, 423
  - , effect of, on bronchoconstriction, 254P
  - , effects of, on central effects of clonidine, 459
  - , effects of, on histamine-induced tachycardia in rats, 274P
  - , effects of, on locomotor activities in conscious mice induced by i.c.v. injection of noradrenaline, 351
  - , pretreatment with, reduced blood flow increase caused by dopamine in canine hindlimb, 167
- Prostaglandin  $D_1$** , effect of, on increased vascular permeability induced by histamine or bradykinin, 239P
  - , inhibits increase in vascular permeability in rat skin produced by prostaglandins  $E_1$ ,  $E_2$  and  $D_2$ , 239P
  - , possible role for, in modulation of skin inflammation, 239P
- Prostaglandin  $D_2$** , effect of, on platelet aggregation: variation with animal species and calcium ion concentration, 259P
  - , increase in vascular permeability induced by, inhibited by  $PGD_1$ , 239P

- Prostaglandin E<sub>1</sub>**, dose-dependent relaxation of sheep pulmonary artery and vein induced by, 329
- , effect of, on drug-induced release of [<sup>3</sup>H]-noradrenaline from rat mesenteric arteries, 243P
  - , effect of, on platelet aggregation: variation with animal species and calcium ion concentration, 259P
  - , increase in vascular permeability induced by, inhibited by PGD<sub>1</sub>, 239P
  - , ability of, to modulate experimentally induced oedema in rat paw, 51
- Prostaglandin E<sub>2</sub>**, comparison of histopathological effects of, and anaphylatoxin in guinea-pig lungs, 240P
- , effect of, on drug-induced release of [<sup>3</sup>H]-noradrenaline from rat mesenteric arteries, 243P
  - , effect of, on platelet aggregation: variation with animal species and calcium ion concentration, 259P
  - , increase in vascular permeability induced by, inhibited by PGD<sub>1</sub>, 239P
  - , action of, on myocardial mechanics, coronary vascular resistance and oxygen consumption in guinea-pig isolated heart, 403
  - , ability of, to modulate experimentally induced oedema in rat paw, 51
- Prostaglandin F<sub>2α</sub>**, comparison of histopathological effects of, and anaphylatoxin in guinea-pig lungs, 240P
- , dose-dependent contraction of sheep pulmonary artery and vein induced by, 329
  - , effect of, on effects of histamine, bradykinin and PGE<sub>1</sub>, PGE<sub>2</sub> and PGD<sub>2</sub>, 239P
  - , possible role for, in modulation of skin inflammation, 239P
  - , *in vitro* production of, effect of oestradiol and progesterone on, in guinea-pig uterus, 229
  - , effect of, on bronchial function in pithed rat, 423
  - , ability of, to modulate experimentally induced oedema in rat paw, 51
- Prostaglandin 15-hydroxydehydrogenase**, activity of, rapid reduction in, in rat tissues after treatment with protein synthesis inhibitors, 233
- Prostaglandins B<sub>2</sub> and F<sub>2α</sub>**, antisera to, development of, and their analysis using solid phase and double antibody radioimmunoassay methods, 503
- Prostaglandins E<sub>1</sub>, E<sub>2</sub> and F<sub>2α</sub>**, effects of, on vagal bradycardia in anaesthetized mouse, 47
- Prostaglandins**, effect of, on passive lung anaphylaxis in rat, 57
- , release of, from isolated perfused lungs after challenge with antigen, 57
  - , synthesis and release of, from pregnant rat uterus, effect of metyrapone on, 535
  - , in pyometrial fluid from cow, bitch and ferret, 515
  - , gastric acidity and mechanisms by which indomethacin-induced gastric erosions are prevented by, 242P
  - , possible contribution of, to genetic hypertension in rats: identification of a biochemical lesion, 244P
  - , release of, in knee joint of the dog during local Schwartzman-like reaction, 241P
  - , release of, into aqueous humour apparently not inhibited by aspirin, 157
- Protein synthesis**, inhibitors of, characterization with, of tolerance to morphine-induced calcium depletion in regional brain areas, 431

- Protein synthesis inhibitors**, effect of, on prostaglandin 15-hydroxydehydrogenase activity in rat tissues, 233
- Puromycin**, effect of, on capacity of rat kidneys to metabolize prostaglandins, 233
- Pyometrial fluid**, from cow, bitch and ferret, prostaglandins in, 515
- Pyrazinamide**, penetration of, into peripheral nerves, 151
- Pyridostigmine**, metabolized during first passage through liver, 335
- , pharmacokinetics of, in the rat, 335

## R

- RA 233**, n.m.r. spectroscopy of, 258P
- R28935**, a centrally-acting antihypertensive agent and a pimozone analogue, not acting via  $\beta$ -adrenergic neurones, 313P
- Radioimmunoassay methods**, solid-phase and double antibody, use of, to analyse antisera to prostaglandins B<sub>2</sub> and F<sub>2α</sub>, 503
- Reaginic antiserum**, high titre of, effect of, on passive lung anaphylaxis in rat, 57
- $\alpha$ -Receptor blocker**, modifies reflex cardiovascular changes induced by lower body negative pressure, 246P
- $\alpha$ - and  $\beta$ -Receptor agonists**, effects of, on intracellular cyclic AMP levels and glycogen phosphorylase activity in guinea-pig liver, 286P
- Receptor populations**, two functionally opposite, a theoretical model of, 311P
- Reserpine**, an electrophysiological analysis of effects of, on adrenergic neuromuscular transmission, 79
- , effect of, on cholinesterase activity in rat anococcygeus muscle, 69
  - , effect of, on GABA response of dog cerebral arteries, 561
  - , effect of, on action of prostaglandin E<sub>2</sub> on myocardial mechanics, coronary vascular resistance and oxygen consumption in guinea-pig isolated heart, 403
  - , characterization with, of tolerance to morphine-induced calcium depletion in regional brain areas, 432
  - , effect of, on chemoreceptor response to acetylcholine and sodium cyanide in cat carotid body, 27
  - , effect of, on tyramine and dopamine concentrations in rat striatum, 296P
  - , pretreatment with, reduces effects of intra-arterial dopamine, in dog heart, 475
  - , supersensitivity induced by, to rate and tension responses to isoprenaline and salbutamol of guinea-pig ileum, 284P
- Response control**, impaired, in rat, after 6-hydroxy-dopamine lesions to dorsal noradrenaline bundles, 293P
- Rifampicin**, penetration of, into peripheral nerves, 151
- Rotational behaviour**, produced by unilateral lesions of locus coeruleus, role of dopamine in, 290P
- , and analgesics, in rats with substantia nigra lesions, effect of, (+)-amphetamine on, 316P
- RX72601**, a new anticholinesterase, central administration of, temperature and behavioural responses induced in unanaesthetized cat by, 9

# S

- Salbutamol**, rate and tension responses to, of guinea-pig atria, reserpine-induced supersensitivity to, 284P
- Shwartzman reaction**, release of prostaglandins in dog knee joint during local reaction similar to, 241P
- SK&F 24260**, effect of, on redistribution of cardiac output in anaesthetized rabbits, use of radioactive microspheres to measure, 393
- Sleep**, effects of diazepam and fosazepam on, in man, 262P
- Sleeping time**, halothane-induced, use of, as index of CNS excitability, 307P
- Slow reacting substance of anaphylaxis**, release of, from isolated perfused lungs after challenge with antigen, 57
- , effect of, on bronchial function in pithed rat, 423
- Sodium**, attempt to measure lifetime of channels for, in transporting epithelia, 250P
- , effect of lithium on, in rat, during effect of lithium on antidiuretic action of vasopressin, 527
  - , effect of ouabain on smooth muscle preparation in presence of extracellular, 111
  - , pump in guinea-pig atria, stimulation and inhibition of, by ouabain, 249P
  - , time course of noradrenaline release from high potassium-low sodium solution, 248P
  - , voluntary intake of, antidotal thirst and concurrent behaviour in rats, 409
- Sodium aspirin**, effect of, on formation of arterial platelet thrombi, 255P
- Sodium cyanide**, chemoreceptor discharges induced by, in cat carotid body, effect of 5-HT on, 27
- Sodium ions**, effect of, on membrane potential changes in rabbit superior cervical ganglion, 199
- Sodium pentobarbitone**, pretreatment with, effect of, on halothane sleeping time, 266P
- Soleus muscle**, desensitization in the innervated and chronically denervated mouse, 125
- Solid phase radioimmunoassay method**, use of, to analyse antisera to prostaglandins B<sub>2</sub> and F<sub>2α</sub>, 503
- Spinal cord**, hemisected amphibian, ventral root responses of, to perfused amino acids in presence of procaine, 519
- Sphincter of Oddi**, responses of the isolated, from the guinea-pig to field stimulation, 270P
- Stomach**, rat, ATP as a possible inhibitory neurotransmitter in, 285P
- Stress**, effect of, on gastric glycoprotein synthesis in rat, 387
- Striatum**, rat, tyraminerbic mechanisms in, 296P
- , rat, development of dopamine deamination in, 558
- Strychnine**, convulsant action of, 265P
- , effect of, on identified ventromedial hypothalamic nucleus neurones, 277P
  - , effect of, on ventral root responses of hemisected amphibian spinal cord to perfused amino acids, 519
- Substantia nigra**, rat, circling behaviour produced by discrete electrolytic lesion of, 288P
- , human, topographical study of distribution of GABA in, 309P
  - , rat, lesions of, effect of (+)-amphetamine on rotational behaviour and analgesics in, 316P
- Sulphinpyrazone**, effect of, on formation of arterial platelet thrombi, 255P

- , effect of, on thrombocytopenia occurring in the Arthus reaction, 256P
- Sympathomimetic bronchodilators**, tolerance to, in guinea-pig isolated lungs following chronic administration *in vivo*, 547

# T

- Tachyphylaxis**, induced by 5-HT in rabbit superior cervical ganglion, 199
- Taurine**, effect of, on ventral root responses of hemisected amphibian spinal cord in presence of procaine, 519
- Tetraethylammonium**, effects of, on amino acid responses of frog spinal cord, 449
- Tetrodotoxin**, abolishes responses of frog spinal cord to acetylcholine and carbachol, 449
- , abolishes twitches of guinea-pig cremaster muscle induced by electrical stimulation, 487
  - , antagonism by, of mechanical responses of rat isolated uterine horns to transmural stimulation, 41
  - , effect of, on GABA response of dog cerebral arteries, 561
- Theophylline**, antidiuretic response to, in rat, effect of lithium ions on, 527
- Thiopentone**, effect of anaesthesia with, on responsiveness of cerebrocortical neurones to L-glutamate and acetylcholine, 275P
- Thioridazine**, action of, in nucleus accumbens, 295P
- Thrombolytic properties**, of dihomog- $\gamma$ -linolenate *in vitro*, 316P
- Thymoxamine**, causes fall in resting arterial blood pressure in anaesthetized cat, 246P
- Thyrotrophin releasing hormone**, hypothermia in cats induced by, 273P
- Tolbutamide**, interaction of carbenoxolone sodium with, bound to plasma proteins, 252P
- Transmural stimulation**, mechanical responses of rat isolated uterine horns to, 41
- Tranlycypromine**, inhibition of MAO by, effect of, on 5-HT in rat brain, and hyperactivity after tryptophan administration, 415
- , pretreatment with, has no effect on emotional defaecation or inhibition of production by mescaline, 133
- 1,1,1-Trichloro-2,2-bis(p-chlorophenyl)ethane**, DDT, effect of, on interaction between furazolidone and pethidine in rabbits, 497
- 3-(p-Trifluoromethylphenoxy)-N-methyl-3-phenylpropylamine**, see Lilly 110140
- 3-(p-Trifluoromethylphenoxy)-3-phenylpropylamine**, see Lilly 103947
- TRH**, comparison of hypothermic effects of, with noradrenaline and with calcium in the cat, 273P
- , effect of, on identified ventromedial hypothalamic nucleus neurones, 277P
- Trypsin**, ability of, to induce oedema in rat paw, 51
- Tryptamine**, atypical receptors for, in sheep pulmonary vein, 329
- Tryptophan**, administration of, hyperactivity after, and effects of MAO inhibition by clorgyline, deprenil and tranlycypromine on 5-HT in rat brain, 415
- , metabolism of, by the isolated perfused rat liver, 253P

- L-Tryptophan**, effects of chronic administration of lithium on metabolism of, in rat forebrain, 268P
- (+)-Tubocurarine**, reduces twitches of guinea-pig cremaster muscle induced by electrical stimulation, 487
- Tyramine**, effect of PGE<sub>1</sub> and PGE<sub>2</sub> on release of [<sup>3</sup>]-noradrenaline from rat mesenteric arteries induced by, 243P
- , infusion of, into chicken heart, increases output of noradrenaline and adrenaline, 343
  - , levels, in rat striatum, effect of reserpine on, 296P
- Tyraminerbic mechanisms**, in rat striatum, 296P
- [<sup>14</sup>C]-Tyrosine**, formation of DOPA from, in rat compared with guinea-pig vas deferens, 73

## U

- Uterine horns**, rat isolated, mechanical responses of, to transmural stimulation, 41
- Uterus**, pregnant rat, effect of metyrapone on synthesis and release of prostaglandins from, 535
- , guinea-pig, effects of oestradiol and progesterone on *in vitro* production of prostaglandin F<sub>2α</sub> by, 229

## V

- Vagal reflex pathways**, role of, in passive lung anaphylaxis in rat, 57
- Vas deferens**, mouse, assessment in, of benzomorphans which have strong antinociceptive activity but do not substitute for morphine in dependent monkey, 541

- , guinea-pig compared with rat, formation of dopamine and noradrenaline in, 73
  - , guinea-pig, induced receptors to noradrenaline and 5-hydroxytryptamine in, 302P
  - , changes in MAO activity with age in, 305P
- Vasopressin**, antidiuretic action of, effect of lithium ions on, in rat, 527
- , increases hepatic arterial vasculature resistance, 272P
- Ventral root response**, of hemisectioned amphibian spinal cord to perfused amino acids in presence of procaine, 519
- Ventricles**, cerebral, dog, pressor response induced by local anaesthetics perfused through, 3
- , cerebral, temperature and behavioural responses induced in cat by central administration of RX72601 to, 9
- Verapamil**, effect of, on slow contractions of guinea-pig cremaster muscle, 487
- Visual cortex**, spontaneous and electrically evoked release of endogenous amino acids from, 279P
- VK 744**, NMR spectroscopy of, 258P

## W

- Warfarin**, interaction of carbenoxolone sodium with, bound to plasma proteins, 252P

## X

- Xylamidine**, effect of, on [<sup>3</sup>H]-5-HT binding to rat blood platelets, 257P

# INSTRUCTIONS TO AUTHORS

Papers will be considered for publication on all aspects of drug action, including chemotherapy. A recent issue of the Journal is a good guide to style.

Manuscripts (two copies) should be sent to Dr H.M. Adam, Department of Pharmacology, University of Edinburgh Medical School, 1 George Square, Edinburgh, EH8 9JZ, from whom copies of the full Instructions to Authors, published in *Br. J. Pharmac.*, **50**, 3-23, may also be obtained. Specific points to note are:

1. **Manuscript** should be typed in double spacing on one side of paper not larger than A4 (206 x 294 mm). There should be a separate title page giving the names and addresses of the authors in **alphabetical order**. A short title of not more than 50 letters should also be suggested.
2. **Statement** Papers are accepted only if accompanied by a statement that they have not been and will not be published in whole or in part in any other Journal.
3. **Summary** (2 copies) This should be a short summary of results and conclusions arranged in numbered paragraphs.
4. **Abstract** (2 copies) An abstract of about 100 words suitable for inclusion in an abstracting journal should be typed on a separate sheet, giving the author's name and address and the title of the paper.
5. **Figures** These should not be larger than A4 (206 x 294 mm) and may be in the form of original drawings, recorded tracings or high quality photographic prints made from them. Negative prints of kymograph tracings (black on white) should be provided, and both ordinates and abscissae should be calibrated. Lettering on figures should be inserted in pencil. Symbols which are to appear in figures or legends should be chosen from the following:

○ ● □ ■ △ ▲ ▽ ▼

Photographs and photomicrographs should be printed on glossy paper and should be larger than the size required for reproduction.

6. **Tables** These should not have more than 85 characters to a line (counting spaces between columns as 4 characters) and certainly not more than 110 characters to a line, unless absolutely unavoidable. **Figure legends** and **tables** should be typed on separate sheets of paper.
7. **References** These should be collected in alphabetical order at the end of the paper. They should include the authors' names, year of publication (in brackets), title of article, title of publication (abbreviated in accordance with the fourth edition of the *World List of Scientific Periodicals*), volume number and first and last page numbers. References to books should in addition, include the names of editors, the edition number, where appropriate, and the town of origin and name of publisher.

**Two page proofs** will be supplied, one of which may be retained by the authors. The other should be corrected immediately and returned to the Press Editor. Corrections should be kept to a minimum.

**Twenty-five reprints** will be supplied to the authors free of charge. Additional reprints can be purchased. A reprint order form, which should be returned promptly, will be sent out with the proofs. No reprints of abstracts are supplied.

**Short Communications** These may be accepted if they merit priority publication and do not require revision. They may contain up to 1,200 words of text and only one figure or table. The summary should be a single paragraph. An abstract and statement should be included.
